

INVESTMENT OPPORTUNITY

The Fund seeks attractive total returns by investing globally in a portfolio of clean, renewable, and sustainable companies and technologies that will power the energy needs of the future. Actively managed, the Fund focuses on well-positioned market leaders at the forefront of clean energy innovation and commercialization.

KEY FEATURES

Pure Play Exposure to Clean Energy — A specialized portfolio of clean energy market leaders with a balanced and diversified approach across technologies, sectors, and geographies. Investors may benefit from the long-term secular growth of clean energy demand and the projected build-out of renewable energy generation across the utility, industrial, technology, and energy sectors

Actively Managed, Built for Transformation — The team selects a high-conviction portfolio of clean energy producers, clean energy technology and equipment providers, and clean energy transmission and distribution companies where innovation is most commercially proven

Time-Tested, Experienced Investment Team — Duff & Phelps’ history and proven process with utilities and energy investments spans more than eight decades. Maintaining direct insight into every part of the clean energy value chain, through specialized research and analysis, along with crucial knowledge of the legislative and regulatory environment, provides for a distinct vantage point

INVESTMENT PROCESS

- 1 **Global Clean Energy Universe** — Developed and select developing markets across utilities, industrials, technology, and energy sectors
- 2 **Investable Clean Energy Universe** — Screen for trading liquidity and market cap considerations
- 3 **Core Research List** — Evaluate eligibility requirements, business model, and long-term sustainability of clean energy producers, clean energy technology and equipment providers, and clean energy transmission and distribution companies
- 4 **Focus List** — Ranked by asset and management quality, and favorable regulatory environments
- 5 **Portfolio Construction** — Perform fundamental bottom-up research on Focus List to get to a high-conviction portfolio of 30-40 companies

PORTFOLIO MANAGEMENT

Duff & Phelps Investment Management pursues specialized investment strategies with exceptional depth of resources and expertise. Since its earliest beginnings, providing research and analysis of income producing securities to Depression-era investors, the firm’s attention has been set on identifying attractive opportunities through active management and fundamental research, while managing the associated risks. Today, building on a distinguished legacy, Duff & Phelps has earned a reputation as a leader in investing in Global Listed Infrastructure, Global Listed Real Estate, Clean Energy, and Diversified Real Assets. Quality. Reliability. Specialization. Since 1932.

AVERAGE ANNUAL TOTAL RETURNS (%) as of 12/31/2021 ■ NAV ■ Market Price ■ Index

Returns for periods of less than one year are cumulative total returns.

Performance data quoted represents past performance. Past performance does not guarantee future results. Investment return and principal value will fluctuate so that shares, when redeemed, may be worth more or less than their original cost. Current performance may be lower or higher than the performance data quoted. Please visit virtus.com for performance data current to the most recent month end.

The Total Expense Ratio represents the Fund’s Total Annual Fund Operating Expenses, which includes the management fee and other expenses where applicable, except for certain payments that are paid directly by the Fund, as described in the Prospectus.

INVESTMENT PROFESSIONALS

- Benjamin Bielawski, CFA**
Portfolio Manager and Senior Research Analyst
Industry start date: 1995
Start date as Fund Portfolio Manager: 2021
- Eric Fogarty, CFA**
Portfolio Manager and Senior Research Analyst
Industry start date: 1997
Start date as Fund Portfolio Manager: 2021

*The management fee is structured as a “unified fee,” out of which the Fund’s adviser pays all of the ordinary operating expenses of the Fund, except for the following expenses, each of which is paid by the Fund: the Fund’s management fee; payments under any 12b-1 plan; and other fees as described in the prospectus. The Adviser has agreed to waive a portion of the management fee equal to 0.10% through at least July 19, 2022, which will have the effect of reducing the Fund’s total expenses to 0.59%, excluding certain expenses as discussed above.

