Proxy Voting Procedures and Voting Record (Form N-PX)

The subadvisers vote proxies relating to portfolio securities in accordance with procedures that have been approved by the Board of Trustees of the Trust (“Trustees,” or the “Board”). You may obtain a description of these procedures, along with information regarding how the Funds voted proxies during the most recent 12-month period ended June 30, free of charge, by calling toll-free 1-800-243-1574. This information is also available through the Securities and Exchange Commission’s (the “SEC”) website at <http://www.sec.gov>.

Form N-Q Information

The Trust files a complete schedule of portfolio holdings for each Fund with the SEC for the first and third quarters of each fiscal year on Form N-Q. Form N-Q is available on the SEC’s website at <http://www.sec.gov>. Form N-Q may be reviewed and copied at the SEC’s Public Reference Room. Information on the operation of the SEC’s Public Reference Room can be obtained by calling toll-free 1-800-SEC-0330.

This report is not authorized for distribution to prospective investors in the Funds presented in this book unless preceded or accompanied by an effective prospectus which includes information concerning the sales charge, each Fund’s record and other pertinent information.

MESSAGE TO SHAREHOLDERS

To My Fellow Shareholders of Virtus Mutual Funds:

I am pleased to present this semiannual report that reviews the performance of your fund for the six months ended March 31, 2018.

Economic growth and strong corporate earnings were driving forces in the U.S. during the period, capped off by the sweeping tax overhaul that was signed into law at year-end. The optimism carried over into the start of 2018. However, with growth heating up, inflation fears caused stock markets to plunge in early February, ushering in the return of volatility after being conspicuously absent throughout 2017. Concerns over a potential global trade war, sparked by tariff talk by the Trump administration, caused markets to remain unsettled. Meanwhile, persistent economic strength moved the Federal Reserve to hike its key interest rate in March from 1.50% to 1.75%, its highest level in nearly a decade.

For the six months ended March 31, 2018, U.S. large-cap stocks, as measured by the S&P 500® Index, returned 5.84%, outpacing small-cap stocks, which returned 3.25%, as measured by the Russell 2000® Index. Within international equities, emerging markets led their developed peers, with the MSCI Emerging Markets Index (net) up 8.96%, compared with the MSCI EAFE® Index (net), which returned 2.63%.

Demand for U.S. Treasuries remained strong, as foreign investors continued to favor their yield advantage and credit quality over many foreign government bonds. The yield on the 10-year Treasury was 2.74% at March 31, 2018, up from 2.33% at September 30, 2017. The broader U.S. fixed income market, as represented by the Bloomberg Barclays U.S. Aggregate Bond Index, which tracks Treasuries and other investment-grade debt securities, declined 1.08% for the six months. Non-investment grade bonds also lost ground but to a lesser extent, down 0.39%, as measured by the Bloomberg Barclays U.S. Corporate High Yield Bond Index.

Market uncertainty is an ever-present reminder of the importance of portfolio diversification, including exposure to traditional and alternative asset classes. While diversification cannot guarantee a profit or prevent a loss, owning a variety of asset classes may cushion your portfolio against inevitable market fluctuations. Your financial advisor can help you ensure that your portfolio is adequately diversified across asset classes and investment strategies, with a broad array of Virtus Funds available through your fund exchange privileges. These include distinctive equity, fixed income, international, and asset allocation funds managed by Virtus affiliates and select subadvisers. We invite you to learn more about the Virtus family of funds at Virtus.com.

On behalf of our investment affiliates, thank you for entrusting the Virtus Funds with your assets. Should you have questions about your account or require assistance, please visit Virtus.com, or call our customer service team at 1-800-243-1574. We appreciate your business and remain committed to your long-term financial success.

VIRTUS OPPORTUNITIES TRUST
DISCLOSURE OF FUND EXPENSES (Unaudited)
FOR THE SIX-MONTH PERIOD OF OCTOBER 1, 2017 TO MARCH 31, 2018

We believe it is important for you to understand the impact of costs on your investment. All mutual funds have operating expenses. As a shareholder of a Virtus Opportunities Trust Fund (each, a “Fund”) you may incur two types of costs: (1) transaction costs, including sales charges on purchases of Class A shares and contingent deferred sales charges on Class C shares; and (2) ongoing costs, including investment advisory fees, distribution and service fees, and other expenses. Class I shares and Class R6 shares are sold without a sales charge and do not incur distribution fees. Class R6 shares also do not incur shareholder servicing fees. For further information regarding applicable sales charges, see Note 1 in the Notes to Financial Statements. These examples are intended to help you understand your ongoing costs (in dollars) of investing in a Fund and to compare these costs with the ongoing costs of investing in other mutual funds. These examples are based on an investment of \$1,000 invested at the beginning of the period and held for the entire six-month period.

Please note that the expenses shown in the accompanying tables are meant to highlight your ongoing costs only and do not reflect any transactional costs, such as sales charges or contingent deferred sales charges. Therefore, the accompanying tables are useful in comparing ongoing costs only, and will not help you determine the relative total costs of owning different funds. In addition, if these transactional costs were included, your costs would have been higher. The calculations assume no shares were bought or sold during the period. Your actual costs may have been higher or lower, depending on the amount of your investment and the timing of any purchases or redemptions.

Actual Expenses

The table below provides information about actual account values and actual expenses. You may use the information below, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the table under the heading “Expenses Paid During Period” to estimate the expenses you paid on your account during this period.

* Expenses are equal to the relevant Fund's annualized expense ratio, which is net of waived fees and reimbursed expenses, if applicable, multiplied by the average account value over the period, multiplied by the number of days (182) expenses were accrued in the most recent fiscal half-year, then divided by 365 to reflect the one-half year period.

** January 31, 2018, is the date the Class started accruing expenses. Expenses are equal to the Fund Class' annualized expense ratio, which is net of waived fees and reimbursed expenses, if applicable, multiplied by the average account value over the period, multiplied by the number of days (60) expenses were accrued in the most recent fiscal half-year, then divided by 365 to reflect the one-half year period.

For Funds which may invest in other funds, the annualized expense ratios noted above do not reflect fees and expenses associated with the underlying funds. If such fees and expenses had been included, the expense ratios would have been higher.

You can find more information about a Fund's expenses in the Financial Statements section that follows. For additional information on operating expenses and other shareholder costs, refer to that Fund's prospectus.

Hypothetical Example for Comparison Purposes

The table below provides information about hypothetical account values and hypothetical expenses based on each Fund's actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not your Fund's actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of other mutual funds.

American Depositary Receipt (“ADR”)

Represents shares of foreign companies traded in U.S. dollars on U.S. exchanges that are held by a U.S. bank or a trust. Foreign companies use ADRs in order to make it easier for Americans to buy their shares.

Bloomberg Barclays U.S. Aggregate Bond Index

The Bloomberg Barclays U.S. Aggregate Bond Index measures the U.S. investment-grade fixed-rate bond market. The index is calculated on a total return basis. The index is unmanaged, its returns do not reflect any fees, expenses, or sales charges, and it is not available for direct investment.

Bloomberg Barclays U.S. Corporate High Yield Bond Index

The Bloomberg Barclays U.S. Corporate High Yield Bond Index measures the U.S. dollar-denominated, high yield, fixed-rate corporate bond market. The index is calculated on a total return basis. The index is unmanaged, its returns do not reflect any fees, expenses, or sales charges, and it is not available for direct investment.

Chicago Board Options Exchange Volatility Index® (“CBOE VIX®”)

The CBOE VIX® shows the market’s expectation of 30-day volatility. It is constructed using the implied volatilities of a wide range of S&P 500® Index options. This volatility is meant to be forward looking and is calculated from both calls and puts. The CBOE VIX® is a widely used measure of market risk and is often referred to as the “investor fear gauge.” The index is unmanaged, its returns do not reflect any fees, expenses, or sales charges, and it is not available for direct investment.

Exchange-Traded Funds (“ETFs”)

An open-end fund that is traded on a stock exchange. Most ETFs have a portfolio of stocks or bonds that track a specific market index.

The Central Bank of the U.S., responsible for controlling money supply, interest rates, and credit with the goal of keeping the U.S. economy and currency stable. Governed by a seven-member board, the system includes 12 regional Federal Reserve Banks, 25 Branches, and all national and state banks that are part of the system.

