RISK/RETURN SUMMARY INFORMATION

INVESTMENT OBJECTIVE

Reaves Utilities ETF (Ticker: UTES) (the “Fund”) seeks to provide total return through a combination of capital appreciation and income.

FEES AND EXPENSES OF THE FUND

This table describes the fees and expenses that you may pay if you buy and hold shares of the Fund (“Shares”). Most investors will incur customary brokerage commissions when buying or selling Shares of the Fund, which are not reflected in the table set forth below.

Shareholder Fees (fees paid directly from your investment): None

Annual Fund Operating Expenses (expenses that you pay each year as a percentage of the value of your investment):

Management Fee ¹	0.95%
Distribution and/or Service (12b-1) Fees ²	0.00%
Other Expenses	0.00%
Total Annual Fund Operating Expenses	0.95%

(1) *The management fee is structured as a “unified fee”, out of which W. H. Reaves & Co., Inc. d/b/a Reaves Asset Management, the Fund’s investment sub-adviser, pays all expenses of the Fund (including the management fee paid to the Fund’s investment adviser), except for the management fee paid to the Fund’s sub-adviser; payments under the Fund’s 12b-1 plan (if any); brokerage expenses; acquired fund fees and expenses; taxes; interest; litigation and arbitration expenses; fees for professional services stemming from litigation or arbitration; and other extraordinary expenses of the Fund; each of which is paid by the Fund.*

(2) *The Fund is authorized to pay an amount up to 0.25% of its average daily net assets each year under a Rule 12b-1 plan; however, no such fees are currently paid by the Fund, and there are no current plans to impose these fees.*

Example. This example is intended to help you compare the cost of investing in the Fund with the cost of investing in other funds. This example does not take into account brokerage commissions that you pay when purchasing or selling Shares of the Fund.

The example assumes that you invest \$10,000 in the Fund for the time periods indicated and then redeem all of your Shares at the end of those periods. The example also assumes that your investment has a 5% return each year and that the Fund’s operating expenses remain at current levels. Although your actual costs may be higher or lower, based on these assumptions your costs would be:

1 Year	3 Years	5 Years	10 Years
\$97	\$303	\$525	\$1,166

PORTFOLIO TURNOVER

The Fund pays transaction costs, such as commissions, when it buys and sells securities or other instruments (or “turns over” its portfolio). A higher portfolio turnover rate may indicate higher transaction costs and may result in higher taxes when Fund Shares are held in a taxable account. These costs, which are not reflected in annual Fund operating expenses or in the example, affect the Fund’s performance. During the period September 23, 2015 (commencement of operations) through July 31, 2016, the Fund’s portfolio turnover rate was 46% of the average value of its portfolio.

PRINCIPAL INVESTMENT STRATEGY

Under normal market conditions, the Fund invests not less than 80% of its assets in equity securities of companies in the Utility Sector (“**Utility Sector Companies**”). The Fund considers a company to be a “Utility Sector Company” if at least 50% of the company’s assets or customers are committed to, or at least 50% of the company’s revenues, gross income or profits derive from, the provision of products, services or equipment for the generation or distribution of electricity, gas or water. The Fund is an actively managed ETF and, thus, does not seek to replicate the performance of a specified passive index of securities. Instead, it uses an active investment strategy that seeks to meet its investment objective.

W. H. Reaves & Co., Inc. d/b/a Reaves Asset Management, the Fund’s investment sub-adviser (the “**Sub-Adviser**” or “**Reaves Asset Management**”), manages the Fund’s assets using a value-based, bottom-up stock selection approach. In making investment decisions, the Sub-Adviser primarily invests in common stocks of Utility Sector Companies that the Sub-Adviser deems to be attractive based on the potential for growth of income and capital appreciation over time. While the Sub-Adviser may consider a number of factors in making investment decisions, the Sub-Adviser generally seeks to acquire Utility Sector Companies that have or reflect one or more of the following characteristics:

- conservative capital structures;
- solid balance sheets;
- history of and/or potential for growing earnings and raising dividends;
- positive catalysts that may unlock value; and/or
- lower-than-market levels of volatility, correlation or similar characteristics.

In evaluating potential investments, the Sub-Adviser may consider, among other things, earnings and cash flow potential, dividend prospects and tax treatment of dividends, strength of business franchises and estimates of net asset value. Investments are added to the Fund’s portfolio if they satisfy value-based criteria and the Sub-Adviser believes that they offer potential for short or long-term growth or income, or that they will contribute to the portfolio’s risk profile. Investments may be removed from the Fund’s portfolio if they exceed the Sub-Adviser’s estimates of full value, the Sub-Adviser believes that they are adding inefficient risk to the portfolio, the Sub-Adviser believes that the initial investment thesis fails, or the Sub-Adviser is seeking to raise funds for more attractive investment opportunities or other purposes. Although the Fund may invest in foreign Utility Sector Companies, including, without limitation, through investments in American Depositary Receipts (“**ADRs**”), the Fund will invest primarily in U.S. Utility Sector Companies. The Fund may invest in securities of issuers of any market capitalization.

PRINCIPAL RISKS

An investment in the Fund is subject to investment risks; therefore you may lose money by investing in the Fund. There can be no assurance that the Fund will be successful in meeting its investment objective. Generally, the Fund will be subject to the following principal risks:

Market Risk. Market risk refers to the risk that the value of securities in the Fund’s portfolio may decline due to daily fluctuations in the securities markets that are generally beyond the Sub-Adviser’s control, including the quality of the Fund’s investments, economic conditions, adverse investor sentiment, poor management decisions, lower demand for a company’s goods or services and general equity market conditions. In a declining market, prices for all securities (including those in the Fund’s portfolio) may decline, regardless of their long-term prospects. Security values tend to move in cycles, with periods when securities markets generally rise and periods when they generally decline.

Management Style. Because the Fund is actively managed, an investment in the Fund is subject to the risk that the investment process, techniques and risk analyses applied by the Sub-Adviser will not produce the desired results, and that the Fund’s investments may underperform the market or applicable benchmarks. The net asset value (“**NAV**”) of the Fund’s Shares changes daily based on the performance of the securities in which it invests. Different types of securities tend to shift into and out of favor with investors depending on market and economic conditions. There is no guarantee that the Sub-Adviser’s judgments about the attractiveness or value of, or potential income from, particular investments will be correct or produce the desired results. If the Sub-Adviser fails to accurately judge potential investments, the Fund’s share price may be adversely affected.

Equity Risk. The prices of equity securities rise and fall daily. These price movements may result from factors affecting individual issuers, industries or the stock market as a whole. In addition, equity markets tend to move in cycles which may cause stock prices to fall over short and extended periods of time. In a declining stock market, stock prices for all companies (including those in the Fund’s portfolio) may decline, regardless of their long-term prospects.

Utility Sector Concentration Risk. The Fund’s investments are concentrated in the securities of issuers engaged primarily in utilities-related industries (i.e., Utility Sector Companies). This may make the Fund particularly susceptible to adverse economic, political or regulatory occurrences and changes affecting utilities and Utility Sector Companies.

The focus of the Fund's portfolio on Utility Sector Companies may present more risks than if the Fund's portfolio were broadly spread over numerous sectors or industries of the economy. Specific risks associated with investments in Utility Sector Companies include, without limitation, environmental and conservation considerations, policies and regulations; competition; interest rates; inflation; financing difficulties; technological innovations that may render existing plants, equipment or products obsolete; natural or man-made disasters; costs and availability of services or fuel; changes in taxation; and lengthy delays and greatly increased costs and other problems associated with the design, construction, approval, licensing, regulation and operation of facilities for electric generation, gas production and water treatment and processing.

A downturn in utilities related industries would have a larger impact on the Fund than on an investment company that does not concentrate solely in utilities related industries. At times, the performance of Utility Sector Companies may lag the performance of companies in other sectors or industries, or the broader market as a whole. As concentration in the securities of Utility Sector Companies increases, so does the potential for fluctuation in the NAV of the Fund's Shares.

Small and Medium Capitalization Companies Risk. The Fund may, at any given time, invest in securities of small capitalization companies (i.e., companies with less than \$2 billion in capitalization) and/or medium capitalization companies (i.e., companies with between \$2 billion and \$6 billion in capitalization). Investing in the securities of small and medium capitalization companies generally involves greater risk than investing in larger, more established companies. The securities of small and medium companies usually have more limited marketability and therefore may be more volatile and less liquid than securities of larger, more established companies or the market averages in general. Because small and medium capitalization companies normally have fewer shares outstanding than larger companies, it may be more difficult to buy or sell significant amounts of such shares without an unfavorable impact on prevailing prices. Small and medium capitalization companies often have limited product lines, markets, or financial resources and lack management depth, making them more susceptible to market pressures. Small and medium capitalization companies are typically subject to greater changes in earnings and business prospects than larger, more established companies. Small and medium capitalization companies may be particularly affected by interest rate increases, as they may find it more difficult to borrow money to continue or expand operations, or may have difficulty in repaying any loans which are floating rate. The foregoing risks are generally increased for smaller capitalization companies as compared to companies with larger capitalizations.

Dividend Yield Risk. While the Fund may hold equity securities of companies that have historically paid a dividend, those companies may reduce or discontinue their dividends, thus reducing the yield of the Fund. Lower priced securities in the Fund may be more susceptible to these risks. Past dividend payments are not a guarantee of future dividend payments. Also, the market return of high dividend yield securities, in certain market conditions, may be worse than the market return of other investment strategies or the overall stock market. Common equity is subordinated to preferred equity and debt instruments in a company's capital structure, in terms of priority to corporate income, and therefore will be subject to greater dividend risk than preferred equity or debt instruments of such issuers.

Non-Diversified Fund Risk. The Fund is considered non-diversified and can invest a greater portion of assets in securities of individual issuers than a diversified fund. As a result, changes in the market value of a single investment could cause greater fluctuations in share price than would occur in a diversified fund.

Authorized Participant Risk. The Fund has a limited number of financial institutions that may act as Authorized Participants, none of which are obligated to engage in creation or redemption transactions. To the extent these Authorized Participants exit the business or are unable to process creation and/or redemption orders and no other Authorized Participant is able to step forward to process creation and/or redemption orders, in either of these cases, Shares of the Fund may trade like closed-end fund shares at a discount to NAV and possibly face delisting.

Fund Shares Liquidity Risk. Trading in Shares of the Fund may be halted because of market conditions or for reasons that, in the view of the Exchange, make trading in Shares inadvisable. In addition, trading in Shares is subject to trading halts caused by extraordinary market volatility pursuant to "circuit breaker" rules. There can be no assurance that the requirements necessary to maintain the listing of the Fund's Shares will continue to be met or will remain unchanged. During stressed market conditions, the liquidity of Fund Shares may be less than the liquidity of the securities in the Fund's portfolio, which may be significantly less than the liquidity of other ETFs.

No Assurance of Active Trading Market. Although the Shares in the Fund are approved for listing on the Exchange, there can be no assurance that an active trading market will develop and be maintained for the Shares of the Fund. Further, market makers (other than lead market makers) have no obligation to make markets in the Fund's shares and may discontinue doing so at any time without notice. As a new fund, there can be no assurance that the Fund will grow to or maintain an economically viable size, in which case the Fund may ultimately liquidate.

Fluctuation of NAV; Unit Premiums and Discounts. The NAV of the Fund's Shares will generally fluctuate with changes in the market value of the Fund's securities holdings. The market prices of Shares will generally fluctuate in accordance with changes in the Fund's NAV and supply and demand of Shares on the Exchange or any other exchange on which Shares are traded. It cannot be

predicted whether Shares will trade below, at or above their NAV. Price differences may be due, in large part, to the fact that supply and demand forces at work in the secondary trading market for Shares will be closely related to, but not identical to, the same forces influencing the prices of the securities of the Fund trading individually or in the aggregate at any point in time. The market prices of Shares may deviate significantly from the NAV of the Shares during periods of market volatility. While the creation/redemption feature is designed to make it likely that Shares normally will trade close to the Fund's NAV, disruptions to creations and redemptions and/or market volatility may result in trading prices that differ significantly from the Fund's NAV. If an investor purchases Shares at a time when the market price is at a premium to the NAV of the Shares or sells at a time when the market price is at a discount to the NAV of the Shares, then the investor may sustain losses that are in addition to any losses caused by a decrease in NAV. Additionally, to the extent that the underlying securities of the Fund trade on an exchange that is closed when the Exchange is open, there are likely to be deviations between current pricing of an underlying security and stale security pricing (i.e., the last quote from the foreign exchange market), resulting in premiums or discounts to NAV that are greater than those experienced by other ETFs.

Costs of Buying or Selling Shares. Investors buying or selling Shares in the secondary market will pay brokerage commissions or other charges imposed by brokers as determined by those brokers. Brokerage commissions are often a fixed amount and may be a significant proportional cost for investors seeking to buy or sell relatively small amounts of Shares. In addition, secondary market investors will also incur the cost of the difference between the price that an investor is willing to pay for Shares (the "bid" price) and the price at which an investor is willing to sell Shares (the "ask" price). This difference in bid and ask prices is often referred to as the "spread" or "bid/ask spread". The bid/ask spread varies over time for Shares based on trading volume and market liquidity, and is generally lower if the Fund's Shares have more trading volume and market liquidity and higher if the Fund's Shares have little trading volume and market liquidity. Further, increased market volatility may cause increased bid/ask spreads. Due to the costs of buying or selling Shares, including bid/ask spreads, frequent trading of Shares may significantly reduce investment results and an investment in Shares may not be advisable for investors who anticipate regularly making small investments.

Foreign Securities Risk. Investments in securities of foreign issuers are subject to risks not usually associated with owning securities of U.S. issuers. These risks can include fluctuations in foreign currencies, foreign currency exchange controls, social, political and economic instability, differences in securities regulation and trading, expropriation or nationalization of assets, and foreign taxation issues. In addition, changes in government administrations or economic or monetary policies in the United States or abroad could result in appreciation or depreciation of the Fund's securities. It may also be more difficult to obtain and enforce a judgment against a foreign issuer. Foreign investments are subject to U.S. and foreign currency restrictions and tax laws restricting the amounts and types of foreign investments.

American Depository Receipts Risk. The risk that investments in foreign companies through ADRs will expose the Fund to the same risks as direct investments in securities of foreign issuers.

PERFORMANCE INFORMATION

The Fund has been operating for less than a full calendar year. Once available, updated performance information for the Fund may be obtained by calling the Fund at (888) 383-0553. The Fund's past performance (before and after taxes) is not necessarily an indication of how the Fund will perform in the future.

MANAGEMENT OF THE FUND

Virtus ETF Advisers LLC (the "**Adviser**") is the Fund's investment adviser. ETFis Series Trust I (the "**Trust**") and the Adviser have engaged Reaves Asset Management as the Fund's sub-adviser to manage the Fund's investments, subject to the oversight and supervision of the Adviser and the Board of Trustees of the Trust (the "**Board**").

The following employees of the Sub-Adviser are the Fund's portfolio managers, each of whom is jointly and primarily responsible for the day-to-day management of the Fund's portfolio and has served in such position since the inception of the Fund's operations: Louis F. Cimino, Ph.D., John P. Bartlett, CFA, and Joseph (Jay) Rhame, III, CFA.

PURCHASE AND SALE OF FUND SHARES

Unlike conventional investment companies, the Fund issues and redeems Shares on a continuous basis, at NAV, only in blocks of 50,000 Shares or whole multiples thereof ("**Creation Units**"). The Fund's Creation Units may be issued and redeemed, principally in-kind for securities included in the Fund, only by certain large institutions, referred to as "**Authorized Participants**", that enter into agreements with the Fund's principal underwriter. Retail investors may acquire Shares on the Exchange through a broker-dealer. Shares of the Fund will trade on the Exchange at market price rather than NAV. As such, Shares may trade at a price greater than NAV (premium) or less than NAV (discount).

TAX INFORMATION

The Fund's distributions generally are taxed as ordinary income, capital gains or some combination of both, unless you are investing through a tax-deferred arrangement, such as a 401(k) plan or an IRA, in which case your distributions generally will be taxed as ordinary income when withdrawn from such account.

PAYMENTS TO BROKER-DEALERS AND OTHER FINANCIAL INTERMEDIARIES

If you purchase the Fund through a broker-dealer or other financial intermediary (such as a bank), the Adviser or the Sub-Adviser may pay the intermediary for the sale of Fund Shares and related services. These payments may create a conflict of interest by influencing the broker-dealer or other intermediary and your salesperson to recommend the Fund over another investment. Ask your salesperson or visit your financial intermediary's website for more information.

ADDITIONAL INFORMATION REGARDING THE FUND'S INVESTMENT OBJECTIVE, STRATEGY AND RISKS

Additional Information Regarding the Fund's Objective. The investment objective of the Fund may be changed by the Board without shareholder approval upon 60 days' notice to the shareholders. Additionally, the Fund's 80% investment policy may be changed without shareholder approval upon 60 days' notice to shareholders.

Additional Information Regarding the Fund's Investments. To the extent that the Fund is not invested in the instruments described above, the Fund may invest in other securities that the Fund believes will help it achieve its investment objective or strategies, including cash and cash equivalents, such as money market instruments, and may also invest in exchange-traded options on securities and securities indexes.

Additional Information Regarding Leverage. Because certain derivatives involve leverage, that is, the amount invested may be less than the full economic exposure of the derivative instrument and the Fund could lose more than the amount invested, federal securities laws, regulations and guidance may require the Fund to segregate assets or to otherwise hold instruments that offset the Fund's current obligations under the derivative instrument. This process is known as "cover." The Fund will not enter into any derivative transaction unless it can comply with SEC guidance regarding cover, and, if SEC guidance so requires, the Fund will segregate cash or liquid assets with a value at least sufficient to cover its current obligations under the derivative transaction or otherwise "cover" the transaction in accordance with applicable SEC guidance. If a large portion of the Fund's assets is used for cover, it could affect portfolio management or the Fund's ability to meet redemption requests or other current obligations. The leverage involved in certain derivative transactions may result in the Fund's net asset value being more sensitive to changes in the value of the related investment. To the extent the Fund enters into derivatives transactions, the Fund will "cover" its obligations in accordance with applicable SEC guidance.

Additional Information Regarding the Fund's Investment Risks. In addition to the Fund's principal investment risks, an investment in the Fund is also subject to the following risks:

Options Risk. The Fund may write call and put options on securities, ETFs or security indexes to seek income or may purchase or write put or call options for hedging purposes. The Fund typically writes call options that are "covered" by the Fund holding a position in the underlying securities or by other means which would permit immediate satisfaction of the Fund's obligation as writer of the option. The purchase and writing of options involves certain risks. During the option period, a covered call writer has, in return for the premium on the option, given up the opportunity to profit from a price increase in the underlying securities above the exercise price, but, as long as its obligation as a writer continues, has retained the risk of loss should the price of the underlying security decline. The writer of an option has no control over the time when it may be required to fulfill its obligation as a writer of the option. Once an option writer has received an exercise notice, it cannot effect a closing purchase transaction in order to terminate its obligation under the option and must deliver the underlying securities at the exercise price. If a put or call option purchased by the Fund is not sold when it has remaining value, and if the market price of the underlying security, in the case of a put, remains equal to or greater than the exercise price or, in the case of a call, remains less than or equal to the exercise price, the Fund will lose its entire investment in the option. Also, where a put or call option on a particular security is purchased to hedge against price movements in a related security, the price of the put or call option may move more or less than the price of the related security. There can be no assurance that a liquid market will exist when the Fund seeks to close out an option position. Furthermore, if trading restrictions or suspensions are imposed on the options market, the Fund may be unable to close out a position. If a hedge is applied in the Fund's portfolio at an inappropriate time (e.g., due to unexpected market movements, unanticipated events or misjudgments of market conditions), then the Fund may lose money on the option position.

Redeeming Risk. Shares in the Fund may be redeemed only in Creation Units. Shares may not be redeemed in fractional Creation Units. Only Authorized Participants are authorized to transact in Creation Units with the Fund. All other persons or entities transacting in Shares must do so in the secondary market.

Early Closing Risk. An unanticipated early closing of the Exchange may result in a shareholder's inability to buy or sell Shares of the Fund on that day.

Temporary Defensive Positions. In certain adverse market, economic, political or other conditions, the Fund may temporarily depart from its normal investment policies and strategy, provided that the alternative is consistent with the Fund's investment objective and is in the best interest of the Fund. At such times, the Fund may invest in cash or cash equivalents, such as money market instruments, and to the extent permitted by applicable law and the Fund's investment restrictions, shares of other investment companies. Under such circumstances, the Fund may invest up to 100% of its assets in these investments and may do so for extended periods of time. To the extent that the Fund invests in money market instruments or other investment companies, shareholders of the Fund would indirectly pay both the Fund's expenses and the expenses relating to those other investment companies with respect to the Fund's assets invested in such investment companies.

When the Fund takes a temporary defensive position, the Fund may not be able to achieve its investment objective.

Disclosure of Portfolio Holdings. The Fund's portfolio holdings are disclosed on the Fund's website (www.reavesetfs.com) daily after the close of trading on the Exchange and prior to the opening of trading on the Exchange the following day.

MANAGEMENT OF THE FUND

INVESTMENT ADVISER

The Fund's investment adviser is Virtus ETF Advisers LLC, located at 1540 Broadway, New York, NY 10036. The Adviser was organized as a Delaware limited liability company in August 2013 and, since April 2015, has been a majority-owned subsidiary of Virtus Partners, Inc., a wholly owned subsidiary of Virtus Investment Partners, Inc. (Ticker: VRTS) (together with its affiliates, "**Virtus**"). Virtus is a public company that operates a multi-manager asset management business and has substantial experience in the investment management and investment company industries. As of June 30, 2016, on a collective basis, Virtus-affiliated registered investment advisers manage over \$45.1 billion in assets.

The Adviser has served as the Fund's investment adviser since the inception of the Fund's operations pursuant to an investment advisory agreement with the Trust on behalf of the Fund. The Adviser has engaged the Sub-Adviser to manage the Fund's investments in accordance with the stated investment objective and policies of the Fund, subject to the oversight and supervision of the Adviser and the Board. The Adviser also assists with: (a) non-advisory operations of the Fund, (b) the preparation and submission of reports to existing shareholders, (c) the periodic updating of prospectuses and statements of additional information, (d) the preparation of reports to be filed with the SEC and other regulatory authorities, and (e) maintaining certain of the Fund's records.

Adviser Compensation. The Adviser is entitled to receive a monthly advisory fee at the annual rate of the greater of 0.075% of the Fund's average daily net assets or \$30,000 per year. The Sub-Adviser pays the Adviser's fee out of the Sub-Adviser's fee, pursuant to the Sub-Adviser's unified fee arrangement with the Fund.

INVESTMENT SUB-ADVISER

The Fund's sub-adviser is W.H. Reaves & Co., Inc., d/b/a Reaves Asset Management, 10 Exchange Place, 18th Floor, Jersey City, New Jersey 07302. The Sub-Adviser has served in that capacity since the commencement of the Fund's operations pursuant to a sub-advisory contract (the "**Sub-Advisory Agreement**") with the Adviser and the Trust, on behalf of the Fund, as approved by the Board. The Sub-Adviser makes day-to-day investment decisions for the Fund and selects broker-dealers for executing portfolio transactions, subject to the brokerage policies established by the Board. The Sub-Adviser is an employee-owned firm organized as a Delaware corporation in 1961. As of July 31, 2016, the Sub-Adviser had approximately \$2.8 billion in assets under management.

Sub-Adviser Compensation. As full compensation for its services to the Fund, the Sub-Adviser receives monthly compensation from the Fund at the annual rate of 0.95% of the Fund's average daily net assets. In consideration of the fees paid with respect to the Fund, the Sub-Adviser has agreed to pay all of the Fund's expenses (including the management fee paid to the Adviser, as noted above), except for the management fee paid to the Sub-Adviser; payments under the Fund's 12b-1 plan (if any); brokerage expenses; acquired fund fees and expenses; taxes; interest; litigation and arbitration expenses; fees for professional services stemming from litigation or arbitration; and other extraordinary expenses of the Fund; each of which is paid by the Fund.

PORTFOLIO MANAGERS

The following employees of the Sub-Adviser are the Fund's portfolio managers, each of whom is jointly and primarily responsible for the day-to-day management of the Fund's portfolio and has served in such position since the inception of the Fund's operations:

- **Louis F. Cimino PhD** - *Vice President, Chief Operating Officer, Portfolio Manager and Telecom Research Analyst at Reaves Asset Management.*
Mr. Cimino joined the Sub-Adviser in 1997. In addition to managing corporate operations, he is a member of the Sub-Adviser's portfolio management team and serves as research analyst specializing in telecommunications and technology. He is also a member of the Sub-Adviser's risk management committee. Mr. Cimino has a B.A. degree from SUNY Albany, a PhD from Duke University, and an MBA degree in Finance and Information Systems from New York University.
- **John P. Bartlett, CFA** - *Vice President, Portfolio Manager and Electric Utility Research Analyst at Reaves Asset Management.*
Mr. Bartlett joined the Sub-Adviser in 1995. Mr. Bartlett is a twenty-year industry veteran who specializes in the analysis of electric utilities and industrial companies. He is also one of the Sub-Adviser's portfolio managers. Mr. Bartlett received a

B.A. from Connecticut College. He is a CFA Charterholder.

