

Virtus Total Return Fund Inc. Declares Distribution

HARTFORD, CT, December 2, 2019 -- [Virtus Total Return Fund Inc.](#) (NYSE: ZTR) (formerly known as Virtus Global Dividend & Income Fund Inc.) announced the following monthly distributions:

| Amount of Distribution | Ex-Date | Record Date | Payable Date |
|------------------------|-------------------|-------------------|-------------------|
| \$0.113 | December 11, 2019 | December 12, 2019 | December 19, 2019 |
| \$0.113 | January 6, 2020 | December 31, 2019 | January 9, 2020 |
| \$0.113 | February 12, 2020 | February 13, 2020 | February 21, 2020 |
| \$0.113 | March 11, 2020 | March 12, 2020 | March 19, 2020 |

For record date December 31, 2019, the fund intends to distribute the greater of \$0.113 per share or all available net investment income and net short and long term capital gains, in accordance with requirements under the Internal Revenue Code of 1986, as amended. The amount of any supplemental distribution over the \$0.113 per share, if any, will be announced on January 2, 2020.

Under the terms of its Managed Distribution Plan, the Fund will seek to maintain a consistent distribution level that may be paid in part or in full from net investment income and realized capital gains, or a combination thereof. Shareholders should note, however, that if the Fund's aggregate net investment income and net realized capital gains are less than the amount of the distribution level, the difference will be distributed from the Fund's assets and will constitute a return of the shareholder's capital. You should not draw any conclusions about the Fund's investment performance from the amount of this distribution or from the terms of the Fund's Managed Distribution Plan.

The Fund estimates that it has distributed more than its income and capital gains; therefore, a portion of your distribution may be a return of capital. A return of capital may occur, for example, when some or all of the money that you invested in the Fund is paid back to you. A return of capital distribution does not necessarily reflect the Fund's investment performance and should not be confused with 'yield' or 'income'.

The Fund provided this estimate of the sources of the distributions:

Fund Risks

An investment in a fund is subject to risk, including the risk of possible loss of principal. A fund's shares may be worth less upon their sale than what an investor paid for them. The options overlay strategy may not be successful in achieving its objective of increasing distributable income while limiting the risk of loss and, in periods of significant moves in the S&P 500® Index, has resulted in and, in the future, may result in, losses for investors. Shares of closed-end funds may trade at a discount to their net asset value. For more information about each Fund's investment objective and risks, please see the Fund's annual report.