IMPORTANT RISK CONSIDERATIONS

Exchange-Traded Funds (ETF): The value of an ETF may be more volatile than the underlying portfolio of securities it is designed to track. The costs to the fund of owning shares of an ETF may exceed the cost of investing directly in the underlying securities. **Equity Securities:** The market price of equity securities may be adversely affected by financial market, industry, or issuer-specific events. Focus on a particular style or on small or medium-sized companies may enhance that risk. **Clean Energy Industry:** Developments in the clean energy segment could adversely affect the price and valuations of portfolio holdings. These developments include swift price and supply fluctuations caused by events relating to international politics, the success of project development and tax and other governmental regulatory policies. There could also be weak demand for clean energy company products or services, the obsolescence of existing technology or short product cycles, and falling prices and profits due to the supply of, and demand for, oil and gas along with competition from new market entrants. **Limited Number of Investments:** Because the portfolio has a limited number of securities, it may be more susceptible to factors adversely affecting its securities than a portfolio with a greater number of securities. **Foreign & Emerging Markets:** Investing in foreign securities, especially in emerging markets, subjects the portfolio to additional risks such as increased volatility, currency fluctuations, less liquidity, and political, regulatory, economic, and market risk. **Non-Diversified:** The portfolio is non-diversified and may be more susceptible to factors negatively impacting its holdings to the extent that each security represents a larger portion of the portfolio's assets. **Market Price/NAV:** At the time of purchase and/or sale, an investor's shares may have a market price that is above or below the fund's NAV, which may increase the investor's risk of loss. **Market Volatility:** Local, regional, or global events such as war, acts of terrorism, the spread of infectious illness or other public health issues, recessions, or other events could have a significant impact on the portfolio and its investments, including hampering the ability of the portfolio manager(s) to invest the portfolio's assets as intended. **Prospectus:** For additional information on risks, please see the fund's prospectus.

GLOSSARY

Market Cap (Mean): The average total dollar market value of all of a company's outstanding shares. **Dividend Yield:** The percentage of a company's share price that it pays in dividends per year. **Projected P/E:** Per-share stock price divided by the estimated 12-months earnings per share. **Price-to-Cash Flow:** Per-share stock price per share divided by the per-share operating cash flow. **Est. 3-5 Year EPS Growth Rate:** Average projected earnings per share growth for the 3-5 year period. **Return On Equity:** The amount of net income returned as a percentage of shareholders' equity. **Long Term Debt To Capital:** Calculated by dividing long-term debt by available capital. **1-Year Dividend Growth Rate:** The rate of growth of dividend over the previous year. **Enterprise to EBITDA:** Compares the value of a company, debt included, to the company's cash earnings less non-cash expenses. **30-day SEC Yield** is a standardized yield calculated according to a formula set by the SEC, and is subject to change. **30-day SEC Yield (unsubsidized)** is the 30 day SEC yield without the effect of applicable expense waivers.

BENCHMARK

The S&P Global Clean Energy Index (net) is designed to measure the performance of companies in global clean energy-related businesses from both developed and emerging markets, with a target constituent count of 100, calculated on a total return basis with net dividends reinvested. The index is unmanaged, its returns do not reflect any fees, expenses, or sales charges, and is not available for direct investment.

IOPV, or Indicative Optimized Portfolio Value, is a calculation disseminated by the stock exchange that approximates the Fund's NAV every fifteen seconds throughout the trading day.

The Fund is an exchange-traded fund ("ETF"). The "net asset value" (NAV) of the Fund is determined at the close of each business day, and represents the dollar value of one share of the Fund; it is calculated by taking the total assets of the Fund, subtracting total liabilities, and dividing by the total number of shares outstanding. The NAV of the Fund is not necessarily the same as its intraday trading value. Fund investors should not expect to buy or sell shares at NAV because shares of ETFs such as the Fund are bought and sold at market price (not NAV) and are not individually redeemed from the Fund. Thus, shares may trade at a premium or discount to their NAV in the secondary market. Brokerage commissions will reduce returns. NAV returns are calculated using the Fund's daily 4:00 pm NAV, and include the reinvestment of all dividends and other distributions (reinvested at the Fund's NAV on distribution ex-date). Market price returns are calculated using the 4:00 pm midpoint between the bid and offer, and include the reinvestment of all dividends and other distributions (reinvested at the 4:00 pm bid/offer midpoint on distribution ex-date). Market price returns do not represent the return you would receive if you traded at other times.

The Fund is an actively managed exchange-traded fund and does not seek to replicate the performance of a specified index. The Fund may have a higher portfolio turnover than funds that seek to replicate the performance of an index.

Please consider a Fund's investment objectives, risks, charges, and expenses carefully before investing. For this and other information about any Virtus Fund, contact your financial professional, call 800-243-4361, or visit virtus.com for a prospectus or summary prospectus. Read it carefully before investing.