- **Joseph (Jay) Rhame, III, CFA - Vice President, Portfolio Manager and Research Analyst at Reaves Asset Management.** Mr. Rhame joined the Sub-Adviser in 2005. He serves as a telecommunications, energy, and utility analyst, and he is a member of the portfolio management team. He also serves on the Sub-Adviser's risk management committee. Prior to his current role, Mr. Rhame was employed as one of the Sub-Adviser's traders. Mr. Rhame received a B.A. from St. Mary's College of Maryland and is a CFA Charterholder.

Additional Information. Additional information about the portfolio managers' compensation, other accounts managed by the portfolio managers and the portfolio managers' ownership of Shares of the Fund is available in the Fund's Statement of Additional Information (the "SAI").

Disclosure Regarding Advisory Agreement Approval. A discussion regarding the basis for the Board's most recent approval of the investment advisory agreement and investment sub-advisory agreement for the Fund is available in the Fund's semi-annual report for the period ended January 31, 2016. You may obtain a copy of the Fund's annual and semi-annual reports, without charge, upon request to the Fund.

BOARD OF TRUSTEES

The Fund is a non-diversified series of the Trust, an open-end management investment company organized as a Delaware statutory trust on September 20, 2012. The Board supervises the operations of the Trust and the Fund according to applicable state and federal law, and is responsible for the overall management of the Fund's business affairs.

OPERATIONAL ADMINISTRATOR

Virtus ETF Solutions LLC (the "**Administrator**"), located at 1540 Broadway, New York, New York 10036, serves as the Fund's operational administrator. The Administrator supervises the overall administration of the Trust and the Fund including, among other responsibilities, the coordination and day-to-day oversight of the Fund's operations, the service providers' communications with the Fund and each other and assistance with Trust, Board and contractual matters related to the Fund and other series of the Trust. The Administrator also provides persons satisfactory to the Board to serve as officers of the Trust.

ACCOUNTING SERVICES ADMINISTRATOR, CUSTODIAN AND TRANSFER AGENT

The Bank of New York Mellon ("**BNY Mellon**"), located at One Wall Street, New York, New York 10286, directly and through its subsidiary companies, provides necessary administrative, accounting, tax and financial reporting for the maintenance and operations of the Trust as the Fund's accounting services administrator. BNY Mellon also serves as the custodian for the Fund's assets, and serves as transfer agent and dividend paying agent for the Fund.

DISTRIBUTOR

ETF Distributors LLC (the "**Distributor**"), located at 1540 Broadway, New York, New York 10036, serves as the distributor of Creation Units for the Fund on an agency basis. The Distributor does not maintain a secondary market in Shares.

INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

BBD, LLP, located at 1835 Market St, Philadelphia, PA 19103, serves as the independent registered public accounting firm for the Trust and the Fund.

LEGAL COUNSEL

Stradley Ronon Stevens & Young, LLP, located at 2005 Market Street, Suite 2600, Philadelphia, PA 19103, serves as counsel to the Trust and the Independent Trustees.

EXPENSES OF THE FUND

The Fund pays all expenses not assumed by the Sub-Adviser. General Trust expenses that are allocated among and charged to the assets of the Fund and other series of the Trust are done so on a basis that the Board deems fair and equitable, which may be on a basis of relative net assets of the Fund and other series of the Trust or the nature of the services performed and relative applicability to the Fund and other series of the Trust.

INVESTING IN THE FUND

DISTRIBUTION AND SERVICE PLAN

The Board has adopted a Distribution and Service Plan pursuant to Rule 12b-1 under the 1940 Act. In accordance with its Rule 12b-1 plan, the Fund is authorized to pay an amount up to 0.25% of its average daily net assets each year to finance activities primarily intended to result in the sale of Creation Units of the Fund or the provision of investor services. No Rule 12b-1 fees are currently paid by the Fund, and there are no current plans to impose these fees. However, in the event Rule 12b-1 fees are charged in the future, they will be paid out of the respective Fund's assets, and over time these fees will increase the cost of your investment and may cost you more than certain other types of sales charges.

The Adviser and its affiliates may, out of their own resources, pay amounts to third parties for distribution or marketing services on behalf of the Fund. The making of these payments could create a conflict of interest for a financial intermediary receiving such payments.

DETERMINATION OF NET ASSET VALUE

The NAV of the Shares for the Fund is equal to the Fund's total assets minus the Fund's total liabilities divided by the total number of Shares outstanding. Interest and investment income on the Trust's assets accrue daily and are included in the Fund's total assets. Expenses and fees (including investment advisory, management, administration and distribution fees, if any) accrue daily and are included in the Fund's total liabilities. The NAV that is published is rounded to the nearest cent; however, for purposes of determining the price of Creation Units, the NAV is calculated to five decimal places.

The pricing and valuation of portfolio securities is determined in good faith in accordance with procedures approved by, and under the direction of, the Board. In determining the value of the Fund's assets, equity securities are generally valued at market using quotations from the primary market in which they are traded. Debt securities (other than short-term investments) are valued on the basis of broker quotes or valuations provided by a pricing service, which in determining value utilizes information regarding recent sales, market transactions in comparable securities, quotations from dealers, and various relationships between securities. Short-term investments having a remaining maturity of 60 days or less are valued at amortized cost, which approximates market value. Other assets, such as accrued interest, accrued dividends and cash are also included in determining the NAV. The Fund normally uses third party pricing services to obtain market quotations.

Securities and assets for which market quotations are not readily available or which cannot be accurately valued using the Fund's normal pricing procedures are valued by the Trust's Fair Value Pricing Committee at fair value as determined in good faith under policies approved by the Board. Fair value pricing may be used, for example, in situations where (i) portfolio securities, such as securities with small capitalizations, are so thinly traded that there have been no transactions for that security over an extended period of time; (ii) an event occurs after the close of the exchange on which a portfolio security is principally traded that is likely to change the value of the portfolio security prior to the Fund's NAV calculation; (iii) the exchange on which the portfolio security is principally traded closes early; or (iv) trading of the particular portfolio security is halted during the day and does not resume prior to the Fund's NAV calculation. Pursuant to policies adopted by the Board, the Adviser consults with BNY Mellon and the Sub-Adviser on a regular basis regarding the need for fair value pricing. The Fund's policies regarding fair value pricing are intended to result in a calculation of the Fund's NAV that fairly reflects portfolio security values as of the time of pricing. A portfolio security's "fair value" price may differ from the price next available for that portfolio security using the Fund's normal pricing procedures, and the fair value price may differ substantially from the price at which the security may ultimately be traded or sold. If the fair value price differs from the price that would have been determined using the Fund's normal pricing procedures, you may receive more or less proceeds or Shares from redemptions or purchases of Fund Shares, respectively, than you would have otherwise received if the portfolio security were priced using the Fund's normal pricing procedures and the prices used to determine the Fund's Indicative Intra-Day Value ("IIV"), which could result in the market prices for Shares deviating from NAV. The performance of the Fund may also be affected if a portfolio security's fair value price were to differ from the security's price using the Fund's normal pricing procedures. The Board monitors and evaluates the Fund's use of fair value pricing, and periodically reviews the results of any fair valuation under the Trust's policies.

To the extent the assets of the Fund are invested in other open-end investment companies that are registered under the 1940 Act, the Fund's NAV is calculated based upon the NAVs reported by such registered open-end investment companies, and the prospectuses for these companies explain the circumstances under which they will use fair value pricing and the effects of using fair value pricing.

The NAV is determined as of the close of regular trading on the Exchange, normally 4:00 p.m. Eastern time, on each day that the Exchange is open for business. Currently, the Exchange is closed on weekends and in recognition of the following holidays: New Year's Day, Martin Luther King, Jr. Day, Washington's Birthday, Good Friday, Memorial Day, Independence Day, Labor Day, Thanksgiving Day and Christmas Day.

INDICATIVE INTRA-DAY VALUE

The approximate value of the Fund's investments on a per-Share basis, the Indicative Intra-Day Value, or IIV, is disseminated by the Exchange every 15 seconds during hours of trading on the Exchange. The IIV should not be viewed as a "real-time" update of NAV because the IIV may not be calculated in the same manner as NAV, which is computed once per day.

The IIV for the Fund is calculated during hours of trading on the Exchange by dividing the "Estimated Fund Value" as of the time of the calculation by the total number of outstanding Shares of that Fund. "**Estimated Fund Value**" is the sum of the estimated amount of cash held in the Fund's portfolio, the estimated amount of accrued interest owed to the Fund and the estimated value of the securities held in the Fund's portfolio, minus the estimated amount of the Fund's liabilities. The IIV will be calculated based on the same portfolio holdings disclosed on the Fund's website at www.reavesetfs.com.

Although the Trust provides information used to calculate the IIV, the Trust is not involved in the actual calculation of the IIV and is not responsible for the calculation or dissemination of the IIV. The Trust makes no warranty as to the accuracy of the IIV.

PREMIUM/DISCOUNT INFORMATION

Information regarding the extent and frequency with which market prices of Shares have tracked the Fund's NAV for the most recently completed calendar year and the most recently completed calendar quarters since that year will be available without charge on the Fund's website.

FREQUENT TRADING

The Board has not adopted policies and procedures with respect to frequent purchases and redemptions of Fund Shares by Fund shareholders ("**market timing**"). In determining not to adopt market timing policies and procedures, the Board noted that, unlike traditional mutual funds, the Fund's Shares can only be purchased and redeemed directly from the Fund in Creation Units by Authorized Participants, and that the vast majority of trading in the Fund's Shares occurs on the secondary market. Because secondary market trades do not involve the Fund directly, it is unlikely those trades would cause many of the harmful effects of market timing, including dilution, disruption of portfolio management, increases in the Fund's trading costs and the realization of capital gains. With respect to trades directly with the Fund, to the extent effected in-kind (namely, for securities), those trades do not cause any of the harmful effects that may result from frequent cash trades. To the extent trades are effected in whole or in part in cash, the Board noted that those trades could result in dilution to the Fund and increased transaction costs (and the Fund may impose higher transaction fees to offset these increased costs), which could negatively impact the Fund's ability to achieve its investment objective. However, the Board noted that direct trading on a short-term basis by Authorized Participants is critical to ensuring that the Fund's Shares trade at or close to NAV. The Fund also imposes transaction fees on purchases and redemptions of Creation Units that are designed to offset the Fund's transfer and other transaction costs associated with the issuance and redemption of Creation Units. Given this structure, the Board determined that it is not necessary to adopt market timing policies and procedures. The Fund reserves the right to reject any purchase order at any time and reserves the right to impose restrictions on disruptive or excessive trading in Creation Units.

The Board has instructed the officers of the Trust to review reports of purchases and redemptions of Creation Units on a regular basis to determine if there is any unusual trading in the Fund's Shares. The officers of the Trust will report to the Board any such unusual trading in Creation Units that is disruptive to the Fund. In such event, the Board may reconsider its decision not to adopt market timing policies and procedures.

DISTRIBUTIONS

The Fund intends to qualify each year as a regulated investment company under the Code. As a regulated investment company, the Fund generally pays no federal income tax on the income and gains it distributes to shareholders. The Fund expects to distribute substantially all of its net investment income quarterly and its net realized capital gains, if any, at least annually. The Fund may distribute such income dividends and capital gains more frequently, if necessary, in order to reduce or eliminate federal excise or income taxes on the Fund. The amount of any distribution will vary, and there is no guarantee the Fund will pay either an income dividend or a capital gains distribution. Distributions may be reinvested automatically in additional whole Shares only if the broker through whom you purchased Shares makes such option available.

Each year, you will receive an annual statement (Form 1099) of your account activity to assist you in completing your federal, state and local tax returns. Distributions declared in December to shareholders of record in such month, but paid in January, are taxable as if they were paid in December. The Fund make every effort to search for reclassified income to reduce the number of corrected forms mailed to you. However, when necessary, you will receive a corrected Form 1099 to reflect reclassified information.

At the time you purchase your Fund Shares, the price of Shares may reflect undistributed income, undistributed capital gains, or net unrealized appreciation in value of portfolio securities held by the Fund. For taxable investors, a subsequent distribution to you of such

amounts, although constituting a return of your investment, would be taxable. Buying Shares in the Fund just before it declares an income dividend or capital gains distribution is sometimes known as “buying a dividend.”

FEDERAL INCOME TAXES

FUND DISTRIBUTIONS

The Fund expects, based on its investment objective and strategies, that its distributions, if any, will be taxable as ordinary income, capital gains, or some combination of both. This is true whether you reinvest your distributions in additional Fund Shares or receive them in cash. For federal income tax purposes, Fund distributions of short-term capital gains are taxable to you as ordinary income. Fund distributions of long-term capital gains are taxable to you as long-term capital gains no matter how long you have owned your Shares. Because the income of the Fund is primarily derived from investments earning interest rather than dividend income, generally none or only a small portion of the income dividends paid to you by the Fund is anticipated to be qualified dividend income eligible for taxation by individuals at long-term capital gain tax rates.

SALE OF FUND SHARES

A sale or exchange of Fund Shares is a taxable event and, accordingly, a capital gain or loss may be recognized. Currently, any capital gain or loss realized upon a sale of Fund Shares generally is treated as long-term capital gain or loss if the Shares have been held for more than one year and as short-term capital gain or loss if the Shares have been held for one year or less. The ability to deduct capital losses may be limited.

TAX TREATMENT OF FUND SHAREHOLDERS

An additional 3.8% Medicare tax is imposed on certain net investment income (including ordinary dividends and capital gain distributions received from the Fund and net gains from redemptions or other taxable dispositions of Fund Shares) of U.S. individuals, estates and trusts to the extent that such person’s “modified adjusted gross income” (in the case of an individual) or “adjusted gross income” (in the case of an estate or trust) exceeds a threshold amount. This Medicare tax, if applicable, is reported by you on, and paid with, your federal income tax return.

Fund distributions and gains from the sale or exchange of your Fund Shares generally are subject to state and local taxes.

Non-U.S. investors may be subject to U.S. withholding tax at a 30% or lower treaty rate and U.S. estate tax and are subject to special U.S. tax certification requirements to avoid backup withholding and claim any treaty benefits. Exemptions from U.S. withholding tax are provided for certain capital gain dividends paid by the Fund from net long-term capital gains, interest-related dividends and short-term capital gain dividends, if such amounts are reported by the Fund. However, notwithstanding such exemptions from U.S. withholding at the source, any such dividends and distributions of income and capital gains will be subject to backup withholding at a rate of 28% if you fail to properly certify that you are not a U.S. person.

Under the Foreign Account Tax Compliance Act (“FATCA”), a 30% withholding tax is imposed on payments or distributions made by the Fund to certain foreign entities, referred to as foreign financial institutions or nonfinancial foreign entities, that fail to comply (or be deemed compliant) with extensive reporting and withholding requirements designed to inform the U.S. department of the Treasury of U.S.-owned foreign investment accounts: (a) income dividends and (b) after December 31, 2018, certain capital gain distributions, return of capital distributions and the proceeds arising from the sale of Fund shares. Information about a shareholder in the Fund may be disclosed to the IRS, non-U.S. taxing authorities or other parties as necessary to comply with FATCA. Withholding also may be required if a foreign entity that is a shareholder of the Fund fails to provide the appropriate certifications or other documentation concerning its status under FATCA.

WITHHOLDING

By law, if you do not provide your proper taxpayer identification number and certain required certifications, you may be subject to backup withholding on any distributions of income, capital gains or proceeds from the sale of your Shares. Withholding is also imposed if the Internal Revenue Service (“IRS”) requires it. When withholding is required, the amount will be 28% of any distributions or proceeds paid.

CREATION UNITS

An Authorized Participant who exchanges equity securities for Creation Units generally will recognize a gain or a loss. The gain or loss will be equal to the difference between the market value of the Creation Units (plus any cash received by the Authorized Participant as part of the issue) at the time of purchase and the exchanger’s aggregate basis in the securities surrendered. A person who exchanges Creation Units for equity securities generally will recognize a gain or loss equal to the difference between the exchanger’s

basis in the Creation Units (plus any cash received by the Authorized Participant as part of the redemption) and the aggregate market value of the securities received (plus any cash paid by the Authorized Participant as part of the redemption). The IRS, however, may assert that a loss realized upon an exchange of securities for Creation Units cannot be deducted currently under the rules governing “wash sales,” or on the basis that there has been no significant change in economic position. Persons exchanging securities should consult their own tax advisor with respect to whether the wash sale rules apply and when a loss might be deductible.

Under current federal tax laws, any capital gain or loss realized upon redemption of Creation Units is generally treated as long-term capital gain or loss if the Shares have been held for more than one year and as a short-term capital gain or loss if the Shares have been held for one year or less.

If the Fund redeems Creation Units in cash, it may recognize more capital gains than it will if it redeems Creation Units in-kind.

This discussion of “Federal Income Taxes” is not intended or written to be used as tax advice. Because everyone’s tax situation is unique, you should consult your tax professional about federal, state, local or foreign tax consequences before making an investment in the Fund. For additional information, see the “Taxation” section of the Statement of Additional Information.

FUND WEBSITE AND DISCLOSURE OF PORTFOLIO HOLDINGS

The Trust maintains a website for the Fund at www.reavesetfs.com. The website for the Fund contains the following information, on a per-Share basis, for the Fund: (i) the prior Business Day’s NAV; (ii) the reported midpoint of the bid-ask spread at the time of NAV calculation (the “**Bid-Ask Price**”); (iii) a calculation of the premium or discount of the Bid-Ask Price against such NAV; and (iv) data in chart format displaying the frequency distribution of discounts and premiums of the Bid-Ask Price against the NAV, within appropriate ranges, for each of the four previous calendar quarters (or for the life of the Fund if, shorter). In addition, on each Business Day, before the commencement of trading in Shares on the Exchange, the Trust discloses on the Fund’s website the identities and quantities of the portfolio securities and other assets held by the Fund that will form the basis for the calculation of NAV at the end of the Business Day.

A description of the Trust’s policies and procedures with respect to the disclosure of the Fund’s portfolio securities is available in the SAI.

OTHER INFORMATION

The Fund is not sponsored, endorsed, sold or promoted by the Exchange. The Exchange makes no representation or warranty, express or implied, to the owners of Shares or any member of the public regarding the advisability of investing in securities generally or in the Fund particularly or the ability of the Fund to achieve its objective. The Exchange has no obligation or liability in connection with the administration, marketing or trading of the Fund.

For purposes of the 1940 Act, the Fund is a registered investment company, and the acquisition of Shares by other registered investment companies and companies relying on exemption from registration as investment companies under Section 3(c)(1) or 3(c)(7) of the 1940 Act is subject to the restrictions of Section 12(d)(1) of the 1940 Act, except as permitted by an exemptive order that permits registered investment companies to invest in the Fund beyond those limitations.

FINANCIAL HIGHLIGHTS

The financial highlights table below is intended to help you understand the Fund's financial performance for the period of the Fund's operations. Certain information reflects financial results for a single Fund share. The total returns in the table represent the rate that an investor would have earned (or lost) on an investment in the Fund (assuming reinvestment of all dividends and distributions). This information has been audited by BBD, LLP, an independent registered public accounting firm, whose report, along with the Fund's financial statements, are included in the Fund's Annual Report, which is available upon request, at no charge, by calling the Fund at (888) 383-0553.

This Statement of Additional Information (“**SAI**”) is meant to be read in conjunction with the prospectus (“**Prospectus**”) for the Reaves Utilities ETF (Ticker: UTES) (the “**Fund**”) dated the same date as this SAI, which incorporates this SAI by reference in its entirety. Because this SAI is not itself a prospectus, no investment in shares of the Fund should be made solely upon the information contained herein. Copies of the Prospectus for the Fund may be obtained at no charge by writing or calling the Fund at the address or phone number shown above. Capitalized terms used but not defined herein have the same meanings as in the Prospectus. No person has been authorized to give any information or to make any representations other than those contained in this SAI and the Prospectus, and, if given or made, such information or representations may not be relied upon as having been authorized by the Trust. The SAI does not constitute an offer to sell securities.

Portions of the Fund’s financial statements are incorporated by reference to the Fund’s most recent Annual Report to shareholders. You may obtain a copy of the Fund’s annual report at no charge by request to the Fund at the address or phone number noted below.

A copy of the Prospectus for the Fund may be obtained, without charge, by calling (212) 593-4383 or visiting www.reavesetfs.com, or writing to the Trust, c/o ETF Distributors LLC, 1540 Broadway, New York, NY 10036.

GENERAL DESCRIPTION OF THE TRUST AND THE FUND

The ETF is Series Trust I (the “**Trust**”) was organized as a Delaware statutory trust on September 20, 2012 and is registered with the Securities and Exchange Commission (the “**SEC**”) as an open-end management investment company under the Investment Company Act of 1940, as amended (the “**1940 Act**”). The Trust currently consists of 10 investment portfolios: the Fund, InfraCap MLP ETF (Ticker: AMZA); InfraCap REIT Preferred ETF (Ticker: PFFR); BioShares Biotechnology Products Fund (Ticker: BBP); BioShares Biotechnology Clinical Trials Fund (Ticker: BBC); Tuttle Tactical Management U.S. Core ETF (Ticker: TUTT); Tuttle Tactical Management Multi-Strategy Income ETF (Ticker: TUTI); Virtus Newfleet Multi-Sector Unconstrained Bond ETF (Ticker: NFLT); iSectors Post-MPT Growth ETF (Ticker: PMPT); and Cumberland Municipal Bond ETF (Ticker: CUMB). Other portfolios may be added to the Trust in the future. The Fund is classified as a non-diversified management investment company under the 1940 Act. The shares of the Fund are referred to herein as “**Fund Shares**” or “**Shares**”. The offering of Shares is registered under the Securities Act of 1933, as amended (the “**Securities Act**”).

The Fund’s investment adviser is Virtus ETF Advisers LLC (the “**Adviser**”). The Adviser has been registered as an investment adviser with the SEC since October 2013. The Fund’s sub-adviser is W. H. Reaves & Co., Inc., d/b/a Reaves Asset Management (the “**Sub-Adviser**”).

The Fund offers and issues Shares at net asset value (the “**NAV**”) only in aggregations of a specified number of Shares (each, a “**Creation Unit**”), generally in exchange for a basket of equity securities included in the Fund’s portfolio (the “**Deposit Securities**”), together with the deposit of a specified cash payment (the “**Cash Component**”). Shares are redeemable only in Creation Units and, generally, in exchange for Deposit Securities and a Cash Component. Creation Units are aggregations of 50,000 Shares of the Fund and are available only to certain large institutions, referred to as “**Authorized Participants**”, that enter into agreements with the Distributor. In the event of the liquidation of the Fund, the Trust may lower the number of Shares in a Creation Unit.

FUND NAME AND INVESTMENT POLICY. The Fund has a name that suggests a focus on a particular type of investment. In accordance with Rule 35d-1 under the 1940 Act, the Fund has adopted a policy that it will, under normal circumstances, invest at least 80% of its assets in investments of the type suggested by its name. For this policy, “assets” means net assets plus the amount of any borrowings for investment purposes. In addition, in appropriate circumstances, synthetic investments may be included in the 80% basket if they have economic characteristics similar to the other investments included in the basket. The Fund’s policy to invest at least 80% of its assets in such a manner is not a “fundamental” one, which means that it may be changed without a vote of a majority of the Fund’s outstanding shares as defined in the 1940 Act. However, under Rule 35d-1, shareholders must be given written notice at least 60 days prior to any change by the Fund of its 80% investment policy.

EXCHANGE LISTING AND TRADING

Fund Shares trade on the NYSE Arca, Inc. (the “**Exchange**”) at market prices that may be below, at or above NAV. There can be no assurance that the requirements of the Exchange necessary for the Fund to maintain the listing of its Shares will continue to be met. The Exchange will consider the suspension of trading and delisting of the Shares of the Fund (i) following the initial 12-month period beginning upon the commencement of trading of Fund Shares, there are fewer than 50 beneficial owners of Shares of the Fund for 30 or more consecutive trading days, (ii) the intra-day NAV of the Fund is no longer calculated or available, or (iii) any other event occurs or condition exists that, in the opinion of the Exchange, makes further dealings on the Exchange inadvisable. The Exchange will remove the Shares of the Fund from listing and trading upon termination of the Fund.

As in the case of other stocks traded on the Exchange, brokers’ commissions on transactions will be based on negotiated commission rates at customary levels.

The Trust reserves the right to adjust the price levels of the Shares in the future to maintain convenient trading ranges for investors. Any adjustments would be accomplished through stock splits or reverse stock splits, which would have no effect on the net assets of the Fund.

OTHER INVESTMENT POLICIES

The following policies supplement the Fund’s investment objective and policies as described in the Prospectus for the Fund.

GENERAL INVESTMENT RISKS. All investments in securities and other financial instruments involve a risk of financial loss. No assurance can be given that the Fund’s investment program will be successful. Investors should carefully review the descriptions of the Fund’s investments and its risks in this SAI and the Prospectus.

EXCHANGE TRADED FUNDS AND INVESTMENTS IN OTHER INVESTMENT COMPANIES.

