Shareholder Letter (unaudited)

October 31, 2017

Dear Fellow ETFis Funds Shareholder:

I am pleased to present this annual report for ETFis Series Trust I, which reviews the performance of the following funds within the Trust, including three recent additions, for the twelve months ended October 31, 2017:

- InfraCap REIT Preferred ETF (PFFR) — Launched on February 7, 2017, this fund seeks investment results that correspond, before fees and expenses, to the price and yield performance of the Indxx REIT Preferred Stock Index.
- iSectors® Post-MPT Growth ETF (PMPT)
- Virtus Cumberland Municipal Bond ETF (CUMB) — Launched on January 17, 2017, this fund seeks to provide a competitive level of current income exempt from federal income tax, while preserving capital.
- Virtus LifeSci Biotech Clinical Trials ETF (BBC)
- Virtus LifeSci Biotech Products ETF (BBP)
- Virtus Newfleet Multi-Sector Unconstrained Bond ETF (NFLT)
- Virtus WMC Global Factor Opportunities ETF (VGFO) — Launched on October 10, 2017, this fund seeks to outperform the MSCI ACWI® Index with lower downside risk over a complete market cycle, utilizing Wellington Management Company's proprietary rules-based investment process.
- InfraCap MLP ETF (AMZA)

The report provides financial statements and portfolio information for the above funds. For the funds with a performance history of more than six months, the report also provides commentary from the portfolio manager on how the fund performed relative to the markets in which it invests.

On behalf of Virtus ETF Advisers LLC (the "Adviser") and our fund Sub-Advisers, thank you for your investment. If you have questions, please contact your financial adviser, or call 1-888-383-0553. We invite you to visit our website, www.virtusetfs.com, to learn more about the funds.

Sincerely,

William Smalley
President

ETFis Series Trust I

InfraCap REIT Preferred ETF

Management's Discussion of Operations

Overview

The InfraCap REIT Preferred ETF (the "Fund") launched on February 7, 2017 under the ticker symbol, PFFR. The Fund seeks investment results that correspond, before fees and expenses, to the price and yield performance of the Indxx REIT Preferred Stock Index. As such, the Fund will typically hold positions exclusively in Preferred Securities, listed on U.S. Exchanges and issued by Real Estate Investment Trusts (REITs).

Update

Owing to the February launch of the Fund, the fiscal year ended October 31, 2017 included less than 9 months of operations. During that time, the Fund paid its first three dividend distributions and delivered a 6.54% total return, net of fees.

Preferred Securities generally performed well during the period covered in this report. While the Federal Reserve (the "Fed") raised its target for short term interest rates, investors seemed to take those moves in stride. Many interest rate sensitive investments, including preferred securities issued by REITs, saw limited impact from the Fed.

The leading contributors to the Fund's performance were PS Business Parks Inc Preferred W, National Retail Properties Inc Preferred F and Public Storage Preferred E while exposure to Colony NorthStar Inc. Preferred E, Pennsylvania Real Estate Investment Trust Preferred C and PennyMac Mortgage Investment Trust Preferred Series A hurt relative performance.

Performance as of 10/31/2017

	Cumulative Total Return		
	Fund Net Asset Value	Fund Market Price	Indxx REIT Preferred Stock Index ¹
Since Inception ²	6.54%	6.67%	6.98%

1 The Indxx REIT Preferred Stock Index is a market cap weighted index designed to provide diversified exposure to high yielding liquid preferred securities issued by Real Estate Investment Trusts listed in the U.S. The index is calculated on a total return basis. The index is unmanaged, its returns do not reflect any fees, expenses, or sales charges, and is not available for direct investment.

2 February 7, 2017.

Performance data quoted represents past performance and past performance does not guarantee future results. Investment return and principal value of an investment will fluctuate so that an investor's shares, when sold or redeemed, may be worth more or less than the original cost. Current performance data may be higher or lower than actual data quoted. Returns do not reflect the deduction of taxes a shareholder would pay on Fund distributions or the redemption of Fund shares. For the most current month-end performance data please visit www.virtusetfs.com or call toll free (800) 243-4361. Market price returns are based on the mid-point of the highest bid and lowest offer for Fund shares as of the scheduled close of regular trading on the New York Stock Exchange Arca ("NYSE"), ordinarily 4:00 p.m. Eastern time, on each day during which the NYSE is open for trading, and do not represent the returns an investor would receive if shares were traded at other times.

Exchange Traded Funds: The value of an ETF may be more volatile than the underlying portfolio of securities the ETF is designed to track. The costs of owning the ETF may exceed the cost of investing directly in the underlying securities.

Market Price/NAV: Shares of ETFs often trade at a discount to their net asset value, which may increase investors' risk of loss. At the time of sale, an investor's shares may have a market price that is above or below the Fund's NAV.

Preferred Stocks: Preferred stocks may decline in price, fail to pay dividends, or be illiquid.

Real Estate Investments: The Fund may be negatively affected by factors specific to the real estate market, including interest rates, leverage, property, and management.

Industry/Sector Concentration: A fund that focuses its investments in a particular industry or sector will be more sensitive to conditions that affect that industry or sector than a non-concentrated fund.

Passive Strategy/Index Risk: A passive investment strategy seeking to track the performance of the Underlying Index may result in the fund holding securities regardless of market conditions or their current or projected performance. This could cause the Fund's returns to be lower than if the Fund employed an active strategy.

October 31, 2017

InfraCap REIT Preferred ETF (continued)

Correlation to Index: The performance of the Fund and its index may vary somewhat due to factors such as Fund flows, transaction costs, and timing differences associated with additions to and deletions from its index.

Market Volatility: Securities in the Fund may go up or down in response to the prospects of individual companies and general economic conditions. Price changes may be short or long term.

No Guarantee: There is no guarantee that the Fund will meet its objective.

Non-Diversified: The Fund is non-diversified and may be more susceptible to factors negatively impacting its holdings to the extent that each security represents a larger portion of the Fund's assets.

Prospectus: For additional information on risks, please see the Fund's prospectus. The Fund may not be suitable for all investors.

Value of a \$10,000 Investment Since Inception at Net Asset Value

The chart above represents historical performance of a hypothetical investment of \$10,000 over the life of the Fund, assuming reinvestment of distributions. Past performance does not guarantee future results.

October 31, 2017

iSectors® Post-MPT Growth ETF

This discussion of operations relates to the fiscal year ending October 31, 2017. During this period, the net asset value of iSectors® Post-MPT Growth ETF (“PMPT” or the “Fund”) rose from \$23.34 to \$26.95. During the same period, the S&P 500® Index, the Fund’s benchmark index, increased 23.63% on a total return basis.

The fiscal year began right before the election. The resultant sweep of the US government by Republicans led to a strong rally in equities. PMPT began the fiscal year in a defensive posture by holding significant positions in bonds, energy and utility stocks. This led to Fund underperformance relative to its benchmark through the first half of 2017. By July, the strategy had increased its allocation to the financial and technology sectors while decreasing defensive holdings. The combination of increasing short-term interest rates, accelerating technology spending, and the prospect for tax reform was favorable to the overweighted sectors. Thus, PMPT outperformed its benchmark in the July to October period.

PMPT tends to perform better when equity markets are flat or dropping in price. However, it was difficult for the quantitative model behind PMPT’s strategy to consistently identify positive performing allocations during the strongly positive fiscal year 2017, which led to underperformance relative to PMPT’s benchmark.

Performance as of 10/31/2017

	Average Annual Total Return		
	Fund Net Asset Value	Fund Market Price	S&P 500® Index ¹
1 Year	16.20%	16.06%	23.63%
Since Inception ²	7.35%	7.34%	17.19%

1 The S&P 500® Index is a free-float market capitalization-weighted index of 500 of the largest U.S. companies. The index is calculated on a total return basis with dividends reinvested. The index is unmanaged, its returns do not reflect any fees, expenses, or sales charges, and is not available for direct investment.

2 August 16, 2016.

Performance data quoted represents past performance and past performance does not guarantee future results. Investment return and principal value of an investment will fluctuate so that an investor’s shares, when sold or redeemed, may be worth more or less than the original cost. Current performance data may be higher or lower than actual data quoted. Returns do not reflect the deduction of taxes a shareholder would pay on Fund distributions or the redemption of Fund shares. For the most current month-end performance data please visit www.virtusetfs.com or call toll free (800) 243-4361. Market price returns are based on the mid-point of the highest bid and lowest offer for Fund shares as of the scheduled close of regular trading on the NASDAQ Stock Exchange (“NASDAQ”), ordinarily 4:00 p.m. Eastern time, on each day during which the NASDAQ is open for trading, and do not represent the returns an investor would receive if shares were traded at other times.

Exchange Traded Funds: The value of an ETF may be more volatile than the underlying portfolio of securities the ETF is designed to track. The costs of owning the ETF may exceed the cost of investing directly in the underlying securities.

Market Price/NAV: Shares of ETFs often trade at a discount to their net asset value, which may increase investors’ risk of loss. At the time of sale, an investor’s shares may have a market price that is above or below the Fund’s NAV.

Portfolio Turnover: The Fund’s principal investments strategies will result in a consistently high portfolio turnover rate. A higher portfolio turnover rate may indicate higher transaction costs and may result in higher taxes when Fund shares are held in a taxable account.

Allocation: The Fund’s exposure to different asset classes may not be optimal for market conditions at a given time. Asset allocation does not guarantee a profit or protect against a loss in declining markets.

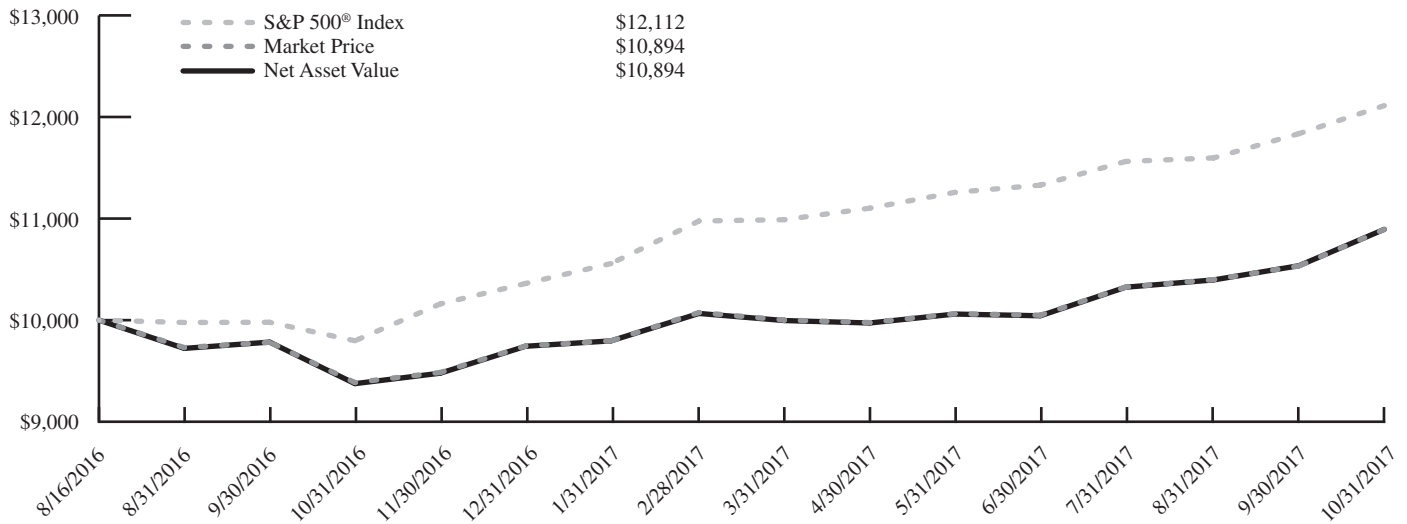

No Guarantee: There is no guarantee that the Fund will meet its objective.

Prospectus: For additional information on risks, please see the Fund’s prospectus. The Fund may not be suitable for all investors.

The chart above represents historical performance of a hypothetical investment of \$10,000 over the life of the Fund, assuming reinvestment of distributions. Past performance does not guarantee future results.

October 31, 2017

Virtus Cumberland Municipal Bond ETF

The Virtus Cumberland Municipal Bond ETF (“CUMB” or the “Fund”) had a total return of 3.92% for the reporting period, while the Bloomberg Barclays Municipal Bond Index, the Fund’s benchmark index, posted a total return of 3.53%.

Buying longer term maturity municipal bonds during the initial months of the Fund’s operations was an important factor that helped performance. There was a notable sell-off in bonds in November and December 2016, prior to the Fund’s launch. While there had been some recovery by early January, there was still a good deal of value in the municipal bond market, particularly for longer term bonds, which had been most affected during the sell-off. The Fund’s purchases included bonds issued in the wake of the sell-off as well as some trading below par that had been issued in mid-2016.

At the start of 2017, the AAA-rated bonds’ tax free yield curve was, from a historical perspective, relatively cheap compared to US Treasuries at every point along the yield curve. As the Fed clarified its intentions to raise short term interest rates, short term municipal bond yields began correcting first, followed by intermediate term municipal bond yields and now we believe longer term municipal bond yields are correcting.