In Specie

In Specie is a phrase describing the distribution of an asset in its present form, rather than selling it and distributing the cash. In specie distribution is made when cash is not readily available, or allocating the physical asset is the better alternative.

iShares®

Represents shares of an open-end exchange-traded fund.

London Interbank Offered Rate (“LIBOR”)

A benchmark rate that some of the world’s leading banks charge each other for short term loans and that serves as the first step to calculating interest rates on various loans throughout the world.

Master Limited Partnership (“MLP”)

A type of limited partnership that is publicly traded. The partnership must derive most of its cash flows from real estate, natural resources and commodities.

MSCI EAFE® Index (net)

The MSCI EAFE® (Europe, Australasia, Far East) Index (net) is a free float-adjusted market capitalization-weighted index that measures developed foreign market equity performance, excluding the U.S. and Canada. The index is calculated on a total return basis with net dividends reinvested. The index is unmanaged, its returns do not reflect any fees, expenses, or sales charges, and it is not available for direct investment.

MSCI Emerging Markets Index (net)

The MSCI Emerging Markets Index (net) is a free float-adjusted market capitalization-weighted index designed to measure equity market performance in the global emerging markets. The Russell 2000® Index is a market capitalization-weighted index of the 2,000 smallest companies in the Russell Universe, which comprises the 3,000 largest U.S. companies. The index is calculated on a total return basis with dividends reinvested. The index is unmanaged, its returns do not reflect any fees, expenses, or sales charges, and it is not available for direct investment.

S&P 500® Index

The S&P 500® Index is a free-float market capitalization-weighted index of 500 of the largest U.S. companies. The index is calculated on a total return basis with dividends reinvested. The index is unmanaged, its returns do not reflect any fees, expenses, or sales charges, and it is not available for direct investment.

Sponsored ADR

An ADR which is issued with the cooperation of the company whose stock will underlie the ADR. Sponsored ADRs generally carry the same rights normally given to stockholders, such as voting rights. ADRs must be sponsored to be able to trade on a major U.S. exchange such as the New York Stock Exchange (“NYSE”).

U.S. Treasury Inflation-Protected Securities (TIPS)

A United States Treasury security that is indexed to inflation in order to protect investors from the negative effects of inflation.

- (1) Calculated using average shares outstanding.
(2) Sales charges, where applicable, are not reflected in the total return calculation.
(3) Annualized for periods less than one year.
(4) Not annualized for periods less than one year.
(5) Amount is less than \$0.005 per share.
(6) Inception date.
(7) Due to a change in expense cap, the ratio shown is a blended expense ratio.
(8) The Funds will also indirectly bear their prorated share of expenses of the underlying funds in which they invest. Such expenses are not included in the calculation of this ratio.
(9) Portfolio Turnover Rate is due to high volume of portfolio activity and the limited number of investments held.
(10) See Note 4D in the Notes to Financial Statements for information on recapture of expense previously waived.
(11) The Fund is currently under its expense limitation.
(12) Net expense ratios include extraordinary proxy expenses.
(13) State Street Bank & Trust, custodian for some of the Funds through January 29, 2010, reimbursed the Funds for out-of-pocket custody expenses overbilled for the period 1998 through January 29, 2010. Custody fees reimbursed were excluded from the Ratio of Net Expenses to Average Net Assets and the Ratio of Net Investment Income (Loss) to Average Net Assets. If it was included the impact would have been to lower the Ratio of Net Expenses and increase the Ratio of Net Investment Income (Loss) as follows:

Duff & Phelps Global Infrastructure Fund	Rampart Sector Trend Fund	Vontobel Global Opportunities Fund
Class A	—* Class A	—* Class A 0.06%
Class C	—* Class C	—* Class C 0.05%
Class I	—* Class I	—* Class I 0.05%

Custody fees reimbursed were included in Total Return. If excluded the impact would have been to lower the Total Return as follows:

Duff & Phelps Global Infrastructure Fund	Rampart Sector Trend Fund	Vontobel Global Opportunities Fund

Note 1. Organization

Virtus Opportunities Trust (the “Trust”) is organized as a Delaware statutory trust and is registered under the Investment Company Act of 1940, as amended (“1940 Act”), as an open-end management investment company.

As of the date of this report, 28 funds of the Trust are offered for sale, of which 17 (each a “Fund”) are reported in this semiannual report.

Each Fund has a distinct investment objective and all of the Funds except the Herzfeld Fund are diversified. The Funds have the following investment objectives:

<u>Fund</u>	<u>Investment Objective</u>
Duff & Phelps Global Infrastructure Fund	Capital appreciation and current income.
Duff & Phelps Global Real Estate Securities Fund	Primary investment objective of long-term capital appreciation, with a secondary investment objective of income.
Duff & Phelps International Equity Fund	Long-term capital appreciation.
Duff & Phelps International Real Estate Securities Fund	Primary investment objective of long-term capital appreciation, with a secondary investment objective of income.
Herzfeld Fund	Capital appreciation and current income.
Horizon International Wealth Masters Fund	Capital appreciation.
Horizon Wealth Masters Fund	Capital appreciation.
KAR Emerging Markets Small-Cap Fund	Capital appreciation.
KAR International Small-Cap Fund	Capital appreciation.
Rampart Alternatives Diversifier Fund	Long-term capital appreciation.
Rampart Equity Trend Fund	Long-term capital appreciation.
Rampart Global Equity Trend Fund	Capital appreciation. In pursuing this objective, the Fund maintains an emphasis on preservation of capital.
Rampart Low Volatility Equity Fund	Capital appreciation with lower volatility than U.S. markets over a full market cycle.
Rampart Multi-Asset Trend Fund	Capital appreciation. In pursuing this objective, the Fund maintains an emphasis on preservation of capital.
Rampart Sector Trend Fund	Long-term capital appreciation.
Vontobel Global Opportunities Fund	Capital appreciation.
Vontobel Greater European Opportunities Fund	Long-term capital appreciation.

There is no guarantee that a Fund will achieve its objective(s).

All of the Funds offer Class A shares, Class C shares, and Class I shares. The Duff & Phelps Global Infrastructure Fund, Duff & Phelps Global Real Estate Securities Fund, KAR International Small-Cap Fund, Rampart Equity Trend Fund, and Vontobel Global Opportunities Fund also offer Class R6 shares. Class A shares are sold with a front-end sales charge of up to 5.75% with some exceptions. Generally, Class A shares are not subject to any charges by the Funds when redeemed; however, a 0.50% – 1% contingent deferred sales charge (“CDSC”) may be imposed on certain redemptions made within a certain period following purchases on which a finder’s fee has been paid. The period for which such CDSC applies for the Funds is 18 months. The CDSC period begins on the last day of the month preceding the month in which the purchase was made.

Effective March 6, 2017, the Vontobel Global Opportunities Fund Class B shares were converted to Class A shares. Prior to conversion, Class B shares were only available to existing shareholders through qualifying transactions.

Class C shares are generally sold with a 1% CDSC, applicable if redeemed within one year of purchase. Class I shares and Class R6 shares are sold without a sales charge or CDSC.

Class R6 shares are available only to the following investors without a minimum initial investment or minimum additional purchases: certain employer-sponsored retirement plans, including Section 401(k), 403(b) and 457, profit-sharing, money purchase pension and defined benefit plans and nonqualified deferred compensation plans, in each case provided that plan level or omnibus accounts are held on the books of the Funds. Other institutional investors may be permitted to purchase Class R6 shares subject to the applicable Fund’s determination of eligibility and may be subject to a minimum initial investment requirement. Class R6 shares do not carry sales commissions or pay Rule 12b-1 fees. No compensation, administrative payments, sub-transfer agency payments or service payments are paid to brokers or other entities from Fund assets or the Funds’ distributor’s or an affiliate’s resources on sales of or investments on Class R6 shares.

The Funds may impose an annual fee on accounts having balances of less than \$2,500. The small account fee may be waived in certain circumstances, as disclosed in the prospectuses and/or statements of additional information. The fees collected will be used to offset certain expenses of the Funds. These fees are reflected as “Low balance account fees” in each Fund’s Statements of Operations for the period, as applicable.

Each class of shares has identical voting, dividend, liquidation and other rights and the same terms and conditions, except that each class bears any expenses attributable specifically to that class (“class-specific expenses”) and has exclusive voting rights with respect to any Rule 12b-1 and/or shareholder service plan (“12b-1 Plan”) approved by the Board. Class I shares and Class R6 shares are not subject to a 12b-1 Plan. Class-specific expenses may include shareholder servicing fees, sub-transfer agency fees, and fees under a 12b-1 Plan, as well as certain other expenses as designated by the Funds’ Treasurer and approved by the Board. Investment income, common operating expenses and realized and unrealized gains and losses of each Fund are borne pro-rata by the holders of each class of shares.

