RISK/RETURN SUMMARY INFORMATION

INVESTMENT OBJECTIVE

InfraCap REIT Preferred ETF (Ticker: PFFR) (the “**Fund**”) seeks investment results that correspond, before fees and expenses, to the price and yield performance of the Indxx REIT Preferred Stock Index (the “**Underlying Index**”).

FEES AND EXPENSES OF THE FUND

This table describes the fees and expenses that you may pay if you buy and hold shares of the Fund (“**Shares**”). Most investors will incur customary brokerage commissions when buying or selling Shares of the Fund, which are not reflected in the table or example set forth below.

Shareholder Fees (fees paid directly from your investment): None

Annual Fund Operating Expenses

(expenses that you pay each year as a percentage of the value of your investment):

Management Fee ¹	0.45%
Total Annual Fund Operating Expenses	0.45%

(1) The management fee is structured as a “unified fee.” The Fund’s investment adviser has delegated to the Fund’s sub-adviser the obligation to pay all of the ordinary operating expenses of the Fund, except for the following expenses, each of which is paid by the Fund: the management fee paid to the Fund’s adviser; payments under any 12b-1 plan adopted by the Fund; taxes and other governmental fees; brokerage fees, commissions and other transaction expenses; interest and other costs of borrowing; litigation or arbitration expenses; acquired fund fees and expenses; and extraordinary or other non-routine expenses of the Fund.

Example. This example is intended to help you compare the cost of investing in the Fund with the cost of investing in other funds. This example does not take into account brokerage commissions that you pay when purchasing or selling Shares of the Fund.

The example assumes that you invest \$10,000 in the Fund for the time periods indicated and then redeem all of your Shares at the end of those periods. The example also assumes that your investment has a 5% return each year and that the Fund’s operating expenses remain at current levels. Although your actual costs may be higher or lower, based on these assumptions your costs would be:

<u>1 Year</u>	<u>3 Years</u>	<u>5 Years</u>	<u>10 Years</u>
\$46	\$144	\$252	\$567

PORTFOLIO TURNOVER

The Fund pays transaction costs, such as commissions, when it buys and sells securities or other instruments (or “turns over” its portfolio). A higher portfolio turnover rate may indicate higher transaction costs and may result in higher taxes when Fund Shares are held in a taxable account. These costs, which are not reflected in annual Fund operating expenses or in the example, affect the Fund’s performance. During the fiscal period from February 7, 2017 (commencement of operations) to October 31, 2017, the Fund’s portfolio turnover rate was 91% of the average value of its portfolio.

PRINCIPAL INVESTMENT STRATEGY

Under normal market conditions, the Fund will invest not less than 90% of its assets in component securities of the Underlying Index. The Underlying Index is comprised of preferred securities listed on U.S. exchanges that are issued by real estate investment trusts (“**REITs**”).

What are preferred securities? Preferred securities are a class of equity security that typically pay fixed or floating dividends to investors and have “preference” over common stock (but are subordinated to bonds) in the payment of dividends and in the event of the bankruptcy or liquidation of a company’s assets. Although preferred securities represent an ownership interest in a company, preferred stockholders usually have no voting rights with respect to corporate matters of the issuer. Instead, preferred securities typically have rights and characteristics similar to debt instruments.

Preferred securities in the Underlying Index may include, without limitation, floating and fixed-rate preferred securities, callable preferred securities, cumulative and non-cumulative preferred securities, convertible preferred securities, trust preferred securities and depositary preferred securities.

What is a REIT? A REIT is a corporation, trust or association dedicated to owning, operating or financing income-producing real estate. To qualify as a REIT under the Internal Revenue Code of 1986, as amended (the “Code”), a REIT is required to distribute at least 90% of its taxable income to shareholders annually and receive at least 75% of that income from rents, mortgages and sales of property. A REIT that qualifies under the Code is generally not taxed on income that it distributes to its shareholders. The Underlying Index may include preferred securities issued by Equity REITs, Mortgage REITs or Hybrid REITs. Equity REITs, which invest the majority of their assets directly in real property, derive their income primarily from rental and lease income, but may also realize capital gains by selling properties that have appreciated in value. Mortgage REITs, which provide loans to owners and operators of real estate assets or hold or trade mortgages or mortgage-backed securities, derive their income primarily from interest payments made on the underlying mortgages. Hybrid REITs may invest in a combination of properties, mortgages and mortgage-backed securities.

The Underlying Index. The Underlying Index, which was launched in January 2015, is a modified market capitalization weighted index designed to provide diversified exposure to high yielding liquid preferred securities issued by REITs listed in the U.S. In a market capitalization weighted index, each component security is weighted by the issuer’s market capitalization relative to the overall capitalization of the index.

The Underlying Index was co-developed by Infrastructure Capital Advisors, LLC, the Fund’s sub-adviser (the “Sub-Adviser”), and Indxx, LLC (“Indxx”), the index provider of the Underlying Index. Indxx is not affiliated with the Fund, the Sub-Adviser, or the Fund’s adviser, Virtus ETF Advisers LLC. Indxx owns the Underlying Index and is solely responsible for calculating, maintaining and rebalancing the Underlying Index.

To be included in the Underlying Index, a security generally must meet the following minimum criteria as of each reconstitution date:

- Security Type: Preferred Securities
- Primary Exchange: United States
- Type of Issuer: REIT
- Market Capitalization: \$75 million or more
- 6 Month Average Monthly Trading Volume: 150,000 shares or more
- Yield to Worst (i.e., an estimate of the lowest potential yield that can be received on a preferred security without issuer default): 3% or more
- Constituent Weightings: No single issuer will exceed 10% of its representation in the Underlying Index. No REIT sub-sector will exceed 30% of the Underlying Index, upon rebalance, with the exception of the Diversified REIT sub-sector, which will not exceed 35%.

Once the investment universe is appropriately narrowed based on the foregoing criteria, all remaining securities are chosen as index constituents, which are then weighted based on their modified market capitalization. Indxx reconstitutes the Underlying Index on March 31 and September 30 of each year in accordance with the Underlying Index methodology. As of September 30, 2017, the Underlying Index contained 31 securities of 26 issuers.

Indxx’s Index Committee is responsible for setting policy, determining index composition, and administering the Underlying Index in accordance with the Underlying Index methodology. The Index Committee reserves the right to use qualitative judgment to include, exclude, adjust, or postpone the inclusion of a constituent. Continued index membership of a constituent is not necessarily subject to the Underlying Index methodology. A constituent may be considered for exclusion by the Index Committee on the basis of corporate governance, accounting policies, lack of transparency and lack of representation, despite meeting all the criteria provided in the Underlying Index methodology.

The Fund uses a “passive” or indexing investment approach to try to approximate the investment performance of the Underlying Index. Unlike many investment companies, the Fund will not seek to “beat” the performance of the

Underlying Index and will not seek temporary defensive measures when markets decline or appear overvalued. The Fund is not required to purchase all of the securities in the Underlying Index. Instead, the Sub-Adviser may invest in a representative sample of securities that, in the aggregate, approximates the key characteristics of the Underlying Index, including, without limitation, market capitalization, industry weightings, yield and liquidity measures.