Going forward we expect any tax law changes to reduce the supply of tax free bonds at the margin. This is because of the House proposals to end Private Activity bonds as well as both the House and Senate plans to end advance refunding bonds. In addition, we believe any changes (in both plans) which end the deduction for state and local taxes will raise the demand for in state bonds in high state income tax states like California, New York, New Jersey, Connecticut and Massachusetts.

Performance as of 10/31/2017

	Cumulative Total Return		
	Fund Net Asset Value	Fund Market Price	Bloomberg Barclays Municipal Bond Index ¹
Since Inception ²	3.92%	3.62%	3.53%

¹ The Bloomberg Barclays Municipal Bond Index is a market capitalization-weighted index that measures the long-term tax-exempt bond market. The index is calculated on a total return basis. The index is unmanaged, its returns do not reflect any fees, expenses, or sales charges, and is not available for direct investment.

² January 17, 2017.

Performance data quoted represents past performance and past performance does not guarantee future results. Investment return and principal value of an investment will fluctuate so that an investor’s shares, when sold or redeemed, may be worth more or less than the original cost. Current performance data may be higher or lower than actual data quoted. Returns do not reflect the deduction of taxes a shareholder would pay on Fund distributions or the redemption of Fund shares. For the most current month-end performance data please visit www.virtusetfs.com or call toll free (800) 243-4361. Market price returns are based on the mid-point of the highest bid and lowest offer for Fund shares as of the scheduled close of regular trading on the New York Stock Exchange Arca (“NYSE”), ordinarily 4:00 p.m. Eastern time, on each day during which the NYSE is open for trading, and do not represent the returns an investor would receive if shares were traded at other times.

Exchange Traded Funds: The value of an ETF may be more volatile than the underlying portfolio of securities the ETF is designed to track. The costs of owning the ETF may exceed the cost of investing directly in the underlying securities.

Market Price/NAV: Shares of ETFs often trade at a discount to their net asset value, which may increase investors’ risk of loss. At the time of sale, an investor’s shares may have a market price that is above or below the Fund’s NAV.

Credit & Interest: Debt securities are subject to various risks, the most prominent of which are credit and interest rate risk. The issuer of a debt security may fail to make interest and/or principal payments. Values of debt securities may rise or fall in response to changes in interest rates, and this risk may be enhanced with longer-term maturities.

Municipal Market: Events negatively impacting a municipal security, or the municipal bond market in general, may cause the Fund to decrease in value.

State & AMT Tax: A portion of income may be subject to some state and/or local taxes and, for certain investors, a portion may be subject to the federal alternative minimum tax.

Tax Liability Risk: Noncompliant conduct by a municipal bond issuer, or adverse interpretations, could cause interest from a security to become taxable, subjecting shareholders to increased tax liability.

October 31, 2017

Virtus Cumberland Municipal Bond ETF (continued)

Non-Diversified: The Fund is non-diversified and may be more susceptible to factors negatively impacting its holdings to the extent that each security represents a larger portion of the Fund's assets.

No Guarantee: There is no guarantee that the Fund will meet its objective.

Prospectus: For additional information on risks, please see the Fund's prospectus. The Fund may not be suitable for all investors.

October 31, 2017

Virtus LifeSci Biotech Clinical Trials ETF

For the fiscal year ended October 31, 2017, the S&P 500® Index, Virtus LifeSci Biotech Clinical Trials ETF’s (“BBC” or the “Fund”) broad market benchmark index, was up 23.63% compared to a 55.26% total return for the LifeSci Biotechnology Clinical Trials Index, the index the Fund seeks to track. The biotechnology industry has benefited from strong drug discovery, compelling valuations after a poor performance last year and positive advancement in gene therapy over the fiscal year.

BBC NAV was up 53.66% for the fiscal year. There were no distributions made to shareholders.

The Fund performed well in a particularly strong market environment due to its significant exposure to biomedical technologies in the gene editing space. Another positive contribution to performance was exposure to therapeutics including drugs that target against tumor metabolism and immunity for treatment of cancer. Lastly our exposure to companies involved in immunology, as well as strong drug pipelines and promising clinical trials data, contributed to performance during the period.

As opposed to last year, the political climate in 2017, while volatile, did contribute to a more business friendly outlook for biotechnology companies.

Positions that contributed to significant positive performance during the fiscal year include MyoKardia, Inc., BeiGene Ltd., Dynavax Technologies Corp., and Sangamo Therapeutics, Inc. Positions that detracted from performance during the fiscal year include Versartis, Inc., Axovant Sciences Ltd., Advaxis, Inc., and Lexicon Pharmaceuticals, Inc.

On August 14, 2017, shareholders of the Fund approved an amended and restated investment advisory agreement with the Adviser. Effective upon shareholder approval of the amended and restated investment advisory agreement, the Adviser assumed responsibility for the day-to-day management of the Fund’s portfolio, and LifeSci Index Partners, LLC ceased serving as the Fund’s sub-adviser, but continues to serve as the index provider to the Fund’s underlying index.

Performance as of 10/31/2017

October 31, 2017

Virtus LifeSci Biotech Clinical Trials ETF (continued)

Biotechnology Sector Risk: The Fund's assets will be concentrated in investments in the securities of issuers engaged primarily in the biotechnology industry. Companies within the biotechnology sector spend heavily on research and development, which may not necessarily lead to commercially successful products in the near or long term. In order to fund operations, these companies may require financing from the capital markets, which may not always be available on satisfactory terms or at all. The biotechnology sector is also subject to significant governmental regulation, and the need for governmental approvals, including, without limitation, FDA approval. The securities of biotechnology companies, especially those of smaller or newer companies, tend to be more volatile than those of companies with larger capitalizations or markets generally.

Industry/Sector Concentration: A fund that focuses its investments in a particular industry or sector will be more sensitive to conditions that affect that industry or sector than a non-concentrated fund.

Market Price/NAV: Shares of ETFs often trade at a discount to their net asset value, which may increase investors' risk of loss. At the time of sale, an investor's shares may have a market price that is above or below the Fund's NAV.

Correlation to Index: The performance of the Fund and its index may vary somewhat due to factors such as Fund flows, transaction costs, and timing differences associated with additions to and deletions from its index.

Non-Diversified: The Fund is non-diversified and may be more susceptible to factors negatively impacting its holdings to the extent that each security represents a larger portion of the Fund's assets.

No Guarantee: There is no guarantee that the Fund will meet its objective.

Prospectus: For additional information on risks, please see the Fund's prospectus. The Fund may not be suitable for all investors

Management's Discussion of Fund Performance (unaudited) (continued)

October 31, 2017

Virtus LifeSci Biotech Products ETF

For the fiscal year ended October 31, 2017, the S&P 500® Index, Virtus LifeSci Biotech Products ETF's ("BBP" or the "Fund") broad market benchmark index, was up 23.63% compared to an increase of 37.58% for the LifeSci Biotechnology Products Index, the index the Fund seeks to track.

BBP NAV was up 36.08% for the fiscal year. There were no distributions made to shareholders.

The Fund enjoyed positive performance for the period overall, as perceptions regarding U.S. healthcare reform turned positive for the industry. Other factors contributing to strong performance include increased appetite for M&A activity within the sector, as well as partnership announcements and positive sales and profit momentum among portfolio companies. Factors that detracted from performance include competition from generic competitive products, decreased earnings, and doubts about market adoption of new products.

Positions that contributed to performance during the fiscal year include Clovis Oncology, Inc., Exelixis, Inc., Ionis Pharmaceuticals, Inc., Enanta Pharmaceuticals, Inc., and Halozyme Therapeutics, Inc. Positions that detracted from performance during the fiscal year include Intercept Pharmaceuticals, Inc., Synergy Pharmaceuticals, Inc., and Radius Health, Inc.

On August 14, 2017, shareholders of the Fund approved an amended and restated investment advisory agreement with the Adviser. Effective upon shareholder approval of the amended and restated investment advisory agreement, the Adviser assumed responsibility for the day-to-day management of the Fund's portfolio, and LifeSci Index Partners, LLC ceased serving as the Fund's sub-adviser, but continues to serve as the index provider to the Fund's underlying index.

October 31, 2017

Virtus Newfleet Multi-Sector Unconstrained Bond ETF

For the fiscal year ended October 31, 2017, the Virtus Newfleet Multi-Sector Unconstrained Bond ETF (“NFLT” or the “Fund”) had a total return of 5.26% versus a return of 0.90% for the Bloomberg Barclays U.S. Aggregate Bond Index, the Fund’s benchmark index.

Most spread sectors outperformed U.S. Treasuries during the fiscal year ended October 31, 2017.

The global growth outlook remained favorable and the search for yield persisted through the end of the fiscal year. Within most fixed income sectors, longer duration and lower quality assets were key drivers of performance.

The positive tone of the market that continued after the surprise outcome of the U.S. presidential election faced numerous challenges over the fiscal year.

Geopolitical tensions with North Korea, continued gridlock in Washington, moderate volatility in oil prices, and major weather events such as Hurricane Harvey caused periods of weakness within spread sectors.

However, these weak periods were short-lived as investors bought into any meaningful dip in prices, quickly pushing prices higher.

As anticipated, the Federal Reserve (the “Fed”) raised its target rate by 25 basis points on three separate occasions during the fiscal year to a range of 1.00% to 1.25%.

During the fiscal year, yields increased across the curve, but more so among shorter maturities, which caused the front end of the curve to steepen and the long end of the curve to flatten.

The underperformance of U.S. Treasuries relative to most fixed income spread sectors was the key driver of NFLT’s outperformance for the fiscal year.

Among fixed income sectors the Fund’s allocations to corporate high yield, and emerging markets high yield, and as well as issue selection within corporate high quality securities were the largest positive contributors to performance for the fiscal year.

During the fiscal year, NFLT’s allocation to agency mortgage-backed securities detracted from performance, however the Fund’s underweight versus the benchmark was beneficial. Also, issue selection within the bank loan allocation detracted from performance during the period as a handful of credit-specific events impacted performance.

Performance as of 10/31/2017

	Average Annual Total Return		
	Fund Net Asset Value	Fund Market Price	Bloomberg Barclays U.S. Aggregate Bond Index ¹

Investment return and principal value of an investment will fluctuate so that an investor’s shares, when sold or redeemed, may be worth more or less than the original cost. Current performance data may be higher or lower than actual data quoted. Returns do not reflect the deduction of taxes a shareholder would pay on Fund distributions or the redemption of Fund shares. For the most current month-end performance data please visit www.virtusetfs.com or call toll free (800) 243-4361. Market price returns are based on the mid-point of the highest bid and lowest offer for Fund shares as of the scheduled close of regular trading on the New York Stock Exchange Arca (“NYSE”), ordinarily 4:00 p.m. Eastern time, on each day during which the NYSE is open for trading, and do not represent the returns an investor would receive if shares were traded at other times.

Credit & Interest: Debt securities are subject to various risks, the most prominent of which are credit and interest rate risk. The issuer of a debt security may fail to make interest and/or principal payments. Values of debt securities may rise or fall in response to changes in interest rates, and this risk may be enhanced with longer-term maturities.

October 31, 2017

Virtus Newfleet Multi-Sector Unconstrained Bond ETF (continued)

High Yield-High Risk Fixed Income Securities: There is a greater level of credit risk and price volatility involved with high yield securities than investment grade securities.

Foreign & Emerging Markets: Investing internationally, especially in emerging markets, involves additional risks such as currency, political, accounting, economic, and market risk.

Bank Loans: Loans may be unsecured or not fully collateralized, may be subject to restrictions on resale and/or trade infrequently on the secondary market. Loans can carry significant credit and call risk, can be difficult to value and have longer settlement times than other investments, which can make loans relatively illiquid at times.

ABS/MBS: Changes in interest rates can cause both extension and prepayment risks for asset- and mortgage-backed securities. These securities are also subject to risks associated with the repayment of underlying collateral.

Market Price/NAV: Shares of ETFs often trade at a discount to their net asset value, which may increase investors' risk of loss. At the time of sale, an investor's shares may have a market price that is above or below the Fund's NAV.

Prospectus: For additional information on risks, please see the Fund's prospectus. The Fund may not be suitable for all investors.

Value of a \$10,000 Investment Since Inception at Net Asset Value

The chart above represents historical performance of a hypothetical investment of \$10,000 over the life of the Fund, assuming reinvestment of distributions. Past performance does not guarantee future results.

October 31, 2017

Virtus WMC Global Factor Opportunities ETF

Performance as of 10/31/2017

	Cumulative Total Return		
	Fund Net Asset Value	Fund Market Price	MSCI AC World Index (net) ¹
Since Inception ²	0.38%	0.84%	0.78%

1 The MSCI AC World Index (net) is a free float-adjusted market capitalization-weighted index that measures equity performance of developed and emerging markets. The index is calculated on a total return basis with net dividends reinvested. The index is unmanaged, its returns do not reflect any fees, expenses, or sales charges, and is not available for direct investment.

