Investment Philosophy

We believe that purchasing high-quality businesses with competitive protections at attractive valuations will achieve excess returns over a complete market cycle

Investment Objectives

- To achieve a return meaningfully above that of the Russell 2500™ Value Index
- To achieve this return objective with a portfolio that exhibits lower overall risk characteristics

Examples of High-Quality Business Models

The securities presented on this page are chosen based upon objective criteria. Companies are chosen to exemplify diversification. We typically select companies that operate in large, vast industries, but have overwhelming market share for their particular niches. All information is provided for informational purposes only and should not be deemed as a recommendation to purchase the securities mentioned. It should not be assumed that securities recommended in the future will be profitable. A complete list of portfolio holdings and specific security transactions for the preceding 12 months is available upon request. Holdings are subject to change. Individual investors' holdings may differ slightly.

Investment Process Overview

A Business Analyst Approach

Kayne Anderson Rudnick
Investment Management

We source our investment universe in a number of ways

Quantitative Screens

- High return on capital over a full economic cycle
- Long and resilient earnings history
- High return on net operating assets
- Minimal debt

Other Resources

- Research on existing portfolio holdings
- Meetings with companies
- Industry reviews
- Investment conferences
- Third-party research

Research analysts and portfolio managers work together to develop in-depth business knowledge

Qualitative Analysis

Purpose: Determine if competitive advantage exists and evaluate its strength.

- Review regulatory filings, company materials, industry data, and third party research
- Conduct comprehensive interviews with management; contact other relevant parties
- Understand basis of competition within industry
- Assess competitive threats and obsolescence risk: What protects the business?

Financial Analysis

Purpose: Evaluate source, level, and sustainability of economic profitability.

- Seek: High and resilient return on capital
- Seek: Persistent earning power
- Seek: Abundant discretionary cash flow
- Seek: Under-levered balance sheet
- Assess management's capital allocation practices; favor high insider ownership

Valuation Analysis

Purpose: Estimate total return over several year period; compare to other opportunities considering varying levels of certainty

- Consider economic earning power in relation to enterprise value
- Mispricing can be created by:
Underfollowed company, investors' over-reaction to short-term challenges, improved competitive position not yet recognized

Investment Guidelines

Position Weights	<ul style="list-style-type: none"> • 25-35 holdings • Typically 3%-4% • Maximum weight 10% (at market)
Sector Tolerances	<ul style="list-style-type: none"> • Typically +/- 10%* of the Russell 2500™ Value Index, utilizing Russell sector classifications
Non-U.S. Holdings	<ul style="list-style-type: none"> • Not to exceed 20% (at market)
Holding Period	<ul style="list-style-type: none"> • Typically 3-to-5 years, but is often longer • Portfolio turnover typically 25% to 35%
Cash Levels	<ul style="list-style-type: none"> • Typically will not exceed 10% once a portfolio is fully invested

**A consequence of our high-quality investment philosophy is that certain sectors do not meet our financial criteria and offer fewer investable ideas. Our portfolios therefore will likely have persistently low exposure to those segments of the economy (and therefore may cause our sector weights to be outside of the 10% threshold relative to the benchmark). Companies operating in these areas produce consistently low or no profitability, are capital intensive, are heavily indebted, or have overly complex balance sheet structures. These may include large sectors such as Financials (real estate and banking) and also smaller sectors such as Health Care (biotechnology), Materials & Processing (chemicals, metals and mining), Energy (oil and gas), and Utilities where we will have little to no exposure.*

3 | Investment Process

Sell Discipline

Sell Discipline

Extended Valuation	<ul style="list-style-type: none"> • Significant premium to intrinsic value • Expected annual return insufficient
Portfolio Upgrade	<ul style="list-style-type: none"> • Better business • Better price
Diversification Requirements	<ul style="list-style-type: none"> • Rebalance within sector controls • Improve industry mix
Acquisition Activity	<ul style="list-style-type: none"> • Our holding acquired at an attractive premium • Our holding acquires a company diminishing its business or value
Negative Company or Industry Changes	<ul style="list-style-type: none"> • Position review research report written for any of the following conditions: <ul style="list-style-type: none"> - Stock price declines 20% or more in a short time period absent a broad market decline - Validity deteriorates for one or more of the reasons for purchase - Credit-quality profile deteriorates • Quality parameters reviewed by the Chief Investment Officer with the Portfolio Managers

