NFJ Investment Group

Over 30 Years of Value Investing

KEY FACTS

- Established 1989
- Dallas, TX
- AUM: $6.3 billion
- Seasoned team, averaging 20+ years industry experience
- Wholly owned affiliate of Virtus Investment Partners (Nasdaq: VRTS)

U.S. Portfolios

- Dividend Value
- Large Cap Value
- All Cap Value
- Mid Cap Value
- Small Cap Value

Non-U.S./Global Portfolios

- Emerging Markets Value
- International Value
- Global Infrastructure Income
- Global Sustainability

NFJ Investment Group assets under management, as September 30, 2023. This total includes $2.3 billion in non-discretionary assets. Our predecessor firm (known as NFJ Investment Group at the time) was initially created in 1989, acquired by Allianz in 2000, and rolled into the Allianz Global Investors RIA as that firm’s Dallas-based Value Equity US team in 2016. Effective February 1, 2021, Virtus lifted out Allianz Global Investors’ Dallas-based Value Equity US team and established a new investment adviser for that team, which is registered with the SEC and known as NFJ Investment Group, LLC.
Multi-boutique model: Virtus Investment Partners preserves each affiliate’s unique entrepreneurial culture, provides continued investment autonomy, and ensures appropriate alignment of interests.

- Autonomy of investment process and team
- Maintenance of unique culture and brand
- Management of day-to-day business

- Leading U.S. retail distribution capability
- Institutional resources
- Growing non-U.S. distribution capability

- Bonus pool based upon profits generated by affiliate
- Participation in Virtus equity as part of incentive compensation

- Seed capital available for new products and strategies
- Investment capabilities leveraged into multiple product forms
- Financial support for growth initiatives

- Finance, human resources, legal, and compliance
- IT infrastructure, systems, and applications
We believe:

Our Modern Value approach harnesses the power of advanced data analytics and fundamental expertise to identify quality value businesses.

Valuation, shareholder yield, and quality are key to long-term investment success.

Emphasizing diversification and numbers over narrative can help achieve better risk-adjusted returns and client outcomes.
NFJ Investment Group
A Modern Approach to Value Investing

Fundamental expertise... augmented by advanced data analytics

Strict Valuation:
Capitalize on market dislocations while avoiding value traps

Strong Stewards of Capital:
Emphasis on shareholder yield and dividend growth

High-Quality Focus:
Invest in competitively advantaged companies

Idea Generation:
Real-time processing of fundamental data points

Informational Advantage:
Identify inefficiencies through data analytics and custom peer groups

Risk Management:
Ongoing monitoring of market sentiment and portfolio risks
NFJ Small-Cap Value Wrap

Assets shown as of September 30, 2023. Team Start Year refers to when each team member joined our predecessor firm (known as NFJ Investment Group at the time), which was initially created in 1989, acquired by Allianz in 2000, and rolled into the Allianz Global Investors RIA in 2016. NFJ Investment Group became an affiliate of Virtus Investment Partners, Inc. effective February 1, 2021, when Virtus lifted out Allianz Global Investors’ Dallas-based Value Equity US team. NFJ Investment Group is an investment adviser registered with the SEC. The Russell 2000 Value Index measures the performance of those Russell 2000 companies with lower price-to-book ratios and lower forecasted growth values. The Mutual Fund and CIT vehicles are managed in a more diversified manner than the Wrap (i.e., separately managed account) vehicle.
NFJ's Modern Value Approach combines advanced data analytics and other proprietary quantitative tools with fundamental analysis to identify attractively valued, high-quality companies.
Idea Generation
Proprietary Research Tool and Advanced Data Analytics

Uncovering unique valuation insights seeks to offer a competitive advantage and begins with processing large amounts of data in an efficient and scalable manner.