2 October 10, 2017.

Performance data quoted represents past performance and past performance does not guarantee future results. Investment return and principal value of an investment will fluctuate so that an investor’s shares, when sold or redeemed, may be worth more or less than the original cost. Current performance data may be higher or lower than actual data quoted. Returns do not reflect the deduction of taxes a shareholder would pay on Fund distributions or the redemption of Fund shares. For the most current month-end performance data please visit www.virtusetfs.com or call toll free (800) 243-4361. Market price returns are based on the mid-point of the highest bid and lowest offer for Fund shares as of the scheduled close of regular trading on the New York Stock Exchange Arca (“NYSE”), ordinarily 4:00 p.m. Eastern time, on each day during which the NYSE is open for trading, and do not represent the returns an investor would receive if shares were traded at other times.

Exchange Traded Funds: The value of an ETF may be more volatile than the underlying portfolio of securities the ETF is designed to track. The costs of owning the ETF may exceed the cost of investing directly in the underlying securities.

Market Price/NAV: Shares of ETFs often trade at a discount to their net asset value, which may increase investors’ risk of loss. At the time of sale, an investor’s shares may have a market price that is above or below the fund’s NAV.

Equity Securities: The market price of equity securities may be adversely affected by financial market, industry, or issuer-specific events. Focus on a particular style or on small or medium-sized companies may enhance that risk.

Foreign & Emerging Markets: Investing internationally, especially in emerging markets, involves additional risks such as currency, political, accounting, economic, and market risk.

Geographic Concentration: Events negatively affecting the fiscal stability of a state, country, or region will cause the value of the Fund’s shares to decrease. Because the Fund concentrates its assets in a state, country, or region, the Fund is more vulnerable to those areas’ financial, economic, or other political developments.

Equity REITs: The Fund may be negatively affected by factors specific to the real estate market, including interest rates, leverage, property, and management.

Derivatives: Investments in derivatives such as futures, options, forwards, and swaps may increase volatility or cause a loss greater than the principal investment.

Prospectus: For additional information on risks, please see the Fund’s prospectus.

For the fiscal period ended October 31, 2017, the Fund did not have six months of performance and therefore graph lines are not presented.

InfraCap MLP ETF

Management's Discussion of Operations

Overview

InfraCap MLP ETF ("the Fund") seeks to provide a high level of current income, a growing income stream, and long-term capital appreciation. The Fund is an actively-managed portfolio of high quality, midstream energy master limited partnerships (MLPs) and related general partners. The Fund also utilizes options strategies and modest leverage to enhance income and total return.

The Fund focuses on the midstream MLP sector because most of these companies have a long-term history of relatively stable and growing cash distributions. These companies are typically involved in the production, gathering, transportation, storage, and processing of oil, natural gas, natural gas liquids and refined products.

Update

During the fiscal year ended on October 31, 2017, the Fund had a net loss, but it outperformed its benchmark, the Alerian MLP Infrastructure Index. The total return for the fund was negative 3.44%, while the fund's benchmark reported a loss of 5.25%.

During the fiscal year, the net asset value ("NAV") of the Fund fell from \$10.63 to \$8.37. A portion of the decline in NAV is attributable to the distribution of some net capital in the dividend payout. A further discussion of this topic is included in the Dividend Payments section below.

While 2017 was a year of improving fundamentals in the energy sector, the stocks underperformed the broader market by a substantial margin. Signs of recovery were largely ignored by investors.

In the midstream MLP sector, corporate actions caused investor confusion about distribution growth rates, and stock valuations fell to deeply depressed levels. Renewed volatility in crude oil prices added to uncertainty. Facing a high cost of capital in public markets, companies re-evaluated capital spending priorities and distribution policies, leading in some cases to a reset of per share payment rates.

The Fund was relatively overweight Energy Transfer Partners during the year and that was a drag on performance.

The Fund's use of both leverage and options strategies worked to investors' benefit during the year. Leverage adds to volatility and adds to losses in a down year. However, the weak market condition was an ideal environment for generating option premium income, and this activity reduced the Fund's loss dramatically.

The Fund maintained its quarterly dividend rate of \$0.52 per share during the year, and the total payout to investors was \$2.08 per share. As noted, a portion of the payment was net capital.

Shares outstanding increased to 60,300,004 from 11,250,004.

Dividend Payments

The dividend rate is determined on a quarterly basis, and the rate may be adjusted during the year. An important consideration in determining the level of dividend payments is the estimated amount of distributable cash flow ("DCF"). DCF is investment income less expenses. Investment income includes cash distributions from master limited partnerships, dividends received from stocks, and net realized gains (losses) from written and purchased options contracts. Expenses include advisory fees, other miscellaneous fees and leverage costs.

The Supplemental Financial Data table includes the calculation of DCF and should be reviewed as part of this discussion. It should be noted that this calculation differs from the Statement of Operations because of the following factors: 1) GAAP does not include MLP distributions in investment income because these distributions are typically treated as return of capital; and 2) GAAP does not include net realized gains (losses) on written and purchased options contracts as investment income but reports them separately as realized and unrealized gains (losses).

The Supplemental Financial Data table also includes a calculation of the dividend coverage ratio. It indicates the portion of the dividend that was covered by cash income and option premium income. In 2015, the dividend was fully covered, but in 2016 and 2017, it was not fully covered. In those years, the Fund paid out a portion of net capital to cover the shortfall.

Rapid growth in the Fund's assets and shares outstanding had a negative impact on the Fund's ability to cover the dividend during this period. When shares are issued just prior to dividend payments, new investors get 100% of the dividend while the portfolio does not hold the related income-earning securities for 100% of the period leading up to the dividend declaration. In 2017, the Fund sought to anticipate this effect by more aggressively writing option premium under the assumption new shares would be issued. This activity only partially offset the impact of new share issuance, and the coverage ratio remained below 1:1.

October 31, 2017

InfraCap MLP ETF (continued)

The distribution of net capital to meet the targeted dividend rate has exacerbated the decline in the Fund net asset value related to the sector's poor stock performance. In an environment of positive stock returns, net asset value per share may be sustained despite the distribution of net capital.

Use of Leverage

The Fund's use of leverage is consistent with the limits set forth in the Investment Company Act of 1940 which states that the ratio of debt to net assets should not exceed 50%. The leverage ratio is impacted by increases and decreases in the market value of the Fund's investments, the use of debt to finance the purchase of new securities, and/or the sale of investments where proceeds are used to pay down debt.

The Fund's policy is to maintain the leverage ratio in a range of 10-35% over the long term. Additional leverage may be used when attractive investment opportunities arise but such leverage would be reduced over time. This leverage policy is consistent with the Fund's investment objective to provide investors with a high level of current income. Total leverage represented 20.9% of net assets at year-end which was in the middle of the long-term target range.

The cost of borrowing rose during the year, but cash income from midstream MLP securities still generates a substantial positive spread. The Fund borrows at a 120 basis point premium to the 3-month LIBOR rate. During the fiscal year, the benchmark rate rose 49 basis points.

Use of Options

The Fund writes call and put premium on securities and ETFs to generate additional income for distribution to investors. It may also do it for hedging purposes. The primary activity is writing "covered" calls on positions held by the Fund.

The Fund strategies for writing covered calls are designed to minimize the impact of having stock called away during periods of rising stock prices. A risk management model is maintained to monitor the Fund's positions relative to a designated target, and offsetting action is likely to occur in the event stock is called away. The use of leverage in a portfolio that writes covered calls helps minimize the risk of being left out of a market move higher.

Outlook

We are optimistic about the potential for attractive total returns in the midstream MLP sector in the coming years. The energy industry is one of boom and bust cycles, and it is currently in the trough of the latest.

Midstream companies typically weather these cycles well and emerge financially strong and growing. The most recent boom saw midstream companies lose some financial discipline, and balance sheets became too levered and distribution coverage ratios fell too low. These excesses are being corrected now, and a new base for distribution growth is being put in place.

The United States is emerging as the global leader in crude oil and natural gas production, and we expect the companies that serve that market to prosper. We look for solid growth in oil and gas production in the coming years.

We are encouraged by the valuation disparity between the private market for midstream assets and the valuations of companies in the public markets. Private buyers are willing to pay much higher prices for these assets than the prices these assets trade at on the stock exchanges. Public market discounts are often arbitrated away when private buyers begin to bid for public companies. We expect to see an increased level of M&A activity over the next couple years. This activity may be a catalyst for a general lift in the prices of midstream MLP stocks.

InfraCap MLP ETF (continued)

Performance as of 10/31/2017

	Average Annual Total Return			
	Fund Net Asset Value	Fund Market Price	Alerian MLP Infrastructure Index ¹	S&P 500® Index ²
1 Year.....	(3.44)%	(3.55)%	(5.25)%	23.63%
Since Inception ³	(17.08)%	(17.12)%	(12.90)%	11.81%

- 1 The Alerian MLP Infrastructure Index is a composite of energy infrastructure Master Limited Partnerships (MLPs), whose constituents earn the majority of their cash flow from the transportation, storage, and processing of energy commodities. The index is calculated using a float-adjusted, capitalization-weighted methodology on a total-return basis. The index is unmanaged, its returns do not reflect any fees, expenses, or sales charges, and is not available for direct investment.
- 2 The S&P 500® Index is a free-float market capitalization-weighted index of 500 of the largest U.S. companies. The index is calculated on a total return basis with dividends reinvested. The index is unmanaged, its returns do not reflect any fees, expenses, or sales charges, and is not available for direct investment.
- 3 October 1, 2014.

Performance data quoted represents past performance and past performance does not guarantee future results. Investment return and principal value of an investment will fluctuate so that an investor’s shares, when sold or redeemed, may be worth more or less than the original cost. Current performance data may be higher or lower than actual data quoted. Returns do not reflect the deduction of taxes a shareholder would pay on Fund distributions or the redemption of Fund shares. For the most current month-end performance data please visit www.virtusetfs.com or call toll free (800) 243-4361. Market price returns are based on the mid-point of the highest bid and lowest offer for Fund shares as of the scheduled close of regular trading on the New York Stock Exchange Arca (“NYSE”), ordinarily 4:00 p.m. Eastern time, on each day during which the NYSE is open for trading, and do not represent the returns an investor would receive if shares were traded at other times.

Interest Rate Risk: As yield-based investments, MLPs carry interest rate risk and may underperform in rising interest rate environments. Additionally, when investors have heightened fears about the economy, the risk spread between MLPs and competing investment options can widen, which may have an adverse effect on the stock price of MLPs. Rising interest rates may increase the potential cost of MLPs financing projects or cost of operations, and may affect the demand for MLP investments, either of which may result in lower performance by or distributions from the Fund’s MLP investments.

Exchange Traded Funds: The value of an ETF may be more volatile than the underlying portfolio of securities the ETF is designed to track. The costs of owning the ETF may exceed the cost of investing directly in the underlying securities.

Industry/Sector Concentration: A fund that focuses its investments in a particular industry or sector will be more sensitive to conditions that affect that industry or sector than a non-concentrated fund.

Short Sales: The Fund may engage in short sales, and may experience a loss if the price of a borrowed security increases before the date on which the Fund replaces the security.

Leverage: When a fund leverages its portfolio, the value of its shares may be more volatile and all other risks may be compounded.

Derivatives: Investments in derivatives such as futures, options, forwards, and swaps may increase volatility or cause a loss greater than the principal investment.

MLPs: Investments in Master Limited Partnerships may be adversely impacted by tax law changes, regulation, or factors affecting underlying assets.

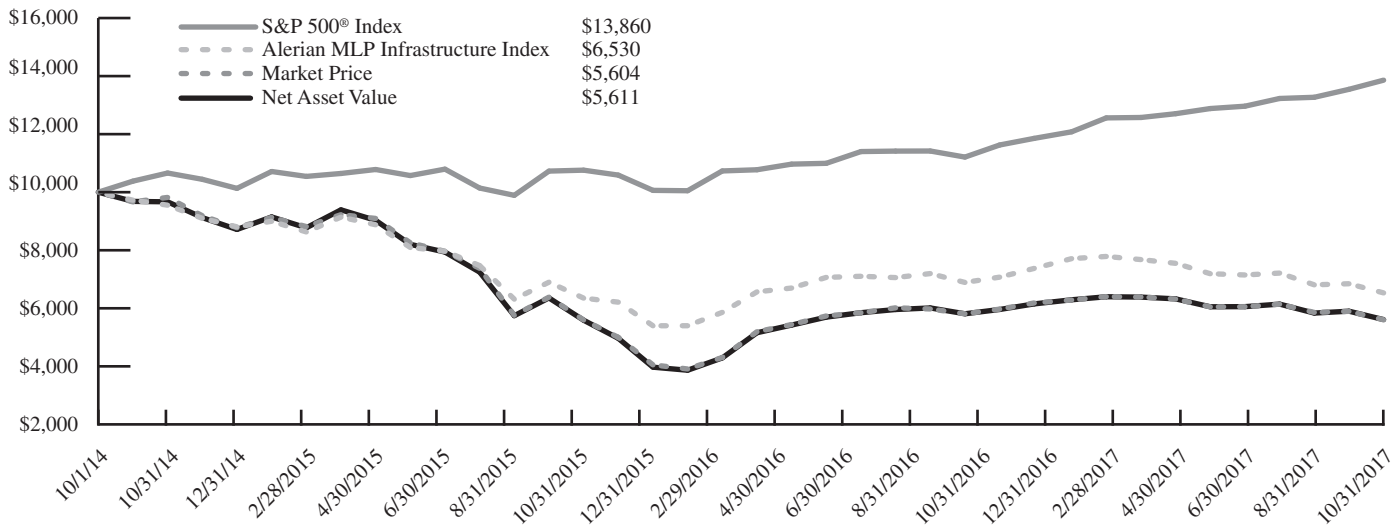

Market Price/NAV: Shares of ETFs often trade at a discount to their net asset value, which may increase investors’ risk of loss. At the time of sale, an investor’s shares may have a market price that is above or below the Fund’s NAV.

