

INVESTMENT OVERVIEW

The Fund seeks attractive capital appreciation and current income by investing globally in owners/operators of essential services companies involved in the communications, utility, transportation, and energy industries. The highly experienced portfolio team applies a disciplined, bottom-up investment process that strives to deliver superior risk-adjusted returns.

KEY FEATURES

Attractive Income and Growth Potential — Pursues the relatively high, predictable dividends and solid capital appreciation opportunities that infrastructure companies can offer

Strong Protective Attributes — Focuses on essential services companies that historically have performed well regardless of economic conditions, with long-term contracts or regulatory agreements that provide a potential inflation hedge

Lower Relative Risk Profile — High-conviction portfolio of 40-60 securities emphasizes quality, developed market owner/operators with high-visibility revenues, above-average dividend payouts, and steady cash flow and earnings growth

AVERAGE ANNUAL TOTAL RETURNS (%) as of 09/30/18

Performance data quoted represents past results. Past performance is no guarantee of future results and current performance may be higher or lower than the performance shown. Investment return and principal value will fluctuate, so your shares, when redeemed, may be worth more or less than their original cost. Please visit Virtus.com for performance data current to the most recent month-end.

The fund class gross expense ratio is 0.95%.

Average annual total return is the annual compound return for the indicated period and reflects the change in share price and the reinvestment of all dividends and capital gains. Returns for periods of one year or less are cumulative returns. Class R6 shares have no sales charges or distribution or service fees, therefore their returns do not reflect these expenses. Fees and expenses vary, and other share classes are subject to sales charges and fees. Class R6 shares are offered primarily to investors who do not require the Fund or an affiliate of the Fund to make or pay any type of servicing, administrative or participation payments with respect to the shares. Class R6 shares may not be available to all investors. For fund performance on other share classes, please visit www.virtus.com.

GROWTH OF \$10,000

This chart assumes an initial investment of \$10,000 made on 1/30/2018. As of 9/28/2018 the fund value would have been \$9,833.98. Fund performance assumes reinvestment of dividends and capital gain distributions. This growth reflects no front end sales charges.

IMPORTANT RISK CONSIDERATIONS

Equity Securities: The market price of equity securities may be adversely affected by financial market, industry, or issuer-specific events. Focus on a particular style or on small or medium-sized companies may enhance that risk. **Foreign Investing:** Investing internationally involves additional risks such as currency, political, accounting, economic, and market risk. **Industry/Sector Concentration:** A fund that focuses its investments in a particular industry or sector will be more sensitive to conditions that affect that industry or sector than a non-concentrated fund. **Income:** Income received from the fund may vary widely over the short and long term. **Prospectus:** For additional information on risks, please see the fund's prospectus.

GLOSSARY

Avg. Weighted Market Cap (bn): The total dollar market value of all of a company's outstanding shares. **Trailing P/E Ex-Negative Earnings:** Per share stock price divided by the latest 12-months earnings per share. **Price-to-Cash Flow:** Per-share stock price divided by the per-share operating cash flow. **Price-to-Book Value:** A ratio used to compare a stock's market value to its book value. **3-Year EPS Growth Rate:** Average of earnings per share growth for latest 3-year period. **5-Year EPS Growth Rate:** Average of earnings per share growth for latest 5-year period. **Active Share:** A measure of the percentage of stock holdings in a manager's portfolio that differ from the benchmark index.

INDEX DEFINITION

Index: The Global Infrastructure Linked Benchmark consists of the FTSE Developed Core Infrastructure 50/50 Index (net), a free float-adjusted market capitalization weighted index that gives participants an industry-defined interpretation of developed market infrastructure companies and adjusts the exposure to certain infrastructure subsectors. The constituent weights are 50% Utilities, 30% Transportation (including capping 7.5% for railroads/railways), and a 20% mix of other sectors including pipelines, satellites, and telecommunication towers. The index is calculated on a total return basis with net dividends reinvested. The index is unmanaged, its returns do not reflect any fees, expenses, or sales charges, and is not available for direct investment. Performance of the Global Infrastructure Linked Benchmark between 9/1/2008 and 9/30/2016 represents a 100% allocation to the MSCI World Infrastructure Sector Capped Index. Prior to 9/1/2008 the allocation consisted of 65% MSCI USA/Utilities Index, 20% MSCI World Telecom Services Index, and 15% MSCI World ex USA/Utilities Index.