Exchange Traded Products (“ETPs”). The Fund may invest in exchange-traded funds (“**ETFs**”), exchange-traded notes (“**ETNs**”) and other ETPs. The shares of an ETF may be assembled in a block (typically 50,000 shares) known as a creation unit and redeemed in kind for a portfolio of the underlying securities (based on the ETF’s net asset value) together with a cash payment generally equal to accumulated dividends as of the date of redemption. Conversely, a creation unit may be purchased from the ETF by depositing a specified portfolio of the ETF’s underlying securities, as well as a cash payment generally equal to accumulated dividends of the securities (net of expenses) up to the time of deposit. The Fund’s ability to redeem creation units may be limited by the 1940 Act, which provides that the ETFs will not be obligated to redeem shares held by the Fund in an amount exceeding one percent of their total outstanding securities during any period of less than 30 days. ETPs other than ETFs are issued in shares or units, and trade on exchanges like ETFs.

There is a risk that the underlying ETPs in which the Fund invests may terminate due to extraordinary events that may cause any of the service providers to the ETPs, such as the trustees or sponsors, to close or otherwise fail to perform their obligations to the ETPs. Also, because the ETPs in which the Fund invests may be granted licenses by agreement to use various indices as a basis for determining their compositions and/or otherwise to use certain trade names, the ETPs may terminate if such license agreements are terminated. In addition, an ETP may terminate if its net assets fall below a certain amount. Although the Fund believes that, in the event of the termination of an underlying ETP, it will be able to invest instead in shares of an alternate ETP with a similar strategy, there is no guarantee that shares of an alternate ETP would be available for investment at that time.

Investments in ETPs involve certain inherent risks generally associated with investments in conventional registered investment companies (e.g., mutual funds) that hold a portfolio of securities including, without limitation: (1) risks that the general level of security prices for the ETP's investment strategy may decline, thereby adversely affecting the value of each share or unit of the ETP; (2) an index-based ETP may not fully replicate the performance of its benchmark index because of the temporary unavailability of certain index securities in the secondary market or discrepancies between the ETP and the index with respect to the weighting of securities or number of stocks held; and (3) an index ETP may also be adversely affected by the performance of the specific index, market sector or group of industries on which it is based. In addition, ETPs are subject to the following risks that do not apply to conventional funds: (1) the market price of an ETP's shares may trade at a discount to its net asset value; (2) an active trading market for an ETP's shares may not develop or be maintained; (3) trading of an ETP's shares may be halted if the listing exchange deems such action appropriate; and (4) ETP shares may be delisted from the exchange on which they trade, or activation of "circuit breakers" (which are tied to large decreases in stock prices) may halt trading temporarily. ETPs are also subject to the risks of the underlying securities the ETP is designed to track or invest in.

Money Market Mutual Funds. In order to maintain sufficient liquidity, to implement investment strategies or for temporary defensive purposes, the Fund may invest a significant portion of its assets in shares of one or more money market funds. Generally, money market mutual funds are registered investment companies that seek to earn income consistent with the preservation of capital and maintenance of liquidity by investing primarily in high quality money market instruments, including, without limitation, U.S. government obligations, bank obligations and high-grade corporate instruments. An investment in a money market mutual fund is not insured or guaranteed by the Federal Deposit Insurance Company or any other governmental agency, entity or person. While investor losses in money market mutual funds have been rare, they are possible. In addition, the Fund will incur additional indirect expenses, to the extent it invests in shares of money market mutual funds, due to acquired fund fees and other costs.

Other Investment Companies. Under the 1940 Act, the Fund may not acquire shares of another investment company (ETFs or other investment companies) if, immediately after such acquisition, the Fund and its affiliated persons would hold more than 3% of the ETF's or investment company's total outstanding stock ("**3% Limitation**"). Accordingly, the Fund is subject to the 3% Limitation unless (i) the ETF or the Fund has received an order for exemptive relief from the 3% Limitation from the SEC that is applicable to the Fund; and (ii) the ETF and the Fund take appropriate steps to comply with any conditions in such order. The SEC has issued such exemptive orders to numerous ETFs and their investment advisers, which permit investment companies to invest in such ETFs ("**Exempted ETFs**") beyond the 3% Limitation, subject to certain terms and conditions, including, without limitation, that such investment companies enter into an agreement with the Exempted ETF.

To the extent the 3% Limitation applies to certain ETFs, that limitation may prevent the Fund from allocating its investments in the manner that the Sub-Adviser considers optimal, or cause the Sub-Adviser to select a similar basket of stocks (pre-selected groups of securities related by index or sector made available through certain brokers at a discount brokerage rate) ("**Stock Baskets**") or a similar index-based mutual fund or other investment company as an alternative. The Fund's investments in other investment companies will be subject to the same 3% Limitation described above.

Under the 1940 Act, to the extent that the Fund relies upon Section 12(d)(1)(F) in purchasing securities issued by another investment company, the Fund must either seek instructions from its shareholders with regard to the voting of all proxies with respect to its investment in such securities (ETFs and other investment companies) and vote such proxies only in accordance with the instructions, or vote the shares held by it in the same proportion as the vote of all other holders of the securities. In the event that there is a vote of ETF or other investment company shares held by the Fund, the Fund intend to vote such shares in the same proportion as the vote of all other holders of such securities.

EQUITY SECURITIES. The Fund may invest in equity securities, both directly and indirectly through investment in shares of ETFs and other investment companies, American Depositary Receipts ("**ADRs**") and other types of securities and instruments described in this SAI and in the Prospectus. The equity portion of the Fund's portfolio may include common stocks traded on domestic or foreign securities exchanges or on the over-the-counter market. In addition to common stocks, the equity portion of the Fund's portfolio may also include preferred stocks, convertible preferred stocks, convertible bonds or other equity securities. Prices of equity securities in which the Fund invests may fluctuate in response to many factors, including, but not limited to, the activities of the individual companies whose securities the Fund owns, general market and economic conditions, interest rates and specific industry changes. Such price fluctuations subject the Fund to potential losses. In addition, regardless of any one company's particular prospects, a declining stock market may produce

a decline in prices for all equity securities, which could also result in losses for the Fund. Market declines may continue for an indefinite period of time, and investors should understand that during temporary or extended bear markets, the value of equity securities will decline.

FOREIGN SECURITIES. The Fund may invest directly or indirectly in foreign debt or equity securities traded on U.S. exchanges, in over-the-counter markets or in the form of ADRs described below. The Fund may also invest in foreign currency and foreign currency-denominated securities. Investing in securities issued by companies whose principal business activities are outside the United States may involve significant risks not present in domestic investments. The value of securities denominated in or indexed to foreign currencies, and of dividends and interest from such securities, can change significantly when foreign currencies strengthen or weaken relative to the U.S. dollar. Foreign securities markets generally have less trading volume and less liquidity than U.S. markets and prices on some foreign markets can be highly volatile. Many foreign countries lack uniform accounting and disclosure standards comparable to those applicable to U.S. companies, and it may be more difficult to obtain reliable information regarding an issuer's financial condition and operations. Some foreign countries impose conditions and restrictions on foreigners' ownership of interests in local issuers, including, without limitation, restricting ownership to certain classes of investment in an issuer, which may reduce potential investment returns and impair disposition of those investments. Additional costs associated with an investment in foreign securities may include higher custodial fees than those applicable to domestic custodial arrangements and transaction costs of foreign currency conversions.

Foreign markets may offer less protection to investors than U.S. markets. Foreign issuers, brokers and securities markets may be subject to less government supervision. Foreign securities trading practices, including, without limitation, those involving the release of assets in advance of payment, may involve increased risks in the event of a failed trade or the insolvency of a broker-dealer, and may involve substantial delays. It may also be difficult to enforce legal rights in foreign countries because of inconsistent legal interpretations or less defined legal and regulatory provisions or because of corruption or influence on local courts.

Investing abroad also involves different political and economic risks. Foreign investments may be affected by actions of foreign governments adverse to the interests of U.S. investors, including, without limitation, the possibility of expropriation or nationalization of assets, confiscatory taxation, restrictions on U.S. investment or on the ability to repatriate assets or convert currency into U.S. dollars or other governmental intervention. There may be a greater possibility of default by foreign governments or foreign government-sponsored enterprises, and securities issued or guaranteed by foreign governments, their agencies, instrumentalities or political subdivisions, may or may not be supported by the full faith and credit and taxing power of the foreign government. Investments in foreign countries also involve a risk of local political, economic or social instability, military action or unrest or adverse diplomatic developments. There is no assurance that the Sub-Adviser will be able to anticipate these potential events or counter their effects.

American Depositary Receipts ("ADRs"). ADRs provide a method whereby the Fund may invest in securities issued by companies whose principal business activities are outside the United States. ADRs are receipts typically issued by a U.S. bank or trust company evidencing ownership of the underlying securities, and may be issued as sponsored or unsponsored programs. In sponsored programs, an issuer has made arrangements to have its securities trade in the form of ADRs. In unsponsored programs, the issuer may not be directly involved in the creation of the program. Although regulatory requirements with respect to sponsored and unsponsored programs are generally similar, in some cases it may be easier to obtain financial information from an issuer that participates in a sponsored program. Generally, ADRs are designed for use in the U.S. securities markets, and are denominated in U.S. dollars, while the underlying securities of the ADRs in the Fund's portfolio are usually denominated or quoted in currencies other than the U.S. dollar. Changes in foreign currency exchange rates affect the value of the ADR and, therefore, the value of the Fund's portfolio, either positively or negatively (i.e., foreign currency risk). In addition to foreign currency risk, ADRs present certain risks not ordinarily associated with investments in securities of U.S. issuers. These risks include political, economic or legal developments in the company's home country (including war or other instability, expropriation of assets, nationalization and confiscatory taxation), withholding taxes on dividend or interest payments or capital transactions or other restrictions. In addition, although the ADRs in which the Fund invests are listed on major U.S. exchanges, there can be no assurance that a market for these securities will be made or maintained or that any such market will be or remain liquid. If that happens, the Fund may have difficulty selling securities, or selling them quickly and efficiently at the prices at which they have been valued.

Emerging Market Securities. The Fund may invest a portion of its assets in emerging markets. An "emerging market" is any country that the World Bank, the International Finance Corporation or the United Nations or its authorities has determined to have a low or middle income economy. Investing in emerging markets involves exposure to potentially unstable governments, the risk of nationalization of business, restrictions on foreign ownership, prohibitions on repatriation of assets and a system of laws that may offer less protection of property rights. Emerging market economies may be based on only a few industries, may be highly vulnerable to changes in local and global trade conditions, and may suffer from extreme and volatile debt burdens or inflation rates. The securities markets in emerging markets are substantially smaller, less liquid and more volatile than the major securities markets in the United States and other developed countries. A high proportion of the shares of many issuers may be held by a limited number of persons and financial institutions, which may limit the number of shares available for investment by the Fund. A limited number of issuers in emerging markets may represent a disproportionately large percentage of market capitalization and trading value. The limited liquidity of securities markets in these countries may also affect the Fund's ability to acquire or dispose of securities at the

price and time it wishes to do so. The inability of the Fund to dispose fully and promptly of positions in declining markets would cause the Fund's net asset value to decline as the values of the unsold positions are marked to lower prices. In addition, these securities markets are susceptible to being influenced by large investors trading significant blocks of securities.

Foreign Currency Transactions. Investments in foreign securities involve currency risk. The Fund may engage in various transactions to hedge currency risk, but is not required to do so. The instruments the Fund may use for this purpose include, without limitation, forward foreign currency contracts, foreign currency futures contracts and options on foreign currencies.

A forward foreign currency contract is an obligation to purchase or sell a specified currency at a future date, which may be any fixed number of days from the date of the contract agreed upon by the parties, at a price established at the time of the contract. These contracts are entered into directly between currency traders and their customers. The Fund may use these contracts to purchase or sell a foreign currency for the purpose of locking in the U.S. dollar price of foreign securities the Fund has agreed to purchase or the amount in U.S. dollars that the Fund will receive when it has sold foreign securities.

Currency futures contracts are similar to forward currency contracts, except that they are traded on exchanges (and have margin requirements) and are standardized as to contract size and delivery date. The Fund may purchase or sell foreign currency futures contracts to protect against fluctuations in the U.S. dollar values of foreign securities. For example, the Fund may sell a futures contract on a foreign currency when it holds securities denominated in that currency and it anticipates a decline in the value of that currency relative to the U.S. dollar. If such a decline were to occur, the resulting adverse effect on the value of the foreign-denominated securities may be offset, in whole or in part, by gains on the futures contract.

A currency option is the right - but not the obligation - to buy (in the case of a call) or sell (in the case of a put) a set amount of one currency for another at a predetermined time in the future. The two parties to a currency option contract are the option buyer and the option seller/writer. The option buyer may, for an agreed upon price, purchase from the option writer a commitment that the option writer will sell (or purchase) a specified amount of a foreign currency upon demand. The option extends only until the stated expiration date. The rate at which one currency can be purchased or sold is one of the terms of the option and is called the strike price. The total description of a currency option includes the underlying currencies, the contract size, the expiration date, the strike price and whether the option is an option to purchase the underlying currency (a call) or an option to sell the underlying currency (a put). There are three types of option expirations: American-style, European-style and Bermuda-style. American-style options can be exercised on any business day prior to the expiration date. European-style options can be exercised at expiration only. Bermuda-style options can be exercised at the date of expiration, and on certain specified dates that occur between the purchase date and the date of expiration.

The use of foreign currency transactions involves risks, including, without limitation, the risk of imperfect correlation between movements in futures or options prices and movements in the price of currencies which are the subject of the hedge. The successful use of foreign currency transactions also depends on the ability of the Sub-Adviser to correctly forecast interest rate movements, currency rate movements and general stock market price movements. There can be no assurance that the Sub-Adviser's judgment will be accurate. The use of foreign currency transactions also exposes the Fund to the general risks of investing in futures and options contracts, including, without limitation: the risk of an illiquid market and the risk of adverse regulatory actions. Any of these factors may cause the Fund to lose money on its foreign currency transactions.

CONVERTIBLE SECURITIES. In addition to common and preferred stocks, the Fund may invest directly or indirectly in securities convertible into common stock. Convertible securities eligible for purchase by the Fund include, without limitation, convertible bonds, convertible preferred stocks and warrants. A warrant is an instrument issued by a corporation which gives the holder the right to subscribe to a specific amount of the corporation's capital stock at a set price for a specified period of time. Warrants do not represent ownership of the securities, but only the right to buy the securities. The price of warrants do not necessarily move parallel to the prices of their underlying securities. Warrants may be considered speculative in that they have no voting rights, pay no dividends and have no rights with respect to the assets of their issuing corporation. Warrant positions will not be used to increase the leverage of the Fund; consequently, warrant positions are generally accompanied by cash positions equivalent to the required exercise amount. The Fund's ability to invest in warrants is limited by its investment restrictions.

REAL ESTATE SECURITIES. The Fund will not invest directly in real estate, but may invest in readily marketable securities issued by companies that invest in real estate or interests therein. The Fund may also invest in readily marketable interests in real estate investment trusts ("REITs"). REITs are generally publicly traded on national stock exchanges and in the over-the-counter market and have varying degrees of liquidity. Investments in real estate securities are subject to risks inherent in the real estate market, including, without limitation, risks related to changes in interest rates, possible declines in the value of and demand for real estate, adverse general and local economic conditions, possible lack of availability of mortgage funds, overbuilding in a given market and environmental problems.

The Fund may invest in global real estate companies outside the U.S. These companies include, but are not limited to, companies with similar characteristics to a REIT structure, in which revenue consists primarily of rent derived from owned, income producing real estate

properties, dividend distributions as a percentage of taxable net income are high (generally greater than 80%), debt levels are generally conservative and income derived from development activities is generally limited.

MONEY MARKET INSTRUMENTS. The Fund may invest directly and indirectly in money market instruments including, without limitation, U.S. Government obligations or corporate debt obligations (including, without limitation, those subject to repurchase agreements). Money market instruments also may include, without limitation, Banker's Acceptances and Certificates of Deposit of domestic branches of banks, Commercial Paper, and Master Notes. **Banker's Acceptances** are time drafts drawn on and "accepted" by a bank. When a bank "accepts" such a time draft, it assumes liability for its payment. When the Fund acquires a Banker's Acceptance, the bank that "accepted" the time draft is liable for payment of interest and principal when due. The Banker's Acceptance carries the full faith and credit of such bank. A **Certificate of Deposit** is an unsecured, interest bearing debt obligation of a bank. **Commercial Paper** is an unsecured, short-term debt obligation of a bank, corporation, or other borrower. Commercial Paper maturity generally ranges from two to 270 days and is usually sold on a discounted basis rather than as an interest-bearing instrument. The Fund will invest directly in Commercial Paper only if it is rated in one of the top two rating categories by Moody's, S&P or Fitch or, if not rated, is of equivalent quality in the Sub-Adviser's opinion. Commercial Paper may include Master Notes of the same quality. **Master Notes** are unsecured obligations which are redeemable upon demand of the holder and which permit the investment of fluctuating amounts at varying rates of interest. Master Notes may be acquired by the Fund through the Master Note program of the Fund's custodian bank, acting as administrator thereof. The Sub-Adviser will monitor, on a continuous basis, the earnings power, cash flow and other liquidity ratios of the issuer of each Master Note held by the Fund.

ILLIQUID INVESTMENTS. The Fund may invest up to 15% of its net assets in illiquid securities, which are investments that cannot be sold or disposed of in the ordinary course of business within seven days at approximately the prices at which they are valued. Under the supervision of the Board of Trustees of the Trust (the "**Board**"), the Sub-Adviser determines the liquidity of the Fund's investments, and through reports from the Sub-Adviser, the Board monitors investments in illiquid instruments. In determining the liquidity of the Fund's investments, the Sub-Adviser may consider various factors including, without limitation: (i) the frequency of trades and quotations; (ii) the number of dealers and prospective purchasers in the marketplace; (iii) dealer undertakings to make a market; (iv) the nature of the security (including, without limitation, any demand or tender features); and (v) the nature of the marketplace for trades (including, without limitation, the ability to assign or offset the Fund's rights and obligations relating to the investment). If through a change in values, net assets or other circumstances, the Fund were in a position where more than 15% of its net assets were invested in illiquid securities, it would seek to take appropriate steps to protect liquidity. An investment in illiquid securities poses risks of potential delays in resale and uncertainty in valuation. Limitations on resale may have an adverse effect on the marketability of portfolio securities and the Fund may be unable to dispose of illiquid securities promptly or at reasonable prices.

RESTRICTED SECURITIES. Within its limitations on investment in illiquid securities, the Fund may purchase restricted securities that generally can be sold in privately negotiated transactions, pursuant to an exemption from registration under the federal securities laws or in a registered public offering. Where registration is required for a restricted security held by the Fund, the Fund may be obligated to pay all or part of the registration expense, and a considerable period may elapse between the time it decides to seek registration and the time the Fund may be permitted to sell a security under an effective registration statement. If during such a period adverse market conditions were to develop, the Fund might obtain a less favorable price than prevailed when it decided to seek registration of the security.

SHORT SALES OF SECURITIES. The Fund may make short sales, which are transactions in which the Fund sells a security it does not own in anticipation of a decline in the market value of that security. To complete a short sale transaction, the Fund will borrow the security from a broker-dealer, which generally involves the payment of a premium and transaction costs. The Fund then sells the borrowed security to a buyer in the market. The Fund will then cover the short position by buying shares in the market either (i) at its discretion or (ii) when called by the broker-dealer lender. Until the security is replaced, the Fund is required to pay the broker-dealer lender any dividends or interest that accrue during the period of the loan. In addition, the net proceeds of the short sale will be retained by the broker to the extent necessary to meet regulatory or other requirements, until the short position is closed out.

The Fund will incur a loss as a result of a short sale if the price of the security increases between the date of the short sale and the date on which the Fund replaces the borrowed security. The Fund will realize a gain if the security declines in price between those dates. The amount of any gain will be decreased, and the amount of any loss increased by the amount of the premium, dividends, interest or expenses the Fund may be required to pay in connection with a short sale. When the Fund makes a short sale, the Fund will segregate liquid assets (such as cash, U.S. government securities, or equity securities) on the Fund's books and/or in a segregated account at the Fund's custodian or broker (or an affiliate thereof) in an amount sufficient to cover the current value of the securities to be replaced as well as any dividends, interest and/or transaction costs due to the broker-dealer lender, to the extent such deposit is required by applicable law and/or the parties involved in the transaction. In determining the amount to be segregated, any securities that have been sold short by the Fund will be marked to market daily. To the extent the market price of the security sold short increases and more assets are required to meet the Fund's short sale obligations, additional assets will be segregated to ensure adequate coverage of the Fund's short position obligations.

In addition, the Fund may make short sales “against the box,” i.e., when the Fund sells a security short while owning securities equivalent in kind and amount to the securities sold short (or securities convertible or exchangeable into such securities) and will hold such securities while the short sale is outstanding. The Fund will incur transaction costs, including, without limitation, interest, in connection with opening, maintaining and closing short sales against the box.

INVESTMENTS IN COMPANIES WITH BUSINESS RELATED TO COMMODITIES. As explained under “Fundamental Restrictions” below, the Fund does not invest directly in commodities. However, the Fund may from time to time invest in securities of companies whose business is related to commodities, or in registered investment companies or other companies that invest directly or indirectly in commodities. For example, the Fund may invest in companies whose business is related to oil or natural gas production or registered investment companies or publicly or privately traded companies that invest in securities of companies that produce crude oil or natural gas and related instruments (including, without limitation, the underlying commodities). Investments in equity securities of companies involved in producing commodities, and the value of the investment companies and other companies that invest in commodities, are subject to a number of risks. For example, the prices of commodities can make sharp movement, up or down, in response to cyclical economic conditions, political events or the monetary policies of various countries, any of which may adversely affect the value of companies whose business is related to such commodities, or the value of investment companies and other companies investing in such business or commodities. Furthermore, such companies are subject to risks related to fluctuations of prices and perceptions of value in commodities markets generally.

TEMPORARY DEFENSIVE POSITIONS. The Fund may, from time to time, take temporary defensive positions that are inconsistent with its principal investment strategies in an attempt to respond to adverse market, economic, political or other conditions. In such circumstances, the Fund may also hold up to 100% of its portfolio in cash and cash equivalent positions. When the Fund takes a temporary defensive position, the Fund may not be able to achieve its investment objective.

BORROWING. The Fund may, subject to the restrictions of the 1940 Act, borrow money from banks as a temporary measure. For example, the Fund may borrow money to meet redemption requests or for extraordinary or emergency purposes. In the event the Fund should ever borrow money under these conditions, such borrowing could increase the Fund’s costs and thus reduce the value of the Fund’s assets. The 1940 Act presently allows the Fund to borrow from any bank (including, without limitation, pledging, mortgaging or hypothecating assets) provided that, immediately after any such borrowing, there is an asset coverage of at least 300% for all such borrowings, and provided further that, in the event that the Fund’s asset coverage at any time falls below 300%, the Fund reduce its existing borrowings (within three days, excluding Sundays and holidays) to the extent necessary to comply with the foregoing limitation.

INVESTMENT LIMITATIONS

The Fund has adopted the following investment limitations, which cannot be changed without approval by holders of a majority of its outstanding voting Shares. A “majority” for this purpose means the lesser of (i) 67% of the Fund’s outstanding Shares represented in person or by proxy at a meeting at which more than 50% of its outstanding Shares are represented; or (ii) more than 50% of the Fund’s outstanding Shares. Unless otherwise indicated, percentage limitations apply at the time of purchase of the applicable securities.

FUNDAMENTAL RESTRICTIONS. As a matter of fundamental policy, the Fund:

- (1) may not issue senior securities, except as permitted by the 1940 Act;
- (2) may not borrow money (including, without limitation, borrowing to meet redemptions), except to the extent permitted under the 1940 Act;
- (3) may not pledge, mortgage or hypothecate its assets;
- (4) may not act as underwriter except to the extent that, in connection with the disposition of portfolio securities, the Fund may be deemed to be an underwriter under certain federal securities laws;
- (5) may not make loans, provided that the Fund may lend its portfolio securities in an amount up to 33⅓% of total Fund assets;
- (6) may not purchase or sell real estate or interests in real estate; provided, however, that the Fund may purchase and sell securities which are secured by real estate and securities of companies which invest or deal in real estate (including, without limitation, investments in REITs and mortgage-backed securities);
- (7) will concentrate (as that term may be defined or interpreted under the 1940 Act and the rules and regulations promulgated thereunder) its investments in the securities of issuers engaged primarily in utilities-related industries; and
- (8) may not invest in commodities.

NON-FUNDAMENTAL RESTRICTIONS. The following investment limitations are not fundamental and may be changed by the Board without shareholder approval. As a matter of non-fundamental policy, the Fund may not:

- (1) purchase securities on margin (but the Fund may obtain such short-term credits as may be necessary for the clearance of transactions);
- (2) make investments for the purpose of exercising control or management over a portfolio company;
- (3) invest in securities of other registered investment companies, except as permitted under the 1940 Act;
- (4) invest in interests in oil, gas or other mineral exploration or development programs, although the Fund may invest in the common stock of companies that invest in or sponsor such programs;
- (5) purchase warrants if as a result the Fund would then have more than 5% of its total net assets (taken at the lower of cost or current value) invested in warrants; or
- (6) invest more than 15% of its net assets in illiquid securities.