Prospectus: For additional information on risks, please see the Fund’s prospectus. The Fund may not be suitable for all investors.

Supplemental Financial Data

The information presented below regarding Distributable Cash Flow is supplemental non-GAAP financial information, which is meaningful to understanding the operating performance of the Fund. Distributable Cash Flow is the functional equivalent of EBITDA for non-investment companies. Management believes it is an important supplemental measure of performance. This information is supplemental, is not inclusive of required financial disclosures (such as Total Expense Ratio), and should be read in conjunction with our full financial statements.

Shareholder Expense Examples (unaudited)

As a shareholder of a Fund, you incur ongoing costs, including advisory fees and other fund expenses, if any. The following example is intended to help you understand your ongoing costs (in dollars and cents) of investing in a Fund and to compare these costs with the ongoing costs of investing in other funds. The examples are based on an investment of \$1,000 invested at the beginning of the period and held throughout the entire period (May 1, 2017 to October 31, 2017), except as noted in footnotes below.

Actual expenses

The first line under each Fund in the table below provides information about actual account values and actual expenses. You may use the information in this line, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the first line for your Fund under the heading entitled “Expenses Paid During Period” to estimate the expenses you paid on your account during this period.

Hypothetical example for comparison purposes

The second line under each Fund in the table provides information about hypothetical account values and hypothetical expenses based on each Fund’s actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not each Fund’s actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in each Fund and other funds. To do so, compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of the other funds. Please note that the expenses shown in the table are meant to highlight your ongoing costs only and do not reflect any transactional costs, such as brokerage commissions paid on purchases and sales of Fund shares. Therefore, the second line under each Fund in the table is useful in comparing ongoing Fund costs only and will not help you determine the relative total costs of owning different funds. In addition, if these transactional costs were included, your costs would have been higher.

The following table summarizes valuation of the Fund's investments under the fair value hierarchy levels as of October 31, 2017:

Asset Valuation Inputs	Level 1	Level 2	Level 3	Total
Investments				
Preferred Stocks	\$20,491,278	\$ —	\$ —	\$20,491,278
Money Market Fund	124,535	—	—	124,535
Total Investments	<u>\$20,615,813</u>	<u>\$ —</u>	<u>\$ —</u>	<u>\$20,615,813</u>

For significant movements between levels within the fair value hierarchy, the Fund adopted a policy of recognizing transfers at the end of the fiscal year. There were no significant transfers between levels during the year ended October 31, 2017.

A reconciliation of assets in which Level 3 inputs are used in determining fair value is presented when there are significant Level 3 investments at the end of the reporting period. There were no Level 3 securities as of October 31, 2017.

Schedule of Investments — Virtus Newfleet Multi-Sector Unconstrained Bond ETF (continued)

October 31, 2017

The following table summarizes valuation of the Fund's investments under the fair value hierarchy levels as of October 31, 2017:

	Level 1	Level 2	Level 3	Total
Asset Valuation Inputs				
Corporate Bonds	\$ —	\$ 66,435,758	\$ —	\$ 66,435,758
Foreign Bonds	—	44,277,084	—	44,277,084
Mortgage Backed Securities	—	22,198,525	—	22,198,525
Term Loans	—	19,452,197	—	19,452,197
Asset Backed Securities	—	9,404,045	—	9,404,045
U.S. Treasury Notes	—	2,540,886	—	2,540,886
Municipal Bond	—	1,691,491	—	1,691,491
Money Market Fund	3,209,693	—	—	3,209,693
Total	\$3,209,693	\$165,999,986	\$ —	\$169,209,679

For significant movements between levels within the fair value hierarchy, the Fund adopted a policy of recognizing transfers at the end of the fiscal year. The Fund transferred \$338,896 from Level 3 to Level 2 due to change in data availability used in investment valuation during year ended October 31, 2017.

A reconciliation of assets in which Level 3 inputs are used in determining fair value is presented when there are significant Level 3 investments at the end of the reporting period. There were no Level 3 securities as of October 31, 2017.

	Term Loans
Balance as of October 31, 2016	\$ 342,390

* Non-income producing security.

(1) American Depositary Receipts.

(2) Security was purchased pursuant to Rule 144A under the Securities Act of 1933 and may not be resold subject to that rule except to qualified institutional buyers. Unless otherwise noted, 144A securities are deemed to be liquid. At October 31, 2017, the aggregate value of these securities was \$15,734, or 0.31% of net assets.

(3) The rate shown reflects the seven-day yield as of October 31, 2017.

(4) Amount rounds to less than 0.05%.

The accompanying notes are an integral part of these financial statements.

Schedule of Investments — Virtus WMC Global Factor Opportunities ETF (continued)

October 31, 2017

The following table summarizes valuation of the Fund's investments under the fair value hierarchy levels as of October 31, 2017:

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Asset Valuation Inputs				
Common Stocks	\$4,914,455	\$ —	\$ —	\$4,914,455
Preferred Stocks	71,955	—	—	71,955
Money Market Fund	31,376	—	—	31,376
Total	<u>\$5,017,786</u>	<u>\$ —</u>	<u>\$ —</u>	<u>\$5,017,786</u>

For significant movements between levels within the fair value hierarchy, the Fund adopted a policy of recognizing transfers at the end of the fiscal period. There were no significant transfers between levels during the period ended October 31, 2017.

A reconciliation of assets in which Level 3 inputs are used in determining fair value is presented when there are significant Level 3 investments at the end of the period. There were no Level 3 securities as of October 31, 2017.

The accompanying notes are an integral part of these financial statements.

Notes to Financial Statements

October 31, 2017

1. ORGANIZATION

The ETFs Series Trust I (the “Trust”) was organized as a Delaware statutory trust on September 20, 2012 and is registered with the Securities and Exchange Commission (the “SEC”) as an open-end management investment company under the Investment Company Act of 1940, as amended (the “1940 Act”). InfraCap REIT Preferred ETF, iSectors® Post-MPT Growth ETF, Virtus Cumberland Municipal Bond ETF, Virtus LifeSci Biotech Clinical Trials ETF (formerly known as: BioShares Biotechnology Clinical Trials Fund), Virtus LifeSci Biotech Products ETF (formerly known as: BioShares Biotechnology Products Fund), Virtus Newfleet Multi-Sector Unconstrained Bond ETF, and Virtus WMC Global Factor Opportunities ETF (each, a “Fund”, and collectively, the “Funds”), each a separate investment portfolio of the Trust, are presented herein. iSectors® Post-MPT Growth ETF is a “fund of funds”, in that the Fund will generally invest in other registered investment companies. The offering of shares is registered under the Securities Act of 1933, as amended (the “Securities Act”).

Funds	Commencement of Operations
InfraCap REIT Preferred ETF	February 7, 2017
iSectors® Post-MPT Growth ETF	August 16, 2016
Virtus Cumberland Municipal Bond ETF	January 17, 2017
Virtus LifeSci Biotech Clinical Trials ETF	December 16, 2014
Virtus LifeSci Biotech Products ETF	December 16, 2014
Virtus Newfleet Multi-Sector Unconstrained Bond ETF	August 10, 2015
Virtus WMC Global Factor Opportunities ETF	October 10, 2017

InfraCap REIT Preferred ETF, Virtus Cumberland Municipal Bond ETF, Virtus LifeSci Biotech Clinical Trials ETF and Virtus LifeSci Biotech Products ETF are “non-diversified” Funds, as defined under the 1940 Act.

InfraCap REIT Preferred ETF seeks investment results that correspond, before fees and expenses, to the price and yield performance of the Indxx REIT Preferred Stock Index.

The iSectors® Post-MPT Growth ETF seeks growth of capital, with a secondary emphasis on capital preservation, independent of individual market conditions.

The Virtus Cumberland Municipal Bond ETF seeks to provide a competitive level of current income exempt from federal income tax, while preserving capital.

The Virtus LifeSci Biotech Clinical Trials ETF and Virtus LifeSci Biotech Products ETF seek investment results that correspond, before fees and expenses, to the price and yield performance of the LifeSci Biotechnology Clinical Trials Index and LifeSci Biotechnology Products Index, respectively.

The Virtus Newfleet Multi-Sector Unconstrained Bond ETF seeks to provide a high level of current income and, secondarily, capital appreciation.

The Virtus WMC Global Factor Opportunities ETF seeks capital appreciation.

2. SIGNIFICANT ACCOUNTING POLICIES

Each Fund is an investment company and accordingly follows the investment company accounting and reporting guidance of the Financial Accounting Standards Board (FASB) Accounting Standard Codification Topic 946 Financial Services — Investment Companies. Each Fund prepares its financial statements in accordance with generally accepted accounting principles (“GAAP”) in the United States of America and follows the significant accounting policies described below.

Use of Estimates

Management makes certain estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and reported amounts of increases and decreases in the net assets from operations during the reporting period. Actual results could differ from those estimates.

Indemnification

In the normal course of business, the Funds may enter into contracts that contain a variety of representations which provide general indemnifications for certain liabilities. The Funds’ maximum exposure under these arrangements is unknown. However, the Funds have not had prior claims or losses pursuant to these contracts and expect the risk of loss to be remote.

October 31, 2017

Organization and Offering Costs

During the fiscal year, Virtus ETF Advisers LLC, the Funds' investment adviser (the "Adviser"), has assumed organization costs for the Trust relating to the organization of the Virtus Cumberland Municipal Bond ETF. Offering costs, consisting primarily of legal fees related to preparing the initial registration statement, are deferred and are being amortized over a 12 month period beginning with the commencement of operations of the Fund.

Security Valuation

Equity securities and Exchange-Traded Funds are valued based on their last sale price. Price information on listed securities is taken from the exchange where the security is primarily traded. Securities regularly traded in an over the counter market are valued at the latest quoted sale price in such market or in the case of the New York Stock Exchange ("NYSE") or NASDAQ, at the NYSE or NASDAQ Official Closing Price. Such valuations are typically categorized as Level 1 in the fair value hierarchy described below.

If market quotations are not readily available, or if it is determined that a quotation of a security does not represent fair value, then the security is valued at fair value as determined in good faith using procedures adopted by the Trust's Board of Trustees (the "Board"). Such valuations are typically categorized as Level 2 or Level 3 in the fair value hierarchy described below.

Debt securities, including restricted securities, are valued based on evaluated quotations received from independent pricing services or from dealers who make markets in such securities. For most bond types, the pricing service utilizes matrix pricing that considers one or more of the following factors: yield or price of bonds of comparable quality, coupon, maturity, current cash flows, type, and current day trade information, as well as dealer-supplied prices. Such valuations are typically categorized as Level 2 in the fair value hierarchy described below. Debt securities that are not widely traded, are illiquid, or are internally fair valued using procedures adopted by the Board are generally categorized as Level 3 in the hierarchy.

Investments in other open-end investment companies are valued based on their net asset value each business day and are typically categorized as Level 1 in the fair value hierarchy described below.

Fair Value Measurement

Accounting Standards Codification, Fair Value Measurements and Disclosures ("ASC 820") defines fair value, establishes a framework for measuring fair value in accordance with GAAP, and requires disclosure about fair value measurements. It also provides guidance on determining when there has been a significant decrease in the volume and level of activity for an asset or liability, when a transaction is not orderly, and how that information must be incorporated into fair value measurement. Under ASC 820, various inputs are used in determining the value of the Funds' investments. These inputs are summarized in the following hierarchy:

- Level 1 — Unadjusted quoted prices in active markets for identical assets or liabilities that the Funds have the ability to access.
- Level 2 — Observable inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. These inputs may include quoted prices for the identical instrument on an inactive market, prices for similar securities, interest rates, prepayment speeds, credit risk, yield curves, default rates and similar data.
- Level 3 — Unobservable inputs for the asset or liability, to the extent relevant observable inputs are not available; representing the Funds' own assumptions about the assumptions a market participant would use in valuing the asset or liability, and would be based on the best information available.

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. The hierarchy classification of inputs used to value each Fund's investments at October 31, 2017, is disclosed at the end of each Fund's Schedule of Investments.

Security Transactions

Security transactions are accounted for on the trade date. Realized gains and losses on sales of investment securities are calculated using specific identification.

Foreign Taxes

Certain Funds may be subject to foreign taxes on income, gains on investments or currency repatriation, a portion of which may be recoverable. Each Fund will accrue such taxes and recoveries as applicable based upon current interpretations of the tax rules and regulations that exist in the markets in which it invests.

Investment Income and Expenses

Dividend income is recognized on the ex-dividend date. Expenses and interest income are recognized on the accrual basis. Amortization of premium and accretion of discount on debt securities are included in interest income. Each Fund amortizes premiums and accretes discounts using the effective interest method.