The NFJ Research Workbench is designed to help identify valuation dislocations more efficiently:

- Proprietary database tool spanning the global equity universe
- Highly customized data analysis across multiple financial metrics helps to identify a company’s true peers
- Quantitative model overlay helps avoid potential idiosyncratic risks and value traps
- Leverages new technologies to continually improve our powerful front-end process

Advanced Data Analytics
Data synthesis through programming language and other quantitative tools

Actionable Insights
Process identifies companies across the globe that are trading cheaply to peers and the market

Investment Candidates
Most attractively valued stocks are candidates for additional fundamental research
Fundamental Analysis

Investing at the Intersection of Valuation, Shareholder Yield, and Quality

NFJ conducts a rigorous analysis of company fundamentals and financial output

<table>
<thead>
<tr>
<th>Valuation &amp; Custom Peers: Identify attractive entry points</th>
<th>Shareholder Yield: Evaluate capital allocation policies</th>
<th>Quality Evaluation: Identify consistent and above-average financial output</th>
</tr>
</thead>
<tbody>
<tr>
<td>▪ Statistically derived custom peer groups</td>
<td>▪ Emphasis on dividend growth over absolute yield</td>
<td>Qualitative</td>
</tr>
<tr>
<td>▪ Identify relationships determined by global equity market</td>
<td>▪ Focus on forward buyback programs</td>
<td>▪ Consistent and above-average Return on Capital</td>
</tr>
<tr>
<td>▪ Data analytics and statistical calculations uncover valuation insights</td>
<td>▪ Assess quality of earnings</td>
<td>▪ Low balance sheet stress</td>
</tr>
<tr>
<td>▪ Absolute/relative measures to company’s history and the market</td>
<td>▪ Consider dividend policy changes and capital deployment stewardship</td>
<td>▪ High and improving margins; stability over time</td>
</tr>
<tr>
<td>▪ Industry-specific metrics; P/E, P/B, P/S, EV/EBITDA, P/FFO</td>
<td></td>
<td>▪ Expected and historical earnings growth</td>
</tr>
</tbody>
</table>

Qualitative
- Consistent and above-average Return on Capital
- Low balance sheet stress
- High and improving margins; stability over time
- Expected and historical earnings growth

Quantitative
- Price Momentum
- Short Interest

Inputs that can result in higher quality:
- Favorable industry dynamics
- High barriers to entry
- Differentiation, first-mover advantage
- Scalability, brand equity, network effect
- Duopoly or functional duopoly
- Recurring revenues

Dividends reflect past performance and there is no guarantee they will continue to be paid.
Construct a portfolio of quality companies diversified across industries that can help generate alpha and mitigate risk.

**Position Sizing**
- 40-70 holdings
- Mitigate idiosyncratic risk
- Initial position size: 1.5-3.0% (at cost)
- Maximum position size: 5% (at market)
- Cash typically 2-3%

**Sector Positioning**
- Seek broad sector and industry exposure
- Sector weights +/- 10% benchmark require CIO approval

**Market Capitalization**
- Market cap between $100 million and $4 billion*

**Diversification**
- Diversified portfolio to help reduce downside risk
- Long-term alpha generation begins with intelligent portfolio construction

---

*The higher of $4 billion or the capitalization of the largest company within the Russell 2000 Index*
NFJ’s strict sell discipline seeks to remove emotion from the investment process

Valuation Consideration
- Stock becomes expensive on absolute and relative valuations
- Compared to historical average, broad market, and custom peers

Quality Deterioration
- Change in company-specific fundamentals or thesis
- Erosion of industry dynamics or competitive landscape
- Price momentum

Portfolio Upgrade
- Better alternative available; candidate becomes more attractive relative to a current holding
- Improve portfolio construction and risk-adjusted positioning

 Acquisition Activity
- Current holding is acquired
- Current holding makes acquisition that fundamentally changes its business
Portfolio Monitoring & Risk Management
Integrated Throughout the Investment Process

Qualitative analysis and quantitative tools help identify and avoid idiosyncratic risks

Internal Integrated Risk Management
Portfolio risk is embedded throughout NFJ’s investment philosophy and process:
- Portfolio level controls: position size and diversification
- CIO/PM reviews and quarterly investment meetings

Quantitative Elements
NFJ custom functions actively monitor for quantitative changes in:
- Price momentum
- Short interest

Independent Review: Virtus Investment Oversight Committee
- Quarterly meetings with Virtus CEO, CIOs, strategist to discuss markets and performance
- Responsible for evaluating investment skill and discipline within stated investment guidelines
- Ongoing monitoring of investment style, performance, and portfolio risk exposures

Dividends reflect past performance and there is no guarantee they will continue to be paid. The forward P/E ratio shown uses funds from operations, instead of earnings, for REITs. The information is historical and may not reflect current or future characteristics and may vary among individual accounts depending on a variety of factors, including portfolio size, specific investment guidelines and inception dates of individual accounts. Certain projected characteristics (such as the forward P/E ratio) of the representative account and indices shown have been estimated in this material. Estimated data reflect subjective judgments and assumptions and unexpected events may occur. Therefore, there can be no assurance that developments will transpire as forecasted. Past performance is not indicative of future results. Source: Virtus Performance & Analytics, Factset, Russell Investments.

