

INVESTMENT OVERVIEW

The Fund seeks to generate attractive risk-adjusted returns using subadviser Kayne Anderson Rudnick's disciplined quality-driven investment process to purchase long positions in companies with durable competitive advantages and strong management teams, and sell short positions in companies with poor financial performance, flawed business models, or aggressive capital structures.

KEY FEATURES

Long High-Quality/Short Low-Quality Businesses — Utilizes fundamental research to identify companies with solid balance sheets, consistent growth, profitability, and market dominant business models for long positions, while seeking companies with weak balance sheets, inconsistent growth and profitability, and a flawed business model for short positions

Lower Volatility Approach — An alternative strategy that strives for equity-like returns with less downside risk over a full market cycle, relative to the broad market—without the use of leverage.

High-Conviction Portfolio — A concentrated, low-turnover approach featuring long positions in 20-30 stocks and short positions in 20-30 stocks.

IMPORTANT RISK CONSIDERATIONS

Short Sales: The fund may engage in short sales, and may experience a loss if the price of a borrowed security increases before the date on which the fund replaces the security. **Non-Diversified:** The fund is non-diversified and may be more susceptible to factors negatively impacting its holdings to the extent that each security represents a larger portion of the fund's assets. **Counterparties:** There is risk that a party upon whom the fund relies to complete a transaction will default. **Equity Securities:** The market price of equity securities may be adversely affected by financial market, industry, or issuer-specific events. Focus on a particular style or on small or medium-sized companies may enhance that risk. **Market Volatility:** The securities in the fund may go up or down in response to the prospects of individual companies and general

economic conditions. Price changes may be short or long term. **Prospectus:** For additional information on risks, please see the fund's prospectus.