Under normal market conditions, the Fund will invest not less than 80% of its net assets (plus the amount of any borrowings for investment purposes) in preferred securities of REITs. The Fund expects to concentrate its investments (i.e., to hold 25% or more of its total assets) in a particular industry or group of industries approximately to the same extent that the Underlying Index is concentrated. As of the date of this prospectus, the Underlying Index is concentrated in the real estate industry. The Fund is non-diversified, which means that it can invest a greater percentage of its assets in any one issuer than a diversified fund can.

PRINCIPAL RISKS

An investment in the Fund is subject to investment risks; therefore, you may lose money by investing in the Fund. There can be no assurance that the Fund will be successful in meeting its investment objective. Generally, the Fund will be subject to the following principal risks:

Market Risk. Market risk refers to the risk that the value of securities in the Fund's portfolio may decline due to daily fluctuations in the securities markets that are generally beyond the Sub-Adviser's control, including the quality of the Fund's investments, economic conditions, adverse investor sentiment, poor management decisions, lower demand for a company's goods or services and general equity market conditions. In a declining market, the prices for all securities (including those in the Fund's portfolio) may decline, regardless of their long-term prospects. Security values tend to move in cycles, with periods when securities markets generally rise and periods when they generally decline. During a "flash crash," the market prices of the Fund's Shares may decline suddenly and significantly. Such a decline may not reflect the performance of the portfolio securities held by the Fund. Flash crashes may cause Authorized Participants and other market makers to limit or cease trading in the Fund's Shares for temporary or longer periods. Shareholders could suffer significant losses to the extent that they sell Shares at these temporarily low market prices.

Passive Strategy/Index Risk. The Fund is managed with a passive investment strategy that seeks to track the performance of the Underlying Index. This differs from an actively managed fund, which typically seeks to outperform a benchmark index. As a result, the Fund may hold constituent securities of the Underlying Index regardless of the current or projected performance of a specific security or preferred REITs as a whole. Maintaining investments in securities regardless of market conditions or the performance of individual securities could cause the Fund's returns to be lower than if the Fund employed an active strategy. The Fund will seek to track the Underlying Index in all market conditions, including during adverse market conditions when other funds may seek to take temporary defensive measures (such as investing significantly in cash or cash equivalents). Accordingly, unless the Underlying Index allocates significant portions of its assets to cash and cash equivalents during times of adverse market or economic conditions, the Fund may be subject to a higher level of market risk during such times than other funds.

Index Tracking Risk. While the Sub-Adviser seeks to track the performance of the Underlying Index closely (i.e., to achieve a high degree of correlation with the Underlying Index), it will not seek to beat the performance of the Underlying Index. Further, the Fund's return may not match or achieve a high degree of correlation with the returns of the Underlying Index due to operating expenses, transaction costs, cash flows, regulatory requirements and operational inefficiencies.

Sampling Risk. Because the Fund will invest in a representative sample of the Underlying Index securities, the Fund will be subject to an increased risk of tracking error because the securities selected for the Fund in the aggregate may vary from the investment profile of the Underlying Index. If the Fund holds a smaller number of securities than the Underlying Index, an adverse development to an issuer of securities that the Fund holds could result in a greater decline in the net asset value ("NAV") of the Fund than would be the case if the Fund held all of the securities in the Underlying Index.

Real Estate Industry/REIT Risk. The Fund is subject to the risk that the value of stocks of REITs will decline because of adverse developments affecting the real estate industry and real property values. Such a decline could be precipitated by, among other things, general economic decline, deterioration in the real estate rental market, declines in real estate property demand, changes in interest rates, declines in the availability of real estate financing, increases in borrower

defaults, overbuilding, or other developments that reduce credit and cash positions of REITs and REIT operators on a local, regional or national level. REITs may also be adversely affected by poor management, failure to qualify as a REIT under the Code, environmental problems, property tax increases or changes in federal, state or local regulations. In addition to the above, Mortgage REITs are subject to the following risks: credit risk of the borrowers under the underlying mortgages, insufficient insurance, risks of investments in subprime mortgages, foreclosure risk, interest rate risk, risks of borrowing and leverage, and prepayment risk.

Concentration Risk. A fund concentrated in an industry or sector is likely to present more risks than a fund that is broadly invested in several industries or sectors. Compared to the broad market, an individual industry or sector may be more strongly affected by changes in the economic climate, broad market shifts, moves in a particular dominant stock or regulatory changes.

Interest Rate Risk. REITs may be particularly sensitive to changes in prevailing interest rates. The value of preferred securities will generally vary inversely with the direction of prevailing interest rates such that, generally, when interest rates rise, the value of REIT securities (including preferred securities) can be expected to decline. The current historically low interest rate environment increases the risk associated with rising interest rates.

Issuer Risk. The performance of the Fund depends on the performance of the issuers of the individual securities in which the Fund invests. Poor performance by any issuer may cause the value of its securities, and the value of the Fund's Shares, to decline.

Preferred Securities. There are special risks associated with investing in preferred securities, including:

- *Deferral and Omission.* Preferred securities may include provisions that permit the issuer, at its discretion, to defer or omit distributions for a stated period without any adverse consequences to the issuer. If the Fund owns a preferred security that is deferring or omitting its distributions, the Fund may be required to report income for tax purposes although it has not yet received such income.
- *Subordination.* Preferred securities are generally subordinated to bonds and other debt instruments in a company's capital structure in terms of having priority to corporate income and liquidation payments, and therefore will be subject to greater credit risk than more senior debt instruments.
- *Liquidity.* Preferred securities may be substantially less liquid than many other securities, such as common stocks or U.S. government securities.
- *Limited Voting Rights.* Generally, traditional preferred securities offer no voting rights with respect to the issuing company unless preferred dividends have been in arrears for a specified number of periods, at which time the preferred security holders may elect a number of directors to the issuer's board. Generally, once all the arrearages have been paid, the preferred security holders no longer have voting rights. In the case of hybrid-preferred securities, holders generally have no voting rights.
- *Special Redemption Rights.* In certain varying circumstances, an issuer of preferred securities may redeem the securities prior to a specified date. For instance, for certain types of preferred securities, a redemption may be triggered by certain changes in Federal income tax or securities laws. As with call provisions, a special redemption by the issuer may negatively impact the return of the security held by the Fund.

Small Capitalization Companies Risk. Investing in the securities of small capitalization companies generally involves greater risk than investing in larger, more established companies. The securities of small capitalization companies usually have more limited marketability and therefore may be more volatile and less liquid than securities of larger, more established companies or the market averages in general. Because small capitalization companies normally have fewer shares outstanding than larger companies, it may be more difficult to buy or sell significant amounts of their shares without an unfavorable impact on prevailing prices. Small capitalization companies often have limited product lines, markets, or financial resources and lack management depth, making them more susceptible to market pressures. Small capitalization companies are typically subject to greater changes in earnings and business prospects than larger, more established companies. Small capitalization companies may be particularly affected by interest rate increases, as they may find it more difficult to borrow money to continue or expand operations, or may have difficulty in repaying any loans which are floating rate. The foregoing risks are generally increased for smaller capitalization companies as compared to companies with larger capitalizations.