1. Annualized for periods greater than one year. Past performance is not indicative of future results. Please see the GIPS Report at the end of this presentation. The performance data represents a composite of all fully discretionary managed account portfolios with comparable investment objectives and risk managed by NFJ Investment Group, LLC. Accounts meeting this criteria are included in the composite after being invested for a full month. Terminated accounts are excluded from the composite following the last full month under management. Performance is calculated on a total-return basis, assuming reinvestment of dividends and interest. Results include accrued income as well as realized and unrealized gains and losses but do not include the effect of taxes. Gross of fee returns show performance before the deduction of advisory and Sponsor fees (including trading and custodial fees). Net of fee returns include the effect of the highest applicable account fee, which is 3% for equity portfolios. NFJ Investment Group, LLC advisory fees are discussed in Part 2 of its form ADV. Clients are advised to read the Sponsor's brochure for fees applicable to the program. The Russell 2000 Value Index measures the performance of those Russell 2000 companies with lower price-to-book ratios and lower forecasted growth values. Unless otherwise noted, index returns reflect the reinvestment of income dividends and capital gains, if any, but do not reflect fees, brokerage commissions or other expenses of investing. It is not possible to invest directly in an index. Total return performance assumes that all dividend and capital gains distributions were reinvested. Source: Virtus Performance & Analytics.
Recent Performance
Supplemental Information, as of September 30, 2023

- NFJ took advantage of attractive valuation dislocations early in 2022, and that positioning has been rewarded by the market in recent months
- NFJ Small-Cap Value Wrap has outperformed the Russell 2000 Value by over 950 basis points, gross of fees, from the end of October 2022 thru September 2023

John R. Mowrey, CFA
Executive Managing Director, Chief Investment Officer
Senior Portfolio Manager/Analyst

John Mowrey is an executive managing director, senior portfolio manager/analyst, and chief investment officer, responsible for the overall investment policy for all value equity portfolios, hiring new talent, and building out the team’s investment capabilities. He serves as co-lead portfolio manager for the NFJ Mid Cap Value, NFJ Small Cap Value, NFJ Emerging Markets Value, and NFJ Global Infrastructure Income strategies. Mr. Mowrey joined NFJ in 2007 and has been quoted and featured in a number of national publications, including Barron’s, Fortune, Kiplinger’s, Funds Europe, and MarketWatch, and has been a featured guest on CNBC, Bloomberg TV, Fox Business News, TD Ameritrade Network, and Yahoo! Finance. He earned a B.A. in political science from Rhodes College and an M.B.A. from Southern Methodist University. He is a Chartered Financial Analyst® (CFA®) charterholder. He began his career in the investment industry in 2006.

Paul A. Magnuson
Managing Director, Senior Portfolio Manager/Analyst

Paul Magnuson is a managing director and senior portfolio manager/analyst at NFJ Investment Group. He serves as a co-lead portfolio manager of the NFJ Mid Cap Value and NFJ Small Cap Value strategies. In 2010, he was nominated for Domestic-Stock Fund Manager of the Year by Morningstar. Prior to joining NFJ in 1992, Mr. Magnuson was a quantitative analyst in the trust investment department at NationsBank (predecessor organization to Bank of America). Mr. Magnuson earned a B.B.A. in finance from the University of Nebraska-Lincoln. He began his career in the investment industry in 1985.

Thomas W. Oliver, CFA, CPA
Managing Director, Senior Portfolio Manager/Analyst

Thomas Oliver is a managing director and senior portfolio manager/analyst. He serves as a co-lead portfolio manager of the NFJ Dividend Value, NFJ Large Cap Value and NFJ All Cap Value strategies. Prior to joining NFJ in 2005, Mr. Oliver was a manager of corporate reporting at Perot Systems and an auditor at Deloitte & Touche. Mr. Oliver earned a B.B.A. and an M.B.A. from the University of Texas. He is a Chartered Financial Analyst® (CFA®) charterholder and has his Certified Public Accountant (CPA) designation. He began his career in the investment industry in 1995.

