

# VIRTUS VONTOBEL GLOBAL EQUITY FUNDS

## Opening Up a World of Quality Growth Investment Opportunities

Vontobel Asset Management places a premium on franchises that produce sustainable, organic growth over years, not quarters. The firm invests in companies that emphasize operational excellence, and prefers those which place a higher importance on value creation by investing for the future, rather than use gimmicks to boost short-term earnings. Vontobel believes the wisdom of this investment approach may create enduring, lower-risk returns.

The **MSCI EAFE® Index (net)** is a free float-adjusted market capitalization-weighted index that measures developed foreign market equity performance, excluding the U.S. and Canada. The index is calculated on a total return basis with net dividends reinvested. The **MSCI Emerging Markets Index (net)** is a free float-adjusted market capitalization-weighted index designed to measure equity market performance in the global emerging markets. The index is calculated on a total return basis with net dividends reinvested. The **MSCI AC World Index (net)** is a free float-adjusted market capitalization-weighted index that measures equity performance of developed and emerging markets. The index is calculated on a total return basis with net dividends reinvested. The **MSCI Europe Index (net)** is a free float-adjusted market capitalization-weighted index that measures equity market performance of the developed markets in Europe. The index is calculated on a total return basis with net dividends reinvested. The index are unmanaged, their returns do not reflect any fees, expenses, or sales charges, and they are not available for direct investment.

#### **IMPORTANT RISK CONSIDERATIONS**

**Equity Securities:** The market price of equity securities may be adversely affected by financial market, industry, or issuer-specific events. Focus on a particular style or on small or medium-sized companies may enhance that risk. **Industry/Sector Concentration:** A fund that focuses its investments in a particular industry or sector will be more sensitive to conditions that affect that industry or sector than a non-concentrated fund. **Foreign Investing:** Investing internationally involves additional risks such as currency, political, accounting, economic, and market risk. **Foreign & Emerging Markets:** Investing internationally, especially in emerging markets, involves additional risks such as currency, political, accounting, economic, and market risk. **Geographic Concentration:** A fund that focuses its investments in a particular geographic location will be highly sensitive to financial, economic, political, and other developments affecting the fiscal stability of that location. **Prospectus:** For additional information on risks, please see the fund's prospectus.

*Please carefully consider a Fund's investment objectives, risks, charges, and expenses before investing.