NOTES TO FINANCIAL STATEMENTS (Unaudited) (Continued)

Note 2. Significant Accounting Policies

The Trust is an investment company that follows the accounting and reporting guidance of Accounting Standards Codification Topic 946 applicable to Investment Companies. The following is a summary of significant accounting policies consistently followed by the Funds in the preparation of their financial statements. The preparation of financial statements in conformity with U.S. generally accepted accounting principles (“U.S. GAAP”) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in net assets from operations during the reporting period. Actual results could differ from those estimates and those differences could be significant.

A. Security Valuation

Security valuation procedures for each Fund, which include nightly price variance, as well as back-testing items such as bi-weekly unchanged price, monthly secondary source and transaction analysis, have been approved by the Board. All internally fair valued securities are approved by a valuation committee appointed by the Board (the “Valuation Committee”). The Valuation Committee is comprised of certain members of management as identified to the Board and convenes independently from portfolio management. All internally fair valued securities are updated daily and reviewed in detail by the Valuation Committee monthly unless changes occur within the period. The Valuation Committee reviews the validity of any model inputs and any changes to the model. Fair valuations are reviewed by the Board at least quarterly.

Each Fund utilizes a fair value hierarchy which prioritizes the inputs to valuation techniques used to measure fair value into three broad levels. The Funds’ policy is to recognize transfers between levels at the end of the reporting period.

- Level 1 – quoted prices in active markets for identical securities (security types generally include listed equities).
- Level 2 – prices determined using other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.).
- Level 3 – prices determined using significant unobservable inputs (including the Valuation Committee’s own assumptions in determining the fair value of investments).

A description of the valuation techniques applied to a Fund’s major categories of assets and liabilities measured at fair value on a recurring basis is as follows:

Equity securities are valued at the official closing price (typically last sale) on the exchange on which the securities are primarily traded or, if no closing price is available, at the last bid price and are categorized as Level 1 in the hierarchy. Restricted equity securities and private placements that are not widely traded, are illiquid, or are internally fair valued by the Valuation Committee, are generally categorized as Level 3 in the hierarchy.

Certain non-U.S. securities may be fair valued in cases where closing prices are not readily available or are deemed not reflective of readily available market prices. For example, significant events (such as movement in the U.S. securities market, or other regional and local developments) may occur between the time that non-U.S. markets close (where the security is principally traded) and the time that a Fund calculates its net asset value (“NAV”) (at the close of regular trading on the New York Stock Exchange (“NYSE”), generally 4 p.m. Eastern time) that may impact the value of securities traded in these non-U.S. markets. In such cases the Funds fair value non-U.S. securities using an independent pricing service which considers the correlation of the trading patterns of the non-U.S. security to the intraday trading in the U.S. markets for investments such as ADRs, financial futures, ETFs, and certain indexes, as well as prices for similar securities. Such fair valuations are categorized as Level 2 in the hierarchy. Because the frequency of significant events is not predictable, fair valuation of certain non-U.S. common stocks may occur on a frequent basis.

Listed derivatives that are actively traded are valued based on quoted prices from the exchange and are categorized as Level 1 in the hierarchy. Over-the-counter derivative contracts, which include forward currency contracts and equity-linked instruments, do not require material subjectivity as pricing inputs are observed from actively quoted markets and are categorized as Level 2 in the hierarchy.

Investments in open-end mutual funds are valued at NAV. Investments in closed-end funds and ETFs are valued as of the close of regular trading on the NYSE each business day. Both are categorized as Level 1 in the hierarchy.

A summary of the inputs used to value the Funds’ net assets by each major security type is disclosed at the end of the Schedule of Investments for each Fund. The inputs or methodologies used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

B. Security Transactions and Investment Income

Security transactions are recorded on the trade date. Realized gains and losses from the sales of securities are determined on the identified cost basis. Dividend income is recognized on the ex-dividend date or, in the case of certain foreign securities, as soon as a Fund is notified. Interest income is recorded on the accrual basis. Each Fund amortizes premiums and accretes discounts using the effective interest method. Any distributions from underlying funds are recorded in accordance with the character of the distributions as designated by the underlying funds.

Dividend income from REIT investments is recorded using management’s estimate of the percentage of income included in distributions received from the REIT investments based on historical information and other industry sources. Distributions received in excess of this estimated amount are recorded as a reduction of the cost of investments or reclassified to capital gains. The actual amounts of income, return of capital, and capital gains are only determined by each domestic REIT after its fiscal year-end, and may differ from the estimated amounts.

C. Income Taxes

Each Fund is treated as a separate taxable entity. It is the intention of each Fund to comply with the requirements of Subchapter M of the Internal Revenue Code and to distribute substantially all of its taxable income to its shareholders. Therefore, no provision for federal income taxes or excise taxes has been made.

VIRTUS OPPORTUNITIES TRUST
NOTES TO FINANCIAL STATEMENTS (Unaudited) (Continued)
MARCH 31, 2018

Certain Funds may be subject to foreign taxes on income, gains on investments or currency repatriation, a portion of which may be recoverable. Each Fund will accrue such taxes and recoveries as applicable based upon current interpretations of the tax rules and regulations that exist in the markets in which it invests.

Management of the Funds has concluded that there are no significant uncertain tax positions that would require recognition in the financial statements. As of March 31, 2018, the tax years that remain subject to examination by the major tax jurisdictions under the statute of limitations are from the year 2014 forward (with limited exceptions).

D. Distributions to Shareholders

Distributions are recorded by each Fund on the ex-dividend date. Income and capital gain distributions are determined in accordance with income tax regulations which may differ from U.S. GAAP.

E. Expenses

Expenses incurred together by a Fund and other affiliated mutual funds are allocated in proportion to the net assets of each such fund, except where allocation of direct expenses to each fund or an alternative allocation method can be more appropriately used.

In addition to the net annual operating expenses that a Fund bears directly, the shareholders of a Fund indirectly bear the pro rata expenses of any underlying mutual funds in which the Fund invests.

F. Foreign Currency Transactions

Non-U.S. investment securities and other assets and liabilities denominated in foreign currencies are translated into U.S. dollar amounts at the foreign currency exchange rate effective at the end of the reporting period. Cost of investments is translated at the currency exchange rate effective at the trade date. The gain or loss resulting from a change in currency exchange rates between the trade and settlement date of a portfolio transaction is treated as a gain or loss on foreign currency. Likewise, the gain or loss resulting from a change in currency exchange rates between the date income is accrued and the date it is paid is treated as a gain or loss on foreign currency. The Funds do not isolate that portion of the results of operations arising from changes in foreign exchange rates on investments from the fluctuations arising from changes in the market prices of securities held. Such fluctuations are included with the net realized and unrealized gain or loss on investments.

G. Securities Lending
(\$ reported in thousands)

Each Fund is permitted to loan securities from its portfolio to qualifying brokers, dealers and other financial institutions deemed creditworthy and receive, as collateral, cash or United States government securities including agency securities which at all times while the loan is outstanding will be maintained in amounts equal to at least 100% of the current market value of the loaned securities. Any cash collateral will be invested in short-term securities expected to increase the current income of the Fund lending its securities. Lending portfolio securities involves a risk of delay in the recovery of the loaned securities or in the declining value of the collateral. During the period ended March 31, 2018, the Funds did not loan securities.

Note 3. Derivative Financial Instruments and Transactions
(\$ reported in thousands)

Disclosures about derivative instruments and hedging activities are intended to enable investors to understand how and why a Fund uses derivatives, how derivatives are accounted for, and how derivative instruments affect a Fund's results of operations and financial position. Summarized below are such disclosures and accounting policies for each specific type of derivative instrument used by certain Funds.

A. Foreign Currency Contracts

A forward foreign currency exchange contract is an agreement between two parties to buy and sell a currency at a set exchange rate on a future date. Forward foreign currency exchange contracts, when used by a Fund, help to manage the overall exposure to the currencies in which some of the investments held by the Fund are denominated. The contract is marked-to-market daily and the change in market value is recorded by the Fund as an unrealized appreciation or depreciation. When the contract is closed, the Fund records a realized gain or loss equal to the difference between the value at the time it was opened and the value at the time it was closed. The use of forward foreign currency exchange contracts involves the risk that the value of the contract changes unfavorably due to movements in the value of the referenced foreign currencies. Non-deliverable forward foreign currency exchange contracts are settled with the counterparty in U.S. dollars without the delivery of foreign currency.