R. Burns McKinney, CFA
Managing Director, Senior Portfolio Manager/Analyst

R. Burns McKinney is a managing director and a senior portfolio manager/analyst. He serves as a co-lead portfolio manager of the NFJ Dividend Value, NFJ International Value, and NFJ Global Sustainability strategies. He has been quoted and featured in a number of national publications, including the Wall Street Journal and Barron’s, and has been a featured guest on CNBC and Bloomberg TV. Prior to joining NFJ in 2006, Mr. McKinney was an equity analyst at Evergreen Investments, an investment banking analyst at Alex. Brown & Sons, a vice president in equity research at Merrill Lynch, and an equity analyst at Morgan Stanley. Mr. McKinney earned a B.A. in economics from Dartmouth College and an M.B.A. from The Wharton School, The University of Pennsylvania. He is a Chartered Financial Analyst® (CFA®) charterholder. He began his career in the investment industry in 1996.

Jeff N. Reed, CFA, FDP
Managing Director, Senior Portfolio Manager/Analyst

Jeff Reed is a managing director and senior portfolio manager/analyst. He serves as a co-lead portfolio manager of the NFJ Dividend Value, NFJ Large Cap Value, NFJ All Cap Value, and NFJ Global Sustainability strategies. Prior to joining NFJ in 2007, Mr. Reed was a credit analyst at Frost Bank. Mr. Reed earned a B.B.A. in finance and e-business from Texas Christian University, an M.B.A. from the University of Texas, McCombs School of Business, and an M.S. in Data Science with a specialization in machine learning from Southern Methodist University. He is a Chartered Financial Analyst® (CFA®) charterholder. He also is a Financial Data Professional® (FDP) charterholder, a credential that focuses on big data, artificial intelligence, and machine learning applications in the financial industry. He began his career in the investment industry in 2004.

J. Garth Reilly
Managing Director, Senior Portfolio Manager/Analyst

J. Garth Reilly is a managing director and senior portfolio manager/analyst. He serves as a co-lead portfolio manager of the NFJ Emerging Markets Value, NFJ International Value, and NFJ Global Infrastructure Income strategies. Prior to joining NFJ in 2005, he was an intern at Luther King Capital Management and Citigroup Alternative Investments. Mr. Reilly earned a B.A. in political economy from Princeton University and an M.B.A. from Southern Methodist University. He began his career in the investment industry in 2005.
NFJ Team Biographies

Kris P. Marca, CFA
Director, Portfolio Manager/Analyst

Kris Marca is a director and portfolio manager/research analyst. He serves as a portfolio manager for a closed-end fund that NFJ subadvises, the Virtus Dividend, Interest & Premium Strategy Fund (NYSE: NFJ). Prior to joining NFJ in 2011, he was on the equity derivatives desk at HBK Capital Management. Mr. Marca earned a B.A. in biology from the University of Texas and an M.B.A. from Texas Christian University. He is a Chartered Financial Analyst® (CFA®) charterholder. He began his career in the investment industry in 2003.

Yue Wang, CFA, CPA, FDP
Senior Research Analyst

Yue Wang is a senior research analyst, responsible for supporting the full suite of NFJ’s investment strategies. Prior to joining NFJ in 2018, she was an empirical capital market research assistant at the University of Texas at Austin and an equity research analyst at Chinese International Capital Corporation. Ms. Wang earned a B.B.A. in accounting and finance from the University of Hong Kong and an M.S. in accounting from the University of Texas. She is a Chartered Financial Analyst® (CFA®) charterholder and has her Certified Public Accountant (CPA) designation. She also is a Financial Data Professional® (FDP) charterholder, a credential that focuses on big data, artificial intelligence, and machine learning applications in the financial industry. She began working in the investment industry in 2015.

Andrew J. Setaro, CFA
Senior Research Analyst

Andrew Setaro is a senior research analyst, responsible for supporting the full suite of NFJ’s investment strategies. Prior to joining NFJ in 2019, Mr. Setaro worked as an analyst for Columbia Threadneedle Investments, where he was responsible for conducting quantitative analysis on large data sets, including various tests to determine the efficacy of MSCI’s ESG ratings on return enhancement. He earned a B.A. in economics and an M.S. in Data Science from the University of Virginia. He is a Chartered Financial Analyst® (CFA®) charterholder and holds the CFA Institute Certificate in ESG Investing. He began his career in the investment industry in 2018.