Non-Diversified Fund Risk. The Fund is considered non-diversified and can invest a greater portion of assets in securities of individual issuers than a diversified fund. As a result, changes in the market value of a single investment could cause greater fluctuations in share price than would occur in a diversified fund.

Fluctuation of NAV; Unit Premiums and Discounts. The NAV of the Fund's Shares will generally fluctuate with changes in the market value of the Fund's securities holdings. The market prices of Shares will generally fluctuate in accordance with changes in the Fund's NAV and supply and demand of Shares on the Exchange or any other exchange on which Shares are traded. It cannot be predicted whether Shares will trade below, at or above their NAV. Price differences may be due, in large part, to the fact that supply and demand forces at work in the secondary trading market for Shares will be closely related to, but not identical to, the same forces influencing the prices of the securities of the Fund trading individually or in the aggregate at any point in time. The market prices of Shares may deviate significantly from the NAV of the Shares during periods of market volatility. While the creation/redemption feature is designed to make it likely that Shares normally will trade close to the Fund's NAV, disruptions to creations and redemptions and/or market volatility may result in trading prices that differ significantly from the Fund's NAV. If an investor purchases Shares at a time when the market price is at a premium to the NAV of the Shares or sells at a time when the market price is at a discount to the NAV of the Shares, then the investor may sustain losses that are in addition to any losses caused by a decrease in NAV.

Costs of Buying or Selling Shares. Investors buying or selling Shares in the secondary market will pay brokerage commissions or other charges imposed by brokers as determined by those brokers. Brokerage commissions are often a fixed amount and may be a significant proportional cost for investors seeking to buy or sell relatively small amounts of Shares. In addition, secondary market investors will also incur the cost of the difference between the price that an investor is willing to pay for Shares (the "bid" price) and the price at which an investor is willing to sell Shares (the "ask" price). This difference in bid and ask prices is often referred to as the "spread" or "bid/ask spread". The bid/ask spread varies over time for Shares based on trading volume and market liquidity, and is generally lower if the Fund's Shares have more trading volume and market liquidity and higher if the Fund's Shares have little trading volume and market liquidity. Further, increased market volatility may cause increased bid/ask spreads. Due to the costs of buying or selling Shares, including bid/ask spreads, frequent trading of Shares may significantly reduce investment results, and an investment in Shares may not be advisable for investors who anticipate regularly making small investments.

Authorized Participant Risk. The Fund has a limited number of financial institutions that may act as Authorized Participants, none of which are obligated to engage in creation or redemption transactions. To the extent these Authorized Participants exit the business or are unable to process creation and/or redemption orders and no other Authorized Participant is able to step forward to process creation and/or redemption orders, in either of these cases, Shares of the Fund may trade like closed-end fund shares at a discount to NAV and possibly face delisting.

Fund Shares Liquidity Risk. Trading in Shares of the Fund may be halted because of market conditions or for reasons that, in the view of the Exchange, make trading in Shares inadvisable. In addition, trading in Shares is subject to trading halts caused by extraordinary market volatility pursuant to "circuit breaker" rules. There can be no assurance that the requirements necessary to maintain the listing of the Fund's Shares will continue to be met or will remain unchanged. During stressed market conditions, the liquidity of Fund Shares may be less than the liquidity of the securities in the Fund's portfolio, which may be significantly less than the liquidity of other ETFs.

No Assurance of Active Trading Market. Although the Shares in the Fund are approved for listing on the Exchange, there can be no assurance that an active trading market will develop and be maintained for the Shares of the Fund. Further, market makers (other than lead market makers) have no obligation to make markets in the Fund's shares and may discontinue doing so at any time without notice. There can be no assurance that the Fund will grow to or maintain an economically viable size, in which case the Fund may ultimately liquidate.

PERFORMANCE INFORMATION

The Fund is new and therefore does not have performance history for a full calendar year. Performance information for the Fund will be provided once it has annual returns for a full calendar year. The Fund's past performance (before and after taxes) is not necessarily an indication of how the Fund will perform in the future.

MANAGEMENT OF THE FUND

INVESTMENT ADVISER AND SUB-ADVISER

Virtus ETF Advisers LLC is the Fund's investment adviser (the "**Adviser**"). ETFis Series Trust I (the "**Trust**") and the Adviser have engaged Infrastructure Capital Advisors, LLC as the Fund's sub-adviser (the "**Sub-Adviser**") to manage the Fund's investments, subject to the oversight and supervision of the Adviser and the Board of Trustees of the Trust (the "**Board**").

PORTFOLIO MANAGERS

Jay D. Hatfield, co-founder and president of the Sub-Adviser, and Edward F. Ryan, co-founder, chief financial officer, chief compliance officer and chief operating officer of the Sub-Adviser, are the Fund's portfolio managers and have served in such positions since the inception of the Fund's operations.

PURCHASE AND SALE OF FUND SHARES

Unlike conventional investment companies, the Fund issues and redeems Shares on a continuous basis, at NAV, only in blocks of 50,000 Shares or whole multiples thereof ("**Creation Units**"). The Fund's Creation Units may be issued and redeemed, principally in-kind for securities included in the Fund, only by certain large institutions, referred to as "**Authorized Participants**", that enter into agreements with the Fund's principal underwriter. Retail investors may acquire and sell Shares only on the Exchange through a broker-dealer. Shares of the Fund will trade on the Exchange at market price rather than NAV. As such, Shares may trade at a price greater than NAV (premium) or less than NAV (discount).

TAX INFORMATION

The Fund's distributions generally are taxed as ordinary income, capital gains or some combination of both, unless you are investing through a tax-advantaged arrangement, such as a 401(k) plan or an IRA, in which case your distributions may be taxed as ordinary income when withdrawn from such arrangement.

PAYMENTS TO BROKER-DEALERS AND OTHER FINANCIAL INTERMEDIARIES

If you purchase the Fund through a broker-dealer or other financial intermediary (such as a bank), the Adviser or the Sub-Adviser may pay the intermediary for the sale of Fund Shares and related services. These payments may create a conflict of interest by influencing the broker-dealer or other intermediary and your salesperson to recommend the Fund over another investment. Ask your salesperson or visit your financial intermediary's website for more information.

ADDITIONAL INFORMATION REGARDING THE FUND'S INVESTMENT OBJECTIVE, STRATEGIES AND RISKS

Additional Information Regarding the Fund's Objective. The investment objective of the Fund may be changed by the Board without shareholder approval upon 60 days' notice to the shareholders. There is no guarantee that the Fund will achieve its objective.

Additional Information Regarding the Fund's Investments. The Fund's 80% investment policy is non-fundamental and may be changed without shareholder approval upon 60 days' notice to the shareholders. Certain fundamental and non-fundamental policies of the Fund are set forth in the Fund's Statement of Additional Information (the "SAI") under "Investment Limitations."