B. Options Contracts

An options contract provides the purchaser with the right, but not the obligation, to buy (call option) or sell (put option) a financial instrument at an agreed upon price. Certain Funds may purchase or write both put and call options on portfolio securities for hedging purposes or to facilitate the rapid implementation of investment strategies if the Fund anticipates a significant market or sector advance. A Fund doing so is subject to equity price risk in the normal course of pursuing its investment objectives.

When a Fund purchases an option, it pays a premium and an amount equal to that premium is recorded as an asset. When a Fund writes an option, it receives a premium and an amount equal to that premium is recorded as a liability. The asset or liability is adjusted daily to reflect the current market value of the option. Holdings of the Fund designated to cover outstanding written options are noted in the Schedules of Investments. Purchased options are reported as an asset within "Investment securities at value" in the Statement of Assets and Liabilities. Options written are reported as a liability within "Written options at value." Changes in value of the purchased option is included in "Net change in unrealized appreciation (depreciation) on investments" in the Statement of Operations. Changes in value of written options is included in "Net change in unrealized appreciation (depreciation) on written options."

VIRTUS OPPORTUNITIES TRUST
NOTES TO FINANCIAL STATEMENTS (Unaudited) (Continued)
MARCH 31, 2018

If an option expires unexercised, the Fund realizes a gain or loss to the extent of the premium received or paid. If an option is exercised, the premium received or paid is recorded as an adjustment to the proceeds from the sale or the cost basis of the purchase. The difference between the premium and the amount received or paid on affecting a closing purchase or sale transaction is also treated as a realized gain or loss. Gain or loss on purchased options is included in "Net realized gain/(loss) on investments" in the Statement of Operations. Gain or loss on written options is presented separately as "Net realized gain/(loss) on written options" in the Statement of Operations.

The risk in writing call options is that the Fund gives up the opportunity for profit if the market price of the security increases and the option is exercised. The risk in writing put options is that the Fund may incur a loss if the market price of the security decreases and the option is exercised. The risk in buying options is that the Fund pays a premium whether or not the option is exercised. The use of such instruments may involve certain additional risks as a result of unanticipated movements in the market. Writers (sellers) of options are subject to unlimited risk of loss, as the seller will be obligated to deliver or take delivery of the security at a predetermined price which may, upon exercise of the option, be significantly different from the then-market value.

The Rampart Low Volatility Equity Fund invested in writing index call options and buying call options on CBOE VIX® futures. Both are used as techniques for limiting the volatility of the Fund's portfolio.

The following is a summary of the Fund's option contracts, categorized as equity risk, presented in the financial statements as of March 31, 2018:

<u>Statements of Assets and Liabilities</u>		<u>Statements of Operations</u>	
Liabilities: Written options at value	\$—*	Net realized gain (loss) on purchased options	\$ 3 ⁽¹⁾

⁽²⁾ Amount included in Net change in unrealized appreciation (depreciation) from unaffiliated investments and is less than \$500.

For the period ended March 31, 2018, the average daily premiums paid by the Fund for purchased options were \$—*, and the average daily premiums received for written options by the Fund were \$2.

* Amount is less than \$500.

E. Distributor

VP Distributors, LLC (“VP Distributors”), an indirect wholly-owned subsidiary of Virtus, serves as the distributor of each Fund’s shares. VP Distributors has advised the Funds that for the six months (the “period”) ended March 31, 2018, it retained net commissions of \$35 of Class A shares and CDSC of \$2 and \$5 for Class A shares and Class C shares, respectively.

In addition, each Fund pays VP Distributors 12b-1 fees under a 12b-1 Plan as a percentage of the average daily net assets of each respective class at the annual rates of 0.25%⁽¹⁾ for Class A shares and 1.00%⁽¹⁾⁽²⁾ for Class C shares. Class I shares and Class R6 shares are not subject to a 12b-1 Plan.

Under certain circumstances, shares of certain Virtus Mutual Funds may be exchanged for shares of the same class of certain other Virtus Mutual Funds on the basis of the relative NAV per share at the time of the exchange. On exchanges with share classes that carry a CDSC, the CDSC schedule of the original shares purchased continues to apply.

⁽¹⁾ Some of the Funds invest in ETFs. In addition to the fees listed, the Funds bear their proportionate shares of any distribution and shareholder servicing fees of the ETFs.

⁽²⁾ The Funds’ distributor has contractually agreed to waive its 12b-1 fees applicable to Class C shares to the extent that the Funds’ investments in underlying ETFs with their own 12b-1 fees would otherwise cause the total 12b-1 fees paid directly or indirectly by the Fund to exceed the limits set forth in applicable law or regulation.

NOTES TO FINANCIAL STATEMENTS (Unaudited) (Continued)
MARCH 31, 2018

Note 7. Indemnifications

Under the Trust's organizational documents, and in separate agreements between each Trustee and the Trust, its Trustees and officers are indemnified against certain liabilities arising out of the performance of their duties to the Trust and its funds. In addition, in the normal course of business, the Trust and the Funds enter into contracts that provide a variety of indemnifications to other parties. The Trust and/or the Funds' maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Trust or the Funds and that have not occurred. However, neither the Trust nor the Funds have had prior claims or losses pursuant to these arrangements and they expect the risk of loss to be remote.

Note 8. Credit Risk and Asset Concentration

In countries with limited or developing markets, investments may present greater risks than in more developed markets and the prices of such investments may be volatile. The consequences of political, social or economic changes in these markets may have disruptive effects on the market prices of these investments and the income they generate, as well as a Fund's ability to repatriate such amounts.

High-yield/high-risk securities typically entail greater price volatility and/or principal and interest rate risk. There is a greater chance that an issuer will not be able to make principal and interest payments on time. Analysis of the creditworthiness of issuers of high-yield/high-risk securities may be complex, and as a result, it may be more difficult for the Adviser and/or subadviser to accurately predict risk.

Certain Funds may invest a high percentage of their assets in specific sectors of the market in the pursuit of their investment objectives. Fluctuations in these sectors of concentration may have a greater impact on a Fund, positive or negative, than if a Fund did not concentrate its investments in such sectors.

At March 31, 2018, the following Funds held securities issued by various companies in specific sectors as detailed below:

Fund	Sector	Percentage of Total Investments
Duff & Phelps Global Infrastructure Fund	Utilities	41%
Duff & Phelps Global Infrastructure Fund	Industrials	32%

Rampart Alternatives Diversifier Fund does not invest in the underlying Funds for the purpose of exercising management or control; however, investments made may represent a significant portion of an underlying Fund's net assets. At March 31, 2018, Rampart Alternatives Diversifier Fund was the owner of record of approximately 15% of the Duff & Phelps International Real Estate Securities Fund. The other affiliated funds held by the Rampart Alternatives Diversifier Fund were less than 10% each.

The Trust may not realize the benefit of these losses to the extent each Fund does not realize gains on investments prior to the expiration of the capital loss carryovers.

Under the Regulated Investment Company Modernization Act of 2010 (the "Act"), net capital losses recognized for tax years beginning after December 22, 2010, may be carried forward indefinitely, and their character is retained as short-term and/or long-term losses. Previously, net capital losses were carried forward for eight years and treated as short-term losses. As a transition rule, the Act requires that post-enactment net capital losses be used before pre-enactment net capital losses.

Note 11. Borrowings
(\$ reported in thousands)

On September 18, 2017, the Funds and certain other affiliated funds entered into an \$150,000 unsecured line of credit. This Credit Agreement, as amended, is with a commercial bank that allows the funds to borrow cash from the bank to manage large unexpected redemptions and trade fails, up to a limit of one-third or one-fifth of each fund's total net assets in accordance with the terms of the agreement. This Credit Agreement has a term of 364 days. Interest is charged at the higher of the LIBOR or the Federal Funds rate plus an additional percentage rate on the amount borrowed. Commitment fees are charged on the undrawn balance. The Funds and other affiliated funds that are parties are individually, and not jointly, liable for their particular advances, if any, under the line of credit. The lending bank has the ability to require repayment of outstanding borrowings under this Credit Agreement upon certain circumstances such as an event of default.