Krysta M. Hill
Director, Product Specialist

Krysta Hill is director and product specialist. She serves as a liaison between the investment, distribution, and client service teams, ensuring messaging alignment between NFJ, and its clients, prospects, consultants, and internal partners. Before joining an NFJ affiliated manager in 2008, Ms. Hill worked at Lehman Brothers as a communications specialist in its high-net-worth marketing department, and at Sard Verbinnen & Co. as an associate in financial public relations and crisis communications. She earned a B.A., magna cum laude, in communications from the University of Pennsylvania. She began working in the investment industry in 2005.

NFJ Small-Cap Value Wrap GIPS Composite Report

The Firm: The firm is defined as NFJ Investment Group, LLC ("NFJ"), a Registered Investment Advisor with the SEC. NFJ is an affiliated investment manager of Virtus Investment Partners, Inc. ("Virtus"). NFJ was founded in February 1989 with funding from Pacific Financial Asset Management Corp ("PFAMCo"). In 1994 PFAMCo merged with Thomson Advisory Group LP and became PIMCO Advisors. In 2000 Allianz AG acquired PIMCO Advisors, including NFJ. In 2010, Allianz Global Investors US LLC was formed, including NFJ. In July 2017 NFJ rolled up their RIA designation within Allianz Global Investors US LLC. At this time NFJ became a division of Allianz Global Investors LLC ("AllianzGI") and was no longer independently registered with the SEC. Effective February 1, 2021, in connection with a strategic partnership between Virtus and AllianzGI, NFJ moved from AllianzGI and registered with the SEC as a newly established investment advisory subsidiary of Virtus. The firm definition includes all investment portfolios managed directly or indirectly by NFJ including institutional, pooled fund and wrap fee accounts.

NFJ claims compliance with the Global Investment Performance Standards (GIPS®) and has prepared and presented this report in compliance with the GIPS standards. NFJ has been independently verified for the periods February 1, 2021 to December 31, 2022. A firm that claims compliance with the GIPS standards must establish policies and procedures for complying with all the applicable requirements of the GIPS standards. Verification provides assurance on whether the firm’s policies and procedures related to composite and pooled fund maintenance, as well as the calculation, presentation, and distribution of performance, have been designed in compliance with the GIPS standards and have been implemented on a firm-wide basis. The NFJ Small Cap Value Wrap Composite has had a performance examination for the periods February 1, 2021 to December 31, 2022. The verification and performance examination reports are available upon request.

GIPS® is a registered trademark of CFA Institute. CFA Institute does not endorse or promote this organization, nor does it warrant the accuracy or quality of the content contained herein.

The Composite: The NFJ Small Cap Value Wrap Composite (the "Composite") consists of portfolios that invest in a diversified group of small capitalization stocks considered to have attractive valuations and return value to shareholders. Each company typically has a minimum market capitalization of at least $100 million at purchase. The Composite was created February 1, 2021 and has a performance inception date of January 1, 2011. Composite performance is linked to composite performance generated at a prior firm for all periods prior to the composite creation date. The Composite includes all discretionary wrap fee portfolios with comparable investment objectives and risks, managed by NFJ for at least one full month. The Composite can include both tax-exempt and taxable accounts. No leverage has been used in the accounts included in the Composite. The Composite includes only wrap fee accounts.

A list of composite descriptions is available upon request. Policies for valuing investments, calculating performance, and preparing GIPS Reports are available upon request.

Portfolio Returns: Returns are calculated on a total return basis, including all dividends and interest, accrued income, realized and unrealized gains or losses and reinvestment of dividends and other earnings. Performance results are expressed in U.S. dollars. Returns are presented gross and net of fees. Gross of fees performance results are "pure" gross and are provided as supplemental information, as results have not been reduced by advisory and sponsor fees (including trading and custodial fees). Net of fee returns have been reduced by the highest applicable managed account fee of 3.00% applied on a monthly basis. The managed account fee is a bundled fee (3.00%) inclusive of advisory, trading, custodial and administrative fees. There are no fees charged to clients at the commingled level; sponsor and advisory fees apply to the account as a whole. Actual fees incurred by client accounts may vary. Individual results may vary as a result of market conditions, trading costs and other factors, which may be unique to each account. NFJ’s compensation from the Program Sponsors vary, but it is generally between 0.33% and 0.50% of assets under management.