To the extent that the Fund is not invested in securities of the Underlying Index, the Fund may invest in other investments that the Fund believes will help it track the Underlying Index, including cash and cash equivalents, and shares of other registered investment companies (e.g., mutual funds and ETFs).

Additional Information Regarding the Fund's Investment Risks. In addition to the Fund's principal investment risks, an investment in the Fund is also subject to the following risks:

ETF and other Registered Investment Company Risk. The Fund may invest in ETFs or other registered investment companies. Through its positions in ETFs and other registered investment companies, the Fund will be subject to the risks associated with such vehicles' investments, including the possibility that the value of the securities or instruments held by an ETF or other registered investment company could decrease (or increase). Investments in ETFs and other registered investment companies are also subject to the following additional risks:

- *Market Value Risk.* The market value of an ETF's shares may differ from its NAV. This difference in price may be due to the fact that the supply and demand in the market for ETF shares at any point in time is not always identical to the supply and demand in the market for the underlying basket of securities. Accordingly, there may be times when an ETF trades at a premium (creating the risk that the Fund pays more than NAV for an ETF when making a purchase) or discount (creating the risks that the Fund's NAV is reduced for undervalued ETFs it holds, and that the Fund receives less than NAV when selling an ETF).
- *Tracking Risk.* Index-based ETFs and other registered investment companies in which the Fund invests may not be able to replicate exactly the performance of the indices they track because the total return generated by the securities will be reduced by transaction costs incurred in adjusting the actual balance of the securities. In addition, index-based ETFs and other registered investment companies in which the Fund invests may incur expenses not incurred by their applicable indices. Certain securities comprising the indices may, from time to time, temporarily be unavailable, which may further impede an ETF's or other registered investment company's ability to track its applicable index or match its performance.
- *Investment Limitation.* Under the Investment Company Act of 1940 Act, as amended ("1940 Act"), the Fund may not acquire shares of an ETF or other registered investment company if, immediately after such acquisition, the Fund and its affiliated persons would hold more than 3% of the ETF's or investment company's total outstanding shares unless (i) the ETF or other investment company or the Fund has received an order for exemptive relief from the 3% limitation from the U.S. Securities and Exchange Commission ("SEC") that is applicable to the Fund; and (ii) the ETF or other investment company and the Fund take appropriate steps to comply with any conditions in such order. Accordingly, the 3% limitation may prevent the Fund from allocating its investments in the manner the Sub-Adviser considers optimal, or may cause the Sub-Adviser to select an investment other than that which the Sub-Adviser considers optimal.
- *Expenses.* To the extent the Fund invests in ETFs or other registered investment companies, your cost of investing in the Fund will generally be higher than the cost of investing directly in those ETFs or other registered investment companies, because you will indirectly bear fees and expenses charged by the underlying ETFs and registered investment companies in which the Fund invests in addition to the Fund's direct fees and expenses. Furthermore, the Fund's investments in ETFs or other registered investment companies could affect the timing, amount and character of the Fund's distributions and therefore may increase the amount of your tax liability.

- *Sampling Risk.* The index-based ETFs in which the Fund invests may utilize a representative sampling approach to track their respective underlying indices. ETFs that utilize a representative sampling approach are subject to an increased risk of tracking error because the securities selected for the ETF in the aggregate may vary from the investment profile of the underlying index. Additionally, if using a representative sampling approach, an ETF will typically hold a smaller number of securities than the underlying index, and as a result, an adverse development to an issuer of securities that the ETF holds could result in a greater decline in NAV than would be the case if the ETF held all of the securities in the underlying index.

Redeeming Risk. Shares in the Fund may be redeemed only in Creation Units. Shares may not be redeemed in fractional Creation Units. Only Authorized Participants are authorized to transact in Creation Units with the Fund. All other persons or entities transacting in Shares must do so in the secondary market.

Early Closing Risk. An unanticipated early closing of the Exchange may result in a shareholder's inability to buy or sell Shares of the Fund on that day.

Disclosure of Portfolio Holdings. The Fund's portfolio holdings will be disclosed on the Fund's website (www.virtusetfs.com) daily after the close of trading on the Exchange and prior to the opening of trading on the Exchange the following day.

MANAGEMENT OF THE FUND

INVESTMENT ADVISER

The Fund's investment adviser is Virtus ETF Advisers LLC, located at 1540 Broadway, New York, NY 10036. The Adviser was organized as a Delaware limited liability company in August 2013 and, since April 2015, has been a majority-owned subsidiary of Virtus Partners, Inc., a wholly owned subsidiary of Virtus Investment Partners, Inc. (ticker: VRTS) (together with its affiliates, "**Virtus**"). Virtus is a public company that operates a multi-manager asset management business and has substantial experience in the investment management and investment company industries. As of December 31, 2017, on a collective basis, Virtus-affiliated registered investment advisers managed approximately \$79.2 billion in assets.

The Adviser has served as the Fund's investment adviser since inception of the Fund's operations pursuant to an investment advisory agreement with the Trust on behalf of the Fund. The Adviser is responsible for the oversight and management of all service providers to the Trust. The Adviser has engaged the Sub-Adviser to manage the Fund's investments in accordance with the stated investment objective and policies of the Fund, subject to the oversight and supervision of the Adviser and the Board, and will oversee the Sub-Adviser's compliance with the terms and conditions of the ETF exemptive order issued to the Adviser and the Trust. The Adviser also assists with: (a) non-advisory operations of the Fund, (b) the preparation and submission of reports to existing shareholders, (c) the periodic updating of prospectuses and statements of additional information, (d) the preparation of reports to be filed with the SEC and other regulatory authorities, and (e) maintaining certain of the Fund's records.

Adviser Compensation. The Adviser receives a monthly advisory fee from the Fund at the annual rate of the greater of 0.45% of the Fund's average daily net assets or \$25,000 per year (the "Advisory Fee"). The Advisory Fee is structured as a "unified fee." The Adviser has delegated to the Sub-Adviser the obligation to pay all of the ordinary operating expenses of the Fund, except for the following expenses, each of which is paid by the Fund: the Advisory Fee; payments under any 12b-1 plan adopted by the Fund; taxes and other governmental fees; brokerage fees, commissions and other transaction expenses; interest and other costs of borrowing; litigation or arbitration expenses; acquired fund fees and expenses; and extraordinary or other non-routine expenses of the Fund.

INVESTMENT SUB-ADVISER

The Fund's sub-adviser is Infrastructure Capital Advisors, LLC, 1325 Avenue of the Americas, 28th Floor, New York, NY 10019. The Sub-Adviser serves in that capacity pursuant to a sub-advisory contract (the "**Sub-Advisory Agreement**") with the Adviser and the Trust on behalf of the Fund as approved by the Board. The Sub-Adviser makes day-to-day investment decisions for the Fund and selects broker-dealers for executing portfolio transactions, subject to

the Sub-Adviser's best execution obligations and the Trust's and the Sub-Adviser's brokerage policies. The Adviser, however, will continue to have overall responsibility for the management and investment of the assets and responsibility for all advisory services furnished by the Sub-Adviser, and will supervise the Sub-Adviser in the performance of its duties for the Fund pursuant to written policies and procedures designed to prevent violations of applicable laws and regulations, Board procedures, and the provisions of the Fund's prospectus and SAI, as supplemented from time to time.