October 31, 2017

Each Fund pays all of its expenses not assumed by its Sub-Adviser, if any, as defined in Note 3, or the Adviser. General Trust expenses that are allocated among and charged to the assets of the Funds and other series of the Trust are done so on a basis that the Board deems fair and equitable, which may be on a basis of relative net assets of each Fund and other series of the Trust or the nature of the services performed and relative applicability to each Fund and other series of the Trust.

Distributions to Shareholders

Distributions are recorded by the Funds on the ex-dividend date. Income and capital gain distributions are determined in accordance with income tax regulations that may differ from GAAP in the United States of America.

Dividend income from REIT investments is recorded using management's estimate of the income included in distributions received from the REIT investments. Distributions received in excess of this estimated amount are recorded as a reduction of the cost of investments or reclassified to capital gains. The actual amounts of income, return of capital, and capital gains are only determined by each domestic REIT after its fiscal year-end, and may differ from the estimated amounts.

Foreign Currency Translation

Non-U.S. investment securities and other assets and liabilities denominated in foreign currencies are translated into U.S. dollar amounts at the foreign currency exchange rate effective at the end of the reporting period. Cost of investments is translated at the currency exchange rate effective at the trade date. The gain or loss resulting from a change in currency exchange rates between the trade and settlement date of a portfolio transaction is treated as a gain or loss on foreign currency. Likewise, the gain or loss resulting from a change in currency exchange rates between the date the income is accrued and the date it is paid is treated as a gain or loss on foreign currency. The Funds do not isolate that portion of the results of operations arising from changes in foreign exchange rates on investments from the fluctuations arising from changes in the market prices of securities held. Such fluctuations are included with the net realized and unrealized gain or loss on investments.

Loan Agreements

The Virtus Newfleet Multi-Sector Unconstrained Bond ETF may invest in direct debt instruments which are interests in amounts owed by a corporate, governmental, or other borrower to lenders or lending syndicates. Loan agreements are generally non-investment grade and often involve borrowers that are highly leveraged. The Fund may invest in obligations of borrowers who are in bankruptcy proceedings. Loan agreements are typically senior in the corporate capital structure of the borrower. A loan is often administered by a bank or other financial institution (the "lender") that acts as agent for all holders. The lender administers the terms of the loan, as specified in the loan agreement. The Fund's investments in loans may be in the form of participations in loans or assignments of all or a portion of loans from third parties. When investing in loan participations, the Fund has the right to receive payments of principal, interest and any fees to which it is entitled only from the lender selling the loan participation and only upon receipt by the lender of payments from the borrower. The Fund generally has no right to enforce compliance with the terms of the loan agreement with the borrower. As a result, the Fund may be subject to the credit risk of both the borrower and the lender that is selling the loan agreement. When the Fund purchases assignments from lenders, it acquires direct rights against the borrower on the loan.

The Fund may invest in multiple series or tranches of a loan, which may have varying terms and carry different associated risks. Loan agreements may involve foreign borrowers, and investments may be denominated in foreign currencies. Direct indebtedness of emerging countries involves a risk that the government entities responsible for the repayment of the debt may be unable, or unwilling, to pay the principal and interest when due.

The loan agreements have floating rate loan interests which generally pay interest at rates that are periodically determined by reference to a base lending rate plus a premium. The base lending rates are generally LIBOR (London Interbank Offered Rate), the prime rate offered by one or more U.S. banks or the certificate of deposit rate. When a loan agreement is purchased, the Fund may pay an assignment fee. On an ongoing basis, the Fund may receive a commitment fee based on the undrawn portion of the underlying line of credit portion of a loan agreement. Prepayment penalty fees are received upon the prepayment of a loan agreement by a borrower. Prepayment penalty, facility, commitment, consent and amendment fees are recorded to income as earned or paid.

Securities Lending

Certain Funds may loan securities to qualified brokers through an agreement with The Bank of New York Mellon ("BNY Mellon"), as a third party lending agent. Under the terms of the agreement, a Fund doing so is required to maintain collateral with a market value not less than 102% of the market value of loaned securities. Collateral is adjusted daily in connection with changes in the market value of securities on loan. Collateral may consist of cash and securities issued by the U.S. Government or its agencies. Cash collateral is invested in a short-term money market fund. Dividends earned on the collateral and premiums paid by the broker are recorded as income by a Fund net of fees and

Notes to Financial Statements (continued)

October 31, 2017

rebates charged by BNY Mellon for its services as securities lending agent and in connection with this securities lending program. Lending portfolio securities involves a risk of delay in the recovery of the loaned securities or in the declining value of the collateral.

At October 31, 2017, the following Funds had securities on loan:

Funds	Market Value	Cash Collateral ^(a)	Non Cash Collateral ^(a)	Net Amount
Virtus LifeSci Biotech Clinical Trials ETF	\$ 8,793,190	\$7,092,199	\$1,700,991	\$ —
Virtus LifeSci Biotech Products ETF	\$11,431,989	7,713,338	\$3,718,651	—

a Collateral received in excess of the market value of securities on loan is not presented in this table. The total cash collateral received by each Fund is disclosed in the Fund's statement of assets and liabilities.

Funds not listed in table above do not have any securities on loan at October 31, 2017.

The following table presents the contract value of securities lending transactions and the type of collateral provided to counterparties.

Remaining Contractual Maturity of the Agreements, as of October 31, 2017

3. INVESTMENT MANAGEMENT RELATED PARTIES AND OTHER AGREEMENTS

Investment Advisory Agreements

The Trust has entered into Investment Advisory Agreements (collectively, "Advisory Agreement") with the Adviser, a wholly owned subsidiary of ETFis Holdings LLC, on behalf of each Fund. ETFis Holdings LLC is majority-owned by Virtus Investment Partners, Inc. (Ticker: VRTS) (together with its affiliates, "Virtus"). Pursuant to the Advisory Agreement, the Adviser has overall supervisory responsibility for the general management and investment of the Funds' securities portfolios. The Adviser pays all of the ordinary operating expenses of the Virtus LifeSci Biotech Clinical Trials ETF, Virtus LifeSci Biotech Products ETF and Virtus WMC Global Factor Opportunities ETF, except for each Fund's management fee; payments under any 12b-1 plan; taxes and other governmental fees; brokerage fees, commissions and other transaction expenses; interest and other costs of borrowing; litigation or arbitration expenses; acquired fund fees and expenses; and extraordinary or other non-routine expenses of the Funds. The Adviser is entitled to receive a fee from each Fund (unless otherwise noted below) based on each Fund's average daily net assets, computed and accrued daily and payable monthly, at an annual rate as follows:

Funds	Rate
InfraCap REIT Preferred ETF	0.45%, subject to a minimum annual fee of \$25,000 per year.
iSectors® Post-MPT Growth ETF	0.125%, subject to a minimum annual fee of \$25,000 per year.
Virtus Cumberland Municipal Bond ETF	0.245%
Virtus LifeSci Biotech Clinical Trials ETF	0.79%*
Virtus LifeSci Biotech Products ETF	0.79%*
Virtus Newfleet Multi-Sector Unconstrained Bond ETF ...	0.70%
Virtus WMC Global Factor Opportunities ETF	0.49%

* Prior to August 14, 2017, Virtus LifeSci Biotech Clinical Trials ETF and VirtusLifeSci Biotech Products ETF's sub-advisory fees were 0.85%. Effective August 14, 2017, the advisory fees were changed to 0.79%.

The Advisory Agreement may be terminated by the Trust on behalf of a Fund with the approval of a Fund's Board or by a vote of the majority of a Fund's shareholders. The Advisory Agreement may also be terminated by the Adviser by not more than 60 days' nor less than 30 days' written notice.

Notes to Financial Statements (continued)

October 31, 2017

Expense Limitation Agreement

The Adviser and, with respect to iSectors® Post-MPT Growth ETF, the Sub-Adviser, has contractually agreed to reduce its fees and reimburse expenses in order to keep net expenses (excluding interest, taxes, brokerage fees and commissions, other expenditures that are capitalized in accordance with generally accepted accounting principles, acquired fund fees and expenses, other extraordinary expenses not incurred in the ordinary course of the Funds' business, and amounts, if any, payable pursuant to a plan adopted in accordance with Rule 12b-1 under the 1940 Act) from exceeding a specified amount. The expense cap in effect for the Funds during the period ended October 31, 2017 are as follows:

<u>Funds</u>	<u>Expense Limit</u>	<u>Expense Limit Effective Through</u>
iSectors® Post-MPT Growth ETF	0.75%*	February 28, 2019
Virtus Cumberland Municipal Bond ETF	0.59%	February 28, 2018
Virtus Newfleet Multi-Sector Unconstrained Bond ETF	0.80%	March 1, 2018

* Effective March 1, 2017. Prior to March 1, 2017, iSectors® Post-MPT Growth ETF did not have an expense limitation agreement.

Funds not listed in the table above do not have an expense limitation agreement.

The expense limitation agreement with respect to a Fund will be terminated upon termination of the Advisory Agreement between the Adviser and the Fund, or, with respect to iSectors® Post-MPT Growth ETF, the Sub-Advisory Agreement between the Sub-Adviser and the Fund. Under certain conditions, the Adviser may recapture operating expenses reimbursed within three years after the date on which such waiver or reimbursement occurred. The Fund must pay its ordinary operating expenses before the Adviser is entitled to any reimbursement and must remain in compliance with any applicable expense limitation, or if none, the expense limitation in effect at the time of the waiver or reimbursement. All or a portion of the following Adviser reimbursed expenses may be recaptured by the fiscal year ending:

<u>Funds</u>	<u>2018</u>	<u>2019</u>	<u>2020</u>
Virtus Cumberland Municipal Bond ETF	\$ —	\$ —	\$88,591
Virtus Newfleet Multi-Sector Unconstrained Bond ETF	\$57,777	\$183,990	\$83,625

The Sub-Adviser to iSectors® Post-MPT Growth ETF is not entitled to any reimbursement for the operating expense that exceeded the expense limitation.

Sub-Advisory Agreement

Each Sub-Adviser provides investment advice and management services to its respective Fund. Pursuant to an investment sub-advisory agreement among the Trust, the Sub-Adviser and the Adviser, the sub-advisory fee is based on a Fund's average daily net assets as specified below. The Adviser has delegated to the InfraCap REIT Preferred ETF's sub-adviser the obligation to pay all of the ordinary operating expenses of the Fund, except for the management fee paid to the Adviser; payments under any 12b-1 plan adopted by the Fund; taxes and other governmental fees; brokerage fees, commissions and other transaction expenses; interest and other costs of borrowing; litigation or arbitration expenses; acquired fund fees and expenses; and extraordinary or other non-routine expenses of the Fund. The iSectors® Post-MPT Growth ETF's sub-adviser pays all routine expenses of the Fund, except for the management fees paid to the Adviser and sub-adviser; payments under a 12b-1 plan (if any); brokerage expenses; taxes; interest; litigation expenses; acquired fund fees and expenses; and extraordinary expenses of the Fund. The Sub-Advisers and sub-advisory fees for each Fund are listed below.

<u>Funds</u>	<u>Sub-Advisers</u>	<u>Sub-Advisory Fees</u>
InfraCap REIT Preferred ETF	Infrastructure Capital Advisors, LLC	0.375%*
iSectors® Post-MPT Growth ETF	iSectors®, LLC	0.825%
Virtus Cumberland Municipal Bond ETF	Cumberland Advisors Inc.	0.245%
Virtus LifeSci Biotech Clinical Trials ETF	LifeSci Index Partners, LLC	0.85%**
Virtus LifeSci Biotech Products ETF	LifeSci Index Partners, LLC	0.85%**
Virtus Newfleet Multi-Sector Unconstrained Bond ETF	Newfleet Asset Management, LLC ¹	50% of the Net Advisory Fee**+
Virtus WMC Global Factor Opportunities ETF ..	Wellington Management Company LLP	0.21%*

⁽¹⁾ An indirect wholly-owned subsidiary of Virtus.

* InfraCap REIT Preferred ETF, Virtus Newfleet Multi-Sector Unconstrained Bond ETF, and Virtus WMC Global Factor Opportunities ETF's sub-advisory fees are paid for by the Adviser, not the Funds.

** Prior to August 14, 2017, Virtus LifeSci Biotech Clinical Trials ETF and Virtus LifeSci Biotech Products ETF's sub-advisory fees were 0.85%. Effective August 14, 2017, the advisory fees were changed to 0.79%.

+ Net Advisory Fee: In the event the Adviser waives its entire fee and also assumes expenses of the Trust pursuant to an applicable expense limitation agreement, the Sub-Adviser will similarly waive its entire fee and will share in the expense assumption by promptly paying to the Adviser (or its designee) 50% of the assumed amount. If during the term of the Sub-Advisory Agreement the Adviser later recaptures some or all of fees waived or expenses reimbursed by the Adviser and the Sub-Adviser together, then the Adviser will pay to the Sub-Adviser 50% of the amount recaptured.