From March 22, 2018, to March 26, 2018, the Duff & Phelps Global Real Estate Securities Fund made borrowings. The average daily borrowings under the Agreement and the weighted daily average interest rate were \$2,520 and 3.12%, respectively. No other Funds made borrowings during the period and no Fund had any outstanding borrowings as of March 31, 2018.

Note 12. Plans of Reorganization

A. On October 22, 2015, the Board of Trustees of Virtus Opportunities Trust approved an Agreement and Plan of Reorganization (the "Plan") with respect to Virtus Dynamic Trend Fund (the "Merged Fund"), a series of Virtus Opportunities Trust, and Virtus Rampart Equity Trend Fund (the "Acquiring Fund"), a series of Virtus Opportunities Trust, which provided for the transfer of all of the assets of the Merged Fund for shares of the Acquiring Fund and the assumption of the liabilities of the Merged Fund. The purpose of the transaction was to eliminate the offering of overlapping Funds with similar investment objectives and similar investment strategies within the Virtus Mutual Fund Complex, while simultaneously creating economies of scale for the surviving Funds that were intended to lower Fund expenses. For financial reporting purposes, assets received and shares issued by the Acquiring Fund were recorded at fair value; however, the cost basis of the investments received from the Merged Fund was carried forward to align ongoing reporting of the Acquiring Fund's realized and unrealized gains and losses with amounts distributable to shareholders for tax purposes.

On January 15, 2016, Class B shares were converted into Class A shares in the Merged Fund.

The acquisition was accomplished by a tax-free exchange of shares on February 5, 2016. The share transactions associated with the merger are as follows:

<u>Merged Fund</u>	<u>Shares Outstanding</u>	<u>Acquiring Fund</u>	<u>Shares Converted</u>	<u>Merged Fund Net Asset Value of Converted Shares</u>
Virtus Dynamic Trend Fund		Virtus Rampart Equity Trend Fund		
	Class A 9,028		Class A 7,287	\$ 82,432
	C 15,688		C 11,669	128,740
	I 14,645		I 11,946	135,785
	R 9		R 7	85

The net assets and net unrealized appreciation (depreciation) immediately before the acquisition were as follows:

<u>Merged Fund</u>	<u>Net Assets</u>	<u>Unrealized Appreciation (Depreciation)</u>	<u>Acquiring Fund</u>	<u>Net Assets</u>
Virtus Dynamic Trend Fund	\$347,042	\$1,481	Virtus Rampart Equity Trend Fund	\$1,271,368

Assuming the acquisition had been completed on October 1, 2015, the Virtus Rampart Equity Trend Fund results of operations for the period ended September 30, 2016, would have been as follows:

Net investment income (loss)	\$ 2,270 ^(a)
Net gain (loss) on investments	(13,042) ^(b)
Net increase (decrease) in assets from operations . . .	\$(10,772)

^(a) \$(3,505), as reported in the Statement of Operations, plus \$5,775 Net Investment Income from Virtus Dynamic Trend Fund pre-merger.

^(b) \$16,480, as reported in the Statement of Operations, plus \$(29,522) Net Realized and Unrealized Gain (Loss) on Investments from Virtus Dynamic Trend Fund pre-merger.

Because the combined Funds have been managed as an integrated single Fund since the completion date it is also not feasible to separate the income/(losses) and gains/(losses) of the merged Virtus Dynamic Trend Fund that have been included in the acquiring Virtus Rampart Equity Trend Fund Statement of Operations since February 5, 2016.

Note 13. Illiquid and Restricted Securities

Investments are generally considered illiquid if they cannot be disposed of within seven days in the ordinary course of business at the approximate amount at which such securities have been valued by a Fund. Additionally, the following information is also considered in determining liquidity: the frequency of trades and quotes for the investment, whether the investment is listed for trading on a recognized domestic exchange and/or whether two or more brokers are willing to purchase or sell the security at a comparable price, the extent of market making activity in the investment and the nature of the market for investment.

Restricted securities are illiquid securities, as defined above, not registered under the Securities Act of 1933, as amended (the "1933 Act"). Generally, 144A securities are excluded from this category, except where defined as illiquid.

Each Fund will bear any costs, including those involved in registration under the 1933 Act, in connection with the disposition of such securities.

The following Funds held securities considered to be illiquid at March 31, 2018:

<u>Fund</u>	<u>Aggregate Value</u>	<u>% of Fund's net assets</u>
Duff & Phelps Global Real Estate Securities Fund	\$— ⁽¹⁾	0.0%
Duff & Phelps International Real Estate Securities Fund	\$— ⁽¹⁾	0.0

⁽¹⁾ Amount is less than \$500.

At March 31, 2018, the Funds did not hold any securities that were illiquid or restricted except as noted in the table above.

Note 14. Exemptive Order

On August 23, 2010, the SEC issued an amended order under Section 12(d)(1)(J) of the 1940 Act granting an exemption from Sections 12(d)(1)(A) and (B) of the 1940 Act and under Sections 6(c) and 17(b) of the 1940 Act granting an exemption from Section 17(a) of the 1940 Act, which permits the Trust to invest in other affiliated and unaffiliated funds, including ETFs, in each case subject to certain conditions.

Note 15. Regulatory Matters and Litigation

From time to time, the Trust, the Funds' Adviser and/or Subadvisers and/or their affiliates may be involved in litigation and arbitration as well as examinations and investigations by various regulatory bodies, including the SEC, involving compliance with, among other things, securities laws, client investment guidelines, laws governing the activities of broker dealers and other laws and regulations affecting their products and other activities. At this time, the Adviser believes that the outcomes of such matters are not likely, either individually or in aggregate, to be material to these financial statements.

On February 20, 2015, a putative class action complaint (In re Virtus Investment Partners, Inc. Securities Litigation; formerly styled as Tom Cummins v. Virtus Investment Partners Inc., et al.) alleging violations of certain provisions of the federal securities laws was filed by an individual shareholder against Virtus and certain of its officers (the "defendants") in the United States District Court for the Southern District of New York. On August 21, 2015, the lead plaintiff filed a Consolidated Class Action Complaint (the "Consolidated Complaint") amending the originally filed complaint and adding the Trust as a defendant. The Consolidated Complaint was purportedly filed on behalf of all purchasers of Virtus common stock between January 25, 2013 and May 11, 2015 (the "Class Period"). The Consolidated Complaint alleges that during the Class Period, the defendants disseminated materially false and misleading statements and concealed material adverse facts relating to certain funds previously subadvised by F-Squared Investments, Inc. and/or its affiliates ("F-Squared"). The plaintiff seeks to recover unspecified damages. A motion to dismiss the Consolidated Complaint was filed on behalf of the defendants on October 21, 2015. Pursuant to an Opinion & Order ("Order") filed on July 1, 2016, the court granted in part and denied in part the defendants' motion to dismiss. Although the Order narrows the scope of the claims asserted and dismisses one of the defendants from the suit, claims under Sections 10(b) and 20(a) of the Exchange Act and Rule 10b-5 thereunder survive the motion. The remaining defendants filed an Answer to the Consolidated Complaint on August 5, 2016. Pursuant to an Opinion & Order filed on May 15, 2017, the plaintiff's motion for class certification, was granted by the court. Discovery has since been completed. On October 6, 2017, defendants moved for summary judgment. Briefing on the motion for summary judgment was completed on December 22, 2017, and oral argument was held on January 18, 2018, where the Court reserved decision. Virtus and its affiliates, including the Adviser, believe that the suit is without merit. Nevertheless, on February 6, 2018, Virtus reached an agreement in principle with the plaintiffs, subject to Court approval, settling all claims in the litigation, in order to avoid the cost, distractions, disruption, and inherent litigation uncertainty. Upon approval by the Court, which Virtus believes is likely, the resolution of this matter will not have a material impact on the results of operations, cash flows or its consolidated financial condition for Virtus. Whether or not the settlement is approved by the Court, the Trust believes that the risk of loss to the Funds as a result of this suit is remote. Whether or not the settlement is approved by the Court, the Adviser does not believe that the suit will have any impact on its ability to provide services to the Funds.