The Sub-Adviser was organized as a New York limited liability company in January 2012. The Sub-Adviser has served as the sub-adviser of the Fund since the inception of the Fund's operations. The Sub-Adviser is controlled by Jay D. Hatfield, its co-founder and president. Mr. Hatfield has been managing investments for clients, including private investment funds, since 2001. As of December 31, 2017, the Sub-Adviser had approximately \$851.8 million in assets under management.

Sub-Adviser Compensation. The Adviser pays the Sub-Adviser out of the Advisory Fee it receives from the Fund. The Adviser retains a portion of the Advisory Fee that is equal to the greater of (i) an annualized rate of 0.075% of the average daily net asset value of the Fund, during the prior calendar month, or (ii) a minimum annual fee of \$25,000 per calendar year. The remainder of the Advisory Fee is paid by the Adviser to the Sub-Adviser as full compensation for its services.

Disclosure Regarding Advisory Agreement Approval. A discussion regarding the basis for the Board's most recent approval of the investment advisory agreement and investment sub-advisory agreement for the Fund is available in the Fund's semi-annual report for the fiscal period ended April 30, 2017. You may obtain a copy of the Fund's annual and semi-annual reports, without charge, upon request to the Fund.

PORTFOLIO MANAGERS

Jay D. Hatfield, co-founder and president of the Sub-Adviser, and Edward F. Ryan, co-founder, chief financial officer, chief compliance officer and chief operating officer of the Sub-Adviser, have served as portfolio managers for the Fund since the inception of the Fund's operations. The portfolio managers are jointly and primarily responsible for the day-to-day management of the Fund's portfolio.

Mr. Hatfield is the Chief Executive Officer of Infrastructure Capital Management, LLC ("ICM"), a private investment company that he founded in 2002.

Prior to founding ICM, Mr. Hatfield was a portfolio manager with SAC Capital Advisors, where he managed a \$500 million infrastructure fund focused on investing in credit instruments and infrastructure-related equities. Before joining SAC, Mr. Hatfield was a Managing Director and Head of Fixed Income Research at Zimmer Lucas Partners, where he was responsible for directing research for credit funds, including infrastructure related equities in the energy and utility sectors. Mr. Hatfield began his investment banking career at Morgan Stanley & Co. Inc., where he spent over 10 years as an investment banker advising clients in the utility, power and energy industries. Mr. Hatfield began his career as an auditor and consultant at Arthur Young & Co. (now Ernst & Young), where he was a Certified Public Accountant and consultant, auditing and providing consulting services to companies in the technology, biotechnology and retailing industries.

Mr. Hatfield has a Master of Business Administration degree from the Wharton School, University of Pennsylvania, where he specialized in Finance and graduated with distinction and as a member of the Beta Gamma Sigma honor society. Mr. Hatfield also has a Bachelor of Science degree in Managerial Economics from the University of California, Davis.

Mr. Ryan is a co-founder, Chief Financial Officer, Chief Compliance Officer and the Chief Operating Officer of the Sub-Adviser. Prior to co-founding the Sub-Adviser, Mr. Ryan was engaged in venture capital projects in the financial technology sector. Prior to his venture capital activities, he was founder and Managing Partner of Mansion Partners, LP, a private investment partnership focused on value stocks and special situations, which he ran for twelve years.

Before launching his own investment management business, Mr. Ryan was Vice President and Director of Ansbacher (Dublin) Asset Management, Ltd., where he was part of a small team managing investments in global equity and fixed income markets for an offshore investment company and U.S. trusts and foundations. His primary investment focus was on financially troubled utilities, real estate investment trusts (REITs) and banks and thrifts.

Prior to joining Ansbacher, he was an Investment Analyst and the Secretary/Treasurer at J. Rothschild Capital Management Corp., a unit of RIT Capital Partners plc. Mr. Ryan was a member of the team that launched the U.S. operation, where he evaluated U.S. investment opportunities and managed all corporate financial functions. Mr. Ryan began his career at The Bank of New York, where he was a Senior Industry Analyst specializing in the oil service industry.

Mr. Ryan has a Master of Business Administration from the Graduate School of Business at Columbia University with a concentration in finance. He also has a Bachelor of Arts degree in Accounting from Saint John's University (MN).

Additional Information. Additional information about the portfolio managers' compensation, other accounts managed by the portfolio managers and the portfolio managers' ownership of Shares of the Fund is available in the Fund's SAI.

BOARD OF TRUSTEES

The Fund is a non-diversified series of the Trust, an open-end management investment company organized as a Delaware statutory trust on September 20, 2012. The Board supervises the operations of the Trust and the Fund according to applicable state and federal law, and is responsible for the overall management of the Fund's business affairs.

OPERATIONAL ADMINISTRATOR

Virtus ETF Solutions LLC (the "**Administrator**"), located at 1540 Broadway, New York, NY 10036, serves as the Fund's operational administrator. The Administrator supervises the overall administration of the Trust and the Fund including, among other responsibilities, the coordination and day-to-day oversight of the Fund's operations, the service providers' communications with the Fund and each other and assistance with Trust, Board and contractual matters related to the Fund and other series of the Trust. The Administrator also provides persons satisfactory to the Board to serve as officers of the Trust.

ACCOUNTING SERVICES ADMINISTRATOR, CUSTODIAN AND TRANSFER AGENT

The Bank of New York Mellon ("**BNY Mellon**"), located at 101 Barclay Street, New York, NY 10007, directly and through its subsidiary companies, provides necessary administrative, accounting, tax and financial reporting for the maintenance and operations of the Trust as the Fund's accounting services administrator. BNY Mellon also serves as the custodian for the Fund's assets, and serves as transfer agent and dividend paying agent for the Fund.

DISTRIBUTOR

ETF Distributors LLC (the "**Distributor**"), located at 1540 Broadway, New York, NY 10036, serves as the distributor of Creation Units for the Fund on an agency basis. The Distributor does not maintain a secondary market in Shares.

INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

PricewaterhouseCoopers LLP, located at Two Commerce Square, Suite 1800, 2001 Market Street, Philadelphia, PA 19103, serves as the independent registered public accounting firm for the Trust and the Fund.

LEGAL COUNSEL

Stradley Ronon Stevens & Young, LLP, located at 2005 Market Street, Suite 2600, Philadelphia, PA 19103, serves as counsel to the Trust and the Independent Trustees.

EXPENSES OF THE FUND

The Fund pays all expenses not assumed by the Sub-Adviser. General Trust expenses that are allocated among and charged to the assets of the Fund and other series of the Trust are done so on a basis that the Board deems fair and equitable, which may be on a basis of relative net assets of the Fund and other series of the Trust or the nature of the services performed and relative applicability to the Fund and other series of the Trust.