With respect to the fundamental and non-fundamental investment restrictions above, if a percentage limitation is adhered to at the time of investment, a later increase or decrease in percentage resulting from any change in value or net assets will not result in a violation of such restriction (i.e., percentage limitations are determined at the time of purchase); provided, however, that the treatment of the fundamental restrictions related to borrowing money and issuing senior securities are exceptions to this general rule.

With respect to the above fundamental investment restriction on borrowing money, the entry into options, forward contracts, futures contracts, including, without limitation, those relating to indices, and options on futures contracts or indices will not constitute borrowing.

With respect to the above fundamental investment restriction on pledging, mortgaging or hypothecating assets, any such activity to the extent necessary to secure permitted borrowings and to the extent related to the deposit of assets in escrow in connection with (i) writing covered put or call options, (ii) the purchase of securities on a when-issued or forward commitment basis, or (iii) collateral or initial or variation margin arrangements with respect to options, forward contracts, futures contracts (including, without limitation, those relating to indices), or options on futures contracts or indices will not be considered pledging, mortgaging or hypothecating assets.

With respect to the above fundamental investment restriction on making loans, investment in U.S. government obligations, short-term commercial paper, certificates of deposit, bankers' acceptances and repurchase agreements will not be deemed to be the making of a loan.

With respect to the above fundamental investment restriction regarding industry concentration, an issuer will be considered to be "engaged primarily in utilities-related industries" if (i) at least 50% of the issuer's assets or customers are committed to the provision of products, services or equipment for the generation, production or distribution of electricity, gas or water, (ii) at least 50% of the issuer's revenues, gross income or profits derive from the provision of products, services or equipment for the generation, production or distribution of electricity, gas or water; or (iii) based on other available information, the Fund's portfolio manager(s) determines that the issuer is otherwise within the utilities industry.

With respect to the above fundamental investment restriction on investments in commodities, the purchase or sale by the Fund of options, forward contracts, futures contracts (including, without limitation, those relating to indices), options on futures contracts or indices or interests in equity securities issued by companies (including, without limitation, investment companies) that hold or invest in one or more commodities as their sole or principal business activity will not be considered an investment in commodities.

With respect to the above non-fundamental investment restriction on purchasing securities on margin, short sales of securities and futures trades, forward contracts or similar trades requiring margin deposits or other use of a margin account will not be considered purchasing securities on margin.

The 1940 Act allows the Fund to borrow from any bank (including, without limitation, pledging, mortgaging or hypothecating assets) in an amount up to 33 $\frac{1}{3}$ % of its total assets and the Fund will, to the extent necessary, reduce its existing borrowings (within three days, excluding Sundays and holidays) to comply with the provisions of the 1940 Act.

MANAGEMENT AND OTHER SERVICE PROVIDERS

The Board is responsible for the supervision and oversight of the Fund. The Board approves all significant agreements between the Trust, on behalf of the Fund, and those companies that furnish services to the Fund; reviews the performance of the Fund; and oversees the business activities of the Fund. This section of the SAI provides information about the persons who serve as trustees (“**Trustees**”) and executive officers to the Trust, as well as the entities that provide services to the Trust.

TRUSTEES AND OFFICERS. Following are the Trustees and executive officers of the Trust, their ages and addresses, their present positions with the Trust, and their principal occupations during the past five years. Those Trustees who are “interested persons” as defined in the 1940 Act (“**Interested Trustees**”) and those Trustees who are not “interested persons” as defined in the 1940 Act (“**Independent Trustees**”) are identified in the table. The address of each Trustee and executive officer of the Trust, unless otherwise indicated, is 1540 Broadway, New York, NY 10036.

Name and Age	Position(s) held with Trust	Length of Time Served	Principal Occupation(s) During Past Five Years	Number of Portfolios in Fund Complex Overseen by Trustee*	Other Directorships Held by Trustee During Past Five Years
INDEPENDENT TRUSTEES					
James Simpson Year of Birth: 1970	Trustee	Since Inception	President, ETP Resources, LLC (2009-present) (a financial services consulting company); Vice President, Northern Trust Securities, Inc. and Vice President, Northern Trust Global Investments (2008-2009)	13	Trustee (since 2015), Virtus ETF Trust II (3 portfolios)
Robert S. Tull Year of Birth: 1952	Trustee	Since Inception	Independent Consultant (2013-present); Chief Operating Officer, Factor Advisors, LLC (2010-2013); Chief Operating Officer, GlobalShares (2009-2010)	13	Trustee (since 2015), Virtus ETF Trust II (3 portfolios)
Stephen O’Grady Year of Birth: 1946	Trustee	Since September 2014	Lead Market Maker, GFI Group (2011-2012); Partner, Kellogg Capital Markets (2004-2011)	13	Trustee (since 2015), Virtus ETF Trust II (3 portfolios); Trustee (since 2013), Greenhaven Continuous Commodity ETF (GCC); Trustee (since 2014), Acacia Group LLC
Myles J. Edwards Year of Birth: 1961	Trustee	Since November 2016	General Counsel, CCO and COO, Shufro, Rose & Co., LLC (2014 – present); General Counsel and CC, Constellation Wealth Advisers, LLC (2011 – 2014)	13	Trustee (since 2015), Virtus ETF Trust II (3 portfolios)
*The Fund Complex consists of the Trust and Virtus ETF Trust II.					
INTERESTED TRUSTEE**					
William J. Smalley Year of Birth: 1983	Trustee, President, Chief Executive Officer and Secretary	Since Inception	President, Virtus ETF Solutions LLC (2012-present); Managing Principal, ETF Distributors LLC (2012-present); President, Virtus ETF Trust II (2015-present); Vice President, Factor Advisors, LLC (2010-2012); Vice President, MacroMarkets, LLC (2006-2010)	10	None
** Mr. Smalley is an Interested Trustee because he is an employee of the Adviser.					
OTHER EXECUTIVE OFFICERS					
Brinton W. Frith Year of Birth: 1969	Treasurer and Chief Financial Officer	Since Inception	Managing Director, Virtus ETF Solutions LLC (2013-present); Treasurer, ETFis Series Trust I (2012 – present); President, Javelin Investment Management, LLC (2008-2013)	N/A	N/A
Nancy J. Engberg Year of Birth: 1956	Chief Compliance Officer	Since 2015	Vice President (since 2008) and Chief Compliance Officer (2008 to 2011 and since 2016), Virtus Investment Partners, Inc. and/or certain of its subsidiaries; various officer positions (since 2003) with Virtus affiliates; Vice President and Chief Compliance Officer (since 2011), Virtus Mutual Fund Complex; Vice President (since 2010) and Chief Compliance Officer (since 2011), Virtus Variable Insurance Trust; Vice President and Chief Compliance Officer (since 2011), Virtus Closed-End Funds; Vice President and Chief Compliance Officer (since 2013), Virtus Alternative Solutions Trust; Chief Compliance Officer (since 2015), ETFis Series Trust I.	N/A	N/A

Board Structure. The Trust’s Board includes four Independent Trustees and one Interested Trustee, Mr. Smalley, who is Chairman of the Board. Each Trustee serves an indefinite term, until a successor is elected, qualified and serving as a Trustee. The Board has not appointed an Independent Trustee to serve as lead Independent Trustee. The Board believes this structure is appropriate because, among other things, the Board’s current small size and the small number of funds in the Trust permit Trust management to communicate with each Independent Trustee as and when needed, and permit each Independent Trustee to be involved in each committee of the Board (each a “Committee”) as well as each Board function. The Board may consider appointing an independent Chairman or a lead Independent Trustee in the future, particularly if the Board’s size or the Trust’s complexity materially increases.

With respect to risk oversight, the Board holds four regular meetings each year to consider and address matters involving the Trust and the Fund. During these meetings, the Board receives reports from the Adviser, the Trust’s sub-advisers, Trust management, the Fund’s administrator, transfer agent and distributor, and the Trust’s Chief Compliance Officer (the “CCO”), on regular quarterly items and, where appropriate and as needed, on specific issues. As part of its oversight function, the Board also may hold special meetings or communicate directly with Trust management or the CCO to address matters arising between regular meetings. The Board has established a committee structure that includes an Audit Committee and a Nominating Committee (discussed in more detail below). Each Committee is comprised entirely of Independent Trustees.

Qualification of Trustees. The Board has considered each Trustee’s experience, qualifications, attributes and skills in light of the Board’s function and the Trust’s business and structure, and has determined that each Trustee possesses experience, qualifications, attributes and skills that enable the Trustee to be an effective member of the Board. In this regard, the Board has considered the following specific experience, qualifications, attributes and/or skills for each Trustee:

James Simpson	Mr. Simpson has experience as an independent director for other ETFs and as President of ETP Resources, a financial information services company that provides detailed reference data on U.S.-listed exchange-traded products. He also has experience working for financial institutions and securities exchanges and has consulted with respect to the development of exchange-traded products.
Robert S. Tull	Mr. Tull has experience as an independent director for other ETFs and as a consultant to financial companies and as chief operating officer to financial services companies. Mr. Tull has also assisted with the development of exchange-traded products.
Stephen O’Grady	Mr. O’Grady has experience as an independent director for other ETFs and in the development and operation of ETF trading systems and futures exchanges and has served as president of an options brokerage firm.
Myles J. Edwards	Mr. Edwards has experience as general counsel, chief compliance officer and chief operating officer of SEC registered investment advisers, hedge funds and FINRA member broker-dealers.
William J. Smalley	Mr. Smalley has experience in the financial industry, including the development of exchange-traded products, and is a founder of the Adviser and the Distributor.

The Board has determined that each of the Trustees’ careers and background, combined with their interpersonal skills and general understanding of financial and other matters, enable the Trustees to effectively participate in and contribute to the Board’s functions and oversight of the Trust. References to the qualifications, attributes and skills of Trustees are pursuant to requirements of the SEC, do not constitute holding out the Board or any Trustee as having any special expertise or experience, and shall not impose any greater responsibility on any such person or on the Board by reason thereof.

Trustee Standing Committees. The Board has established the following standing committees:

Audit Committee: The Independent Trustees are the current members of the Audit Committee. The Audit Committee oversees the Fund’s accounting and financial reporting policies and practices, reviews the results of the annual audits of the Fund’s financial statements and interacts with the Fund’s independent auditors on behalf of the Board. The Audit Committee also serves in the role of the Trust’s qualified legal compliance committee and, as such, receives, investigates and makes recommendations as to appropriate remedial action in connection with any report of evidence of a material violation of securities laws or breach of fiduciary duty or similar violation by the Trust, its officers, Trustees or agents. The Audit Committee operates pursuant to an Audit Committee Charter and meets periodically as necessary. The Audit Committee met twice during the past fiscal year.

Nominating Committee: The Independent Trustees are the current members of the Nominating Committee. The Nominating Committee nominates, selects and appoints Independent Trustees to fill vacancies on the Board and to stand for election at appropriate meetings of the shareholders of the Trust. The Nominating Committee meets only as necessary. The Nominating Committee did not meet during the past fiscal year. The Nominating Committee generally will not consider nominees recommended by shareholders of the Trust.

Beneficial Ownership of Shares of the Fund. Because the Fund is newly organized, none of the Trustees own Shares of the Fund as of the date of this SAI.

Ownership In Fund Affiliates. As of the date of this SAI, none of the Independent Trustees, nor members of their immediate families, owned, beneficially or of record, securities of the Adviser, the Sub-Adviser, the Fund’s principal underwriter or any affiliate of the Adviser, the Sub-Adviser or the principal underwriter.

Compensation. Officers of the Trust and the Trustees who are interested persons of the Trust or the Adviser receive no salary from the Trust. Each Independent Trustee receives \$2,000 per year per series of the Trust. The Trust reimburses each Trustee and officer of the Trust for his or her travel and other expenses relating to attendance at Board or committee meetings. For the fiscal year ended July 31, 2016, the Trustees received the following compensation:

Name of Trustee	Aggregate Compensation From the Fund	Pension or Retirement Benefits Accrued As Part of Fund Expenses	Estimated Annual Benefits Upon Retirement	Total Compensation From Fund Complex Paid to Trustees
INDEPENDENT TRUSTEES				
James Simpson	\$1,705	None	None	\$13,705
Robert S. Tull	\$1,705	None	None	\$13,705
Stephen O’Grady	\$1,705	None	None	\$13,705
Myles J. Edwards ¹	N/A	N/A	N/A	N/A
INTERESTED TRUSTEE				
William J. Smalley	None	None	None	None

¹ Myles J. Edwards was appointed as a Trustee of the Trust effective November 9, 2016.

CODES OF ETHICS. The Trust, the Adviser, the Sub-Adviser and the Fund’s principal underwriter have each adopted a code of ethics, as required by Rule 17j-1 under the 1940 Act, that is designed to prevent personnel of the Trust, the Adviser, the Sub-Adviser and the Fund’s principal underwriter subject to the codes from engaging in deceptive, manipulative or fraudulent activities in connection with securities held or to be acquired by the Fund (which securities may also be held by persons subject to the codes). The codes of ethics permit personnel of the Trust, the Adviser, the Sub-Adviser and the principal underwriter subject to the codes to invest in securities, including, without limitation, securities that may be purchased or held by the Fund, subject to certain restrictions and pre-approval requirements. In addition, the codes of ethics of the Trust, the Adviser, the Sub-Adviser and the principal underwriter require that access persons of such entities report their personal securities transactions and holdings, which are reviewed for compliance with the code of ethics.

ANTI-MONEY LAUNDERING PROGRAM. The Trust has adopted an anti-money laundering (“AML”) program, as required by applicable law, that is designed to prevent the Fund from being used for money laundering or the financing of terrorist activities. The Trust’s AML Compliance Officer is responsible for implementing and monitoring the operations and internal controls of the program. Compliance officers at certain of the Fund’s service providers are also responsible for monitoring aspects of the AML program. The AML program is subject to the continuing oversight of the Board.

PROXY VOTING POLICIES. The Trust has adopted a proxy voting and disclosure policy that delegates to each Fund’s Proxy Voting Manager the authority to vote proxies for the Fund, subject to oversight of the Board. The Sub-Adviser has been appointed the Fund’s Proxy Voting Manager. Copies of the Trust’s Proxy Voting Policies and Procedures and the Sub-Adviser’s Policies and Procedures are included as Appendix A and Appendix B, respectively, to this SAI.

No later than August 31 of each year, the Trust files Form N-PX with the SEC. Form N-PX states how the Fund voted proxies relating to portfolio securities during the most recent 12-month period ended June 30. The Fund’s proxy voting records, as set forth in its most recent Form N-PX filing, are available upon request, without charge, by calling the Fund at (866) 383-7636. This information is also available on the SEC’s website at <http://www.sec.gov>.

CONTROL PERSONS AND PRINCIPAL HOLDERS OF SECURITIES

As of the date of this SAI, the Fund had no Shares outstanding.

MANAGEMENT SERVICES

The following information supplements and should be read in conjunction with the section in the Prospectus entitled “Management of the Fund”.

ADVISER. The Fund’s Adviser is Virtus ETF Advisers LLC, located at 1540 Broadway, New York, NY 10036. The Adviser was organized as a Delaware limited liability company in August 2013 and, since April 2015, has been a majority-owned subsidiary of Virtus Partners, Inc. (“VPI”), a wholly owned subsidiary of Virtus Investment Partners, Inc. (ticker: VRTS) (together with its affiliates, “Virtus”). Virtus is a public company that operates a multi-manager asset management business and has substantial experience in the investment management and investment company industries. As of June 30, 2016, on a collective basis, Virtus-affiliated registered investment advisers manage over \$45.1 billion in assets. The Adviser has served as the investment adviser of the Fund since the inception of the Fund’s operations. The Adviser also serves as investment adviser to each other series of the Trust and each series of Virtus ETF Trust II, an open-end management investment company registered with the SEC.

The Adviser serves as investment adviser to the Fund and has overall responsibility for the general management and administration of the Trust, pursuant to an investment advisory agreement between the Trust and the Adviser (the “**Advisory Agreement**”). The Advisory Agreement is effective for an initial two-year period and will remain in effect thereafter only so long as such renewal and continuance is specifically approved at least annually by the Board or by vote of a majority of the Fund’s outstanding voting securities, provided the continuance is also approved by a majority of the Independent Trustees. The Advisory Agreement is terminable without penalty on 60 days’ notice by the Board or by vote of a majority of the outstanding voting securities of the Fund. The Advisory Agreement provides that it will terminate automatically in the event of its “assignment,” as such term is defined in the 1940 Act.

Under the Advisory Agreement, the Adviser is not liable for any error of judgment or mistake of law or for any loss suffered by the Fund in connection with the matters to which the Advisory Agreement relates, except a loss resulting from a breach of fiduciary duty with respect to the receipt of compensation for services; or a loss resulting from willful misfeasance, bad faith or gross negligence on the part of the Adviser in the performance of its duties; or from the reckless disregard of its duties and obligations under the Advisory Agreement.

Adviser Compensation. The Adviser is entitled to receive a monthly advisory fee at the annual rate of the greater of 0.075% of the Fund’s average daily net assets or \$30,000 per year. The Sub-Adviser pays the Adviser’s fee out of the Sub-Adviser’s fee, pursuant to the Sub-Adviser’s unified fee arrangement with the Fund.

The Adviser has engaged the Sub-Adviser to manage the Fund’s investments in accordance with the stated investment objective and policies of the Fund, subject to the oversight and supervision of the Adviser and the Board.

SUB-ADVISER. The Fund’s Sub-Adviser is W. H. Reaves & Co., Inc., d/b/a Reaves Asset Management, 10 Exchange Place, 18th Floor, Jersey City, New Jersey 07302. The Sub-Adviser has served in that capacity since the commencement of the Fund’s operations pursuant to a sub-advisory contract (the “**Sub-Advisory Agreement**”) with the Trust on behalf of the Fund as approved by the Board. The Sub-Adviser makes day-to-day investment decisions for the Fund and selects broker-dealers for executing portfolio transactions, subject to the brokerage policies established by the Board. The Sub-Adviser is an employee-owned firm organized as a Delaware corporation in 1961. As of July 31, 2016, the Sub-Adviser had approximately \$2.8 billion in assets under management.

Sub-Adviser Compensation. As full compensation for its services to the Fund, the Sub-Adviser receives monthly compensation from the Fund at the annual rate of 0.95% of the Fund’s average daily net assets. In consideration of the fees paid with respect to the Fund, the Sub-Adviser has agreed to pay all of the Fund’s expenses (including the management fee paid to the Adviser, as noted above), except for the management fee paid to the Sub-Adviser; payments under the Fund’s 12b-1 plan (if any); brokerage expenses; acquired fund fees and expenses; taxes; interest; litigation and arbitration expenses; fees for professional services stemming from litigation or arbitration; and other extraordinary expenses of the Fund; each of which is paid by the Fund.

PORTFOLIO MANAGERS. Louis F. Cimino, John P. Bartlett and Joseph (Jay) Rhame, have served as portfolio managers for the Fund since the inception of the Fund’s operations. The portfolio managers are primarily responsible for the day-to-day management of the Fund.

Ownership of Fund Shares. The table below shows the amount of Fund equity securities beneficially owned by the portfolio managers as of July 31, 2016:

Name of Portfolio Manager	Dollar Range of Equity Securities in the Fund
Louis F. Cimino	\$50,001-\$100,000
John P. Bartlett	None
Joseph (Jay) Rhame	\$10,001-\$50,000

Other Accounts. In addition to the Fund, the portfolio managers are responsible for the day-to-day management of certain other accounts. The table below shows the number of, and total assets in, such other accounts as of July 31, 2016. None of these accounts has an advisory fee based on the performance of the account.

Portfolio Manager	Registered Investment Companies		Other Accounts	
	# of Accounts	Total Assets (Millions)	# of Accounts	Total Assets (Millions)
Louis F. Cimino	0	\$0	362	\$94.1
John P. Bartlett	1	\$419.5	0	\$0
Joseph (Jay) Rhame	0	\$0	0	\$0

Material Conflicts of Interest. Because the portfolio managers may at times manage multiple portfolios for multiple clients, the potential for conflicts of interest exists. The portfolio managers may manage portfolios having substantially the same investment style as the Fund. However, the portfolios managed by the portfolio managers may not have portfolio compositions identical to those of the Fund due, for example, to specific investment limitations or guidelines present in some portfolios or accounts, but not others. The portfolio managers may purchase securities for one portfolio and not another portfolio, and the performance of securities purchased for one portfolio may vary from the performance of securities purchased for other portfolios. The portfolio managers may place transactions on behalf of other accounts that are directly or indirectly contrary to investment decisions made on behalf of the Fund, or make investment decisions that are similar to those made for the Fund, both of which have the potential to adversely impact the Fund depending on market conditions. For example, the portfolio managers may purchase a security in one portfolio while appropriately selling that same security in another portfolio. In addition, some of these portfolios may have fee structures that are or have the potential to be higher than the advisory fees paid by the Fund, which can cause potential conflicts in the allocation of investment opportunities between the Fund and the other accounts. In addition, current trading practices would not allow the Sub-Adviser to intentionally favor one portfolio over another as trades are executed as trade orders are received.

Compensation. The portfolio managers are not compensated directly by the Fund, but rather by the Sub-Adviser, in which each portfolio manager has an ownership interest (and is thus entitled to profits from the Sub-Adviser on account of such ownership). Since the Sub-Adviser's profits are expected to increase as the Fund's assets increase, each of the portfolio managers is expected to receive increased profits as an owner of the Sub-Adviser as assets of the Fund increase.

OTHER SERVICE PROVIDERS

ADMINISTRATOR. Under the Administrative Services Agreement, Virtus ETF Solutions LLC (the “**Administrator**”) serves as the operational administrator of the Trust. The Administrator's address is 1540 Broadway, New York, NY 10036. Under the Administrative Services Agreement, the Administrator supervises the overall administration of the Trust and the Fund including, among other responsibilities, the coordination and day-to-day oversight of the Fund's operations, the service providers' communications with the Fund and each other and assistance with Trust, Board and contractual matters related to the Fund and other series of the Trust. The Administrator also provides persons satisfactory to the Board to serve as officers of the Trust. The Administrator will be indemnified in connection with or arising out of performance of its obligations and duties under this Agreement, except for losses resulting from the willful malfeasance, bad faith or gross negligence of Administrator in the performance of such obligations and duties. The Sub-Adviser pays the Administrator out of the Sub-Adviser's advisory fee; however, the Fund is newly formed and has not paid any fees for administration services as of the date of this SAI.

ACCOUNTING, CUSTODIAN AND TRANSFER AGENT. Under the Fund Administration and Accounting Agreement (the “**Accounting Services Agreement**”), The Bank of New York Mellon (“**BNY Mellon**” or the “**Accounting Services Administrator**”) serves as accounting administrator for the Fund. BNY Mellon's principal address is One Wall Street, New York, NY 10286. Under the Administration Agreement, BNY Mellon provides necessary administrative, legal, tax, accounting services and financial reporting for the maintenance and operations of the Trust and the Fund. In addition, BNY Mellon makes available the office space, equipment, personnel and facilities required to provide such services.

BNY Mellon provides accounting and administration services to the Trust, including, among other responsibilities, assisting in the preparation and filing of documents required for compliance by the Fund with applicable laws and regulations and arranging for the maintenance of books and records of the Fund.

The Sub-Adviser pays the Accounting Services Administrator out of the Sub-Adviser's advisory fee; however, the Fund is newly formed and has not paid any fees for accounting administration services as of the date of this SAI.

BNY Mellon serves as custodian of the Fund's assets (the "**Custodian**"). The Custodian has agreed to (1) make receipts and disbursements of money on behalf of the Fund; (2) collect and receive all income and other payments and distributions on account of the Fund's portfolio investments; (3) respond to correspondence from Fund shareholders and others relating to its duties; and (4) make periodic reports to the Fund concerning the Fund's operations. The Custodian does not exercise any supervisory function over the purchase and sale of securities. The Sub-Adviser pays the Custodian out of the Sub-Adviser's advisory fee; however, the Fund is newly formed and has not paid any fees for the Custodian's services as of the date of this SAI.

BNY Mellon serves as transfer agent and dividend paying agent for the Fund (the "**Transfer Agent**"). The Transfer Agent has agreed to (1) issue and redeem Shares of the Fund; (2) make dividend and other distributions to shareholders of the Fund; (3) respond to correspondence by Fund shareholders and others relating to its duties; (4) maintain shareholder accounts; and (5) make periodic reports to the Fund. The Sub-Adviser pays the Transfer Agent out of the Sub-Adviser's advisory fee; however, the Fund is newly formed and has not paid any fees for the Transfer Agent's services as of the date of this SAI.

BNY Mellon is the principal operating subsidiary of The Bank of New York Mellon Corporation.

DISTRIBUTOR. ETF Distributors LLC (the "**Distributor**") is located at 1540 Broadway, New York, NY 10036. The Distributor is a broker-dealer registered under the Securities Exchange Act of 1934, as amended (the "**Exchange Act**"), and a member of the Financial Industry Regulatory Authority, Inc. ("**FINRA**").