On May 8, 2015, a putative class action complaint (Mark Youngers v. Virtus Investment Partners, Inc., et al.) alleging violations of certain provisions of the federal securities laws was filed in the United States District Court for the Central District of California. The complaint, which was purportedly filed on behalf of purchasers of certain Virtus Funds previously sub-advised by F-Squared between May 8, 2010 and December 22, 2014, inclusive (the "Class Period"), alleged claims against Virtus, certain Virtus officers and affiliates (including the Adviser, Euclid Advisors LLC ("Euclid") and VP Distributors, LLC), the trustees and certain officers of the Trust, and certain other parties (the "defendants"). The complaint alleges that during the Class Period the defendants disseminated materially false and misleading statements and concealed or omitted material facts necessary to make the statements made not misleading. On October 1, 2015, the plaintiffs filed a First Amended Class Action Complaint which, among other things, added a derivative claim for breach of fiduciary duty on behalf of the Trust. On October 19, 2015, the United States District Court for the Central District of California entered an order transferring the action to the Southern District of New York. On January 4, 2016, the plaintiffs filed a Second Amended Complaint. Motions to dismiss were filed on behalf of Virtus, its officers and affiliates and the independent trustees on February 1, 2016. An Opinion & Order ("Order") granting in part and denying in part the defendants' motions to dismiss was issued on July 1, 2016. The Order dismissed all claims against the Adviser, Euclid, the independent trustees and certain of the other individual defendants, and narrowed the claims asserted against the remaining defendants. The remaining defendants filed an Answer to the Second Amended Complaint on August 5, 2016. A Stipulation of Voluntary Dismissal of the claim under Section 12 of the Securities Act of 1933, as amended, was filed on September 15, 2016.

The remaining defendants filed a motion to certify an interlocutory appeal of the July 1, 2016 order to the Court of Appeals for the Second Circuit on August 26, 2016. The motion was denied on January 6, 2017. Pursuant to an Opinion & Order filed on May 15, 2017, the plaintiffs' motion for class certification, was denied by the court. On December 4, 2017, the Court denied the plaintiffs' motion seeking leave to amend their complaint to address deficiencies identified by the Court in its orders dismissing, in part, plaintiffs' Second Amended Complaint and denying class certification. On December 22, 2017, the plaintiffs voluntarily dismissed all remaining claims against the remaining defendants with prejudice and waived all rights to appeal.

Note 16. Recent Accounting Pronouncement

In March 2017, the Financial Accounting Standards Board issued an Accounting Standards Update, ASU 2017-08, Receivables – Nonrefundable Fees and Other Costs (Subtopic 310-20), Premium Amortization on Purchased Callable Debt Securities (the "ASU") which amends the amortization period for certain purchased callable debt securities held at a premium, shortening such period to the earliest call date. The ASU does not require any accounting change for debt securities held at a discount; the discount continues to be amortized to maturity. The ASU is effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2018. At this time, management is evaluating the implications of these changes on the financial statements.

Note 17. Subsequent Events

Management has evaluated the impact of all subsequent events on the Funds through the date the financial statements were available for issuance and has determined that the following subsequent events require recognition or disclosure in these financial statements:

Effective April 28, 2018, each of the Duff & Phelps International Equity Fund, Horizon International Wealth Masters Fund, Rampart Global Equity Trend Fund, and Rampart Low Volatility Equity Fund was liquidated at its respective net asset value.

CONSIDERATION OF ADVISORY AND SUBADVISORY AGREEMENTS BY THE BOARD OF TRUSTEES

The Board of Trustees (the "Board") of Virtus Opportunities Trust (the "Trust") is responsible for determining whether to approve the continuation of the investment advisory agreement (the "Advisory Agreement") between the Trust and Virtus Investment Advisers, Inc. ("VIA") and of each subadvisory agreement (each, a "Subadvisory Agreement" and collectively, the "Subadvisory Agreements") (together with the Advisory Agreement, the "Agreements") with respect to the funds of the Trust, including Virtus Duff & Phelps Global Infrastructure Fund, Virtus Duff & Phelps Global Real Estate Securities Fund, Virtus Duff & Phelps International Equity Fund, Virtus Duff & Phelps International Real Estate Securities Fund, Virtus Herzfeld Fund, Virtus Horizon International Wealth Masters Fund, Virtus Horizon Wealth Masters Fund, Virtus KAR Emerging Markets Small-Cap Fund, Virtus KAR International Small-Cap Fund, Virtus Rampart Alternatives Diversifier Fund, Virtus Rampart Equity Trend Fund, Virtus Rampart Global Equity Trend Fund, Virtus Rampart Low Volatility Equity Fund, Virtus Rampart Multi-Asset Trend Fund, Virtus Rampart Sector Trend Fund, Virtus Vontobel Global Opportunities Fund and Virtus Vontobel Greater European Opportunities Fund (individually and collectively, the "Funds"). At in-person meetings held on November 3, 2017 and November 15-16, 2017 (the "Meetings"), the Board, including a majority of the Trustees who are not interested persons of the Trust as defined in Section 2(a)(19) of the Investment Company Act of 1940, as amended (such Act, the "1940 Act" and such Trustees, the "Independent Trustees"), considered and approved the continuation of each Agreement due for renewal, as further discussed below. In addition, prior to the Meetings, the Independent Trustees met with their independent legal counsel to discuss and consider the information provided by management and submitted questions to management, and they considered the responses provided.

In connection with the approval of the Agreements, the Board requested and evaluated information provided by VIA and each subadviser (each, a "Subadviser" and collectively, the "Subadvisers") which, in the Board's view, constituted information necessary for the Board to form a judgment as to whether the renewal of each of the Agreements would be in the best interests of each applicable Fund and its respective shareholders. The Board also considered information furnished throughout the year at regular Board meetings with respect to the services provided by VIA and the Subadvisers, including quarterly performance reports prepared by management containing reviews of investment results and periodic presentations from the Subadvisers with respect to the Fund(s) they manage. The Board noted the affiliation of certain of the Subadvisers with VIA and any potential conflicts of interest.

The Board was separately advised by independent legal counsel throughout the process. For each Agreement, the Board considered all the criteria separately with respect to the applicable Fund and its shareholders. In their deliberations, the Board considered various factors, including those discussed below, none of which were controlling, and each Trustee may have attributed different weights to the various factors. The Independent Trustees also discussed the proposed approval of the Agreements in private sessions with their independent legal counsel at which no representatives of management were present.

In considering whether to approve the renewal of the Agreements with respect to each Fund, the Board reviewed and analyzed the factors it deemed relevant, including: (1) the nature, extent and quality of the services to be provided to the Funds by VIA and each of the Subadvisers; (2) the performance of the Funds as compared to an appropriate peer group and an appropriate index; (3) the level and method of computing each Fund's advisory and subadvisory fees, and comparisons of the Funds' advisory fee rates with those of a group of funds with similar investment objective(s); (4) the profitability of VIA under the Advisory Agreement; (5) any "fall-out" benefits to VIA, the Subadvisers and their affiliates (*i.e.*, ancillary benefits realized by VIA, the Subadvisers or their affiliates from VIA's or the applicable Subadviser's relationship with the Trust); (6) the anticipated effect of growth in size on each Fund's performance and expenses; (7) fees paid to VIA and the Subadvisers by comparable accounts, as applicable; (8) possible conflicts of interest; and (9) the terms of the Agreements.

Nature, Extent and Quality of Services

The Trustees received in advance of the Meetings information provided by VIA and each Subadviser, including completed questionnaires, each concerning a number of topics, including such company's investment philosophy, resources, operations and compliance structure. The Trustees also received a presentation by VIA's senior management personnel, during which among other items, VIA's history, investment process, investment strategies, personnel, compliance procedures and the firm's overall performance were reviewed and discussed. The Trustees noted that the Funds are managed using a "manager of managers" structure that generally involves the use of one or more subadvisers to manage some or all of a Fund's portfolio. Under this structure, VIA is responsible for the management of the Funds' investment programs and for evaluating and selecting subadvisers on an ongoing basis and making any recommendations to the Board regarding hiring, retaining or replacing subadvisers. In considering the Advisory Agreement with VIA, the Board considered VIA's process for supervising and managing the Funds' subadvisers, including (a) VIA's ability to select and monitor subadvisers; (b) VIA's ability to provide the services necessary to monitor the subadvisers' compliance with the Funds' respective investment objectives, policies and restrictions as well as provide other oversight activities; and (c) VIA's ability and willingness to identify instances in which a subadviser should be replaced and to carry out the required changes. The Trustees also considered: (a) the experience and capability of VIA's management and other personnel; (b) the financial condition of VIA, and whether it had the financial wherewithal to provide a high level and quality of services to the Funds; (c) the quality of VIA's own regulatory and legal compliance policies, procedures and systems; (d) the nature, extent and quality of administrative, transfer agency and other services provided by VIA and its affiliates to the Funds; (e) VIA's supervision of the Funds' other service providers; and (f) VIA's risk management processes. It was noted that affiliates of VIA serve as administrator, transfer agent and distributor to the Funds. The Board also took into account its knowledge of VIA's management and the quality of the performance of VIA's duties through Board meetings, discussions and reports during the preceding year, as well as information from the Trust's Chief Compliance Officer regarding the Funds' compliance policies and procedures established pursuant to Rule 38a-1 under the 1940 Act.