INVESTING IN THE FUND

DISTRIBUTION AND SERVICE PLAN

The Board has adopted on behalf of the Fund a Distribution and Service Plan pursuant to Rule 12b-1 under the 1940 Act. In accordance with its Rule 12b-1 plan, the Fund is authorized to pay an amount up to 0.25% of its average daily net assets each year to finance activities primarily intended to result in the sale of Creation Units of the Fund or the provision of investor services. No Rule 12b-1 fees are currently paid by the Fund, and there are no current plans to impose these fees. However, in the event Rule 12b-1 fees are charged in the future, they will be paid out of the respective Fund's assets, and over time these fees will increase the cost of your investment and may cost you more than certain other types of sales charges.

The Adviser and its affiliates may, out of their own resources, pay amounts to third parties for distribution or marketing services on behalf of the Fund. The making of these payments could create a conflict of interest for a financial intermediary receiving such payments.

DETERMINATION OF NET ASSET VALUE

The NAV of the Shares for the Fund is equal to the Fund's total assets minus the Fund's total liabilities divided by the total number of Shares outstanding. Interest and investment income on the Trust's assets accrue daily and are included in the Fund's total assets. Expenses and fees (including investment advisory, management, administration and distribution fees, if any) accrue daily and are included in the Fund's total liabilities. The NAV that is published is rounded to the nearest cent; however, for purposes of determining the price of Creation Units, the NAV is calculated to five decimal places.

The pricing and valuation of portfolio securities is determined in good faith in accordance with procedures approved by, and under the direction of, the Board. In determining the value of the Fund's assets, equity securities are generally valued at market using quotations from the primary market in which they are traded. Debt securities (other than short-term investments) are valued on the basis of broker quotes or valuations provided by a pricing service, which in determining value utilizes information regarding recent sales, market transactions in comparable securities, quotations from dealers, and various relationships between securities. Short-term investments having a remaining maturity of 60 days or less are valued at amortized cost, which approximates market value. Other assets, such as accrued interest, accrued dividends and cash are also included in determining the NAV. The Fund normally uses third party pricing services to obtain market quotations.

Securities and assets for which market quotations are not readily available or which cannot be accurately valued using the Fund's normal pricing procedures are valued by the Trust's Fair Value Pricing Committee at fair value as determined in good faith under policies approved by the Board. Fair value pricing may be used, for example, in situations where (i) portfolio securities, such as securities with small capitalizations, are so thinly traded that there have been no transactions for that security over an extended period of time; (ii) an event occurs after the close of the exchange on which a portfolio security is principally traded that is likely to change the value of the portfolio security prior to the Fund's NAV calculation; (iii) the exchange on which the portfolio security is principally traded closes early; or (iv) trading of the particular portfolio security is halted during the day and does not resume prior to the Fund's NAV calculation. Pursuant to policies adopted by the Board, the Adviser consults with BNY Mellon and the Sub-Adviser on a regular basis regarding the need for fair value pricing. The Fund's policies regarding fair value pricing are intended to result in a calculation of the Fund's NAV that fairly reflects portfolio security values as of the time of pricing. A portfolio security's "fair value" price may differ from the price next available for that portfolio security using the Fund's normal pricing procedures, and the fair value price may differ substantially from the price at which the security may ultimately be traded or sold. If the fair value price differs from the price that would have been determined using the Fund's normal pricing procedures, you may receive more or less proceeds or Shares from redemptions or purchases of Fund Shares, respectively, than you would have otherwise received if the portfolio security were priced using the Fund's normal pricing procedures and the prices used to determine the Fund's Indicative Intra-Day Value ("IIV"), which could result in the market prices for Shares deviating from NAV. The performance of the Fund may also be affected if a portfolio security's fair value price were to differ from the security's price using the Fund's normal pricing procedures. The Board monitors and evaluates the Fund's use of fair value pricing, and periodically reviews the results of any fair valuation under the Trust's policies.

To the extent the assets of the Fund are invested in other open-end investment companies that are registered under the 1940 Act, the Fund's NAV is calculated based upon the NAVs reported by such registered open-end investment companies, and the prospectuses for these companies explain the circumstances under which they will use fair value pricing and the effects of using fair value pricing.

The NAV is determined as of the close of regular trading on the Exchange, normally 4:00 p.m. Eastern time, on each day that the Exchange is open for business. Currently, the Exchange is closed on weekends and in recognition of the following holidays: New Year's Day, Martin Luther King, Jr. Day, Presidents' Day, Good Friday, Memorial Day, Independence Day, Labor Day, Thanksgiving Day and Christmas Day.

INDICATIVE INTRA-DAY VALUE

The approximate value of the Fund's investments on a per-Share basis, the Indicative Intra-Day Value, or IIV, is disseminated by the Exchange every 15 seconds during hours of trading on the Exchange. The IIV should not be viewed as a "real-time" update of NAV because the IIV may not be calculated in the same manner as NAV, which is computed once per day.

The IIV for the Fund is calculated during hours of trading on the Exchange by dividing the "Estimated Fund Value" as of the time of the calculation by the total number of outstanding Shares of that Fund. "**Estimated Fund Value**" is the sum of the estimated amount of cash held in the Fund's portfolio, the estimated amount of accrued interest owed to the Fund and the estimated value of the securities held in the Fund's portfolio, minus the estimated amount of the Fund's liabilities. The IIV will be calculated based on the same portfolio holdings disclosed on the Fund's website at www.virtusetfs.com.

The IIV calculations are based on local market prices and may not reflect events that occur subsequent to the local market's close, which could affect premiums and discounts between the IIV and the market price of the Fund's shares. Although the Trust provides information used to calculate the IIV, the Trust is not involved in the actual calculation of the IIV and is not responsible for the calculation or dissemination of the IIV. The Trust makes no warranty as to the accuracy of the IIV.

PREMIUM/DISCOUNT INFORMATION

Information regarding the extent and frequency with which market prices of Shares have tracked the Fund's NAV for the most recently completed calendar year and the most recently completed calendar quarters since that year will be available without charge on the Fund's website.

FREQUENT TRADING

The Board has not adopted policies and procedures with respect to frequent purchases and redemptions of Fund Shares by Fund shareholders ("**market timing**"). In determining not to adopt market timing policies and procedures, the Board noted that, unlike traditional mutual funds, the Fund's Shares can only be purchased and redeemed directly from the Fund in Creation Units by Authorized Participants, and that the vast majority of trading in the Fund's Shares occurs on the secondary market. Because secondary market trades do not involve the Fund directly, it is unlikely those trades would cause many of the harmful effects of market timing, including dilution, disruption of portfolio management, increases in the Fund's trading costs and the realization of capital gains. With respect to trades directly with the Fund, to the extent effected in-kind (namely, for securities), those trades do not cause any of the harmful effects that may result from frequent cash trades. To the extent trades are effected in whole or in part in cash, the Board noted that those trades could result in dilution to the Fund and increased transaction costs (and the Fund may impose higher transaction fees to offset these increased costs), which could negatively impact the Fund's ability to achieve its investment objective. However, the Board noted that direct trading on a short-term basis by Authorized Participants is critical to ensuring that the Fund's Shares trade at or close to NAV. The Fund also imposes transaction fees on purchases and redemptions of Creation Units that are designed to offset the Fund's transfer and other transaction costs associated with the issuance and redemption of Creation Units. Given this structure, the Board determined that it is not necessary to adopt market timing policies and procedures. The Fund reserves the right to reject any purchase order at any time and reserves the right to impose restrictions on disruptive or excessive trading in Creation Units.

