INVESTMENT OPPORTUNITY

The fund offers access to international equity markets through a high conviction core portfolio, with a bias toward value and quality.

The bottom-up process evaluates securities using a Cash Flow Return on Invested Capital approach to valuation, which helps to quantify a company's true economic return absent accounting distortions, and creates better comparability between countries. This is coupled with deep fundamental analysis to assess the financial strength, franchise quality, and management alignment of individual securities.

Top-down research is used to inform global and regional allocation decisions, and determine country and sector selection. A variety of factors, including monetary policy, geopolitical factors, direction of interest rate movements, economic growth and outlook, and valuation are considered.

The subadviser of the Fund transitioned from Euclid Advisors LLC to Duff & Phelps Investment Management Co. on September 7, 2016, following Euclid's assumption of responsibilities on May 22, 2013. There was no change to the portfolio manager or the investment approach. Performance prior to May 22, 2013 was attained by the prior manager. Effective May 8, 2017 this fund changed its name from the Virtus International Equity Fund.