Shares will be continuously offered for sale by the Trust through the Distributor only in whole Creation Units, as described in the section of this SAI entitled "Purchase and Redemption of Creation Units". The Distributor also acts as an agent for the Trust. The Distributor will deliver a Prospectus to persons purchasing Shares in Creation Units and will maintain records of both orders placed with it and confirmations of acceptance furnished by it. The Distributor has no role in determining the investment policies of the Fund or which securities are to be purchased or sold by the Fund.

The Board has adopted a Distribution and Service Plan pursuant to Rule 12b-1 under the 1940 Act. In accordance with its Rule 12b-1 plan, the Fund is authorized to pay an amount up to 0.25% of its average daily net assets each year to finance activities primarily intended to result in the sale of Creation Units of the Fund or the provision of investor services. No Rule 12b-1 fees are currently paid by the Fund, and there are no current plans to impose these fees. However, in the event Rule 12b-1 fees are charged in the future, they will be paid out of the Fund's assets, and over time these fees will increase the cost of your investment and may cost you more than certain other types of sales charges.

Under the Service and Distribution Plan, and as required by Rule 12b-1, the Trustees will receive and review after the end of each calendar quarter a written report provided by the Distributor of the amounts expended under the Plan and the purpose for which such expenditures were made.

ADDITIONAL SERVICE ARRANGEMENTS. The Adviser, the Sub-Adviser or their respective affiliates may, out of their own resources, pay amounts to third parties for distribution or marketing services on behalf of the Fund. The making of these payments could create a conflict of interest for a financial intermediary receiving such payments.

INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM. The Board has selected the firm of BBD, LLP, located at 1835 Market Street, 26th Floor, Philadelphia, PA 19103, to serve as the independent registered public accounting firm for the Fund for the current fiscal year, to audit the annual financial statements of the Fund and to prepare the Fund's federal, state and excise tax returns. Such firm will audit the financial statements of the Fund at least once each year. A copy of the most recent annual report containing the audit report will accompany this SAI whenever a shareholder or a prospective investor requests it.

LEGAL COUNSEL. Stradley Ronon Stevens & Young, LLP, located at 2005 Market Street, Suite 2600, Philadelphia, PA 19103, serves as counsel to the Trust and the Independent Trustees.

PORTFOLIO TRANSACTIONS AND BROKERAGE

Subject to the general supervision of the Board and the Adviser, the Sub-Adviser is responsible for, makes decisions with respect to and places orders for all purchases and sales of portfolio securities for the Fund. The Sub-Adviser shall manage the Fund's portfolio in accordance with the terms of the Sub-Advisory Agreement by and among the Trust on behalf of the Fund, the Sub-Adviser and the Adviser. The Sub-Adviser serves as investment adviser for a number of client accounts, in addition to the Fund.

BROKERAGE SELECTION. The Fund has adopted, and the Board has approved, policies and procedures relating to the direction of portfolio securities transactions to brokers. In accordance with these policies and procedures, in selecting brokers to be used in portfolio transactions, the Sub-Adviser's general guiding principle is to obtain the best overall execution for each trade, which is a combination of price and execution. With respect to execution, the Sub-Adviser considers a number of factors, including, without

limitation, the actual handling of the order, the ability of the broker to settle the trade promptly and accurately, the financial standing of the broker, the ability of the broker to position securities to facilitate execution, the Sub-Adviser's past experience with similar trades and other factors that may be unique to a particular order. Recognizing the value of these judgmental factors, the Sub-Adviser may select brokers that charge a brokerage commission that is higher than the lowest commission that might otherwise be available for any given trade. The Sub-Adviser may not give consideration to sales of Shares of the Fund as a factor in selecting brokers to execute portfolio transactions. The Sub-Adviser may, however, place portfolio transactions with brokers that are affiliated with the Adviser or the Sub-Adviser or that promote or sell the Fund's Shares, so long as such transactions are done in accordance with the policies and procedures established by the Board that are designed to ensure that the selection is consistent with the Sub-Adviser's obligation to seek best execution and not based upon the broker's sales efforts.

Under Section 28(e) of the Exchange Act and the Sub-Advisory Agreement, the Sub-Adviser may, in its discretion, purchase and sell portfolio securities from and to brokers and dealers who provide the Sub-Adviser with brokerage, research, analysis, advice and similar services, and the Sub-Adviser may pay to these brokers and dealers, in return for such services, a higher commission or spread than may be charged by other brokers and dealers, provided that the Sub-Adviser determines in good faith that such commission is reasonable in terms either of that particular transaction or of the overall responsibility of the Sub-Adviser to the Fund and its other clients and that the total commission paid by the Fund will be reasonable in relation to the benefits to the Fund and its other clients over the long-term. The research received by the Sub-Adviser may include, without limitation: information on the United States and other world economies; information on specific industries, sectors, groups of securities, individual companies, and political and other relevant news developments affecting markets and specific securities; technical and quantitative information about markets; analysis of proxy proposals affecting specific companies; accounting and performance systems that allow the Sub-Adviser to determine and track investment results; and trading systems that allow the Sub-Adviser to interface electronically with brokerage firms, custodians and other providers. Research is received in the form of written reports, telephone contacts, personal meetings, research seminars, software programs and access to computer databases. In some instances, research products or services received by the Sub-Adviser may also be used by the Sub-Adviser for functions that are not research related (i.e. not related to the making of investment decisions). Where a research product or service has a mixed use, the Sub-Adviser will make a reasonable allocation according to its use and will pay for the non-research function in cash using its own funds.

The research and investment information services described above make available to the Sub-Adviser for its analysis and consideration the views and information of individuals and research staffs of other securities firms. These services may be useful to the Sub-Adviser in connection with advisory clients other than the Fund, and not all such services may be useful to the Sub-Adviser in connection with the Fund. Although such information may be a useful supplement to the Sub-Adviser's own investment research in rendering services to the Fund, the value of such research and services is not expected to materially reduce the expenses of the Sub-Adviser in the performance of its services under the Sub-Advisory Agreement and will not reduce the management fees payable to the Sub-Adviser by the Fund.

The Fund may invest in securities traded in the over-the-counter market. In these cases, the Fund may initiate trades through brokers on an agency basis and pays a commission in connection with the transaction. The Fund may also effect these transactions by dealing directly with the dealers that make a market in the securities involved, in which case the costs of such transactions would involve dealer spreads rather than brokerage commissions.

AGGREGATED TRADES. While investment decisions for the Fund are made independently from those for any other investment companies and accounts advised or managed by the Sub-Adviser, such other advisory clients may invest in the same securities as the Fund. To the extent permitted by law, the Sub-Adviser may aggregate the securities to be sold or purchased for the Fund with those to be sold or purchased for other investment companies or accounts advised or managed by the Sub-Adviser in executing transactions. When a purchase or sale of the same security is made as part of an aggregated trade, the transaction will be averaged as to price and available investments allocated as to amount in a manner which the Sub-Adviser believes to be equitable to the Fund and other participating investment companies or accounts. In some instances, this investment procedure may adversely affect the price paid or received by the Fund or the size of the position obtained or sold by the Fund.

PORTFOLIO TURNOVER. The portfolio turnover rate for the Fund is calculated by dividing the lesser of purchases or sales of portfolio securities for the reporting period by the monthly average value of the portfolio securities owned during the reporting period. The calculation excludes all securities whose maturities or expiration dates at the time of acquisition are one year or less. Portfolio turnover of the Fund may vary greatly from year to year as well as within a particular year, and may be affected by cash requirements for redemption of Shares and by requirements that enable the Fund to receive favorable tax treatment. Portfolio turnover will not be a limiting factor in making investment decisions, and the Fund may engage in short-term trading to achieve its investment objectives. High rates of portfolio turnover could lower performance of the Fund due to increased transaction costs and may also result in the realization of short-term capital gains taxed at ordinary income tax rates.

DISCLOSURE OF PORTFOLIO HOLDINGS

PORTFOLIO DISCLOSURE POLICY. The Trust has adopted a Portfolio Holdings Policy (the “**Policy**”) designed to govern the disclosure of Fund portfolio holdings and the use of material non-public information about Fund holdings. The Policy applies to all officers, employees and agents of the Fund. The Policy is designed to ensure that the disclosure of information about the Fund’s portfolio holdings is consistent with applicable legal requirements and otherwise in the best interest of the Fund.

As an ETF, information about the Fund’s portfolio holdings is made available on a daily basis in accordance with the provisions of any order of the SEC applicable to the Fund, the regulations of the Exchange and other applicable SEC regulations, orders and no-action relief. Such information typically reflects all or a portion of the Fund’s anticipated portfolio holdings as of the next Business Day (as defined below). This information is used in connection with the creation and redemption process and is disseminated on a daily basis through the facilities of the Exchange, the National Securities Clearing Corporation (the “**NSCC**”) and/or third party service providers.

A “**Business Day**” with respect to the Fund is any day on which the Exchange is open for business. As of the date of the Prospectus, the Exchange observes the following holidays: New Year’s Day, Martin Luther King, Jr. Day, Washington’s Birthday, Good Friday, Memorial Day (observed), Independence Day, Labor Day, Thanksgiving Day and Christmas Day.

The Trust will disclose on the Fund’s website at the start of each Business Day the identities and quantities of the securities and other assets held by the Fund that will form the basis of the Fund’s calculation of its NAV on that Business Day. The portfolio holdings so disclosed will be based on information as of the close of business on the prior Business Day and/or trades that have been completed prior to the opening of business on that Business Day and that are expected to settle on the Business Day. Online disclosure of such holdings is publicly available at no charge. The website for the Fund is www.reavesetfs.com.

The Fund may also send a portion or all of this information to shareholders of the Fund and to investment company analysts and rating and trading entities. However, the Fund will not send this information to shareholders of the Fund or to analysts or rating and/or trading entities until such information is at least 30 days old or until one Business Day after the information has been posted to the Fund’s website.

The officers of the Trust, the Adviser and/or the Sub-Adviser may share non-public portfolio holdings information with the Fund’s service providers that require such information for legitimate business and Fund oversight purposes, such as the Fund’s operating administrator, fund accounting administrator, transfer agent, distributor, custodian, independent registered public accounting firm, and legal counsel as identified in the Fund’s Prospectus and this SAI and Doremus FP (a financial EDGARizing, typesetting and printing firm). The Fund, the Adviser and/or the Sub-Adviser may also provide non-public portfolio holdings information to appropriate regulatory agencies as required by applicable laws and regulations. The Fund’s service providers receiving such non-public information are subject to confidentiality obligations requiring such service providers to keep non-public portfolio holdings information confidential. Certain of the service providers have codes of ethics that prohibit trading based on, among other things, non-public portfolio holdings information.

The Fund, the Adviser and/or the Sub-Adviser may, from time to time, provide additional portfolio holdings information in the form of quarterly or monthly management letters; provided, however, that the Fund, the Adviser and/or the Sub-Adviser will not send such quarterly or monthly management letters to shareholders until such information is either filed with the SEC or publicly disclosed on the Fund’s website. In addition, non-public portfolio holdings information and other information regarding the investment activities of the Fund may also be disclosed to rating and ranking organizations for use in connection with their rating or ranking of the Fund.

The Fund currently does not provide non-public portfolio holdings information to any other third parties. In the future, the Fund may elect to disclose such information to other third parties if the appropriate officers of the Trust determine that the Fund has a legitimate business purpose for doing so and the recipient is subject to a duty of confidentiality. The Adviser and the Sub-Adviser, through their respective officers, are responsible for determining which other third parties have a legitimate business purpose for receiving the Fund’s portfolio holdings information.

The Fund’s policies regarding disclosure of portfolio holdings are subject to the continuing oversight and direction of the Board. The Adviser, the Sub-Adviser and the Administrator are required to report to the Board any known disclosure of the Fund’s portfolio holdings to unauthorized third parties. The Fund has not entered (and does not currently intend to enter) into any arrangement providing for the receipt of compensation or other consideration in exchange for the disclosure of non-public portfolio holdings information, other than the benefits that result to the Fund and its shareholders from providing such information, which include the publication of Fund ratings and rankings.

The Fund will make available to the public a complete schedule of its portfolio holdings, as reported on a fiscal quarter basis. This information is generally available within 60 days of the Fund’s fiscal quarter end and will remain available until the next fiscal quarter’s portfolio holdings report becomes available. You may obtain a copy of these quarterly portfolio holdings reports by calling the Fund at (212) 593-4383. The Fund will also file these quarterly portfolio holdings reports with the SEC on Form N-CSR or Form N-Q, as applicable. The Fund’s Form N-CSR and Form N-Q are available on the SEC’s website at <http://www.sec.gov> and may be reviewed and copied at the SEC’s Public Reference Room in Washington, D.C. The first and third quarter portfolio holdings reports

will be filed with the SEC on Form N-Q, and the second and fourth fiscal quarter portfolio holdings reports will be included with the semi-annual and annual reports, respectively, which are sent to shareholders and filed with the SEC on Form N-CSR.

No person is authorized to disclose the Fund's portfolio holdings or other investment positions except in accordance with the Policy.

INDICATIVE INTRA-DAY VALUE

The approximate value of the Fund's investments on a per-Share basis, the Indicative Intra-Day Value ("IIV"), is disseminated by the Exchange every 15 seconds during hours of trading on the Exchange. The IIV should not be viewed as a "real-time" update of NAV because the IIV will be calculated by an independent third party and may not be calculated in the exact same manner as NAV, which is computed daily.

The IIV for the Fund is calculated during hours of trading on the Exchange by dividing the "Estimated Fund Value" as of the time of the calculation by the total number of outstanding Shares. "Estimated Fund Value" is the sum of the estimated amount of cash held in the Fund's portfolio, the estimated amount of accrued interest owing to the Fund and the estimated value of the securities held in the Fund's portfolio, minus the estimated amount of the Fund's liabilities. The IIV will be calculated based on the same portfolio holdings disclosed on the Fund's website. In determining the estimated value for each of the component securities, the IIV will use last sale, market prices or other methods that would be considered appropriate for pricing equity securities held by registered investment companies.

Although the Trust provides the information used to calculate the IIV, the Trust is not involved in the actual calculation of the IIV and is not responsible for the calculation or dissemination of the IIV. The Trust makes no warranty as to the accuracy of the IIV.

ADDITIONAL INFORMATION CONCERNING SHARES

ORGANIZATION AND DESCRIPTION OF SHARES OF BENEFICIAL INTEREST. The Trust is a Delaware statutory trust and a registered investment company. The Trust was organized on September 20, 2012, and it has authorized capital of an unlimited number of Shares of beneficial interest of no par value, which may be issued in more than one class or series.

Under Delaware law, the Trust is not required to hold an annual shareholders meeting if the 1940 Act does not require such a meeting. Generally, there will not be annual meetings of Trust shareholders. If requested by shareholders of at least one-third of the outstanding shares of the Trust or any series thereof, the Trust will call a meeting of the shareholders of the Trust or the series, as applicable. Shareholders holding two-thirds of all Trust shares outstanding may remove Trustees from office by votes cast at a meeting of Trust shareholders or by written consent.

All Shares will be freely transferable; provided, however, that Shares may not be redeemed individually, but only in Creation Units. The Shares will not have preemptive rights or cumulative voting rights, and none of the Shares will have any preference to conversion, exchange, dividends, retirements, liquidation, redemption or any other feature. Shares have equal voting rights, except that, if the Trust creates additional series, only shares of that series may be entitled to vote on a matter affecting that particular series. Trust shareholders are entitled to require the Trust to redeem Creation Units if such shareholders are Authorized Participants. The Declaration of Trust confers upon the Board the power, by resolution, to alter the number of Shares constituting a Creation Unit or to specify that Shares of the Trust may be individually redeemable. The Trust reserves the right to adjust the prices of Shares to maintain convenient trading ranges for investors. Any such adjustments would be accomplished through splits or reverse splits, which would have no effect on the net assets of the Fund. If the Fund does not grow to a size to permit it to be economically viable, the Fund may cease operations. In such an event, you may be required to liquidate or transfer your Shares at an inopportune time, and you may lose money on your investment.

BOOK ENTRY ONLY SYSTEM. Depository Trust Company ("DTC") acts as securities depository for the Fund's Shares. Shares of the Fund are represented by securities registered in the name of DTC or its nominee, Cede & Co., and deposited with, or on behalf of, DTC.

DTC, a limited-purpose trust company, was created to hold securities of its participants (the "DTC Participants") and to facilitate the clearance and settlement of securities transactions among the DTC Participants in such securities through electronic book-entry changes in accounts of the DTC Participants, thereby eliminating the need for physical movement of securities certificates. DTC Participants include securities brokers and dealers, banks, trust companies, clearing corporations and certain other organizations, some of which (and/or their representatives) own DTC. More specifically, DTC is owned by a number of its DTC Participants and by the New York Stock Exchange, LLC and FINRA. Access to the DTC system is also available to others such as banks, brokers, dealers and trust companies that clear through or maintain a custodial relationship with a DTC Participant, either directly or indirectly (the "Indirect Participants").

Beneficial ownership of Shares is limited to DTC Participants, Indirect Participants and persons holding interests through DTC Participants and Indirect Participants. Ownership of beneficial interests in Shares (owners of such beneficial interests are referred to herein as “**Beneficial Owners**”) is shown on, and the transfer of ownership is effected only through, records maintained by DTC (with respect to DTC Participants) and on the records of DTC Participants (with respect to Indirect Participants and Beneficial Owners that are not DTC Participants). Beneficial Owners will receive from or through the DTC Participant a written confirmation relating to their purchase of Shares.

Conveyance of all notices, statements and other communications to Beneficial Owners is effected as follows. Pursuant to the Depositary Agreement between the Trust and DTC, DTC is required to make available to the Trust upon request and for a fee to be charged to the Trust a listing of the Shares of the Fund held by each DTC Participant. The Trust will inquire of each DTC Participant as to the number of Beneficial Owners holding Shares, directly or indirectly, through such DTC Participant. The Trust will provide each DTC Participant with copies of such notice, statement or other communication, in such form, number and at such place as such DTC Participant may reasonably request, in order that such notice, statement or communication may be transmitted by the DTC Participant, directly or indirectly, to such Beneficial Owners. In addition, the Trust will pay to each DTC Participant a fair and reasonable amount as reimbursement for the expenses attendant to such transmittal, all subject to applicable statutory and regulatory requirements.

Share distributions will be made to DTC or its nominee, Cede & Co., as the registered holder of all Shares. DTC or its nominee, upon receipt of any such distributions, will credit immediately with respect to the DTC Participants’ accounts with payments in amounts proportionate to their respective beneficial interests in Shares of the Fund as shown on the records of DTC or its nominee. Payments by DTC Participants to Indirect Participants and Beneficial Owners with respect to the Shares held through such DTC Participants will be governed by standing instructions and customary practices, as is now the case with securities held for the accounts of customers in bearer form or registered in a “street name,” and will be the responsibility of such DTC Participants.

The Trust has no responsibility or liability for any aspect of the records relating to or notices to Beneficial Owners, or payments made on account of beneficial ownership interests in such Shares, or for maintaining, supervising or reviewing any records relating to such beneficial ownership interests, or for any other aspect of the relationship between DTC and the DTC Participants or the relationship between the DTC Participants and the Indirect Participants and Beneficial Owners owning through such DTC Participants.

DTC may decide to discontinue providing its service with respect to Shares at any time by giving reasonable notice to the Trust and discharging its responsibilities with respect thereto under applicable law. Under such circumstances, the Trust will take action to find a replacement for DTC to perform its functions at a comparable cost. The DTC Participants’ rules and policies are made publicly available through DTC’s website at: www.dtcc.com.

PURCHASE AND REDEMPTION OF CREATION UNITS

CREATION. The Trust issues and sells Shares of the Fund only in Creation Units on a continuous basis through the Distributor, at their NAV next determined after receipt, on any Business Day, for an order received in proper form.

Fund Deposit. The consideration for purchase of a Creation Unit of the Fund generally consists of an in-kind deposit of Deposit Securities for each Creation Unit constituting a substantial replication, or a representation, of the securities included in the Fund’s portfolio and a Cash Component computed as described below. Together, the Deposit Securities and the Cash Component constitute the “**Fund Deposit**”, which represents the minimum initial and subsequent investment amount for a Creation Unit of the Fund. The Cash Component is an amount equal to the difference between the NAV of the Shares (per Creation Unit) and the market value of the Deposit Securities. If the Cash Component is a positive number (i.e., the NAV per Creation Unit exceeds the market value of the Deposit Securities), the Cash Component will be such positive amount. If the Cash Component is a negative number (i.e., the NAV per Creation Unit is less than the market value of the Deposit Securities), the Cash Component will be such negative amount, and the creator will be entitled to receive cash from the Fund in an amount equal to the Cash Component. The Cash Component serves the function of compensating for any differences between the NAV per Creation Unit and the market value of the Deposit Securities.

The Fund, through the NSCC, makes available on each Business Day, immediately prior to the opening of business on the Exchange (currently 9:30 a.m., Eastern time), the list of the names and the required number of Shares of each Deposit Security to be included in the current Fund Deposit (based on information at the end of the previous Business Day) for the Fund. Such Fund Deposit is applicable, subject to any adjustments as described below, in order to effect creations of Creation Units of the Fund until such time as the next-announced composition of the Deposit Securities is made available.

The identity and number of Shares of the Deposit Securities required for the Fund Deposit for the Fund changes as rebalancing adjustments and corporate action events are reflected from time to time by the Sub-Adviser with a view to the investment objective of the Fund. In addition, the Trust reserves the right to permit or require the substitution of an amount of cash - i.e., a “cash in lieu” amount - to be added to the Cash Component to replace any Deposit Security that may not be available in sufficient quantity for delivery, that may not be eligible for transfer through the Clearing Process (discussed below) or that may not be eligible for trading by an Authorized Participant or the investor for which it is acting.

In addition to the list of names and numbers of securities constituting the current Deposit Securities of the Fund Deposit, the Fund, through NSCC, also makes available on each Business Day the estimated Cash Component, effective through and including the previous Business Day, per outstanding Creation Unit of the Fund.

Procedures for Creation of Creation Units. To be eligible to place orders to create a Creation Unit of the Fund, an entity must be (i) a “**Participating Party**”, i.e., a broker-dealer or other participant in the clearing process through the Continuous Net Settlement System of NSCC (the “**Clearing Process**”) or a clearing agency that is registered with the SEC, or (ii) a DTC Participant (see “**Book Entry Only System**”) and, in each case, must have executed an agreement with the Trust, the Distributor and the Transfer Agent with respect to creations and redemptions of Creation Units (“**Participant Agreement**”). A Participating Party and DTC Participant are collectively referred to as an “**Authorized Participant**”. Investors should contact the Distributor for the names of Authorized Participants that have signed a Participant Agreement with the Fund. All Shares of the Fund, however created, will be entered on the records of DTC in the name of Cede & Co. for the account of a DTC Participant.

All orders to create Creation Units must be placed for one or more Creation Unit size aggregations of Shares (50,000 in the case of the Fund). All orders to create Creation Units, whether through the Clearing Process (through a Participating Party) or outside the Clearing Process (through a DTC Participant), must be received by the Distributor no later than the close of the regular trading session on the Exchange (ordinarily 4:00 p.m. Eastern time) (“**Closing Time**”), in each case on the date such order is placed in order for the creation of Creation Units to be effected based on the NAV of Shares of the Fund as next determined on such date after receipt of the order in proper form. The date on which an order to create Creation Units (or an order to redeem Creation Units as discussed below) is placed is referred to as the “**Transmittal Date**”. Orders must be transmitted by an Authorized Participant by telephone or other transmission method acceptable to the Distributor pursuant to procedures set forth in the Participant Agreement (see “**Placement of Creation Orders Using the Clearing Process**” and “**Placement of Creation Orders Outside the Clearing Process**”). Severe economic or market disruptions or changes, or telephone or other communication failure, may impede the ability to reach the Distributor or an Authorized Participant.

Orders to create Creation Units of the Fund will be placed with an Authorized Participant in the form required by such Authorized Participant. In addition, an Authorized Participant may request the investor to make certain representations or enter into agreements with respect to the order, i.e., to provide for payments of cash, when required. Investors should be aware that their particular broker may not have executed a Participant Agreement, and that, therefore, orders to create Creation Units of the Fund will need to be placed by the investor’s broker through an Authorized Participant that has executed a Participant Agreement. At any given time there may be only a limited number of broker-dealers that have executed a Participant Agreement. Those placing orders for Creation Units through the Clearing Process should afford sufficient time to permit proper submission of the order to the Distributor prior to the Closing Time on the Transmittal Date.

Orders for creation that are effected outside the Clearing Process are likely to require transmittal by the DTC Participant earlier on the Transmittal Date than orders effected using the Clearing Process. Those persons placing orders outside the Clearing Process should ascertain the deadlines applicable to DTC and the Federal Reserve Bank wire system by contacting the operations department of the broker or depository institution effectuating the transfer of Deposit Securities and the Cash Component.