The Board has instructed the officers of the Trust to review reports of purchases and redemptions of Creation Units on a regular basis to determine if there is any unusual trading in the Fund's Shares. The officers of the Trust will report to the Board any such unusual trading in Creation Units that is disruptive to the Fund. In such event, the Board may reconsider its decision not to adopt market timing policies and procedures.

DISTRIBUTIONS

The Fund intends to qualify each year as a regulated investment company under the Code. As a regulated investment company, the Fund generally pays no federal income tax on the income and gains it distributes to shareholders. The Fund expects to distribute substantially all of its net investment income quarterly and its net realized capital gains, if any, at least annually. The Fund may distribute such income dividends and capital gains more frequently, if necessary, in order to reduce or eliminate federal excise or income taxes on the Fund. The amount of any distribution will vary, and there is no guarantee the Fund will pay either an income dividend or a capital gains distribution. Distributions may be reinvested automatically in additional whole Shares only if the broker through whom you purchased Shares makes such option available.

Each year, you will receive an annual statement (Form 1099) of your account activity to assist you in completing your federal, state and local tax returns. Distributions declared in December to shareholders of record in such month, but paid in January, are taxable as if they were paid in December. The Fund makes every effort to search for reclassified income to reduce the number of corrected forms mailed to you. However, when necessary, you will receive a corrected Form 1099 to reflect reclassified information.

At the time you purchase your Fund Shares, the price of Shares may reflect undistributed income, undistributed capital gains, or net unrealized appreciation in value of portfolio securities held by the Fund. For taxable investors, a subsequent distribution to you of such amounts, although constituting a return of your investment, would be taxable. Buying Shares in the Fund just before it declares an income dividend or capital gains distribution is sometimes known as "buying a dividend."

FEDERAL INCOME TAXES

FUND DISTRIBUTIONS

The Fund expects, based on its investment objective and strategies, that its distributions, if any, will be taxable as ordinary income, capital gains, or some combination of both. This is true whether you reinvest your distributions in additional Fund Shares or receive them in cash. For federal income tax purposes, Fund distributions of short-term capital gains are taxable to you as ordinary income. Fund distributions of long-term capital gains are taxable to you as long-term capital gains no matter how long you have owned your Shares. Because the income of the Fund is primarily derived from investments in U.S. REITs, generally none or only a small portion of the income dividends reported by the Fund is anticipated to be qualified dividend income eligible for taxation by individuals at long-term capital gain tax rates.

Because of "noncash" expenses such as property depreciation, the cash flow of a REIT that owns properties will exceed its taxable income. The REIT, and in turn the Fund, may distribute this excess cash to shareholders. Such a distribution is classified as a return of capital. Return of capital distributions generally are not taxable to you. Your cost basis in your Fund shares will be decreased by the amount of any return of capital. Any return of capital distributions in excess of your cost basis will be treated as capital gain.

Under 2017 legislation commonly known as the Tax Cuts and Jobs Act "qualified REIT dividends" (i.e., ordinary REIT dividends other than capital gain dividends and portions of REIT dividends designated as qualified dividend income) are treated as eligible for a 20% deduction by noncorporate taxpayers. The Tax Cuts and Jobs Act does not contain a provision permitting a regulated investment company, such as the Portfolio, to pass the special character of this income through to its shareholders. It is uncertain whether a future technical corrections bill or regulations issued by the IRS will address this issue to enable the Portfolio to pass through the special character of "qualified REIT dividends" to its shareholders.

SALE OF FUND SHARES

A sale of Fund Shares is a taxable event and, accordingly, a capital gain or loss may be recognized. Currently, any capital gain or loss realized upon a sale of Fund Shares generally is treated as long-term capital gain or loss if the Shares have been held for more than one year and as short-term capital gain or loss if the Shares have been held for one year or less. The ability to deduct capital losses may be limited.

TAX TREATMENT OF FUND SHAREHOLDERS

An additional 3.8% Medicare tax is imposed on certain net investment income (including ordinary dividends and capital gain distributions received from the Fund and net gains from taxable dispositions of Fund Shares) of U.S. individuals, estates and trusts to the extent that such person's "modified adjusted gross income" (in the case of an individual) or "adjusted gross income" (in the case of an estate or trust) exceeds a threshold amount. This Medicare tax, if applicable, is reported by you on, and paid with, your federal income tax return.

Fund distributions and gains from the sale of your Fund Shares generally are subject to state and local taxes.

Non-U.S. investors may be subject to U.S. withholding tax at a 30% or lower treaty rate and U.S. estate tax and are subject to special U.S. tax certification requirements to avoid backup withholding and claim any treaty benefits. Exemptions from U.S. withholding tax are provided for certain capital gain dividends paid by the Fund from net long-term capital gains, interest-related dividends and short-term capital gain dividends, if such amounts are reported by the Fund. However, notwithstanding such exemptions from U.S. withholding at the source, any such dividends and distributions of income and capital gains will be subject to backup withholding at a rate of 24% if you fail to properly certify that you are not a U.S. person.

Under the Foreign Account Tax Compliance Act ("FATCA"), a 30% withholding tax is imposed on payments or distributions made by the Fund to certain foreign entities, referred to as foreign financial institutions or nonfinancial foreign entities, that fail to comply (or be deemed compliant) with extensive reporting and withholding requirements designed to inform the U.S. department of the Treasury of U.S.-owned foreign investment accounts: (a) income dividends and (b) after December 31, 2018, certain capital gain distributions, return of capital distributions and the proceeds arising from the sale of Fund Shares. Information about a shareholder in the Fund may be disclosed to the IRS, non-U.S. taxing authorities or other parties as necessary to comply with FATCA. Withholding also may be required if a foreign entity that is a shareholder of the Fund fails to provide the appropriate certifications or other documentation concerning its status under FATCA.

WITHHOLDING

By law, if you do not provide your proper taxpayer identification number and certain required certifications, you may be subject to backup withholding on any distributions of income, capital gains or proceeds from the sale of your Shares. Withholding is also imposed if the Internal Revenue Service ("IRS") requires it. When withholding is required, the amount will be 24% of any distributions or proceeds paid.