With respect to the services provided by each of the Subadvisers, the Board considered information provided to the Board by each Subadviser, including each Subadviser's Form ADV, as well as information provided throughout the past year. With respect to the Subadvisory Agreements, the Board noted that each Subadviser provided portfolio management, compliance with the respective Funds' investment policies and procedures, compliance with applicable securities laws and assurances thereof. The Board also noted that VIA's and the Subadvisers' management of the Funds is subject to the oversight of the Board and must be carried out in accordance with the investment objective(s), policies and restrictions set forth in the Funds' prospectuses and statement of additional information. In considering the renewal of the Subadvisory Agreements, the Board also considered each Subadviser's investment management process, including (a) the experience and capability of the Subadviser's management and other personnel committed by the Subadviser to the respective Fund(s); (b) the financial condition of the Subadviser; (c) the quality of the Subadviser's regulatory and legal compliance policies, procedures and systems; and (d) the Subadviser's brokerage and trading practices, including with respect to best execution and soft dollars. The Board also took into account each

CONSIDERATION OF ADVISORY AND SUBADVISORY AGREEMENTS BY THE BOARD OF TRUSTEES (Continued)

Subadviser's risk assessment and monitoring process. The Board noted each Subadviser's regulatory history, including whether it was currently involved in any regulatory actions or investigations as well as material litigation, and any settlements and amelioratory actions undertaken, as appropriate.

After considering all of the information provided to them, the Trustees concluded that the nature, extent and quality of the services provided by VIA and each Subadviser were satisfactory and that there was a reasonable basis on which to conclude that each would continue to provide a high quality of investment services to the applicable Fund(s).

Investment Performance

The Board considered performance reports and discussions at Board meetings throughout the year, as well as a report (the "Lipper Report") for the Funds prepared by Broadridge, an independent third party provider of investment company data, furnished in connection with the contract renewal process. The Lipper Report presented each Fund's performance relative to a peer group of other mutual funds (the "Performance Universe") and relevant indexes, as selected by Broadridge. The Board also considered performance information presented by management and took into account management's discussion of the same, including the effect of market conditions on each Fund's performance. The Board evaluated each Fund's performance in the context of the considerations that a "manager of managers" structure requires. The Board noted that it also reviews on a quarterly basis detailed information about both the Funds' performance results and portfolio composition, as well as each Subadviser's investment strategy. The Board noted VIA's expertise and resources in monitoring the performance, investment style and risk-adjusted performance of each Subadviser. The Board also noted each Subadviser's performance record with respect to a Fund. The Board was mindful of VIA's focus on each Subadviser's performance and noted VIA's performance in monitoring and responding to any performance issues with respect to the Funds. The Board also took into account its discussions with management regarding factors that contributed to the performance of each Fund.

The Board considered, among other performance data, the information set forth below with respect to the performance of each Fund for the period ended June 30, 2017.

Virtus Duff & Phelps Global Infrastructure Fund. The Board noted that the Fund outperformed the median of its Performance Universe for the 1-, 3- and 10-year periods and outperformed its benchmark for the 3-, 5- and 10-year periods. The Board also noted that the Fund underperformed the median of its Performance Universe for the 5-year period and underperformed its benchmark for the 1-year period.

Virtus Duff & Phelps Global Real Estate Securities Fund. The Board noted that the Fund outperformed the median of its Performance Universe for the 3- and 5-year periods and underperformed the median of its Performance Universe for the 1-year period. The Board also noted that the Fund outperformed its benchmark for the 1-, 3- and 5-year periods.

Virtus Duff & Phelps International Equity Fund. The Board noted that the Fund underperformed the median of its Performance Universe and underperformed its benchmark for the 1-, 3- and 5-year periods.

Virtus Duff & Phelps International Real Estate Securities Fund. The Board noted that the Fund outperformed the median of its Performance Universe for the 3- and 5-year periods and outperformed its benchmark for the 1-, 3- and 5-year periods. The Board also noted that the Fund underperformed the median of its Performance Universe for the 1-year period.

Virtus Herzfeld Fund. The Board noted that the Fund outperformed the median of its Performance Universe and outperformed its benchmark for the 1- and 3- year periods.

Virtus Horizon International Wealth Masters Fund. The Board noted that the Fund underperformed the median of its Performance Universe for the year-to-date and 1-year periods. The Board also noted that the Fund outperformed its benchmark for the year-to-date period and underperformed its benchmark for the 1-year period.

Virtus Horizon Wealth Masters Fund. The Board noted that the Fund outperformed the median of its Performance Universe for the 1-year period and underperformed the median of its Performance Universe for the 3-year period. The Board also noted that the Fund outperformed its benchmark for the 1-year period and underperformed its benchmark for the 3-year period.

Virtus KAR Emerging Markets Small-Cap Fund. The Board noted that the Fund outperformed the median of its Performance Universe and outperformed its benchmark for the 1- and 3-year periods.

Virtus KAR International Small-Cap Fund. The Board noted that the Fund outperformed the median of its Performance Universe and outperformed its benchmark for the 1- and 3-year periods.

Virtus Rampart Alternatives Diversifier Fund. The Board noted that the Fund underperformed the median of its Performance Universe and underperformed its benchmark for the 1-, 3-, 5- and 10-year periods.

Virtus Rampart Equity Trend Fund. The Board noted that the Fund underperformed the median of its Performance Universe and underperformed its benchmark for the 1-, 3- and 5-year periods.

Virtus Rampart Global Equity Trend Fund. The Board noted that the Fund underperformed the median of its Performance Universe and underperformed its benchmark for the 1-, 3- and 5-year periods.

Virtus Rampart Low Volatility Equity Fund. The Board noted that the Fund underperformed the median of its Performance Universe for the 1- and 3-year periods and underperformed its benchmark for the 1- and 3-year periods.

Virtus Rampart Multi-Asset Trend Fund. The Board noted that the Fund underperformed the median of its Performance Universe and underperformed its benchmark for the 1-, 3- and 5-year periods.

Virtus Rampart Sector Trend Fund. The Board noted that the Fund underperformed the median of its Performance Universe and underperformed its benchmark for the 1-, 3-, 5- and 10-year periods.

Virtus Vontobel Global Opportunities Fund. The Board noted that the Fund outperformed the median of its Performance Universe for the 1-, 3- and 5-year periods and underperformed the median of its Performance Universe for the 10-year period. The Board also noted that the Fund outperformed its benchmark for the 1-, 3-, 5- and 10-year periods.

CONSIDERATION OF ADVISORY AND SUBADVISORY AGREEMENTS BY THE BOARD OF TRUSTEES (Continued)

Virtus Vontobel Greater European Opportunities Fund. The Board noted that the Fund outperformed the median of its Performance Universe and outperformed its benchmark for the 3-year period. The Board also noted that the Fund underperformed the median of its Performance Universe and underperformed its benchmark for the 1- and 5-year periods.

The Board also considered management's discussion about the reasons for each applicable Fund's underperformance relative to its peer group or benchmark. With respect to the Virtus Rampart Alternatives Diversifier Fund, Virtus Rampart Equity Trend Fund, Virtus Rampart Global Equity Trend Fund, Virtus Rampart Multi-Asset Trend Fund and Virtus Rampart Sector Trend Fund, the Board also considered that each Fund had recently changed the subadviser(s), so that the performance shown was primarily that of the prior subadviser(s). After reviewing these and related factors, the Board concluded that each Fund's overall performance, or reasons discussed for underperformance and/or management's discussion of plans to address the underperformance, was satisfactory.