Placement of Creation Orders Using the Clearing Process. The Clearing Process is the process of creating or redeeming Creation Units through the Continuous Net Settlement System of NSCC. Fund Deposits made through the Clearing Process must be delivered through a Participating Party that has executed a Participant Agreement. The Participant Agreement authorizes the Distributor to transmit through the Transfer Agent to NSCC, on behalf of the Participating Party, such trade instructions as are necessary to effect the Participating Party’s creation order. Pursuant to such trade instructions to NSCC, the Participating Party agrees to deliver the requisite Deposit Securities and the Cash Component to the Trust, together with such additional information as may be required by the Distributor. An order to create Creation Units through the Clearing Process is deemed received by the Distributor on the Transmittal Date if (i) such order is received by the Distributor not later than the Closing Time on such Transmittal Date and (ii) all other procedures set forth in the Participant Agreement are properly followed.

Placement of Creation Orders Outside the Clearing Process. Fund Deposits made outside the Clearing Process must be delivered through a DTC Participant that has executed a Participant Agreement. A DTC Participant that wishes to place an order creating Creation Units to be effected outside the Clearing Process need not be a Participating Party, but such orders must state that the DTC Participant is not using the Clearing Process and that the creation of Creation Units will instead be effected through a transfer of securities and cash directly through DTC. A Fund Deposit transfer must be ordered by the DTC Participant on the Transmittal Date in a timely fashion so as to ensure the delivery of the requisite number of Deposit Securities through DTC to the account of the Trust by no later than 11:00 a.m., Eastern time, of the next Business Day immediately following the Transmittal Date. All questions as to the number of Deposit Securities to be delivered, and the validity, form and eligibility (including time of receipt) for the deposit of any tendered securities, will be determined by the Trust, whose determination will be final and binding. Cash equal to the Cash Component must be transferred directly to the Trust through the Federal Reserve wire system in a timely manner so as to be received by the Trust no later than 2:00 p.m., Eastern time, on the next Business Day immediately following such Transmittal Date. An order to

create Creation Units outside the Clearing Process is deemed received by the Distributor on the Transmittal Date if (i) such order is received by the Distributor not later than the Closing Time on such Transmittal Date, and (ii) all other procedures set forth in the Participant Agreement are properly followed. However, if the Trust does not receive both the requisite Deposit Securities and the Cash Component by 11:00 a.m. and 2:00 p.m., respectively, on the next Business Day immediately following the Transmittal Date, such order will be cancelled. Upon written notice to the Distributor, such cancelled order may be resubmitted the following Business Day using the Fund Deposit as newly constituted to reflect the then current NAV of the Fund. The delivery of Creation Units of the Fund so created will occur no later than the third Business Day following the day on which the purchase order is deemed received by the Distributor.

Creation Units may be created in advance of receipt by the Trust of all or a portion of the applicable Deposit Securities as described below. In these circumstances, the initial deposit will have a value greater than the NAV of the Shares on the date the order is placed in proper form since, in addition to available Deposit Securities, cash must be deposited in an amount equal to the sum of (i) the Cash Component *plus* (ii) 115% of the market value of the undelivered Deposit Securities (the “**Additional Cash Deposit**”). The order will be deemed to be received on the Business Day on which the order is placed, provided that the order is placed in proper form prior to 3:00 p.m., Eastern time, on such date and federal funds in the appropriate amount are deposited with the Trust by 11:00 a.m., Eastern time, the following Business Day. If the order is not placed in proper form by 3:00 p.m., or federal funds in the appropriate amount are not received by 11:00 a.m. the next Business Day, then the order may be deemed to be rejected and the investor will be liable to the Trust for losses, if any, resulting therefrom. An additional amount of cash will be required to be deposited with the Trust, pending delivery of the missing Deposit Securities to the extent necessary to maintain the Additional Cash Deposit with the Trust in an amount at least equal to 115% of the daily mark-to-market value of the missing Deposit Securities. To the extent that missing Deposit Securities are not received by 1:00 p.m., Eastern time, on the third Business Day following the day on which the purchase order is deemed received by the Distributor or in the event a mark-to-market payment is not made within one Business Day following notification by the Distributor that such a payment is required, the Trust may use the cash on deposit to purchase the missing Deposit Securities. Authorized Participants will be liable to the Trust for the costs incurred by the Trust in connection with any such purchases. These costs will be deemed to include the amount by which the actual purchase price of the Deposit Securities exceeds the market value of such Deposit Securities on the day the purchase order was deemed received by the Distributor plus the brokerage and related transaction costs associated with such purchases. The Trust will return any unused portion of the Additional Cash Deposit once all of the missing Deposit Securities have been properly received by the Trust or purchased by the Trust and deposited into the Trust. In addition, a transaction fee will be charged in all cases. The delivery of Creation Units of the Fund so created will occur no later than the third Business Day following the day on which the purchase order is deemed received by the Distributor.

Acceptance of Orders for Creation Units. The Trust reserves the absolute right to reject a creation order transmitted to it by the Distributor in respect of the Fund if (a) the order is not in proper form; (b) the investor(s), upon obtaining the Shares ordered, would own 80% or more of the currently outstanding Shares of the Fund; (c) the Deposit Securities delivered are not as disseminated through the facilities of the Exchange for that date by the Trust, as described above; (d) acceptance of the Deposit Securities would have certain adverse tax consequences to the Fund; (e) the acceptance of the Fund Deposit would, in the opinion of counsel, be unlawful; (f) the acceptance of the Fund Deposit would otherwise, in the discretion of the Trust or the Adviser, have an adverse effect on the Trust or the rights of Beneficial Owners; or (g) as a result of circumstances outside the control of the Trust, the Distributor and the Adviser make it for all practical purposes impossible to process creation orders. Examples of such circumstances include acts of God or public service or utility problems such as fires, floods, extreme weather conditions and power outages resulting in telephone, facsimile or computer failures; market conditions or activities causing trading halts; systems failures involving computer or other information systems affecting the Trust, the Adviser, the Distributor, DTC, NSCC or any other participant in the creation process; and similar extraordinary events. The Distributor will notify a prospective creator of a Creation Unit and/or the Authorized Participant acting on behalf of the creator of a Creation Unit of its rejection of the order of such person. The Trust, the Transfer Agent and the Distributor are under no duty, however, to give notification of any defects or irregularities in the delivery of Fund Deposits nor will any of them incur any liability for the failure to give any such notification.

All questions as to the number of shares of each security in the Deposit Securities and the validity, form, eligibility and acceptance for deposit of any securities to be delivered will be determined by the Trust, and the Trust’s determination will be final and binding.

Creation Transaction Fee. To compensate the Trust for transfer and other transaction costs involved in creation transactions through the Clearing Process, investors will be required to pay a minimum creation transaction fee, assessed per transaction, as follows:

<u>Fund Name</u>	<u>Creation Transaction Fee</u>
Reaves Utilities ETF (Ticker: UTES)	\$500

The Trust, subject to approval by the Board, may adjust the fee from time to time based upon actual experience. Investors who use the services of a broker or other such intermediary in addition to an Authorized Participant to effect a creation of a Creation Unit may be charged a fee for such services.

REDEMPTION. Shares may be redeemed only in Creation Units at their NAV next determined after receipt of a redemption request in proper form by the Distributor and the Fund and only on a Business Day. The Trust will not redeem Shares in amounts less than Creation Units. Beneficial Owners must accumulate enough Shares in the secondary market to constitute a Creation Unit in order to have such Shares redeemed by the Trust. There can be no assurance, however, that there will be sufficient liquidity in the public trading market at any time to permit assembly of a Creation Unit. Investors should expect to incur brokerage and other costs in connection with assembling a sufficient number of Shares to constitute a redeemable Creation Unit.

With respect to the Fund, the Trust, through NSCC, makes available immediately prior to the opening of business on the Exchange (currently 9:30 a.m., Eastern time) on each Business Day, the Deposit Securities that will be applicable (subject to possible amendment or correction) to redemption requests received in proper form (as defined below) on that day. Deposit Securities received on redemption may not be identical to Deposit Securities that are applicable to creations of Creation Units.

Unless cash redemptions are available or specified for the Fund, the redemption proceeds for a Creation Unit generally consist of Deposit Securities, as announced by the Trust on the Business Day of the request for redemption received in proper form, plus cash in an amount equal to the difference between the NAV of the Shares being redeemed, as next determined after a receipt of a request in proper form, and the value of the Deposit Securities (the “**Cash Redemption Amount**”), less a redemption transaction fee described below in the section entitled “Redemption Transaction Fee”. In the event that the Deposit Securities have a value greater than the NAV of the Shares, a compensating cash payment equal to the differential is required to be made by or through an Authorized Participant by the redeeming shareholder.

Placement of Redemption Orders Using Clearing Process. Orders to redeem Creation Units through the Clearing Process must be delivered through a Participating Party that has executed the Participant Agreement. An order to redeem Creation Units using the Clearing Process is deemed received on the Transmittal Date if (i) such order is received by the Trust not later than 3:00 p.m., Eastern time, on such Transmittal Date; and (ii) all other procedures set forth in the Participant Agreement are properly followed; such order will be effected based on the NAV of the Fund as next determined. An order to redeem Creation Units using the Clearing Process made in proper form but received by the Fund after 3:00 p.m., Eastern time, will be deemed received on the next Business Day immediately following the Transmittal Date and will be effected at the NAV next determined on such Business Day. The requisite Deposit Securities and the Cash Redemption Amount will be transferred by the third Business Day following the date on which such request for redemption is deemed received.

Placement of Redemption Orders Outside Clearing Process. Orders to redeem Creation Units outside the Clearing Process must be delivered through a DTC Participant that has executed the Participant Agreement. A DTC Participant that wishes to place an order for redemption of Creation Units to be effected outside the Clearing Process need not be a Participating Party, but such orders must state that the DTC Participant is not using the Clearing Process and that redemption of Creation Units will instead be effected through transfer of Shares directly through DTC. An order to redeem Creation Units outside the Clearing Process is deemed received by the Trust on the Transmittal Date if (i) such order is received by the Trust not later than 3:00 p.m., Eastern time, if transmitted by mail, or by 2:00 p.m. Eastern time, if transmitted by other means, on such Transmittal Date; (ii) such order is accompanied or preceded by the requisite number of Shares of the Fund and the Cash Redemption Amount specified in such order, which delivery must be made through DTC to the Trust not later than 11:00 a.m. and 2:00 p.m., respectively, Eastern time, on the next Business Day following such Transmittal Date (the “**DTC Cut-Off-Time**”); and (iii) all other procedures set forth in the Participant Agreement are properly followed.

After the Trust has deemed an order for redemption outside the Clearing Process received, the Trust will initiate procedures to transfer the requisite Deposit Securities, which are expected to be delivered within three Business Days, and the Cash Redemption Amount to the Authorized Participant on behalf of the redeeming Beneficial Owner by the third Business Day following the Transmittal Date on which such redemption order is deemed received by the Trust. The Trust may also, in its sole discretion, upon request of a shareholder, provide such redeemer a portfolio of securities that differs from the exact composition of the Deposit Securities but does not differ in NAV.

The calculation of the value of the Deposit Securities and the Cash Redemption Amount to be delivered upon redemption will be made by the Trust according to the procedures set forth under “Determination of Net Asset Value” computed on the Business Day on which a redemption order is deemed received by the Trust. Therefore, if a redemption order in proper form is submitted to the Trust by a DTC Participant not later than the Closing Time on the Transmittal Date, and the requisite number of Shares of the Fund are delivered to the Custodian prior to the DTC Cut-Off-Time, then the value of the Deposit Securities and the Cash Redemption Amount to be delivered will be determined by the Trust on such Transmittal Date. If, however, a redemption order is submitted to the Trust by a DTC Participant not later than the Closing Time on the Transmittal Date but either (1) the requisite number of Shares of the Fund are not delivered by the DTC Cut-Off-Time as described above on the next Business Day following the Transmittal Date or (2) the redemption order is not submitted in proper form, then the redemption order will not be deemed received as of the Transmittal Date. In such case, the value of the Deposit Securities and the Cash Redemption Amount to be delivered will be computed on the Business Day that such order is deemed received by the Trust, i.e., the Business Day on which the Shares of the Fund are delivered through DTC to the Trust by the DTC Cut-Off-Time on such Business Day pursuant to a properly submitted redemption order.

If it is not possible to effect deliveries of the Deposit Securities, the Trust may in its discretion exercise its option to redeem such shares in cash, and the redeeming Beneficial Owner will be required to receive its redemption proceeds in cash. In addition, an investor may request a redemption in cash which the Fund may, in its sole discretion, permit. In either case, the investor will receive a cash payment equal to the NAV of its shares based on the NAV of shares of the Fund next determined after the redemption request is received in proper form (minus a redemption transaction fee and additional charge for requested cash redemptions specified above, to offset the Trust's brokerage and other transaction costs associated with the disposition of Deposit Securities). The Fund may also, in its sole discretion, upon request of a shareholder, provide such redeemer a portfolio of securities which differs from the exact composition of the Deposit Securities but does not differ in NAV.

Redemptions of Shares for Deposit Securities will be subject to compliance with applicable federal and state securities laws, and the Trust (whether or not it otherwise permits cash redemptions) reserves the right to redeem Creation Units for cash to the extent that the Trust could not lawfully deliver specific Deposit Securities upon redemptions or could not do so without first registering the offering and sale of the Deposit Securities under such laws. An Authorized Participant or an investor for which it is acting that is subject to a legal restriction with respect to a particular security included in the Deposit Securities applicable to the redemption of a Creation Unit may be paid an equivalent amount of cash. The Authorized Participant may request the redeeming Beneficial Owner of the Shares to complete an order form or to enter into agreements with respect to such matters as compensating cash payment, beneficial ownership of Shares or delivery instructions.

The right of redemption may be suspended or the date of payment postponed with respect to the Fund (1) for any period during which the Exchange is closed (other than customary weekend and holiday closings); (2) for any period during which trading on the Exchange is suspended or restricted; (3) for any period during which an emergency exists as a result of which disposal of the Shares of the Fund or determination of the Shares' NAV is not reasonably practicable; or (4) in such other circumstance as is permitted by the SEC.

Redemption Transaction Fee. To compensate the Trust for transfer and other transaction costs involved in redemption transactions through the Clearing Process, investors will be required to pay a minimum redemption transaction fee, assessed per transaction as follows:

<u>Fund Name</u>	<u>Redemption Transaction Fee</u>
Reaves Utilities ETF (Ticker: UTES)	\$500

Where Shares are redeemed for cash, the redemption transaction fee will be deducted from such redemption proceeds. The Trust, subject to approval by the Board, may adjust the fee from time to time based upon actual experience. Investors who use the services of a broker or other such intermediary in addition to an Authorized Participant to effect a redemption of a Creation Unit may be charged a fee for such services.

SECURITIES SETTLEMENTS FOR CREATIONS AND REDEMPTIONS

The Trust generally intends to effect deliveries of Creation Units and Deposit Securities on a basis of "T" plus three business days. The Trust may effect deliveries of Creation Units and Deposit Securities on a basis other than T plus three in order to accommodate holiday schedules, to account for treatment by U.S. markets of dividend record dates and ex-dividend dates, or under certain other circumstances. In addition to holidays, other unforeseeable closings in a market due to emergencies may also prevent the Trust from delivering securities within the normal settlement period. In the event that a delay in a redemption settlement cycle will extend to more than 12 calendar days, the Trust will effect a cash-in-lieu redemption to the extent necessary.

The proclamation of new holidays, the treatment by market participants of certain days as "informal holidays" (e.g., days on which no or limited securities transactions occur, as a result of substantially shortened trading hours), the elimination of existing holidays, or changes in securities delivery practices, could affect the information set forth herein at some time in the future and longer (worse) redemption periods are possible.

CONTINUOUS OFFERING

The method by which Creation Units are created and traded may raise certain issues under applicable securities laws. Because new Creation Units are issued and sold by the Trust on an ongoing basis, at any point a "distribution," as such term is used in the Securities Act, may occur. Broker-dealers and other persons are cautioned that some activities on their part may, depending on the circumstances, result in their being deemed participants in a distribution in a manner which could render them statutory underwriters and subject them to the prospectus delivery and liability provisions of the Securities Act.

For example, a broker-dealer firm or its client may be deemed a statutory underwriter if it takes Creation Units after placing an order with the Distributor, breaks them down into constituent Shares, and sells such Shares directly to customers, or if it chooses to couple the creation of a supply of new Shares with an active selling effort involving solicitation of secondary market demand for Shares. A

determination of whether one is an underwriter for purposes of the Securities Act must take into account all the facts and circumstances pertaining to the activities of the broker-dealer or its client in the particular case, and the examples mentioned above should not be considered a complete description of all the activities that could lead to a categorization as an underwriter.

Broker-dealers who are not “underwriters” but are participating in a distribution (as contrasted to ordinary secondary trading transactions), and thus dealing with Shares that are part of an “unsold allotment” within the meaning of Section 4(a)(3)(C) of the Securities Act, would be unable to take advantage of the prospectus-delivery exemption provided by Section 4(a)(3) of the Securities Act. This is because the prospectus delivery exemption in Section 4(a)(3) of the Securities Act is not available in respect of such transactions as a result of Section 24(d) of the 1940 Act. As a result, broker-dealer firms should note that dealers who are not underwriters but are participating in a distribution (as contrasted with ordinary secondary market transactions) and thus dealing with the Shares that are part of an unsold allotment within the meaning of Section 4(a)(3)(C) of the Securities Act would be unable to take advantage of the prospectus delivery exemption provided by Section 4(a)(3) of the Securities Act. Firms that incur a prospectus delivery obligation with respect to Shares are reminded that, under Rule 153 of the Securities Act, a prospectus delivery obligation under Section 5(b)(2) of the Securities Act owed to an exchange member in connection with a sale on the Exchange is satisfied by the fact that the prospectus is available at the Exchange upon request. The prospectus delivery mechanism provided in Rule 153 is only available with respect to transactions on a national securities exchange.

DETERMINATION OF NET ASSET VALUE

The following information supplements and should be read in conjunction with the section in the Prospectus entitled “Investing in the Fund – Determination of Net Asset Value”.

The NAV per Share for the Fund is computed by dividing the value of the net assets of the Fund (i.e., the value of its total assets less total liabilities) by the total number of Shares outstanding, rounded to the nearest cent. Expenses and fees, including management fees, are accrued daily and taken into account for purposes of determining NAV. The NAV of the Fund is determined as of the close of the regular trading session on the Exchange (ordinarily 4:00 p.m., Eastern time) on each day that the Exchange is open. Any assets or liabilities denominated in currencies other than the U.S. dollar are converted into U.S. dollars at the current market rates on the date of valuation as quoted by one or more sources.

The pricing and valuation of portfolio securities is determined in good faith in accordance with procedures approved by, and under the direction of, the Board. In determining the value of the Fund’s assets, equity securities are generally valued at market using quotations from the primary market in which they are traded. Debt securities (other than short-term investments) are valued on the basis of broker quotes or valuations provided by a pricing service, which in determining value utilizes information regarding recent sales, market transactions in comparable securities, quotations from dealers, and various relationships between securities. Other assets, such as accrued interest, accrued dividends and cash are also included in determining the NAV. The Fund normally uses third party pricing services to obtain portfolio security prices.

Securities and assets for which market quotations are not readily available or which cannot be accurately valued using the Fund’s normal pricing procedures are valued by the Trust’s Fair Value Pricing Committee at fair value as determined in good faith under policies approved by the Board. The Trust may use fair value pricing in a variety of circumstances, including but not limited to, situations when the value of the Fund’s portfolio security has been materially affected by events occurring after the close of the market on which such security is principally traded (such as a corporate action or other news that may materially affect the price of such security) or trading in such security has been suspended or halted. In addition, the Trust may fair value foreign equity portfolio securities each day the Trust calculates the Fund’s NAV. Accordingly, the Fund’s NAV may reflect certain portfolio securities’ fair values rather than their market prices. Fair value pricing involves subjective judgments, and it is possible that a fair value determination for a portfolio security will be materially different than the value that could be realized upon the sale of such security. With respect to securities that are primarily listed on foreign exchanges, the value of the Fund’s portfolio securities may change on days when you will not be able to purchase or sell your Shares.

DIVIDENDS AND DISTRIBUTIONS

GENERAL POLICIES. Dividends from net investment income are declared and paid quarterly by the Fund. Distributions of net realized capital gains, if any, generally are declared and paid once a year, but the Trust may make distributions on a more frequent basis for the Fund to comply with the distribution requirements of the Code, in all events in a manner consistent with the provisions of the 1940 Act. In addition, the Trust may distribute at least annually amounts representing the full dividend yield on the underlying portfolio securities of the Fund, net of expenses of the Fund, as if the Fund owned such underlying portfolio securities for the entire dividend period in which case some portion of each distribution may result in a return of capital for tax purposes for certain shareholders.

Dividends and other distributions on Shares are distributed, as described below, on a pro rata basis to Beneficial Owners of such Shares. Dividend payments are made through DTC Participants and Indirect Participants to Beneficial Owners then of record with

proceeds received from the Trust. The Trust makes additional distributions to the minimum extent necessary (i) to distribute the entire annual taxable income of the Trust, plus any net capital gains and (ii) to avoid imposition of the excise tax imposed by Section 4982 of the Code. Management of the Trust reserves the right to declare special dividends if, in its reasonable discretion, such action is necessary or advisable to preserve the status of the Fund as a “regulated investment company” (a “**RIC**”) or to avoid imposition of income or excise taxes on undistributed income.

DIVIDEND REINVESTMENT SERVICE. No reinvestment service is provided by the Trust. Broker-dealers may make available the DTC book-entry Dividend Reinvestment Service for use by Beneficial Owners of Shares through DTC Participants for reinvestment of their dividend distributions. If this service is used, dividend distributions of both income and realized gains will be automatically reinvested in additional whole Shares of the Fund. Beneficial Owners should contact their broker to determine the availability and costs of the service and the details of participation therein. Brokers may require Beneficial Owners to adhere to specific procedures and timetables.

TAXATION

The following is a summary of certain additional tax considerations generally affecting the Fund and its shareholders that are not described in the Prospectus. No attempt is made to present a detailed explanation of the tax treatment of the Fund or its shareholders, and the discussion here and in the Prospectus is not intended as a substitute for careful tax planning.

This “Taxes” section is based on the Internal Revenue Code and applicable regulations in effect on the date of this SAI. Future legislative, regulatory or administrative changes, including provisions of current law that sunset and thereafter no longer apply, or court decisions may significantly change the tax rules applicable to the Fund and its shareholders. Any of these changes or court decisions may have a retroactive effect.

This is for general information only and not tax advice. All investors should consult their own tax advisors as to the federal, state, local and foreign tax provisions applicable to them.

Taxation of the Fund

The Fund is a Separate Corporation. The Fund is treated as a separate corporation for federal income tax purposes. Losses in one Fund do not offset gains in another Fund and the requirements (other than certain organizational requirements) for qualifying for regulated investment company status as described below are determined at the Fund level rather than the Trust level.

Election to be Taxed as a Regulated Investment Company. The Fund has elected and intends to qualify, or, if newly organized, intends to elect and qualify, each year as a regulated investment company (sometimes referred to as a “regulated investment company,” “**RIC**” or “fund”) under Subchapter M of the Internal Revenue Code. If the Fund so qualifies, the Fund will not be subject to federal income tax on the portion of its investment company taxable income (that is, generally, taxable interest, dividends, net short-term capital gains, and other taxable ordinary income, net of expenses, without regard to the deduction for dividends paid) and net capital gain (that is, the excess of net long-term capital gains over net short-term capital losses) that it distributes to shareholders.

In order to qualify for treatment as a regulated investment company, the Fund must satisfy the following requirements:

- **Distribution Requirement** —the Fund must distribute an amount equal to the sum of at least 90% of its investment company taxable income and 90% of its net tax-exempt income, if any, for the tax year (including, for purposes of satisfying this distribution requirement, certain distributions made by the Fund after the close of its taxable year that are treated as made during such taxable year).
- **Income Requirement** —the Fund must derive at least 90% of its gross income from dividends, interest, certain payments with respect to securities loans, and gains from the sale or other disposition of stock, securities or foreign currencies, or other income (including, but not limited to, gains from options, futures or forward contracts) derived from its business of investing in such stock, securities or currencies and net income derived from qualified publicly traded partnerships (“**QPTPs**”).
- **Asset Diversification Test** —the Fund must satisfy the following asset diversification test at the close of each quarter of the Fund’s tax year: (1) at least 50% of the value of the Fund’s assets must consist of cash and cash items, U.S. government securities, securities of other regulated investment companies, and securities of other issuers (as to which the Fund has not invested more than 5% of the value of the Fund’s total assets in securities of an issuer and as to which the Fund does not hold more than 10% of the outstanding voting securities of the issuer); and (2) no more than 25% of the value of the Fund’s total assets may be invested in the securities of any one issuer (other than U.S. government securities or securities of other regulated investment companies) or of two or more issuers which the Fund controls and which are engaged in the same or similar trades or businesses, or, in the securities of one or more **QPTPs**.