4 | Investment Process

Risk Management & Portfolio Monitoring

Kayne Anderson Rudnick
Investment Management

Risk Management

Investment Philosophy	<ul style="list-style-type: none">• Focus on “high-quality” companies• Company’s “business risk” is primary risk control factor
Portfolio Level Controls	<ul style="list-style-type: none">• Economic sector weights managed to typically within a maximum 10% variance to benchmark• Individual security weights initiated at 2% to 5% of portfolio
Position Reviews	<ul style="list-style-type: none">• “Position Review” report when a portfolio holding declines 20% absent a broad market decline• Re-validate reasons for original purchase or sell position
Trading Guidelines	<ul style="list-style-type: none">• Guidelines provided by Portfolio Managers when entering and exiting portfolio holdings• Limit on trading activities as a percentage of daily trading volume, typically no more than 20%

Portfolio Monitoring

Risk and Compliance Committee	<ul style="list-style-type: none">• Meets quarterly to independently evaluate portfolio risk exposures with findings presented to the Chief Investment Officer
CIO/PM Meetings	<ul style="list-style-type: none">• Provides a forum for the Chief Investment Officer and the Portfolio Managers to review, discuss, and explain each strategy’s portfolio positioning and its performance
Research Meetings	<ul style="list-style-type: none">• Provides a forum to discuss and evaluate portfolio holdings and overall industry trends
Performance Analytics and Portfolio Attribution	<ul style="list-style-type: none">• Allows Portfolio Managers to quantify investment decisions and understand drivers of return and risk characteristics

In a market of average businesses, we seek to own protected proprietary businesses that generate exceptional returns on shareholders' capital without employing significant debt.

In a market of cyclical businesses requiring growth capital from fickle markets, we seek to own companies producing self-funded strong, consistent growth sustainable into the future.

And we have historically been able to achieve this high quality and strong growth at a discount valuation to the market.

*January 1, 2008

Kayne Anderson Rudnick
Investment Management

● KAR Small-Mid Cap Quality Value ● Russell 2500™ Value Index ■ Small-Mid Cap Value Universe

*January 1, 2008

This material is deemed supplemental and complements the performance and disclosure at the end of this presentation.

The Small-Mid Cap Value Universe includes all managers categorized in the small-mid cap value asset class by eVestment.

Returns for the Kayne Anderson Rudnick composite are preliminary and are gross of fees unless otherwise specified. For further details on the composite, please see the disclosure statement in this presentation. Data is obtained from FactSet Research Systems and is assumed to be reliable. Past performance is no guarantee of future results. Management fees are described in Part II of our form ADV, which is available upon request. Gross annual returns will be reduced by investment management fees and other expenses that may be incurred in the management of the account. Net annual returns have been calculated after the deduction of an assumed maximum annual fee of 0.90%. The effect on performance would grow at a compounded rate. Over a five-year period, if a \$250,000 portfolio had an annual return of 10%, it would grow to \$402,628. The net compounded effect of a 0.90% annual investment management fee would total \$16,204 and result in a portfolio value of \$386,424.

Numbers may not always add up due to rounding. Past performance is no guarantee of future results.

IMPORTANT RISK CONSIDERATIONS: **Equity Securities:** The market price of equity securities may be adversely affected by financial market, industry, or issuer specific events. Focus on a particular style or on small or medium-sized companies may enhance that risk. **Limited Number of Investments:** Because the fund has a limited number of securities, it may be more susceptible to factors adversely affecting its securities than a less concentrated fund. **Industry/Sector Concentration:** A fund that focuses its investments in a particular industry or sector will be more sensitive to conditions that affect that industry or sector than a non-concentrated fund.

Biographies

Small-Mid Cap Quality Value Team

Kayne Anderson Rudnick
Investment Management

Douglas S. Foreman, CFA

Chief Investment Officer and Member of the Executive Management Committee

Mr. Foreman has approximately 32 years of investment experience. Before joining Kayne Anderson Rudnick in 2011, Mr. Foreman was Director of Equities at HighMark Capital Management and before that he was Group Managing Director and Chief Investment Officer of U.S. equities at Trust Company of the West (TCW). He earned a B.S. in Marine Engineering from The U.S. Naval Academy and an M.B.A. with a concentration in Finance from Harvard University. Mr. Foreman is a Chartered Financial Analyst charterholder.