Management Fees and Total Expenses

The Board considered the fees charged to the Funds for advisory services as well as the total expense levels of the Funds. This information included comparisons of each Fund's net management fee and total expense level to those of its peer group (the "Expense Group"). In comparing each Fund's net management fee to that of comparable funds, the Board noted that in the materials presented such fee included both advisory and administrative fees. The Board also noted that certain of the Funds had fee waivers and/or expense caps in place to limit the total expenses incurred by those Funds and their shareholders. The Board also noted that the subadvisory fees were paid by VIA out of its management fees rather than paid separately by the Funds. In this regard, the Board took into account management's discussion with respect to the advisory/subadvisory fee structure, including the amount of the advisory fee retained by VIA after payment of the subadvisory fee. The Board also took into account the size of each of the Funds and the impact on expenses. The Subadvisers provided, and the Board considered, fee information of comparable accounts managed by the Subadvisers, as applicable.

In addition to the foregoing, the Board considered, among other data, the information set forth below with respect to each Fund's fees and expenses. In each case, the Board took into account management's discussion of the Fund's expenses, including the type and size of the Fund relative to the other funds in its Expense Group.

Virtus Duff & Phelps Global Infrastructure Fund. The Board considered that the Fund's net management fee and net total expenses were below the median of the Expense Group.

Virtus Duff & Phelps Global Real Estate Securities Fund. The Board considered that the Fund's net management fee after waivers and net total expenses after waivers were above the median of the Expense Group.

Virtus Duff & Phelps International Equity Fund. The Board considered that the Fund's net management fee after waivers was below the median of the Expense Group and net total expenses after waivers were above the median of the Expense Group.

Virtus Duff & Phelps International Real Estate Securities Fund. The Board considered that the Fund's net management fee after waivers was equal to the median of the Expense Group and net total expenses after waivers were above the median of the Expense Group.

Virtus Herzfeld Fund. The Board considered that the Fund's actual management fee after waivers and its net total expenses were above the median of the Expense Group. The Board also noted that the total expenses without indirect expenses were above the median.

Virtus Horizon International Wealth Masters Fund. The Board considered that the Fund's net management fee after waivers was below the median of the Expense Group and net total expenses after waivers were above the median of the Expense Group.

Virtus Horizon Wealth Masters Fund. The Board considered that the Fund's net management fee and net total expenses after waivers were above the median of the Expense Group.

Virtus KAR Emerging Markets Small-Cap Fund. The Board considered that the Fund's net management fee after waivers was below the median of the Expense Group and net total expenses after waivers were above the median of the Expense Group.

Virtus KAR International Small-Cap Fund. The Board considered that the Fund's net management fee after waivers and net total expenses after waivers were above the median of the Expense Group.

Virtus Rampart Alternatives Diversifier Fund. The Board considered that the Fund's actual management fee was below the median of the Expense Group and net total expenses were equal to the median of the Expense Group. The Board also noted that the total expenses without indirect expenses were below the median.

Virtus Rampart Equity Trend Fund. The Board considered that the Fund's actual management fee after waivers and its net total expenses were above the median of the Expense Group. The Board also noted that the total expenses without indirect expenses were above the median.

Virtus Rampart Global Equity Trend Fund. The Board considered that the Fund's actual management fee after waivers was above the median of the Expense Group, while its net total expenses were below the median of the Expense Group. The Board also noted that the total expenses without indirect expenses were above the median.

Virtus Rampart Low Volatility Equity Fund. The Board considered that the Fund's actual management fee after waivers was below the median of the Expense Group and net total expenses after waivers were above the median of the Expense Group.

Virtus Rampart Multi-Asset Trend Fund. The Board considered that the Fund's actual management fee was above the median of the Expense Group, while its net total expenses were below the median of the Expense Group. The Board also noted that the total expenses without indirect expenses were above the median.

Virtus Rampart Sector Trend Fund. The Board considered that the Fund's actual management fee and net total expenses were below the median of the Expense Group. The Board also noted that the total expenses without indirect expenses were below the median.

Virtus Vontobel Global Opportunities Fund. The Board considered that the Fund's net management fee and net total expenses were above the median of the Expense Group.

CONSIDERATION OF ADVISORY AND SUBADVISORY AGREEMENTS BY THE BOARD OF TRUSTEES (Continued)

Virtus Vontobel Greater European Opportunities Fund. The Board considered that the Fund's net management fee after waivers was below the median of the Expense Group and its net total expenses after waivers were above the median of the Expense Group.

The Board concluded that the advisory and subadvisory fees for each Fund, including with any proposed amendments, were fair and reasonable in light of the usual and customary charges made for services of the same nature and quality and the other factors considered.

Profitability

The Board also considered certain information relating to profitability that had been provided by VIA. In this regard, the Board considered information regarding the overall profitability, as well as on a fund-by-fund basis, of VIA for its management of the Funds and the other funds of the Trust, as well as its profits and those of its affiliates for managing and providing other services to the Trust, such as distribution, transfer agency and administrative services provided to the Funds by a VIA affiliate. In addition to the fees paid to VIA and its affiliates, including the applicable Subadvisers, the Board considered any other benefits derived by VIA or its affiliates from their relationships with the Funds. The Board reviewed the methodology used to allocate costs to each Fund, taking into account the fact that allocation methodologies are inherently subjective and various allocation methodologies may each be reasonable while producing different results. The Board concluded that the profitability to VIA and its affiliates from each Fund was reasonable in light of the quality of the services rendered to the Funds by VIA and its affiliates.

In considering the profitability to the Subadvisers in connection with their relationships to the Funds, the Board noted that the fees under the Subadvisory Agreements are paid by VIA out of the fees that VIA receives under the Advisory Agreement, so that Fund shareholders are not directly impacted by those fees. In considering the reasonableness of the fees payable by VIA to the affiliated Subadvisers, the Board noted that, because such Subadvisers are affiliates of VIA, such profitability might be directly or indirectly shared by VIA. In addition, with respect to Vontobel Asset Management, Inc., Horizon Asset Management LLC and Thomas J. Herzfeld Advisors, Inc., the unaffiliated Subadvisers, the Board relied on the ability of VIA to negotiate those Subadvisory Agreements and the fees thereunder at arm's length. For each of the above reasons, the Board concluded that the profitability to the Subadvisers and their affiliates from their relationship with the Funds was not a material factor in approval of the Subadvisory Agreements.

Economies of Scale

The Board received and discussed information concerning whether VIA realizes economies of scale as the Funds' assets grow. The Board noted that the management fees for several of the Funds included breakpoints based on assets under management, and that fee waivers and/or expense caps were also in place for certain Funds. The Board also took into account management's discussion of the Funds' management fee and subadvisory fee structure, including with respect to the Funds that do not currently have breakpoints. The Board also took into account the current size of the Funds. The Board concluded that no changes to the advisory fee structure of the Funds were necessary at this time. The Board noted that VIA and the Funds may realize certain economies of scale if the assets of the Funds were to increase, particularly in relationship to certain fixed costs, and that shareholders of the Funds would have an opportunity to benefit from these economies of scale.

For similar reasons as stated above with respect to the Subadvisers' profitability, and based upon the current size of the Fund(s) managed by each Subadviser, the Board concluded that the potential for economies of scale in the Subadvisers' management of the Funds was not a material factor in the approval of the Subadvisory Agreements at this time.

Other Factors

The Board considered other benefits that may be realized by VIA and each Subadviser and their respective affiliates from their relationships with the applicable Fund. Among them, the Board recognized that VP Distributors, LLC, an affiliate of VIA, serves as the distributor for the Trust, and, as such, receives payments pursuant to Rule 12b-1 from the Funds to compensate it for providing selling activities, which could lead to growth in the Trust's assets and corresponding benefits from such growth, including economies of scale. The Board noted that an affiliate of VIA also provides administrative and transfer agency services to the Trust. The Board noted management's discussion of the fact that, while certain of the Subadvisers are affiliates of VIA, there are no other direct benefits to the Subadvisers or VIA in providing investment advisory services to the Fund(s), other than the fee to be earned under the applicable Agreement(s). There may be certain indirect benefits gained, including to the extent that serving the Fund(s) could provide the opportunity to provide advisory services to additional portfolios of the Trust or certain reputational benefits.

Conclusion

Based on all of the foregoing considerations, the Board, including a majority of the Independent Trustees, determined that approval of each Agreement, as amended, was in the best interests of each applicable Fund and its respective shareholders. Accordingly, the Board, and the Independent Trustees voting separately, approved the Agreements, as amended, with respect to each Fund.