CREATION UNITS

An Authorized Participant who exchanges equity securities for Creation Units generally will recognize a gain or a loss. The gain or loss will be equal to the difference between the market value of the Creation Units at the time of purchase (plus any cash received by the Authorized Participant as part of the issue) and the Authorized Participant's aggregate basis in the securities surrendered (plus any cash paid by the Authorized Participant as part of the issue). An Authorized Participant who exchanges Creation Units for equity securities generally will recognize a gain or loss equal to the difference between the Authorized Participant's basis in the Creation Units (plus any cash paid by the Authorized Participant as part of the redemption) and the aggregate market value of the securities received (plus any cash paid by the Authorized Participant as part of the redemption). The IRS, however, may assert that a loss realized upon an exchange of securities for Creation Units cannot be deducted currently under the rules governing "wash sales," or on the basis that there has been no significant change in economic position. Persons exchanging securities should consult their own tax advisor with respect to whether the wash sale rules apply and when a loss might be deductible.

Under current federal tax laws, any capital gain or loss realized upon redemption of Creation Units is generally treated as long-term capital gain or loss if the Shares have been held for more than one year and as a short-term capital gain or loss if the Shares have been held for one year or less.

If the Fund redeems Creation Units in cash, it may recognize more capital gains than it will if it redeems Creation Units in-kind.

This discussion of “Federal Income Taxes” is not intended or written to be used as tax advice. Because everyone’s tax situation is unique, you should consult your tax professional about federal, state, local or foreign tax consequences before making an investment in the Fund. For additional information, see the “Taxation” section of the Statement of Additional Information.

FUND WEBSITE AND DISCLOSURE OF PORTFOLIO HOLDINGS

The Trust maintains a website for the Fund at www.virtusetfs.com. The website for the Fund contains the following information, on a per- Share basis, for the Fund: (i) the prior Business Day’s NAV; (ii) the reported midpoint of the bid-ask spread at the time of NAV calculation (the “**Bid-Ask Price**”); (iii) a calculation of the premium or discount of the Bid-Ask Price against such NAV; and (iv) data in chart format displaying the frequency distribution of discounts and premiums of the Bid-Ask Price against the NAV, within appropriate ranges, for each of the four previous calendar quarters (or for the life of the Fund if, shorter). In addition, on each Business Day, before the commencement of trading in Shares on the Exchange, the Trust will disclose on the Fund’s website the identities and quantities of the portfolio securities and other assets held by the Fund that will form the basis for the calculation of NAV at the end of the Business Day.

A description of the Trust’s policies and procedures with respect to the disclosure of the Fund’s portfolio securities is available in the SAI.

OTHER INFORMATION

The Fund is not sponsored, endorsed, sold or promoted by the Exchange. The Exchange makes no representation or warranty, express or implied, to the owners of Shares or any member of the public regarding the advisability of investing in securities generally or in the Fund particularly or the ability of the Fund to achieve its objective. The Exchange has no obligation or liability in connection with the administration, marketing or trading of the Fund.

For purposes of the 1940 Act, the Fund is a registered investment company, and the acquisition of Shares by other registered investment companies and companies relying on exemption from registration as investment companies under Section 3(c)(1) or 3(c)(7) of the 1940 Act is subject to the restrictions of Section 12(d)(1) of the 1940 Act, except as permitted by an exemptive order that permits registered investment companies to invest in the Fund beyond those limitations.

FINANCIAL HIGHLIGHTS

The financial highlights table below is intended to help you understand the Fund's financial performance for the period of the Fund's operations. Certain information reflects financial results for a single Fund share. The total returns in the table represent the rate that an investor would have earned (or lost) on an investment in the Fund (assuming reinvestment of all dividends and distributions). This information has been audited by PricewaterhouseCoopers LLP, an independent registered public accounting firm, whose report, along with the Fund's financial statements, are included in the Fund's Annual Report, which is available upon request, at no charge, by calling the Fund at (888) 383-0553.

	For the Period February 7, 2017¹ Through October 31, 2017
Per Share Data for a Share Outstanding Throughout Each Period Presented:	
Net asset value, beginning of period	\$25.06
Investment operations:	
Net investment income ²	1.03
Net realized and unrealized gain	0.60
Total from investment operations	<u>1.63</u>
Less Distributions from:	
Net investment income	(0.93)
Total distributions	<u>(0.93)</u>
Net Asset Value, End of Period	<u>\$25.76</u>
Net Asset Value Total Return ³	6.54%
Net assets, end of period (000's omitted)	\$20,609
RATIOS/SUPPLEMENTAL DATA:	
Ratios to Average Net Assets:	
Expenses	0.45% ⁴
Net investment income	5.48% ⁴
Portfolio turnover rate ⁵	91% ⁶

1 Commencement of operations.

2 Based on average shares outstanding.

3 Net Asset Value Total Return is calculated assuming an initial investment made at the net asset value on the first day of the period, reinvestment of dividends and distributions at net asset value during the period, and redemption at net asset value on the last day of the period. Total return calculated for a period of less than one year is not annualized.

4 Annualized.

5 Portfolio turnover excludes the value of portfolio securities received or delivered as a result of in-kind creations or redemptions of the Fund's capital shares.

6 Not annualized.

ADDITIONAL INFORMATION

If you would like more information about the Trust, the Fund or the Shares, the following documents are available free upon request:

Annual and Semi-Annual Reports

Additional information about the Fund's investments is available in the Fund's annual and semi-annual reports to shareholders. Once available, you will find in the Fund's annual report a discussion of the market conditions and investment strategies that significantly affected the Fund's performance during the prior fiscal year.

Statement of Additional Information

Additional information about the Fund and its policies is also available in the Fund's SAI. The SAI is incorporated by reference into this Prospectus (and is legally considered part of this Prospectus).

The Fund's annual and semi-annual reports and the SAI are available free upon request by calling the Adviser at (888) 383-0553. You can also access and download the annual and semi-annual reports and the SAI without charge at the Fund's website: www.virtusetfs.com.

To obtain other information and for shareholder inquiries:

By telephone: (888) 383-0553

By mail: ETFis Series Trust I
1540 Broadway
New York, NY 10036

On the Internet: SEC Edgar database: <http://www.sec.gov>; or www.virtusetfs.com

Only one copy of a Prospectus or an annual or semi-annual report will be sent to each household address. This process, known as "householding", is used for most required shareholder mailings. (It does not apply to confirmations of transactions and account statements, however.) You may, of course, request an additional copy of a Prospectus or an annual or semi-annual report at any time by calling or writing the Fund. You may also request that householding be eliminated from all your required mailings.

You may review and obtain copies of Fund documents (including the SAI) by visiting the SEC's public reference room in Washington, D.C. You may also obtain copies of Fund documents, after paying a duplicating fee, by writing to the SEC's Public Reference Section, Washington, D.C. 20549-1520 or by electronic request to: publicinfo@sec.gov. Information on the operation of the public reference room may be obtained by calling the SEC at (202) 551-8090. Reports and other information about the Fund are available on the EDGAR Database on the SEC's Internet site at <http://www.sec.gov>.

No person is authorized to give any information or to make any representations about the Fund or its Shares not contained in this Prospectus, and you should not rely on any other information. Read and keep this Prospectus for future reference.

Dealers effecting transactions in the Fund's Shares, whether or not participating in this distribution, may be generally required to deliver a Prospectus. This is in addition to any obligation dealers have to deliver a Prospectus when acting as underwriters.