In some circumstances, the character and timing of income realized by the Fund for purposes of the Income Requirement or the identification of the issuer for purposes of the Asset Diversification Test is uncertain under current law with respect to a particular

investment, and an adverse determination or future guidance by the Internal Revenue Service (“IRS”) with respect to such type of investment may adversely affect the Fund’s ability to satisfy these requirements. See, “Tax Treatment of Portfolio Transactions” below with respect to the application of these requirements to certain types of investments. In other circumstances, the Fund may be required to sell portfolio holdings in order to meet the Income Requirement, Distribution Requirement, or Asset Diversification Test, which may have a negative impact on the Fund’s income and performance.

If for any taxable year the Fund does not qualify as a regulated investment company, all of its taxable income (including its net capital gain) would be subject to tax at regular corporate rates without any deduction for dividends paid to shareholders, and the dividends would be taxable to the shareholders as ordinary income (or possibly as qualified dividend income) to the extent of the Fund’s current and accumulated earnings and profits. Failure to qualify as a regulated investment company would thus have a negative impact on the Fund’s income and performance. Subject to savings provisions for certain failures to satisfy the Income Requirement or Asset Diversification Test, which, in general, are limited to those due to reasonable cause and not willful neglect, it is possible that the Fund will not qualify as a regulated investment company in any given tax year. Even if such savings provisions apply, the Fund may be subject to a monetary sanction of \$50,000 or more. Moreover, the Board reserves the right not to maintain the qualification of the Fund as a regulated investment company if it determines such a course of action to be beneficial to shareholders.

Portfolio Turnover. For investors that hold their Fund Shares in a taxable account, a high portfolio turnover rate may result in higher taxes. This is because the Fund with a high turnover rate is likely to accelerate the recognition of capital gains and more of such gains are likely to be taxable as short-term rather than long-term capital gains in contrast to a comparable fund with a low turnover rate. Any such higher taxes would reduce the Fund’s after-tax performance. See, “Taxation of Fund Distributions - Distributions of Capital Gains” below. For non-U.S. investors, any such acceleration of the recognition of capital gains that results in more short-term and less long-term capital gains being recognized by the Fund may cause such investors to be subject to increased U.S. withholding taxes. See, “Non-U.S. Investors – Capital Gain Dividends” and “–Interest-Related Dividends and Short-Term Capital Gain Dividends” below.

Capital Loss Carryovers. The capital losses of the Fund, if any, do not flow through to shareholders. Rather, the Fund may use its capital losses, subject to applicable limitations, to offset its capital gains without being required to pay taxes on or distribute to shareholders such gains that are offset by the losses. Rules similar to those that apply to capital loss carryovers of individuals apply to RICs. Thus, if the Fund has a “net capital loss” (that is, capital losses in excess of capital gains), the excess (if any) of the Fund’s net short-term capital losses over its net long-term capital gains is treated as a short-term capital loss arising on the first day of the Fund’s next taxable year, and the excess (if any) of the Fund’s net long-term capital losses over its net short-term capital gains is treated as a long-term capital loss arising on the first day of the Fund’s next taxable year. Any such net capital losses of the Fund that are not used to offset capital gains may be carried forward indefinitely to reduce any future capital gains realized by the Fund in succeeding taxable years. The amount of capital losses that can be carried forward and used in any single year is subject to an annual limitation if there is a more than 50% “change in ownership” of the Fund. An ownership change generally results when shareholders owning 5% or more of the Fund increase their aggregate holdings by more than 50% over a three-year lookback period. An ownership change could result in capital loss carryovers being used at a slower rate, thereby reducing the Fund’s ability to offset capital gains with those losses. An increase in the amount of taxable gains distributed to the Fund’s shareholders could result from an ownership change. The Fund undertakes no obligation to avoid or prevent an ownership change, which can occur in the normal course of shareholder purchases and redemptions or as a result of engaging in a tax-free reorganization with another fund. Moreover, because of circumstances beyond the Fund’s control, there can be no assurance that the Fund will not experience, or has not already experienced, an ownership change. Additionally, if the Fund engages in a tax-free reorganization with another fund, the effect of these and other rules not discussed herein may be to disallow or postpone the use by the Fund of its capital loss carryovers (including any current year losses and built-in losses when realized) to offset its own gains or those of the other fund, or vice versa, thereby reducing the tax benefits Fund shareholders would otherwise have enjoyed from use of such capital loss carryovers.

Deferral of Late Year Losses. The Fund may elect to treat part or all of any “qualified late year loss” as if it had been incurred in the succeeding taxable year in determining the Fund’s taxable income, net capital gain, net short-term capital gain, and earnings and profits. The effect of this election is to treat any such “qualified late year loss” as if it had been incurred in the succeeding taxable year in characterizing Fund distributions for any calendar year (see, “Taxation of Fund Distributions—Distributions of capital gains” below). A “qualified late year loss” includes:

- (i) any net capital loss incurred after October 31 of the current taxable year, or, if there is no such loss, any net long-term capital loss or any net short-term capital loss incurred after October 31 of the current taxable year (“post-October capital losses”), and
- (ii) the sum of (1) the excess, if any, of (a) specified losses incurred after October 31 of the current taxable year, over (b) specified gains incurred after October 31 of the current taxable year and (2) the excess, if any, of (a) ordinary losses incurred after December 31 of the current taxable year, over (b) the ordinary income incurred after December 31 of the current taxable year.

The terms “specified losses” and “specified gains” mean ordinary losses and gains from the sale, exchange, or other disposition of property (including the termination of a position with respect to such property), foreign currency losses and gains, and losses and gains resulting from holding stock in a passive foreign investment company (“PFIC”) for which a mark-to-market election is in effect. The

terms “ordinary losses” and “ordinary income” mean other ordinary losses and income that are not described in the preceding sentence.

Undistributed Capital Gains. The Fund may retain or distribute to shareholders its net capital gain for each taxable year. The Fund currently intend to distribute net capital gains. If the Fund elects to retain its net capital gain, the Fund will be taxed thereon (except to the extent of any available capital loss carryovers) at the highest corporate tax rate (currently 35%). If the Fund elects to retain its net capital gain, it is expected that the Fund also will elect to have shareholders treated as if each received a distribution of its pro rata share of such gain, with the result that each shareholder will be required to report its pro rata share of such gain on its tax return as long-term capital gain, will receive a refundable tax credit for its pro rata share of tax paid by the Fund on the gain, and will increase the tax basis for its Shares by an amount equal to the deemed distribution less the tax credit.

Federal Excise Tax. To avoid a 4% non-deductible excise tax, the Fund must distribute by December 31 of each year an amount equal to at least: (1) 98% of its ordinary income for the calendar year, (2) 98.2% of capital gain net income (that is, the excess of the gains from sales or exchanges of capital assets over the losses from such sales or exchanges) for the one-year period ended on October 31 of such calendar year, and (3) any prior year undistributed ordinary income and capital gain net income. The Fund may elect to defer to the following year any net ordinary loss incurred for the portion of the calendar year which is after the beginning of the Fund’s taxable year. Also, the Fund will defer any “specified gain” or “specified loss” which would be properly taken into account for the portion of the calendar year after October 31. Any net ordinary loss, specified gain, or specified loss deferred shall be treated as arising on January 1 of the following calendar year. Generally, The Fund intends to make sufficient distributions prior to the end of each calendar year to avoid any material liability for federal income and excise tax, but can give no assurances that all or a portion of such liability will be avoided. In addition, under certain circumstances, temporary timing or permanent differences in the realization of income and expense for book and tax purposes can result in the Fund having to pay an excise tax.

Purchase of Shares. As a result of tax requirements, the Trust on behalf of The Fund has the right to reject an order to purchase Shares if the purchaser (or group of purchasers acting in concert with each other) would, upon obtaining the Shares so ordered, own 80% or more of the outstanding Shares of the Fund and if, pursuant to Sections 351 and 362 of the Internal Revenue Code, the Fund would have a basis in the Deposit Securities different from the market value of such securities on the date of deposit. The Trust also has the right to require information necessary to determine beneficial Share ownership for purposes of the 80% determination.

Taxation of Fund Distributions

The Fund anticipates distributing substantially all of its investment company taxable income and net capital gain for each taxable year. Distributions by the Fund will be treated in the manner described below regardless of whether such distributions are paid in cash or reinvested in additional Shares of the Fund (or of another fund). You will receive information annually as to the federal income tax consequences of distributions made (or deemed made) during the year.

Distributions of Net Investment Income. The Fund receives ordinary income generally in the form of dividends and/or interest on its investments. The Fund may also recognize ordinary income from other sources, including, but not limited to, certain gains on foreign currency-related transactions. This income, less expenses incurred in the operation of the Fund, constitutes the Fund’s net investment income from which dividends may be paid to you. If you are a taxable investor, distributions of net investment income generally are taxable as ordinary income to the extent of the Fund’s earnings and profits. See the discussion below under the headings, “–Qualified Dividend Income for Individuals” and “–Dividends-Received Deduction for Corporations”

Distributions of Capital Gains. The Fund may derive capital gain and loss in connection with sales or other dispositions of its portfolio securities. Distributions derived from the excess of net short-term capital gain over net long-term capital loss will be taxable to you as ordinary income. Distributions paid from the excess of net long-term capital gain over net short-term capital loss will be taxable to you as long-term capital gain, regardless of how long you have held your Shares in the Fund. Any net short-term or long-term capital gain realized by the Fund (net of any capital loss carryovers) generally will be distributed once each year and may be distributed more frequently, if necessary, in order to reduce or eliminate federal excise or income taxes on the Fund.

Returns of Capital. Distributions by the Fund that are not paid from earnings and profits will be treated as a return of capital to the extent of (and in reduction of) the shareholder’s tax basis in his Shares; any excess will be treated as gain from the sale of his Shares. Thus, the portion of a distribution that constitutes a return of capital will decrease the shareholder’s tax basis in his Fund Shares (but not below zero), and will result in an increase in the amount of gain (or decrease in the amount of loss) that will be recognized by the shareholder for tax purposes on the later sale of such Fund Shares. Return of capital distributions can occur for a number of reasons including, among others, the Fund over-estimates the income to be received from certain investments such as those classified as partnerships or equity real estate investment trusts (“REITs”).

Qualified Dividend Income for Individuals. Ordinary income dividends reported by the Fund as derived from qualified dividend income will be taxed in the hands of individuals and other noncorporate shareholders at the rates applicable to long-term capital gain. “Qualified dividend income” means dividends paid to the Fund (a) by domestic corporations, (b) by foreign corporations that are

either (i) incorporated in a possession of the United States, or (ii) are eligible for benefits under certain income tax treaties with the United States that include an exchange of information program, or (c) with respect to stock of a foreign corporation that is readily tradable on an established securities market in the United States. Both the Fund and the investor must meet certain holding period requirements to qualify Fund dividends for this treatment. Specifically, the Fund must hold the stock for at least 61 days during the 121-day period beginning 60 days before the stock becomes ex-dividend. Similarly, investors must hold their Fund Shares for at least 61 days during the 121-day period beginning 60 days before the Fund distribution goes ex-dividend. Income derived from investments in derivatives, fixed-income securities, U.S. REITs, PFICs, and income received “in lieu of” dividends in a securities lending transaction generally is not eligible for treatment as qualified dividend income. If the qualifying dividend income received by the Fund is equal to or greater than 95% of the Fund’s gross income (exclusive of net capital gain) in any taxable year, all of the ordinary income dividends paid by the Fund will be qualifying dividend income.

Dividends-Received Deduction for Corporations. For corporate shareholders, a portion of the dividends paid by the Fund may qualify for the 70% corporate dividends-received deduction. The portion of dividends paid by the Fund that so qualifies will be reported by the Fund each year and cannot exceed the gross amount of dividends received by the Fund from domestic (U.S.) corporations. The availability of the dividends-received deduction is subject to certain holding period and debt financing restrictions that apply to both the Fund and the investor. Specifically, the amount that the Fund may report as eligible for the dividends-received deduction will be reduced or eliminated if the Shares on which the dividends earned by the Fund were debt-financed or held by the Fund for less than a minimum period of time, generally 46 days during a 91-day period beginning 45 days before the stock becomes ex-dividend. Similarly, if your Fund Shares are debt-financed or held by you for less than a 46-day period then the dividends-received deduction for Fund dividends on your Shares may also be reduced or eliminated. Even if reported as dividends eligible for the dividends-received deduction, all dividends (including any deducted portion) must be included in your alternative minimum taxable income calculation. Income derived by the Fund from investments in derivatives, fixed-income and foreign securities generally is not eligible for this treatment.

Impact of Realized but Undistributed Income and Gains, and Net Unrealized Appreciation of Portfolio Securities. At the time of your purchase of Shares, the price of Shares may reflect undistributed income, undistributed capital gains, or net unrealized appreciation of portfolio securities held by the Fund. A subsequent distribution to you of such amounts, although constituting a return of your investment, would be taxable, and would be taxed as ordinary income (some portion of which may be taxed as qualified dividend income), capital gains, or some combination of both, unless you are investing through a tax-deferred arrangement, such as a 401(k) plan or an individual retirement account. The Fund may be able to reduce the amount of such distributions from capital gains by utilizing its capital loss carryovers, if any.

U.S. Government Securities. Income earned on certain U.S. government obligations is exempt from state and local personal income taxes if earned directly by you. States also grant tax-free status to dividends paid to you from interest earned on direct obligations of the U.S. government, subject in some states to minimum investment or reporting requirements that must be met by the Fund. Income on investments by the Fund in certain other obligations, such as repurchase agreements collateralized by U.S. government obligations, commercial paper and federal agency-backed obligations (e.g., GNMA or FNMA obligations), generally does not qualify for tax-free treatment. The rules on exclusion of this income are different for corporations.

Dividends Declared in December and Paid in January. Ordinarily, shareholders are required to take distributions by the Fund into account in the year in which the distributions are made. However, dividends declared in October, November or December of any year and payable to shareholders of record on a specified date in such a month will be deemed to have been received by the shareholders (and made by the Fund) on December 31 of such calendar year if such dividends are actually paid in January of the following year. Shareholders will be advised annually as to the U.S. federal income tax consequences of distributions made (or deemed made) during the year in accordance with the guidance that has been provided by the IRS.

Medicare Tax. A 3.8% Medicare tax is imposed on net investment income earned by certain individuals, estates and trusts. “Net investment income,” for these purposes, means investment income, including ordinary dividends and capital gain distributions received from the Fund and net gains from redemptions or other taxable dispositions of Fund Shares, reduced by the deductions properly allocable to such income. In the case of an individual, the tax will be imposed on the lesser of (1) the shareholder’s net investment income or (2) the amount by which the shareholder’s modified adjusted gross income exceeds \$250,000 (if the shareholder is married and filing jointly or a surviving spouse), \$125,000 (if the shareholder is married and filing separately) or \$200,000 (in any other case). This Medicare tax, if applicable, is reported by you on, and paid with, your federal income tax return.

Sales, Exchanges and Redemptions of Fund Shares

Sales, exchanges and redemptions (including redemptions in kind) of Fund Shares are taxable transactions for federal and state income tax purposes. If you redeem your Fund Shares, the IRS requires you to report any gain or loss on your redemption. If you held your Shares as a capital asset, the gain or loss that you realize will be a capital gain or loss and will be long-term or short-term, generally depending on how long you have held your Shares. Any redemption fees you incur on Shares redeemed will decrease the amount of

any capital gain (or increase any capital loss) you realize on the sale. Capital losses in any year are deductible only to the extent of capital gains plus, in the case of a noncorporate taxpayer, \$3,000 of ordinary income.

Taxes on Purchase and Redemption of Creation Units. An Authorized Participant who exchanges equity securities for Creation Units generally will recognize a gain or a loss. The gain or loss will be equal to the difference between the market value of the Creation Units at the time of purchase and the exchanger's aggregate basis in the securities surrendered and the Cash Component paid. A person who exchanges Creation Units for equity securities will generally recognize a gain or loss equal to the difference between the exchanger's basis in the Creation Units and the aggregate market value of the securities received and the Cash Redemption Amount. The IRS, however, may assert that a loss realized upon an exchange of securities for Creation Units cannot be deducted currently under the rules governing "wash sales," or on the basis that there has been no significant change in economic position. Persons exchanging securities should consult their own tax advisor with respect to whether wash sale rules apply and when a loss might be deductible.

Under current federal tax laws, any capital gain or loss realized upon redemption of Creation Units is generally treated as long-term capital gain or loss if the Shares have been held for more than one year and as a short-term capital gain or loss if the Shares have been held for one year or less.

If the Fund redeems Creation Units in cash, it may recognize more capital gains than it will if it redeems Creation Units in-kind.

Tax Basis Information. A shareholder's cost basis information will be provided on the redemption of any of the shareholder's Shares, subject to certain exceptions for exempt recipients. Please contact the broker (or other nominee) that holds your Shares with respect to reporting of cost basis and available elections for your account.

Wash Sales. All or a portion of any loss that you realize on a redemption of your Fund Shares will be disallowed to the extent that you buy other Shares in the Fund (through reinvestment of dividends or otherwise) within 30 days before or after your Share redemption. Any loss disallowed under these rules will be added to your tax basis in the new Shares.

Redemptions at a Loss Within Six Months of Purchase. Any loss incurred on a redemption or exchange of Shares held for six months or less will be treated as long-term capital loss to the extent of any long-term capital gain distributed to you by the Fund on those Shares.

Reportable Transactions. Under Treasury regulations, if a shareholder recognizes a loss with respect to the Fund's Shares of \$2 million or more for an individual shareholder or \$10 million or more for a corporate shareholder (or certain greater amounts over a combination of years), the shareholder must file with the IRS a disclosure statement on Form 8886. The fact that a loss is reportable under these regulations does not affect the legal determination of whether the taxpayer's treatment of the loss is proper. Shareholders should consult their tax advisors to determine the applicability of these regulations in light of their individual circumstances.

Tax Treatment of Portfolio Transactions

Set forth below is a general description of the tax treatment of certain types of securities, investment techniques and transactions that may apply to the Fund and, in turn, affect the amount, character and timing of dividends and distributions payable by the fund to its shareholders. This section should be read in conjunction with the discussion above under "Investment Strategies" for a detailed description of the various types of securities and investment techniques that apply to the Fund.

In General. In general, gain or loss recognized by the Fund on the sale or other disposition of portfolio investments will be a capital gain or loss. Such capital gain and loss may be long-term or short-term depending, in general, upon the length of time a particular investment position is maintained and, in some cases, upon the nature of the transaction. Property held for more than one year generally will be eligible for long-term capital gain or loss treatment. The application of certain rules described below may serve to alter the manner in which the holding period for a security is determined or may otherwise affect the characterization as long-term or short-term, and also the timing of the realization and/or character, of certain gains or losses.

Options, Futures, Forward Contracts, Swap Agreements and Hedging Transactions. In general, option premiums received by the Fund are not immediately included in the income of the fund. Instead, the premiums are recognized when the option contract expires, the option is exercised by the holder, or the fund transfers or otherwise terminates the option (e.g., through a closing transaction). If an option written by the Fund is exercised and the fund sells or delivers the underlying stock, the fund generally will recognize capital gain or loss equal to (a) the sum of the strike price and the option premium received by the fund minus (b) the fund's basis in the stock. Such gain or loss generally will be short-term or long-term depending upon the holding period of the underlying stock. If securities are purchased by the Fund pursuant to the exercise of a put option written by it, the fund generally will subtract the premium received from its cost basis in the securities purchased. The gain or loss with respect to any termination of the Fund's obligation under an option other than through the exercise of the option and related sale or delivery of the underlying stock generally will be short-term gain or loss depending on whether the premium income received by the fund is greater or less than the amount paid by the fund (if

any) in terminating the transaction. Thus, for example, if an option written by the Fund expires unexercised, the fund generally will recognize short-term gain equal to the premium received.

The tax treatment of certain futures contracts entered into by the Fund as well as listed non-equity options written or purchased by the fund on U.S. exchanges (including options on futures contracts, broad-based equity indices and debt securities) may be governed by section 1256 of the Internal Revenue Code (“section 1256 contracts”). Gains or losses on section 1256 contracts generally are considered 60% long-term and 40% short-term capital gains or losses (“60/40”), although certain foreign currency gains and losses from such contracts may be treated as ordinary in character. Also, any section 1256 contracts held by the Fund at the end of each taxable year (and, for purposes of the 4% excise tax, on certain other dates as prescribed under the Internal Revenue Code) are “marked to market” with the result that unrealized gains or losses are treated as though they were realized and the resulting gain or loss is treated as ordinary or 60/40 gain or loss, as applicable. Section 1256 contracts do not include any interest rate swap, currency swap, basis swap, interest rate cap, interest rate floor, commodity swap, equity swap, equity index swap, credit default swap, or similar agreement.

In addition to the special rules described above in respect of options and futures transactions, the Fund’s transactions in other derivative instruments (including options, forward contracts and swap agreements) as well as its other hedging, short sale, or similar transactions, may be subject to one or more special tax rules (including the constructive sale, notional principal contract, straddle, wash sale and short sale rules). These rules may affect whether gains and losses recognized by the Fund are treated as ordinary or capital or as short-term or long-term, accelerate the recognition of income or gains to the fund, defer losses to the fund, and cause adjustments in the holding periods of the fund’s securities. These rules, therefore, could affect the amount, timing and/or character of distributions to shareholders. Moreover, because the tax rules applicable to derivative financial instruments are in some cases uncertain under current law, an adverse determination or future guidance by the IRS with respect to these rules (which determination or guidance could be retroactive) may affect whether the Fund has made sufficient distributions, and otherwise satisfied the relevant requirements, to maintain its qualification as a regulated investment company and avoid the Fund-level tax.

Certain of the Fund’s investments in derivatives and foreign currency-denominated instruments, and the fund’s transactions in foreign currencies and hedging activities, may produce a difference between its book income and its taxable income. If the Fund’s book income is less than the sum of its taxable income and net tax-exempt income (if any), the fund could be required to make distributions exceeding book income to qualify as a regulated investment company. If the Fund’s book income exceeds the sum of its taxable income and net tax-exempt income (if any), the distribution of any such excess will be treated as (i) a dividend to the extent of the fund’s remaining earnings and profits (including current earnings and profits arising from tax-exempt income, reduced by related deductions), (ii) thereafter, as a return of capital to the extent of the recipient’s basis in the Shares, and (iii) thereafter, as gain from the sale or exchange of a capital asset.

Securities Lending. While securities are loaned out by the Fund, the fund generally will receive from the borrower amounts equal to any dividends or interest paid on the borrowed securities. For federal income tax purposes, payments made “in lieu of” dividends are not considered dividend income. These distributions will neither qualify for the reduced rate of taxation for individuals on qualified dividends nor the 70% dividends-received deduction for corporations. Also, any foreign tax withheld on payments made “in lieu of” dividends or interest will not qualify for the pass-through of foreign tax credits to shareholders.

Investments in Convertible Securities. Convertible debt is ordinarily treated as a “single property” consisting of a pure debt interest until conversion, after which the investment becomes an equity interest. If the security is issued at a premium (i.e., for cash in excess of the face amount payable on retirement), the creditor-holder may amortize the premium over the life of the bond. If the security is issued for cash at a price below its face amount, the creditor-holder must accrue original issue discount in income over the life of the debt. The creditor-holder’s exercise of the conversion privilege is treated as a nontaxable event. Mandatorily convertible debt (e.g., an exchange traded note or ETN issued in the form of an unsecured obligation that pays a return based on the performance of a specified market index, exchange currency, or commodity) is often, but not always, treated as a contract to buy or sell the reference property rather than debt. Similarly, convertible preferred stock with a mandatory conversion feature is ordinarily, but not always, treated as equity rather than debt. Dividends received generally are qualified dividend income and eligible for the corporate dividends received deduction. In general, conversion of preferred stock for common stock of the same corporation is tax-free. Conversion of preferred stock for cash is a taxable redemption. Any redemption premium for preferred stock that is redeemable by the issuing company might be required to be amortized under original issue discount principles.

Investments in Securities of Uncertain Tax Character. The Fund may invest in securities the U.S. federal income tax treatment of which may not be clear or may be subject to recharacterization by the IRS. To the extent the tax treatment of such securities or the income from such securities differs from the tax treatment expected by the Fund, it could affect the timing or character of income recognized by the fund, requiring the fund to purchase or sell securities, or otherwise change its portfolio, in order to comply with the tax rules applicable to regulated investment companies under the Internal Revenue Code.

Backup Withholding

By law, a portion of your taxable dividends and sales proceeds may be withheld unless you:

- provide your correct social security or taxpayer identification number,
- certify that this number is correct,
- certify that you are not subject to backup withholding, and
- certify that you are a U.S. person (including a U.S. resident alien).

Withholding is also imposed if the IRS requires it. When withholding is required, the amount will be 28% of any distributions or proceeds paid. Backup withholding is not an additional tax. Any amounts withheld may be credited against the shareholder's U.S. federal income tax liability, provided the appropriate information is furnished to the IRS. Certain payees and payments are exempt from backup withholding and information reporting. The special U.S. tax certification requirements applicable to non-U.S. investors to avoid backup withholding are described under the "Non-U.S. Investors" heading below.