Index: The Russell 2000 Value Index measures the performance of the 2,000 smallest companies in the Russell 3000 Index with lower price-to-book ratios and lower forecasted growth values. The Russell 3000 Index measures the performance of the 3,000 largest U.S. companies based on total market capitalization. This unmanaged market index is provided to represent the investment environment existing during the time periods shown. The index is referred to for comparative purposes only and is not intended to parallel the risk or investment style of the portfolios in the Composite. For comparison purposes, the index is fully invested, which includes reinvestment of income. The returns for this unmanaged index do not include any transaction costs, management fees or other costs. An investor may not invest directly in any index. All returns presented are calculated using U.S. dollars. The portfolios within this composite may and do invest in non-benchmark securities. Further information is available upon request.

Internal Dispersion: The internal dispersion statistic is the asset weighted standard deviation calculation using beginning of period market values and pure gross of fee performance returns for the portfolios in the composite for the full period. For periods where there were 5 or fewer portfolios in the composite for the full period the internal dispersion statistic is not meaningful and is shown as "N/A".

Past performance is not indicative of future results.
INVESTMENT RISKS

Market Volatility: The value of the securities in the portfolio may go up or down in response to the prospects of individual companies and/or general economic conditions. Local, regional, or global events such as war, terrorism, pandemic, or recession could impact the portfolio, including hampering the ability of the portfolio’s manager(s) to invest its assets as intended. Issuer Risk: The portfolio will be affected by factors specific to the issuers of securities and other instruments in which the portfolio invests, including actual or perceived changes in the financial condition or business prospects of such issuers. Equity Securities: The market price of equity securities may be adversely affected by financial market, industry, or issuer-specific events. Focus on a particular style or on small, medium, or large-sized companies may enhance that risk.

HOLDINGS DISCLOSURE

The information provided in this report should not be considered a recommendation to purchase or sell any particular security. There is no assurance that any securities discussed herein will remain in an account’s portfolio at the time you receive this report or that securities sold have not been repurchased. The securities discussed do not represent an account’s entire portfolio and in the aggregate may represent only a small percentage of an account’s portfolio holdings. It should not be assumed that any of the securities transactions or holdings discussed were or will prove to be profitable, or that the investment recommendations or decisions we make in the future will be profitable or will equal the investment performance of the securities discussed herein.

INVESTMENT PERFORMANCE

Performance is calculated on a total-return basis, assuming reinvestment of dividends and interest. Results include accrued income as well as realized and unrealized gains and losses but do not include the effect of taxes. Gross of fee returns show performance before the deduction of advisory and Sponsor fees (including trading and custodial fees). Net of fee returns include the effect of the highest applicable account fee, which is 3% for equity portfolios. Actual fees will vary by client. NFJ Investment Group, LLC advisory fees are discussed in Part 2 of its form ADV. Clients are advised to read the Sponsor’s brochure for fees applicable to the program.

Managed accounts are available exclusively through financial professionals. Managed accounts have a minimum asset level and may not be suitable for all investors. Financial professionals seeking more information should contact their managed accounts department or call their Virtus Investment Partners representative. Accounts are managed by NFJ Investment Group, LLC. For certain sponsor firm accounts, NFJ Investment Group, LLC provides the model to the sponsor or the sponsor’s designee for discretionary implementation.

COMPOSITE RESULTS: All portfolio statistics represent the NFJ Small-Cap Value Wrap composite of this strategy type currently managed by NFJ Investment Group, LLC. Composite results may not include all accounts. Individual account holdings will vary depending on the size of an account, cash flows, and account restrictions. These statistics are representative of how the portfolios in the composite are invested as of the indicated date. Portfolio holdings are subject to change daily.

Diversification does not insure against market loss.

INVESTMENT PROCESS, STRATEGIES AND PROCEDURES

Investment process, strategies, and procedures detailed in this presentation are intended to be general guidelines, subject to market conditions and client-specific investment guidelines and restrictions, and are measured at time of purchase. NFJ Investment Group, LLC may deviate from these guidelines if market conditions warrant, or if the investment professionals deem doing so would be in the clients’ best interests. Guidelines do not guarantee any reduction of risk or loss. There is no guarantee the strategy will be successful or work as described.