October 31, 2017

Principal Underwriter

Pursuant to the terms of a Distribution Agreement with the Trust, ETF Distributors LLC (the “Distributor”) serves as the Funds’ principal underwriter. The Distributor receives compensation for the statutory underwriting services it provides to the Funds. The Distributor will not distribute shares in less than Creation Units (as hereinafter defined), and does not maintain a secondary market in shares. The shares are traded in the secondary market. The Distributor is a wholly-owned subsidiary of Virtus.

Distribution and Service (12b-1 Plan)

The Board of Trustees has adopted a distribution and service plan, under which InfraCap REIT Preferred ETF, Virtus LifeSci Biotech Clinical Trials ETF, Virtus LifeSci Biotech Products ETF and Virtus WMC Global Factor Opportunities ETF (collectively, the “12b-1 Funds”) are authorized to pay an amount up to 0.25% of their average daily net assets each year to finance activities primarily intended to result in the sale of Creation Units of the 12b-1 Funds or the provision of investor services. No 12b-1 fees are currently paid by the 12b-1 Funds and there are no current plans to impose these fees.

Operational Administrator

Virtus ETF Solutions LLC (the “Administrator”) serves as the Funds’ operational administrator. The Administrator supervises the overall administration of the Trust and the Funds including, among other responsibilities, the coordination and day-to-day oversight of the Funds’ operations, the service providers’ communications with the Funds and each other and assistance with Trust, Board and contractual matters related to the Funds and other series of the Trust. The Administrator also provides persons satisfactory to the Board to serve as officers of the Trust. The Administrator is a wholly-owned subsidiary of Virtus.

Accounting Services Administrator, Custodian and Transfer Agent

The Bank of New York Mellon (“BNY Mellon”) provides administrative, accounting, tax and financial reporting for the maintenance and operations of the Trust as the Funds’ accounting services administrator. BNY Mellon also serves as the custodian for the Funds’ assets, and serves as transfer agent and dividend paying agent for the Funds.

Affiliated Shareholders

At October 31, 2017, the Sub-Adviser held 352,143 shares of InfraCap REIT Preferred ETF, which represent 43.6% of shares outstanding. These shares may be sold at any time.

4. CREATION AND REDEMPTION TRANSACTIONS

The Funds issue and redeem shares on a continuous basis at Net Asset Value (“NAV”) in groups of 50,000 shares called “Creation Units.” The Funds’ Creation Units may be issued and redeemed generally for cash or an in-kind deposit of securities held by the Funds. In each instance of cash creations or redemptions, the Trust may impose transaction fees based on transaction expenses related to the particular exchange that will be higher than the transaction fees associated with in-kind purchases or redemptions.

Only “Authorized Participants” who have entered into contractual arrangements with the Distributor may purchase or redeem shares directly from the Funds. An Authorized Participant is either (i) a broker-dealer or other participant in the clearing process through the Continuous Net Settlement System of the National Securities Clearing Corporation or (ii) a DTC participant and, in each case, must have executed a Participant Agreement with the Distributor. Most retail investors will not qualify as Authorized Participants or have the resources to buy and sell whole Creation Units. Therefore, they will be unable to purchase or redeem the shares directly from the Funds. Rather, most retail investors will purchase shares in the secondary market with the assistance of a broker and will be subject to customary brokerage commissions or fees.

5. FEDERAL INCOME TAX

Each Fund intends to qualify as a “regulated investment company” under Sub-chapter M of the Internal Revenue Code of 1986 (the “Code”), as amended. Each Fund intends to distribute substantially all of its net investment income and net capital gains to shareholders. Therefore, no federal income or excise tax provision is required. *Accounting for Uncertainty in Income Taxes* as issued by the Financial Accounting Standards Board provides guidance for how uncertain tax positions should be recognized, measured, presented and disclosed in the financial statements, and requires the evaluation of tax positions taken or expected to be taken in the course of preparing a Fund’s tax returns to determine whether the tax positions are “more-likely-than-not” of being sustained by the applicable tax authority. Tax positions not deemed to meet the more-likely-than-not threshold would be recorded as a tax benefit or expense in the current year. Interest and penalties related to income taxes would be recorded as income tax expense. Management of the Funds is required to analyze all open tax years (2015 and 2016), as defined by IRS statute of limitations, for all major jurisdictions, including federal tax authorities

Notes to Financial Statements (continued)

October 31, 2017

and certain state tax authorities. As of October 31, 2017, the Funds did not have a liability for any unrecognized tax benefits. The Funds have no examination in progress and are not aware of any tax positions for which it is reasonably possible that the amounts of unrecognized tax benefits will significantly change in the next twelve months.

The Funds recognize interest accrued related to unrecognized tax benefits and penalties as income tax expense. For the period ended October 31, 2017, the Funds had no accrued penalties or interest.

The adjusted cost basis of investments and gross unrealized appreciation and depreciation of investments for federal income tax purposes were as follows:

<u>Funds</u>	<u>Federal Tax Cost Of Investments</u>	<u>Gross Unrealized Appreciation</u>	<u>Gross Unrealized Depreciation</u>	<u>Net Unrealized Appreciation (Depreciation)</u>
InfraCap REIT Preferred ETF	\$ 20,564,203	\$ 195,181	\$ (143,571)	\$ 51,610
iSectors® Post-MPT Growth ETF	12,645,443	913,043	(34,614)	878,429
Virtus Cumberland Municipal Bond ETF	16,191,708	342,504	(11,430)	331,074
Virtus LifeSci Biotech Clinical Trials ETF	35,746,538	5,960,775	(4,277,954)	1,682,821
Virtus LifeSci Biotech Products ETF	42,308,362	5,370,481	(2,788,514)	2,581,967
Virtus Newfleet Multi-Sector Unconstrained Bond ETF	165,877,662	4,983,736	(1,651,719)	3,332,017
Virtus WMC Global Factor Opportunities ETF	5,001,403	99,612	(83,229)	16,383

The differences between book basis and tax basis components of net assets are primarily attributable to tax deferral of losses on wash sales and undistributed short-term capital gains treated as ordinary income for tax purposes. At October 31, 2017, the components of accumulated earnings/loss on a tax-basis were as follows:

<u>Funds</u>	<u>Undistributed Ordinary Income</u>	<u>Accumulated Capital and Other Gain (Loss)</u>	<u>Net Unrealized Appreciation (Depreciation)</u>	<u>Total Accumulated Earnings (Loss)</u>
InfraCap REIT Preferred ETF	\$ —	\$ —	\$ 51,610	\$ 51,610
iSectors® Post-MPT Growth ETF	84,842	(26,362)	878,429	936,909
Virtus Cumberland Municipal Bond ETF	282,814	—	331,074	613,888
Virtus LifeSci Biotech Clinical Trials ETF	231,948	(13,484,055)	1,682,821	(11,569,286)
Virtus LifeSci Biotech Products ETF	—	(3,524,930)	2,581,967	(942,963)
Virtus Newfleet Multi-Sector Unconstrained Bond ETF	1,278,681	1,863,781	3,330,060	6,472,522
Virtus WMC Global Factor Opportunities ETF	4,387	(1,742)	16,389	19,034

Late year ordinary losses incurred after December 31 within the taxable year are deemed to arise on the first business day of each Fund's next taxable year. As of October 31, 2017, the Funds have not elected to defer any late ordinary losses.

The tax character of distributions paid by the following Funds during the periods ended October 31, 2017 and October 31, 2016 were as follows:

	2017			2016	
	<u>Distributions Paid From Ordinary Income</u>	<u>Tax Exempt Income</u>	<u>Distributions Paid From Long-Term Capital Gains</u>	<u>Distributions Paid From Ordinary Income</u>	<u>Distributions Paid From Long-Term Capital Gains</u>
InfraCap REIT Preferred ETF.....	\$ 518,041	\$ —	\$ 36,296	\$ —	\$ —
iSectors® Post-MPT Growth ETF.....	60,825	—	—	—	—
Virtus Cumberland Municipal Bond ETF	—	318,806	—	—	—
Virtus LifeSci Biotech Clinical Trials ETF.....	—	—	—	125,231	—

Virtus Newfleet Multi-Sector Unconstrained Bond ETF	10,383,963	—	186,124	6,228,079	—

Notes to Financial Statements (continued)

October 31, 2017

At October 31, 2017, for Federal income tax purposes, the following Funds have capital loss carryforwards available to offset future capital gains for an unlimited period. To the extent that these loss carryforwards are utilized, capital gains so offset will not be distributed to shareholders:

<u>Funds</u>	<u>Short-Term No Expiration</u>	<u>Long-Term No Expiration</u>	<u>Total</u>
iSectors® Post-MPT Growth ETF	\$ 26,362	\$ —	\$ 26,362
Virtus LifeSci Biotech Clinical Trials ETF	7,317,392	6,166,663	13,484,055
Virtus LifeSci Biotech Products ETF	2,541,776	983,154	3,524,930
Virtus WMC Global Factor Opportunities ETF	1,742	—	1,742

For financial reporting purposes, capital accounts are adjusted to reflect the tax character of permanent book/tax differences. Results of operations and net assets were not affected by these reclassifications. Reclassifications are primarily due to tax treatment of redemptions in kind. At October 31, 2017, the effect of permanent book/tax reclassifications resulted in increases (decreases) to the components of net assets of the following Funds as follows:

<u>Funds</u>	<u>Undistributed Net Investment Income</u>	<u>Undistributed Net Realized Gain on Investments</u>	<u>Paid-In-Capital</u>
InfraCap REIT Preferred ETF	\$(43,970)	\$ (37,505)	\$ (6,465)

Virtus LifeSci Biotech Clinical Trials ETF	10,475,355	10,859,679	14,893,105	11,330,253
Virtus LifeSci Biotech Products ETF	12,189,999	12,300,124	15,737,067	9,727,758
Virtus Newfleet Multi-Sector Unconstrained Bond ETF	201,963,484	204,428,187	—	—
Virtus WMC Global Factor Opportunities ETF	1,103,160	567,984	4,434,075	—

7. INVESTMENT RISKS

As with any investment, an investment in the Funds could result in a loss or the performance of the Funds could be inferior to that of other investments. An investor should consider each Fund's investment objectives, risks, and charges and expenses carefully before investing. Each Fund's prospectus and statement of additional information contain this and other important information.

8. CREDIT RISK

Junk Bonds or High Yield Securities: High yield securities are generally subject to greater levels of credit quality risk than investment grade securities. The retail secondary market for these "junk bonds" may be less liquid than that of higher-rated fixed income securities, and adverse conditions could make it difficult at times to sell these securities or could result in lower prices than higher-rated fixed income securities. These risks can reduce the value of the Fund's shares and the income it earns.

9. CASH CONCENTRATION RISK

At various times, the Funds may have cash and cash collateral balances that exceed federally insured limits.

Notes to Financial Statements (continued)

October 31, 2017

10. ASSET CONCENTRATION RISK

Certain Funds may invest a high percentage of their assets in specific investments, including other funds. Fluctuations in these investments may have a greater impact on a Fund, positive or negative, than if a Fund did not concentrate its investments in such investments.

At October 31, 2017, the following Fund held a security with a significant concentration in the portfolio as detailed below:

<u>Funds</u>	<u>Security</u>	<u>Percentage of Net Assets</u>
iSectors® Post-MPT Growth ETF	Fidelity MSCI Information Technology Index ETF	27.6%

The Fidelity MSCI Information Technology Index ETF is registered under the 1940 Act as open-ended management investment companies. The financial statements of Fidelity MSCI Information Technology Index ETF can be found at the Fidelity website or the Securities and Exchange Commission’s website (www.sec.gov) and should be read in conjunction with the iSectors® Post-MPT Growth ETF’s financial statements.

11. 10% SHAREHOLDERS

As of October 31, 2017, certain Funds had individual shareholder account(s) and/or omnibus shareholder account(s) (comprised of a group of individual shareholders), which individually amounted to more than 10% of the total shares outstanding of each such Fund as detailed below:

<u>Funds</u>	<u>% of Shares Outstanding</u>	<u>Number of Accounts</u>
InfraCap REIT Preferred ETF	56%	2
iSectors® Post-MPT Growth ETF	63%	2
Virtus Cumberland Municipal Bond ETF	85%	1
Virtus LifeSci Biotech Clinical Trials ETF	45%	2
Virtus LifeSci Biotech Products ETF	52%	3
Virtus Newfleet Multi-Sector Unconstrained Bond ETF	85%	1
Virtus WMC Global Factor Opportunities ETF	100%	2

12. CHANGE IN INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

On August 9, 2017, BBD, LLP (“BBD”) resigned as the independent registered public accounting firm for ETFis Series Trust I (the “Trust”). At a meeting held on August 9, 2017, the Board, upon recommendation of the Audit Committee, approved the replacement of BBD as the independent registered public accounting firm for the Trust and appointed PricewaterhouseCoopers LLP (“PwC”) as the Trust’s independent registered public accounting firm. PwC’s engagement is effective at the completion of BBD’s audit of the financial statements of the series of the Trust with the fiscal year ending July 31, 2017, which was completed in September 2017. The Trust did not consult with PwC during the fiscal periods ended October 31, 2016 and 2015 and through the August 9, 2017 Board meeting.