Julie Kutasov

Portfolio Manager and Senior Research Analyst with primary research responsibilities for the small and mid-capitalization materials and processing sector

Before joining Kayne Anderson Rudnick in 2001, Ms. Kutasov worked at Goldman Sachs in a program focused on investment management for high-net worth individuals and at Arthur Andersen as a Senior Associate leading teams that provided financial-audit and business-advisory services to a variety of clients in service-related industries. Ms. Kutasov holds a Certified Public Accountant license (currently inactive) in the state of California. She has approximately 17 years of equity research experience. Ms. Kutasov earned a B.A. in Business Economics from the University of California, Los Angeles, where she graduated summa cum laude, and an M.B.A. from Harvard Business School.

Craig Stone

Portfolio Manager and Senior Research Analyst with primary research responsibilities for the small and mid-capitalization producer-durables sector

Mr. Stone has approximately 29 years of equity research experience. Before joining Kayne Anderson Rudnick in 2000, Mr. Stone was a Portfolio Manager at Doheny Asset Management. He earned a B.S. in International Business from San Francisco State University and an M.B.A. from the University of Southern California.

Biographies

Small-Mid Cap Quality Value Team

Kayne Anderson Rudnick
Investment Management

Disclosure

Small-Mid Cap Quality Value Portfolio

Kayne Anderson Rudnick
Investment Management

Kayne Anderson Rudnick Investment Management, LLC claims compliance with the Global Investment Performance Standards (GIPS®) and has prepared and presented this report in compliance with the GIPS® standards. Kayne Anderson Rudnick Investment Management LLC has been independently verified for the period January 1, 1999 through December 31, 2017. The verification reports are available upon request.

Verification assesses whether (1) the firm has complied with all the composite construction requirements of the GIPS® standards on a firm-wide basis and (2) the firm's policies and procedures are designed to calculate and present performance in compliance with the GIPS® standards. Verification does not ensure the accuracy of any specific composite presentation.

Kayne Anderson Rudnick Investment Management, LLC, a wholly owned subsidiary of Virtus Investment Partners, Inc., is a registered investment advisor under the Investment Advisers Act of 1940. Registration of an Investment Advisor does not imply any level of skill or training. Kayne Anderson Rudnick Investment Management, LLC manages a variety of equity and fixed-income strategies focusing exclusively on securities the firm defines as high quality.

The composite includes all fully discretionary Small-Mid Cap Quality Value Wrap Portfolios. Small-Mid Cap Quality Value Wrap Portfolios are invested in equity securities with market capitalizations consistent with the Russell 2500™ Value Index, that have market control, rising free cash flow, shareholder-oriented management, strong consistent profit growth and low debt balance sheets. For comparison purposes, the composite is measured against the Russell 2500™ Value Index. The Russell 2500™ Value Index is a market capitalization-weighted index of value-oriented stocks of the 2,500 smallest companies in the Russell Universe, which comprises the 3,000 largest U.S. companies. The index is calculated on a total-return basis with dividends reinvested. Benchmark returns are not covered by the report of the independent verifiers. The composite was created in July 2015. A list of composite descriptions and policies for valuing portfolios, calculating performance and preparing compliant presentations are available upon request.

For periods prior to July 1, 2015, the composite calculations have been linked to the firm's Small-Mid Cap Quality Value actual historical non-wrap fee composite performance.

The standard wrap fee schedule in effect is 3.00% on total assets. Actual management fees charged may vary depending on applicable fee schedules and portfolio size, among other things. Additional information may be found in Part IIA of Form ADV, which is available on request. The performance information is supplied for reference. Past performance is no guarantee of future results. Results will vary among accounts. The U.S. dollar is the currency used to express performance. Performance results include the reinvestment of all income. Pure gross returns do not reflect the deduction of any expenses, including trading costs. Net annual returns are calculated by deducting 1/4th of an assumed maximum annual wrap fee of 3% on a quarterly basis. Beginning January 1, 2016, net annual returns are calculated by deducting 1/12th of an assumed maximum annual wrap fee of 3% on a monthly basis. Wrap fees include all charges for trading costs, portfolio management, custody and other administrative expenses.

Internal dispersion is calculated using the asset-weighted standard deviation of annual gross returns for accounts in the composite for the entire year. For those years when less than five accounts were included for the full year, no dispersion measure is presented. The three-year annualized ex-post standard deviation, measures the variability of the composite (using gross returns) and the benchmark for the 36-month period ended at the following dates:

3-Yr Annualized Standard Deviation (%)			Total Firm Assets (\$ millions)	Total Composite Assets (\$ millions)	Wrap Accounts as (%) of Composite Assets	Accounts at Year End	Pure Gross Annual Return (%)*	Net Annual Return (%)	Russell 2500™ Value Index Annual Return (%)	Internal Dispersion
December 31	Composite	Benchmark