Non-U.S. Investors

Non-U.S. investors (shareholders who, as to the United States, are nonresident alien individuals, foreign trusts or estates, foreign corporations, or foreign partnerships) may be subject to U.S. withholding and estate tax and are subject to special U.S. tax certification requirements. Non-U.S. investors should consult their tax advisors about the applicability of U.S. tax withholding and the use of the appropriate forms to certify their status.

In General. The United States imposes a flat 30% withholding tax (or a withholding tax at a lower treaty rate) on U.S. source dividends, including on income dividends paid to you by the Fund, subject to certain exemptions described below. However, notwithstanding such exemptions from U.S. withholding at the source, any dividends and distributions of income and capital gains, including the proceeds from the sale of your Fund Shares, will be subject to backup withholding at a rate of 28% if you fail to properly certify that you are not a U.S. person.

Capital Gain Dividends. In general, capital gain dividends reported by the Fund as paid from its net long-term capital gains, other than long-term capital gains realized on disposition of U.S. real property interests, are not subject to U.S. withholding tax unless you are a nonresident alien individual present in the United States for a period or periods aggregating 183 days or more during the calendar year.

Interest-related dividends and short-term capital gain dividends. Generally, dividends reported by the Fund as interest-related dividends and paid from its qualified net interest income from U.S. sources are not subject to U.S. withholding tax. "Qualified interest income" includes, in general, U.S. source (1) bank deposit interest, (2) short-term original discount, (3) interest (including original issue discount, market discount, or acquisition discount) on an obligation that is in registered form, unless it is earned on an obligation issued by a corporation or partnership in which the Fund is a 10-percent shareholder or is contingent interest, and (4) any interest-related dividend from another regulated investment company. Similarly, short-term capital gain dividends reported by the Fund as paid from its net short-term capital gains, other than short-term capital gains realized on disposition of U.S. real property interests, are not subject to U.S. withholding tax unless you were a nonresident alien individual present in the United States for a period or periods aggregating 183 days or more during the calendar year. The Fund reserves the right to not report interest-related dividends or short-term capital gain dividends. Additionally, the Fund's reporting of interest-related dividends or short-term capital gain dividends may not be passed through to shareholders by intermediaries who have assumed tax reporting responsibilities for this income in managed or omnibus accounts due to systems limitations or operational constraints.

Net Investment Income from Dividends on Stock and Foreign Source Interest Income Continue to be Subject to Withholding Tax; Foreign Tax Credits. Ordinary dividends paid by the Fund to non-U.S. investors on the income earned on portfolio investments in (i) the stock of domestic and foreign corporations and (ii) the debt of foreign issuers continue to be subject to U.S. withholding tax.

Foreign shareholders may be subject to U.S. withholding tax at a rate of 30% on the income resulting from an election to pass-through foreign tax credits to shareholders, but may not be able to claim a credit or deduction with respect to the withholding tax for the foreign tax treated as having been paid by them.

Income Effectively Connected with a U.S. Trade or Business. If the income from the Fund is effectively connected with a U.S. trade or business carried on by a foreign shareholder, then ordinary income dividends, capital gain dividends and any gains realized upon the sale or redemption of Shares of the Fund will be subject to U.S. federal income tax at the rates applicable to U.S. citizens or domestic corporations and require the filing of a nonresident U.S. income tax return.

U.S. Estate Tax. Transfers by gift of Shares of the Fund by a foreign shareholder who is a nonresident alien individual will not be subject to U.S. federal gift tax. An individual who, at the time of death, is a non-U.S. shareholder will nevertheless be subject to U.S. federal estate tax with respect to Fund Shares at the graduated rates applicable to U.S. citizens and residents, unless a treaty exemption applies. If a treaty exemption is available, a decedent's estate may nonetheless need to file a U.S. estate tax return to claim the exemption in order to obtain a U.S. federal transfer certificate, which permits the decedent's property to be transferred without federal

estate tax liability. The transfer certificate will identify the property (i.e., Fund Shares) as to which the U.S. federal estate tax lien has been released. In the absence of a treaty, there is a \$13,000 statutory estate tax credit (equivalent to U.S. situs assets with a value of \$60,000). For estates with U.S. situs assets of not more than \$60,000, an affidavit from an appropriate individual that states that the decedent's U.S. situs assets are below this threshold amount may be sufficient to transfer the Fund shares.

U.S. Tax Certification Rules. Special U.S. tax certification requirements may apply to non-U.S. shareholders both to avoid U.S. backup withholding imposed at a rate of 28% and to obtain the benefits of any treaty between the United States and the shareholder's country of residence. In general, if you are a non-U.S. shareholder, you must provide a Form W-8 BEN (or other applicable Form W-8) to establish that you are not a U.S. person, to claim that you are the beneficial owner of the income and, if applicable, to claim a reduced rate of, or exemption from, withholding as a resident of a country with which the United States has an income tax treaty. A Form W-8 BEN provided without a U.S. taxpayer identification number will remain in effect for a period beginning on the date signed and ending on the last day of the third succeeding calendar year unless an earlier change of circumstances makes the information on the form incorrect. Certain payees and payments are exempt from backup withholding.

The tax consequences to a non-U.S. shareholder entitled to claim the benefits of an applicable tax treaty may be different from those described herein. Non-U.S. shareholders are urged to consult their own tax advisors with respect to the particular tax consequences to them of an investment in the Fund, including the applicability of foreign tax.

Foreign Account Tax Compliance Act ("FATCA"). Under FATCA, a 30% withholding tax is imposed on payments or distributions made by the Fund to certain foreign entities, referred to as foreign financial institutions ("FFI") or non-financial foreign entities ("NFFE"): (a) income dividends and (b) after December 31, 2018, certain capital gain distributions, return of capital distributions and the proceeds arising from the sale of Fund shares. The FATCA withholding tax generally can be avoided: (a) by an FFI, if it reports certain direct and indirect ownership of foreign financial accounts held by U.S. persons with the FFI and (b) by an NFFE, if it: (i) certifies that it has no substantial U.S. persons as owners or (ii) if it does have such owners, reporting information relating to them. The U.S. Treasury has negotiated intergovernmental agreements ("IGA") with certain countries and is in various stages of negotiations with a number of other foreign countries with respect to one or more alternative approaches to implement FATCA; an entity in one of those countries may be required to comply with the terms of an IGA instead of U.S. Treasury regulations.

An FFI can avoid FATCA withholding if it is deemed compliant or by becoming a "participating FFI," which requires the FFI to enter into a U.S. tax compliance agreement with the IRS under section 1471(b) of the Internal Revenue Code ("FFI agreement") under which it agrees to verify, report and disclose certain of its U.S. accountholders and meet certain other specified requirements. The FFI will either report the specified information about the U.S. accounts to the IRS, or, to the government of the FFI's country of residence (pursuant to the terms and conditions of applicable law and an applicable IGA entered into between the United States and the FFI's country of residence), which will, in turn, report the specified information to the IRS. An FFI that is resident in a country that has entered into an IGA with the U.S. to implement FATCA will be exempt from FATCA withholding provided that the FFI shareholder and the applicable foreign government comply with the terms of such agreement.

An NFFE that is the beneficial owner of a payment from the Fund can avoid the FATCA withholding tax generally by certifying that it does not have any substantial U.S. owners or by providing the name, address and taxpayer identification number of each substantial U.S. owner. The NFFE will report the information to the applicable withholding agent, which will, in turn, report information to the IRS.

Such foreign shareholders also may fall into certain exempt, excepted or deemed compliant categories as established by U.S. Treasury regulations, IGAs, and other guidance regarding FATCA. An FFI or NFFE that invests in the Fund will need to provide documentation properly certifying the entity's status under FATCA in order to avoid FATCA withholding. Non-U.S. investors should consult their own tax advisors regarding the impact of these requirements on their investment in the Fund. The requirements imposed by FATCA are different from, and in addition to, the U.S. tax certification rules to avoid backup withholding described above. Shareholders are urged to consult their tax advisors regarding the application of these requirements to their own situation.

Effect of Future Legislation; Local Tax Considerations

The foregoing general discussion of U.S. federal income tax consequences is based on the Internal Revenue Code and the regulations issued thereunder as in effect on the date of this SAI. Future legislative or administrative changes, including provisions of current law that sunset and thereafter no longer apply, or court decisions may significantly change the conclusions expressed herein, and any such changes or decisions may have a retroactive effect with respect to the transactions contemplated herein. Rules of state and local taxation of ordinary income, qualified dividend income and capital gain dividends may differ from the rules for U.S. federal income taxation described above. Distributions may also be subject to additional state, local and foreign taxes depending on each shareholder's particular situation. Non-U.S. shareholders may be subject to U.S. tax rules that differ significantly from those summarized above. Shareholders are urged to consult their tax advisors as to the consequences of these and other state and local tax rules affecting investment in the Fund.

OTHER INFORMATION

Shareholder inquiries may be made by writing to the Trust, c/o Virtus ETF Advisers LLC, 1540 Broadway, New York, NY 10036.

FINANCIAL STATEMENTS

The audited financial statements and financial highlights of the Fund for the fiscal year ended July 31, 2016, as set forth in the Fund's annual report to shareholders, including the report of BBD, LLP, are incorporated by reference into this SAI.

APPENDIX A

TRUST PROXY VOTING POLICY AND PROCEDURES

1. Purpose; Delegation. The purpose of this memorandum is to describe the policies and procedures for voting proxies received from issuers whose securities are held by each series (individually, a “Fund” and collectively, the “Funds”) of ETFs Series Trust I (the “Trust”). The board of Trustees of the Trust (the “Board”) believes that while typically each Fund’s Sub-Adviser is in the best position to make individual voting decisions for such Fund, there may also be times when the Board determines that the Adviser or another person or group of persons is in the best position to make such voting decisions (such person or group of persons, the “Proxy Voting Manager”). Therefore, subject to the oversight of the Board, each Fund’s Proxy Voting Manager is hereby delegated the duty to make proxy voting decisions for such Fund, and to implement and undertake such other duties as set forth in, and consistent with, these Policies and Procedures.

2. Definitions

(a) Proxy. A proxy permits a shareholder to vote without being present at annual or special meetings. A proxy is the form whereby a person who is eligible to vote on corporate matters transmits written instructions for voting or transfers the right to vote to another person in place of the eligible voter. Proxies are generally solicited by management, but may be solicited by dissident shareholders opposed to management’s policies or strategies.

(b) Proxy Voting Manager. Proxy Voting Manager, as used herein, refers to the individual, individuals or committee of individuals appointed by the Board as being responsible for supervising and implementing these Policies and Procedures with respect to a particular Fund.

3. Policy for Voting Proxies Related to Exchange Traded Funds and other Investment Companies. Pursuant to Section 12(d)(1)(E) (iii) of the Investment Company Act of 1940, all proxies from exchange traded funds (“ETFs”) or other investment companies voted by a Fund, registered in the name of the Fund, will have the following voting instructions typed on the proxy form: “Vote these shares in the same proportion as the vote of all other holders of such shares. The beneficial owner of these shares is a registered investment company.”

4. Policy for Voting Proxies Related to Other Portfolio Securities.

(a) Fiduciary Considerations. Proxies with respect to securities other than ETFs or other investment companies are voted solely in the interests of the shareholders of the Trust. Any conflict of interest must be resolved in the way that will most benefit the shareholders.

(b) Management Recommendations. Since the quality and depth of management is a primary factor considered when investing in a company, the recommendation of management on any issue should be given substantial weight. The vote with respect to most issues presented in proxy statements should be cast in accordance with the position of the company’s management, unless it is determined that supporting management’s position would adversely affect the investment merits of owning the stock. However, each issue should be considered on its own merits, and the position of the company’s management should not be supported in any situation where it is found not to be in the best interests of the Fund’s shareholders.

5. Conflicts of Interest. The Trust recognizes that under certain circumstances a Proxy Voting Manager may have a conflict of interest in voting proxies on behalf of a Fund. Such circumstances may include, but are not limited to, situations where a Proxy Voting Manager or one or more of its affiliates, including, without limitation, officers, directors or employees, has or is seeking a client relationship with the issuer of the security that is the subject of the proxy vote. The Proxy Voting Manager shall periodically inform its employees that they are under an obligation to be aware of the potential for conflicts of interest on the part of the Proxy Voting Manager with respect to voting proxies on behalf of a Fund, both as a result of the employee’s personal relationships and due to circumstances that may arise during the conduct of the Proxy Voting Manager’s business, and to bring any conflict of interest of which they become aware to the attention of the proxy manager. With respect to securities other than ETFs or other investment companies, the Proxy Voting Manager shall not vote proxies relating to such issuers on behalf of a Fund until it has determined that the conflict of interest is not material or a method of resolving such conflict of interest has been determined in the manner described below. A conflict of interest will be considered material to the extent that it is determined that such conflict has the potential to influence the Proxy Voting Manager’s decision-making in voting a proxy. Materiality determinations will be based upon an assessment of the particular facts and circumstances. If the proxy manager determines that a conflict of interest is not material, the Proxy Voting Manager may vote proxies notwithstanding the existence of a conflict. If the conflict of interest is determined to be material, either (i) the conflict shall be disclosed to the Board and the Proxy Voting Manager shall follow the instructions of the Board or (ii) the Proxy Voting Manager shall vote the issue in question based upon the recommendation of an independent third party under a contractual arrangement approved by the Board. The proxy manager shall keep a record of all materiality decisions and report them to the Board on an annual basis.

6. Routine Proposals. Proxies for routine proposals (such as election of directors, selection of independent public accountants, stock splits and increases in capital stock) with respect to securities other than ETFs or other investment companies should generally be voted in favor of management.

7. Non-Routine Proposals. Votes on non-routine matters and votes against a management's recommendations with respect to securities other than ETFs or other investment companies are voted as determined by the Proxy Voting Manager to be in the best interests of the Fund's shareholders.

8. Proxy Voting Procedures. Proxy voting will be conducted in compliance with the policies and practices described herein and is subject to the Proxy Voting Manager's supervision. A reasonable effort should be made to obtain proxy material and to vote in a timely fashion. Each Proxy Voting Manager shall maintain records regarding the voting of proxies under these Policies and Procedures.

9. Form N-PX. A record of each proxy vote will be entered on Form N-PX. A copy of each Form N-PX will be signed by the President of the Trust. The Form is to be filed by August 31 each year. Each reporting period covered by the Form N-PX runs from July 1 to June 30. The Trust will disclose in its annual and semi-annual reports to shareholders and in its registration statement (in the SAI) filed with the SEC on or after August 31 that each Fund's proxy voting record for the most recent twelve-month period ended June 30 is available without charge upon request at (212) 593-4383 (collect) and is also available on the SEC's Website at www.sec.gov.

10. Proxy Voting Managers' Voting Procedures. The Trust acknowledges that certain of the Proxy Voting Managers to the various Funds have adopted voting policies and procedures for their clients that have been delivered to the Trust. To the extent that a proxy Voting Manager has not adopted such policies and procedures, it shall adopt the policies and procedures provided herein as its own and shall otherwise vote all proxies in what it believes is the best interests of the Fund's shareholders. To the extent that a Proxy Voting Manager's policies and procedures are consistent with these Policies and Procedures, the Proxy Voting Manager may implement them with respect to voting proxies on behalf of each Fund managed by such Proxy Voting Manager. However, the provisions of paragraph 5 of these Policies and Procedures relating to conflicts of interest shall supersede any comparable provisions of any Proxy Voting Manager's policies and procedures.

APPENDIX B

PROXY VOTING POLICIES AND PROCEDURES OF W. H. REAVES & COMPANY, INC.

1. BACKGROUND

The act of managing assets of clients may include the voting of proxies related to such managed assets. Where the power to vote in person or by proxy has been delegated, directly or indirectly, to the investment adviser, the investment adviser has the fiduciary responsibility for (a) voting in a manner that is in the best interests of the client, and (b) properly dealing with potential conflicts of interest arising from proxy proposals being voted upon.

The policies and procedures of W. H. Reaves & Company, Inc. ("WHR") ("the Adviser") for voting proxies received for accounts managed by the Adviser are set forth below and are applicable if:

- The underlying advisory agreement entered into with the client expressly provides that the Adviser shall be responsible to vote proxies received in connection with the client's account; or
- The underlying advisory agreement entered into with the client is silent as to whether or not the Adviser shall be responsible to vote proxies received in connection with the client's account and the Adviser has discretionary authority over investment decisions for the client's account; or
- In case of an employee benefit plan, the client (or any plan trustee or other fiduciary) has not reserved the power to vote proxies in either the underlying advisory agreement entered into with the client or in the client's plan documents.

These Proxy Voting Policies and Procedures are designed to ensure that proxies are voted in an appropriate manner and should complement the Adviser's investment policies and procedures regarding its general responsibility to monitor the performance and/or corporate events of companies which are issuers of securities held in managed accounts. Any questions about these policies and procedures should be directed to WHR's Compliance Department.

2. PROXY VOTING POLICIES

In the absence of specific voting guidelines from a client, WHR will vote proxies in a manner that is in the best interest of the client, which may result in different voting results for proxies for the same issuer. The Adviser shall consider only those factors that relate to the client's investment or dictated by the client's written instructions, including how its vote will economically impact and affect the value of the client's investment (keeping in mind that, after conducting an appropriate cost-benefit analysis, not voting at all on a presented proposal may be in the best interest of the client). WHR believes that voting proxies in accordance with the following policies is in the best interests of its clients.

A. Specific Voting Policies

1. Routine Items:

- The Adviser will generally vote for the election of directors (where no corporate governance issues are implicated).
- The Adviser will generally vote for the selection of independent auditors.
- The Adviser will generally vote for increases in or reclassification of common stock.
- The Adviser will generally vote for management recommendations adding or amending indemnification provisions in charter or by-laws.
- The Adviser will generally vote for changes in the board of directors.
- The Adviser will generally vote for outside director compensation.
- The Adviser will generally vote for proposals that maintain or strengthen the shared interests of shareholders and management
- The Adviser will generally vote for proposals that increase shareholder value
- The Adviser will generally vote for proposals that will maintain or increase shareholder influence over the issuer's board of directors and management
- The Adviser will generally vote for proposals that maintain or increase the rights of shareholders

2. Non-Routine and Conflict of Interest Items:

- The Adviser will generally vote for management proposals for merger or reorganization if the transaction appears to offer fair value.
- The Adviser will generally vote against shareholder resolutions that consider only non-financial impacts of mergers
- The Adviser will generally vote against anti-greenmail provisions.

B. General Voting Policy

If the proxy includes a Routine Item that implicates corporate governance changes, a Non-Routine Item where no specific policy applies or a Conflict of Interest Item where no specific policy applies, then the Adviser may engage an independent third party to determine how the proxies should be voted.

In voting on each and every issue, the Adviser and its employees shall vote in a prudent and timely fashion and only after a careful evaluation of the issue(s) presented on the ballot.

In exercising its voting discretion, the Adviser and its employees shall avoid any direct or indirect conflict of interest raised by such voting decision. The Adviser will provide adequate disclosure to the client if any substantive aspect or foreseeable result of the subject matter to be voted upon raises an actual or potential conflict of interest to the Adviser or:

- any affiliate of the Adviser. For purposes of these Proxy Voting Policies and Procedures, an affiliate means:
 - (i) any person directly, or indirectly through one or more intermediaries, controlling, controlled by or under common control with the Adviser;
 - (ii) any officer, director, principal, partner, employer, or direct or indirect beneficial owner of any 10% or greater equity or voting interest of the Adviser; or
 - (iii) any other person for which a person described in clause (ii) acts in any such capacity;
- any issuer of a security for which the Adviser (or any affiliate of the Adviser) acts as a sponsor, advisor, manager, custodian, distributor, underwriter, broker, or other similar capacity; or
- any person with whom the Adviser (or any affiliate of the Adviser) has an existing, material contract or business relationship that was not entered into in the ordinary course of the Adviser's (or its affiliate's) business.

After informing the client of any potential conflict of interest, the Adviser will take other appropriate action as required under these Proxy Voting Policies and Procedures, as provided below.

The Adviser shall keep certain records required by applicable law in connection with its proxy voting activities for clients and shall provide proxy-voting information to clients upon their written or oral request.

3. PROXY VOTING PROCEDURES

- A. The Account Representative or the Portfolio Manager the "Responsible Party") shall be designated by the Adviser to make discretionary investment decisions for the client's account will be responsible for voting the proxies related to that account. The Responsible Party should assume that he or she has the power to vote all proxies related to the client's account if any one of the three circumstances set forth in Section 1 above regarding proxy voting powers is applicable.
- B. All proxies and ballots received by WHR will be forwarded to the Responsible Party and then logged in upon receipt in the "Receipt of Proxy Voting Material" log.
- C. Prior to voting, the Responsible Party will verify whether his or her voting power is subject to any limitations or guidelines issued by the client (or in the case of an employee benefit plan, the plan's trustee or other fiduciaries).
- D. Prior to voting, the Responsible Party will verify whether an actual or potential conflict of interest with the Adviser or any Interested Person exists in connection with the subject proposal(s) to be voted upon. The determination regarding the presence or absence of any actual or potential conflict of interest shall be adequately documented by the Responsible Party (i.e., comparing the apparent parties affected by the proxy proposal being voted upon against the Adviser's internal list of Interested Persons and, for any matches found, describing the process taken to determine the anticipated magnitude and possible probability of any conflict of interest being present), which shall be reviewed and signed off on by the Responsible Party's direct supervisor (and if none, by the board of directors or a committee of the board of directors of the Adviser).
- E. If an actual or potential conflict is found to exist, written notification of the conflict (the "Conflict Notice") shall be given to the client or the client's designee (or in the case of an employee benefit plan, the plan's trustee or other fiduciary) in sufficient detail and with sufficient time to reasonably inform the client (or in the case of an employee benefit plan, the plan's trustee or other fiduciary) of the actual or potential conflict involved.

Specifically, the Conflict Notice should describe:

- the proposal to be voted upon;
- the actual or potential conflict of interest involved;
- the Adviser's vote recommendation (with a summary of material factors supporting the recommended vote); and
- if applicable, the relationship between the Adviser and any Interested Person.

The Conflict Notice will either request the client's consent to the Adviser's vote recommendation or may request the client to vote the proxy directly or through another designee of the client. The Conflict Notice and consent thereto may be sent or received, as the case may be, by mail, fax, electronic transmission or any other reliable form of communication that may be recalled, retrieved, produced, or printed in accordance with the recordkeeping policies and procedures of the Adviser. If the client (or in the case of an employee benefit plan, the plan's trustee or other fiduciary) is unreachable or has not affirmatively responded before the response deadline for the matter being voted upon, the Adviser may:

- engage a non-Interested Party to independently review the Adviser's vote recommendation if the vote recommendation would fall in favor of the Adviser's interest (or the interest of an Interested Person) to confirm that the Adviser's vote recommendation is in the best interest of the client under the circumstances;
- cast its vote as recommended if the vote recommendation would fall against the Adviser's interest (or the interest of an Interested Person) and such vote recommendation is in the best interest of the client under the circumstances; or
- abstain from voting if such action is determined by the Adviser to be in the best interest of the client under the circumstances.

F. The Responsible Party will promptly vote proxies received in a manner consistent with the Proxy Voting Policies and Procedures stated above and guidelines (if any) issued by client (or in the case of an employee benefit plan, the plan's trustee or other fiduciaries if such guidelines are consistent with ERISA).

G. In accordance with SEC Rule 204-2(c)(2), as amended, the Responsible Party shall retain in the respective client's file, the following:

- A copy of the proxy statement received (unless retained by a third party for the benefit of the Adviser or the proxy statement is available from the SEC's Electronic Data Gathering, Analysis, and Retrieval (EDGAR) system);
- A record of the vote cast (unless this record is retained by a third party for the benefit of the Adviser and the third party is able to promptly provide the Adviser with a copy of the voting record upon its request);
- A record memorializing the basis for the vote cast;
- A copy of any document created by the Adviser or its employees that was material in making the decision on how to vote the subject proxy; and,
- A copy of any Conflict Notice, conflict consent or any other written communication (including emails or other electronic communications) to or from the client (or in the case of an employee benefit plan, the plan's trustee or other fiduciaries) regarding the subject proxy vote cast by, or the vote recommendation of, the Adviser.

The above copies and records shall be retained in the client's file for a period not less than five (5) years (or in the case of an employee benefit plan, no less than six (6) years), which shall be maintained at the appropriate office of the Adviser.

H. Periodically, but no less than annually, the Adviser will:

1. Verify that all annual proxies for the securities held in the client's account have been received;
2. Verify that each proxy received has been voted in a manner consistent with the Proxy Voting Policies and Procedures and the guidelines (if any) issued by the client (or in the case of an employee benefit plan, the plan's trustee or other fiduciaries);
3. Review the files to verify that records of the voting of the proxies have been properly maintained;
4. Prepare a written report for each client regarding compliance with the Proxy Voting Policies and Procedures; and
5. Maintain an internal list of Interested Persons.

Proxies and Class Action Lawsuits

WHR will be required to take action and render advice with respect to voting of proxies solicited by or with respect to the issuers of securities in which assets of the Account may be invested from time to time. However, WHR will not take any action or render any advice with respect to any securities held in the Account, which are named in or subject to class action lawsuits. WHR may, only at the client's request, offer clients advice regarding corporate actions.