BBD’s reports on the financial statements of the Trust as of and for the fiscal periods ended October 31, 2016 and 2015 contained no adverse opinion or disclaimer of opinion and were not qualified or modified as to uncertainty, audit scope or accounting principles. During such fiscal periods and through the August 9, 2017 Board meeting, there were no: (1) disagreements between the Trust and BBD on any matter of accounting principles or practices, financial statement disclosure, or auditing scope or procedure which, if not resolved to BBD’s satisfaction, would have caused them to make reference to the subject matter of the disagreement in connection with their reports, or (2) reportable events.

13. SUBSEQUENT EVENTS

The Funds are required to recognize in the financial statements the effects of all subsequent events that provide additional evidence about conditions that existed as of the date of the Statements of Assets and Liabilities. For non-recognized subsequent events that must be disclosed to keep the financial statements from being misleading, the Funds are required to disclose the nature of the event as well as an estimate of its financial effect, or a statement that such an estimate cannot be made. Management has evaluated subsequent events through the issuance of these financial statements and has determined that there are no material events that would require disclosure.

Schedule of Investments — InfraCap MLP ETF (continued)

October 31, 2017

The following table summarizes valuation of the Fund's investments under the fair value hierarchy levels as of October 31, 2017:

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Asset Valuation Inputs				
Common Stocks	\$637,529,656	\$ —	\$ —	\$637,529,656
Exchange Traded Fund	734,314	—	—	734,314
Purchased Options	318,970	161,904	—	480,874
Total	<u>\$638,582,940</u>	<u>\$ 161,904</u>	<u>\$ —</u>	<u>\$638,744,844</u>
Liability Valuation Inputs				
Exchange Traded Funds	\$ (50,361,578)	\$ —	\$ —	\$ (50,361,578)
Exchange Traded Note	(7,130,310)	—	—	(7,130,310)
Written Options	(7,241,445)	(1,782,924)	—	(9,024,369)
Total	<u>\$ 64,733,333</u>	<u>\$ 1,782,924</u>	<u>\$ —</u>	<u>\$ 66,516,257</u>

For significant movements between levels within the fair value hierarchy, the Fund adopted a policy of recognizing transfers at the end of the fiscal year. There were no significant transfers between levels during the year ended October 31, 2017.

A reconciliation of assets in which Level 3 inputs are used in determining fair value is presented when there are significant Level 3 investments at the end of the reporting period. There were no Level 3 securities as of October 31, 2017.

The accompanying notes are an integral part of these financial statements.

Expenses, excluding deferred income tax expense/benefit	1.89% ⁸	1.58% ⁵	1.16% ⁶	0.95% ⁷
Net investment loss	(1.73)%	(0.70)%	(0.36)%	(0.35)% ⁷
Portfolio turnover rate ⁹	104%	90%	60%	0% ^{10,11}

(1) Commencement of operations.

(2) Based on average shares outstanding.

(3) The per share amount of realized and unrealized loss on investments does not accord with the amounts reported in the Statements of Operations due to the timing of creation of fund shares in relation to fluctuating market values.

(4) Net Asset Value Total Return is calculated assuming an initial investment made at the net asset value on the first day of the period, reinvestment of dividends and distributions at net asset value during the period, and redemption at net asset value on the last day of the period. Total return calculated for a period of less than one year is not annualized.

(5) The ratios of expenses to average net assets include interest expense fees of 0.63%.

(6) The ratios of expenses to average net assets include interest expense fees of 0.21%.

(7) Annualized.

(8) The ratios of expenses to average net assets include interest expense fees of 0.94%.

(9) Portfolio turnover excludes the value of portfolio securities received or delivered as a result of in-kind creations or redemptions of the Fund's capital shares.

(10) Not annualized.

(11) Amount rounds to less than 1%.

The accompanying notes are an integral part of these financial statements.

Notes to Financial Statements

October 31, 2017

1. ORGANIZATION

The ETFis Series Trust I (the “Trust”) was organized as a Delaware statutory trust on September 20, 2012 and is registered with the Securities and Exchange Commission (the “SEC”) as an open-end management investment company under the Investment Company Act of 1940, as amended (the “1940 Act”). The shares of the InfraCap MLPETF, a separate investment portfolio of the Trust, are presented and referred to herein as “Fund Shares” or “Shares”. The offering of Shares is registered under the Securities Act of 1933, as amended (the “Securities Act”).

<u>Fund</u>	<u>Commencement of Operations</u>
InfraCap MLP ETF	October 1, 2014

The Fund’s investment objective is to seek total return primarily through investments in equity securities of publicly traded master limited partnerships and limited liability companies taxed as partnerships (“MLPs”).

2. SIGNIFICANT ACCOUNTING POLICIES

The Fund is an investment company and accordingly follows the investment company accounting and reporting guidance of the Financial Accounting Standards Board (FASB) Accounting Standard Codification Topic 946 Financial Services — Investment Companies. The Fund prepares its financial statements in accordance with generally accepted accounting principles (“GAAP”) in the United States of America and follows the significant accounting policies described below.

Use of Estimates

Management makes certain estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and reported amounts of increases and decreases in the net assets from operations during the reporting period. Actual results could differ from those estimates.

Indemnification

In the normal course of business, the Fund may enter into contracts that contain a variety of representations which provide general indemnifications for certain liabilities. The Fund’s maximum exposure under these arrangements is unknown. However, the Fund has not had prior claims or losses pursuant to these contracts and expects the risk of loss to be remote.

Security Valuation

Equity securities and Exchange-Traded Funds are valued based on their last sale price. Price information on listed securities is taken from the exchange where the security is primarily traded. Securities regularly traded in an over the counter market are valued at the latest quoted sale price in such market or in the case of the New York Stock Exchange (“NYSE”) or NASDAQ, at the NYSE or NASDAQ Official Closing Price. If market quotations are not readily available, or if it is determined that a quotation of a security does not represent fair value, then the security is valued at fair value as determined in good faith using procedures adopted by the Trust’s Board of Trustees (the “Board”).

Purchased and written options contracts listed on exchanges are valued at their reported mean of bid and ask quotations; over-the-counter derivative contracts are fair valued using price evaluations provided by a pricing service approved by the Board.

Fair Value Measurement

Accounting Standards Codification, Fair Value Measurements and Disclosures (“ASC 820”) defines fair value, establishes a framework for measuring fair value in accordance with GAAP, and requires disclosure about fair value measurements. It also provides guidance on determining when there has been a significant decrease in the volume and level of activity for an asset or liability, when a transaction is not orderly, and how that information must be incorporated into fair value measurement. Under ASC 820, various inputs are used in determining the value of the Fund’s investments. These inputs are summarized in the following hierarchy:

- Level 1 — Unadjusted quoted prices in active markets for identical assets or liabilities that the Fund has the ability to access.
- Level 2 — Observable inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. These inputs may include quoted prices for the identical instrument on an inactive market, prices for similar securities, interest rates, prepayment speeds, credit risk, yield curves, default rates and similar data.
- Level 3 — Unobservable inputs for the asset or liability, to the extent relevant observable inputs are not available; representing the Fund’s own assumptions about the assumptions a market participant would use in valuing the asset or liability, and would be based on the best information available.

October 31, 2017

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. The hierarchy classification of inputs used to value the Fund's investments at October 31, 2017, is disclosed at the end of the Fund's Schedule of Investments.

Security Transactions

Security transactions are accounted for on the trade date. Realized gains and losses on sales of investment securities are calculated using specific identification.

Investment Income and Return of Capital Estimates

The Fund invests in master limited partnerships ("MLPs") which make distributions that are primarily attributable to return of capital. The Fund records investment income and return of capital in the Statement of Operations using management's estimate of the percentage of income included in the distributions received from each MLP based on historical information from the MLPs and other industry sources. These estimates may be adjusted based on information received from the MLPs after the tax and fiscal year ends.

The return of capital portion of the MLP distributions is a reduction to investment income and a reduction in the cost basis of each investment which increases net realized gain (loss) and net change in unrealized appreciation (depreciation). If the return of capital distributions exceed its cost basis, the distributions are treated as realized gains. The actual amounts of income and return of capital are only determined by each MLP after its fiscal year-end and may differ from the estimated amounts.

Investment Income and Expenses

Dividend income is recognized on the ex-dividend date. Expenses are recognized on the accrual basis. The Fund amortizes premiums and accretes discounts using the effective interest method.

The Fund pays all of its expenses not assumed by Infrastructure Capital Advisors, LLC (the "Sub-Adviser") or Virtus ETF Advisers LLC (the "Adviser"). General Trust expenses that are allocated among and charged to the assets of the Fund and other series of the Trust are done so on a basis that the Board deems fair and equitable, which may be on a basis of relative net assets of the Fund and other series of the Trust or the nature of the services performed and relative applicability to the Fund and other series of the Trust.

Short Sales

The Fund may sell securities short. A short sale is a transaction in which the Fund sells a security it does not own in anticipation of a decline in market price. To sell a security short, the Fund must borrow the security. The Fund's obligation to replace the security borrowed and sold short will be fully collateralized at all times by the proceeds from the short sale retained by the broker and by cash and securities deposited in a segregated account with the Fund's custodian. If the price of the security sold short increases between the time of the short sale and the time the Fund replaces the borrowed security, the Fund will realize a loss, and if the price declines during the period, the Fund will realize a gain. Any realized gain will be decreased, and any realized loss increased, by the amount of transaction costs. On the ex-dividend date, dividends on short sales are recorded as an expense to the Fund.

In accordance with the terms of its prime brokerage agreement, the Fund may receive rebate income or be charged a fee on borrowed securities which is reported as "Interest Expense" on the Statement of Operations. Such income or fee is calculated on a daily basis based upon the market value of each borrowed security and a variable rate that is dependent upon the availability of such security.

Distributions to Shareholders

Distributions to shareholders are declared and paid on a quarterly basis and are recorded on the ex-dividend date. The Fund uses a cash flow-based distribution approach based on the Fund's net cash flow received from portfolio investments.

The estimated character of the distributions paid will either be a dividend (ordinary income eligible to be treated as qualified dividend income) or a return of capital. Distributions made from current or accumulated earnings and profits of the Fund will be taxable to shareholders as dividend income. Distributions that are in an amount greater than the Fund's current and accumulated earnings and profits will represent a return of capital to the extent of a shareholder's basis in their common shares, and such distributions will correspondingly increase the realized gain upon the sale of their common shares. Additionally, distributions not paid from current or accumulated earnings and profits that exceed a shareholder's tax basis in their common shares will generally be taxed as a capital gain. This estimate is based on the Fund's operating results during the period.

October 31, 2017

3. INVESTMENT MANAGEMENT RELATED PARTIES AND OTHER AGREEMENTS

Investment Advisory Agreement

The Trust has entered into an Investment Advisory Agreement (the “Advisory Agreement”) with the Adviser, a wholly owned subsidiary of ETFis Holdings LLC, on behalf of the Fund. ETFis Holdings LLC is majority-owned by Virtus Investment Partners, Inc. (Ticker: VRTS) (together with its affiliates, “Virtus”). Pursuant to the Advisory Agreement, the Adviser has overall supervisory responsibility for the general management and investment of the Fund’s securities portfolio. For its services to the Fund, the Adviser is entitled to receive a fee, payable monthly, at an annual rate of 0.075% of the Fund’s average daily net assets, subject to a minimum annual fee of \$25,000, paid by the Sub-Adviser as described below.

Sub-Advisory Agreement

The Sub-Adviser provides investment advice and management services to the Fund. Pursuant to an investment sub-advisory agreement among the Trust, the Sub-Adviser and the Adviser, the Sub-Adviser is entitled to receive a fee, payable monthly, at an annual rate of 0.95% of the Fund’s average daily net assets. The Sub-Adviser has agreed to pay all expenses of the Fund, except the Sub-Adviser’s fee, brokerage expenses, taxes, interest, litigation expenses, payments under any 12b-1 plan adopted by the Fund, and other non-routine or extraordinary expenses of the Fund.

Principal Underwriter

Pursuant to the terms of a Distribution Agreement with the Trust, ETF Distributors LLC (the “Distributor”) serves as the Fund’s principal underwriter. The Distributor receives compensation for the statutory underwriting services it provides to the Fund. The Distributor will not distribute shares in less than Creation Units (as hereinafter defined), and does not maintain a secondary market in shares. The shares are traded in the secondary market. The Distributor is a wholly-owned subsidiary of Virtus.

Operational Administrator

Virtus ETF Solutions LLC (the “Administrator”) serves as the Fund’s operational administrator. The Administrator supervises the overall administration of the Trust and the Fund including, among other responsibilities, the coordination and day-to-day oversight of the Fund’s operations, the service providers’ communications with the Fund and each other and assistance with Trust, Board and contractual matters related to the Fund. The Administrator also provides persons satisfactory to the Board to serve as officers of the Trust. The Administrator is a wholly-owned subsidiary of Virtus.

Accounting Services Administrator, Custodian and Transfer Agent

The Bank of New York Mellon (“BNY Mellon”) provides administrative, accounting, tax and financial reporting for the maintenance and operations of the Trust as the Fund’s accounting services administrator. BNY Mellon also serves as the custodian for the Fund’s assets, and serves as transfer agent and dividend paying agent for the Fund.

