Footnote Legend:

- (1) Security exempt from registration under Rule 144A of the Securities Act of 1933. These securities may be resold in transactions exempt from registration, normally to qualified institutional buyers. At September 30, 2023, these securities amounted to a value of \$47,828 or 52.5% of net assets.
- (2) Security in default; no interest payments are being received.
- (3) Regulation S security. Security is offered and sold outside of the United States; therefore, it is exempt from registration with the SEC under Rules 903 and 904 of the Securities Act of 1933.
- (4) Variable rate security. Rate disclosed is as of September 30, 2023. Information in parenthesis represents benchmark and reference rate for each security. Certain variable rate securities are not based on a published reference rate and spread but are determined by the issuer or agent and are based on current market conditions, or, for mortgage-backed securities, are impacted by the individual mortgages which are paying off over time. These securities do not indicate a reference rate and spread in their descriptions.
- (5) All or a portion of security is on loan.
- (6) No contractual maturity date.
- (7) The value of this security was determined using significant unobservable inputs and is reported as a Level 3 security in the Fair Value Hierarchy table located after the Schedule of Investments.

- (8) Issued with a zero coupon. Income is recognized through the accretion of discount.
- (9) Security in default; no interest payments are being received during the bankruptcy proceedings.
- (10) Security in default, interest payments are being received during the bankruptcy proceedings.
- (11) This loan will settle after September 30, 2023, at which time the interest rate, calculated on the base lending rate and the agreed upon spread on trade date, will be reflected.
- (12) Value shown as par value.
- (13) Non-income producing.
- (14) Amount is less than \$500 (not in thousands).
- (15) Shares of this fund are publicly offered, and its prospectus and annual report are publicly available.
- (16) Represents security purchased with cash collateral received for securities on loan.

Equity Securities:				
Preferred Stocks	632	_	632	_
Rights	9	_	_	9
Common Stocks	31	_	_	31
Securities Lending Collateral	973	973		_
Total Investments	\$90,687	\$973	\$89,617	\$97

⁽¹⁾ Includes internally fair valued securities currently priced at zero (\$0).

Securities held by the Series with an end of period value of \$107 were transferred from Level 3 to Level 2 due to an increase in trading activities at period end.

Some of the Series' investments that were categorized as Level 3 may have been valued utilizing third party pricing information without adjustment. If applicable, such valuations are based on unobservable inputs. A significant change in third party information could result in a significantly lower or higher value of Level 3 investments.

The following is a reconciliation of assets of the Series for Level 3 investments for which significant unobservable inputs were used to determine fair value.

	Total	Corporate Bonds And Notes	Leveraged Loans	Common Stocks	Rights	Foreign Government Securities
Investments in Securities						
Balance as of December 31, 2022:	\$ 155	\$ 2	\$ 26 ^(a)	\$ 39 ^(a)	\$ 9	\$ 79
Accrued discount/(premium)	1	1	(b)	_		_
Net realized gain (loss)	(b)	_	(b)	(b)	_	_
Net change in unrealized appreciation (depreciation) ^(c)	13	(38)	32	(8)	(b)	27
Purchases	93	`50 [′]	43	<u>`</u> (b)	_	_
Sales ^(d)	(58)	_	(58)	(b)	_	_
Transfers from Level 3 ^(e)	<u>(107</u>)	(1)			_	(106)
Balance as of September 30, 2023	\$ 97	\$ 14	\$ 43 ^(a)	\$ 31	\$ 9	\$ —

 $^{^{(}a)}$ Includes internally fair valued security currently priced at zero (\$0).

⁽b) Amount is less than \$500 (not in thousands).

⁽c) The change in unrealized appreciation (depreciation) on investments still held at September 30, 2023, was \$(15).

^(d) Includes paydowns on securities.

⁽e) Transfers into and/or from represent the ending value as of September 30, 2023, for any investment security where a change in the pricing level occurred from the beginning to the end of the period.

Note 1. Security Valuation

The Series' Board of Trustees have designated the Investment Adviser as the valuation designee to perform fair valuations pursuant to Rule 2a-5 under the Investment Company Act of 1940. The Series utilizes a fair value hierarchy which prioritizes the inputs to valuation techniques used to measure fair value into three broad levels. The Series' policy is to recognize transfers into or out of Level 3 at the end of the reporting period.

- Level 1 quoted prices in active markets for identical securities (security types generally include listed equities).
- Level 2 prices determined using other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.).
- Level 3 prices determined using significant unobservable inputs (including the Investment Adviser's Valuation Committee's own assumptions
 in determining the fair value of investments).

A description of the valuation techniques applied to the Series' major categories of assets and liabilities measured at fair value on a recurring basis is as follows:

Equity securities are valued at the official closing price (typically last sale) on the exchange on which the securities are primarily traded or, if no closing price is available, at the last bid price and are categorized as Level 1 in the hierarchy. Illiquid, restricted equity securities and illiquid private placements are internally fair valued by the Investment Adviser's Valuation Committee, and are generally categorized as Level 3 in the hierarchy.

Certain non-U.S. securities may be fair valued in cases where closing prices are not readily available or are deemed not reflective of readily available market prices. For example, significant events (such as movement in the U.S. securities market, or other regional and local developments) may occur between the time that non-U.S. markets close (where the security is principally traded) and the time that the Series calculates its net asset value ("NAV") at the close of regular trading on the New York Stock Exchange ("NYSE") (generally 4 p.m. Eastern time) that may impact the value of securities traded in these non-U.S. markets. In such cases, the Series fair values non-U.S. securities using an independent pricing service which considers the correlation of the trading patterns of the non-U.S. security to the intraday trading in the U.S. markets for investments such as American Depositary Receipts, financial futures, Exchange-Traded Funds ("ETFs"), and certain indexes, as well as prices for similar securities. Such fair valuations are categorized as Level 2 in the hierarchy. Because the frequency of significant events is not predictable, fair valuation of certain non-U.S. common stocks may occur on a frequent basis.

Debt instruments, including convertible bonds, and restricted securities, are valued based on evaluated quotations received from independent pricing services or from dealers who make markets in such securities. For most bond types, the pricing service utilizes matrix pricing that considers one or more of the following factors: yield or price of bonds of comparable quality, coupon, maturity, current cash flows, type, activity of the underlying equities, and current day trade information, as well as dealer supplied prices. These valuations are generally categorized as Level 2 in the hierarchy. Structured debt instruments, such as mortgage-backed and asset-backed securities may also incorporate collateral analysis and utilize cash flow models for valuation and are generally categorized as Level 2 in the hierarchy. Pricing services do not provide pricing for all securities and therefore indicative bids from dealers are utilized which are based on pricing models used by market makers in the security and are generally categorized as Level 2 in the hierarchy. Debt instruments that are internally fair valued by the Investment Adviser's Valuation Committee are generally categorized as Level 3 in the hierarchy.

Listed derivatives, such as options, that are actively traded are valued at the last posted settlement price from the exchange where they are principally traded and are categorized as Level 1 in the hierarchy. Over-the-counter derivative contracts, which include forward currency contracts and equity-linked instruments, do not require material subjectivity as pricing inputs are observed from actively quoted markets and are categorized as Level 2 in the hierarchy.

Investments in open-end mutual funds are valued at NAV. Investments in closed-end funds and ETFs are valued as of the close of regular trading on the NYSE each business day. Each is categorized as Level 1 in the hierarchy.

A summary of the inputs used to value the Series' net assets by each major security type is disclosed at the end of the Schedule of Investments for the Series. The inputs or methodologies used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.