Affiliated Shareholders

At October 31, 2017, the Sub-Adviser held 352,143 shares of InfraCap MLP ETF, which represent 0.6% of shares outstanding. These shares may be sold at any time.

4. CREATION AND REDEMPTION TRANSACTIONS

The Fund issues and redeems shares on a continuous basis at Net Asset Value (“NAV”) in groups of 50,000 shares called “Creation Units.” Creation Units of the Fund are issued and redeemed generally in exchange for specified securities held by the Fund and a specified cash payment. Redemptions of Creation Units are effected principally for cash. In each instance of such cash creations or redemptions, the Trust may impose transaction fees based on transaction expenses related to the particular exchange that will be higher than the transaction fees associated with in-kind purchases or redemptions.

Only “Authorized Participants” who have entered into contractual arrangements with the Distributor may purchase or redeem shares directly from the Fund. An Authorized Participant is either (i) a broker-dealer or other participant in the clearing process through the Continuous Net Settlement System of the National Securities Clearing Corporation or (ii) a DTC participant and, in each case, must have executed a Participant Agreement with the Distributor. Most retail investors will not qualify as Authorized Participants or have the resources to buy and sell whole Creation Units. Therefore, they will be unable to purchase or redeem the shares directly from the Fund. Rather, most retail investors will purchase shares in the secondary market with the assistance of a broker and will be subject to customary brokerage commissions or fees.

October 31, 2017

5. FEDERAL INCOME TAX

The Fund is taxed as a regular C-corporation for federal income tax purposes and as such is obligated to pay federal and applicable state and foreign corporate taxes on its taxable income. Currently, the maximum marginal regular federal income tax rate for a corporation is 35 percent. The Fund may be subject to a 20 percent federal alternative minimum tax on its federal alternative taxable income to the extent that its alternative minimum tax exceeds its regular federal income tax. This treatment differs from most investment companies, which elect to be treated as “regulated investment companies” under the Code in order to avoid paying entity level income taxes. Under current law, the Fund is not eligible to elect treatment as a regulated investment company due to its investments primarily in MLPs invested in energy assets. The Fund expects that substantially all of the distributions it receives from MLPs may be treated as a tax-deferred return of capital, thus reducing the Fund’s current tax liability. However, the amount of taxes paid by the Fund will vary depending on the amount of income and gains derived from investments and/or sales of MLP interests and such taxes will reduce your return from an investment in the Fund.

Cash distributions from MLPs to the Fund that exceed the Fund’s allocable share of such MLP’s net taxable income are considered a tax deferred return of capital that will reduce the Fund’s adjusted tax basis in the equity securities of the MLP. These reductions in the Fund’s adjusted tax basis in the MLP equity securities will increase the amount of any taxable gain (or decrease the amount of any tax loss) recognized by the Fund on a subsequent sale of the securities. The Fund will accrue deferred income taxes for any future tax liability associated with (i) that portion of MLP distributions considered to be a tax-deferred return of capital as well as (ii) capital appreciation of its investments. Upon the sale of an MLP security, the Fund may be liable for previously deferred taxes. The Fund will rely to some extent on information provided by the MLPs, which is not necessarily timely, to estimate the deferred tax liability for purposes of financial statement reporting and determining the Fund’s NAV. From time to time, the Adviser will modify the estimates or assumptions related to the Fund’s deferred tax liability as new information becomes available. The Fund will generally compute deferred income taxes based on the marginal regular federal income tax rate applicable to corporations and an assumed rate attributable to state taxes.

The Fund’s income tax expense/(benefit) consists of the following:

<u>As of October 31, 2017</u>	<u>Current</u>	<u>Deferred</u>	<u>Total</u>
Federal	\$6,932,272	\$(20,891,703)	\$(13,959,431)
State	402,072	(1,211,991)	(809,919)
Valuation Allowance	—	14,623,063	14,623,063
Total tax expense/(benefit)	<u>\$7,334,344</u>	<u>\$ (7,480,631)</u>	<u>\$ (146,287)</u>

Components of the Fund’s deferred tax assets and liabilities are as follows:

	<u>As of October 31, 2017</u>
Net operating loss carryforward	\$ 79,292
Net unrealized loss on investment securities	21,878,114
Valuation Allowance	(14,623,062)
Net Deferred tax assets	<u>\$ 7,334,344</u>

The Fund reviews the recoverability of its deferred tax assets based upon the weight of available evidence. When assessing the recoverability of its deferred tax assets, significant weight was given to the effects of potential future realized and unrealized gains on investments and the period over which these deferred tax assets can be realized. Currently, any capital losses that may be generated by the Fund in the future are eligible to be carried back up to three years and can be carried forward for five years to offset capital gains recognized by the Fund in those years. Net operating losses that may be generated by the Fund in the future are eligible to be carried back up to two years and can be carried forward for 20 years to offset income generated by the Fund in those years. The Fund’s current net operating loss carryforward will expire in 2036.

Based upon the Fund’s assessment, it has determined that it is “more-likely-than-not” that a portion of its deferred tax assets will not be realized through future taxable income of the appropriate character. Accordingly, a partial valuation allowance has been established for the Fund’s deferred tax assets. The Fund will continue to assess the need for a valuation allowance in the future. Significant declines in the fair value of its portfolio of investments may change the Fund’s assessment of the recoverability of these assets and may result in the recording of the valuation allowance against all or a portion of the Fund’s gross deferred tax assets.

Notes to Financial Statements (continued)

October 31, 2017

Total income tax benefit (current and deferred) differs from the amount computed by applying the federal statutory income tax rate of 35% to net investment and realized and unrealized gain/(losses) on investment before taxes as follows for the Fund:

	<u>Amount</u>	<u>Rate</u>
Income tax expense at statutory rate	\$(13,764,063)	(35.00)%
State income taxes (net of federal benefit)	(798,316)	(2.03)
Permanent Differences, Net	(223,921)	(0.57)
Change in estimated state deferred rate	4,370	0.01
Provision to Return Adjustment	12,581	0.03
Valuation Allowance	<u>14,623,062</u>	<u>37.18</u>
Net income tax expense/(benefit)	<u>\$ (146,287)</u>	<u>(0.38)%</u>

The Fund recognizes interest accrued related to unrecognized tax benefits and penalties as income tax expense. For the period from inception to October 31, 2017, the Fund had no accrued penalties or interest.

The Fund recognizes the tax benefits of uncertain tax positions only where the position is “more-likely-than-not” to be sustained assuming examination by tax authorities. Management has analyzed the Fund’s tax positions, and has concluded that no liability for unrecognized tax benefits should be recorded related to uncertain tax positions taken on U.S. tax returns and state tax returns filed since inception of the Fund. No U.S. federal or state income tax returns are currently under examination. The Fund’s tax years, October 31, 2014, October 31, 2015 and October 31, 2016, remain subject to examination by tax authorities in the United States. Due to the nature of the Fund’s investments, the Fund may be required to file income tax returns in several states. The Fund is not aware of any tax positions for which it is reasonably possible that the total amounts of unrecognized tax benefits will change materially in the next 12 months.

The adjusted cost basis of investment and gross unrealized appreciation and depreciation of investments, excluding written options and securities sold short, for federal income tax purposes were as follows:

<u>Fund</u>	<u>Federal Tax Cost Of Investments</u>	<u>Gross Unrealized Appreciation</u>	<u>Gross Unrealized Depreciation</u>	<u>Net Unrealized Appreciation (Depreciation)</u>
InfraCap MLP ETF	\$693,734,731	\$7,683,638	\$(63,154,399)	\$(55,470,761)

6. INVESTMENT TRANSACTIONS

Purchases and sales of investments (excluding short-term investments), subscriptions in-kind and redemptions in-kind for the year ended October 31, 2017 were as follows:

<u>Fund</u>	<u>Purchases</u>	<u>Sales</u>	<u>Subscriptions In-Kind</u>	<u>Redemptions In-Kind</u>
InfraCap MLP ETF	\$473,892,950	\$563,997,333	\$637,057,078	\$3,026,293

7. DERIVATIVE FINANCIAL INSTRUMENTS

Options

The Fund may write covered call and put options on portfolio securities and other financial instruments. Premiums received are recorded as liabilities. The liabilities are subsequently adjusted to reflect the current value of the options written. Premiums received from writing options which expire are treated as realized gains. Premiums received from writing options which are exercised or are closed are added to or offset against the proceeds or amount paid on the transactions to determine the net realized gain or loss. By writing a covered call option, the Fund, in exchange for the premium, foregoes the opportunity for capital appreciation above the exercise price should the market price of the underlying security increase. By writing a put option, the Fund, in exchange for the premium, accepts the risk of having to purchase a security at an exercise price that is above the current price. Changes in value of written options are reported as change in unrealized gain (loss) on written options in the Statement of Operations. When the written option expires, is terminated or is sold, the Fund will record a gain or loss, which is reported as realized gain (loss) on written options in the Statement of Operations.

The Fund may purchase call and put options on the portfolio securities or other financial instruments. The Fund may purchase call options to protect against an increase in the price of the security or financial instrument it anticipates purchasing. The Fund may purchase put options on securities which it holds or other financial instruments to protect against a decline in the value of the security or financial instrument or to close out covered written positions. Changes in value of purchased options are reported as part of change in unrealized

Notes to Financial Statements (continued)

October 31, 2017

gain (loss) on investments in the Statement of Operations. When the purchased option expires, is terminated or is sold, the Fund will record a gain or loss, which is reported as part of realized gain (loss) on investments in the Statement of Operations. Risks may arise from an imperfect correlation between the change in market value of the securities held by the Fund and the prices of options relating to the securities purchased or sold by the Fund and from the possible lack of liquid secondary market for an option. The maximum exposure to loss for any purchased option is limited to the premium initially paid for the option. Written uncovered call options subject the Fund to unlimited risk of loss. Written covered call options limit the upside potential of a security above the strike price. Put options written subject the Fund to risk of loss if the value of the security declines below the exercise price minus the put premium.

Transactions in derivative instruments reflected on the Statement of Assets and Liabilities at October 31, 2017, are:

	<u>Equity Risk</u>
Liabilities	
Written options, at value	\$9,024,369

Transactions in derivative instruments reflected on the Statement of Operations during the year were as follows:

<u>Net Realized Gain (Loss) on:</u>	<u>Equity Risk</u>
Investments*	\$ (672,737)
Written options	25,177,193

* Purchased option contracts are included in Net Realized Gain (Loss) on Investments on the Statement of Operations.

<u>Change in Net Unrealized Appreciation (Depreciation) on:</u>	<u>Equity Risk</u>
Investments**	\$ (21,796)
Written options	1,894,256

** Purchased option contracts are included in Change in Net Unrealized Appreciation (Depreciation) on Investments in the Statement of Operations.

For the fiscal year ended October 31, 2017, the monthly average market value of the purchased options and written options contracts held by the Fund were \$132,275 and \$(4,955,772), respectively.

8. BORROWINGS

The Fund entered into a Lending Agreement (the "Agreement") with a commercial bank (the "Bank") that allows the Fund to borrow cash from the Bank. Borrowings under the Agreement are collateralized by investments of the Fund. If the Fund defaults with respect to any of its obligations under the Agreement, the Bank may foreclose on assets of the Fund and/or the Fund may be required to repay immediately, in part or in full, the loan balance outstanding under the Agreement, necessitating the sale of securities at potentially inopportune times. Interest is charged at the 3 Month LIBOR (London Interbank Offered Rate) plus an additional percentage rate on the amount borrowed. The Agreement has an on-demand commitment term. For the fiscal year ended October 31, 2017, the average daily borrowings under the Agreement and the daily average interest rate were \$107,682,525 and 2.37%, respectively.

At October 31, 2017, the amount of such outstanding borrowings was as follows:

<u>Outstanding Borrowings</u>	<u>Interest Rate</u>
\$142,683,013	2.58%

9. INVESTMENT RISKS

As with any investment, an investment in the Fund could result in a loss or the performance of the Fund could be inferior to that of other investments. An investor should consider the Fund's investment objectives, risks, and charges and expenses carefully before investing. The Fund's prospectus and statement of additional information contain this and other important information.

MLP Risk

Investments in securities of MLPs involve risks that differ from investments in common stock including risks related to limited control and limited rights to vote on matters affecting the MLP, risks related to potential conflicts of interest between the MLP and the MLP's general partner and cash flow risks. MLP common units and other equity securities can be affected by macro-economic and other factors affecting the stock market in general, expectations of interest rates, investor sentiment towards MLPs or the energy sector, changes in a particular issuer's financial condition or unfavorable or unanticipated poor performance of a particular issuer (in the case of MLPs, generally measured in terms of distributable cash flow). Prices of common units of individual MLPs and other equity securities also can be affected by fundamentals unique to the partnership or company, including earnings power and coverage ratios.

October 31, 2017

10. 10% SHAREHOLDERS

As of October 31, 2017, the Fund had individual shareholder account(s) and/or omnibus shareholder account(s) (comprised of a group of individual shareholders), which individually amounted to more than 10% of the total shares outstanding of the Fund as detailed below:

<u>Fund</u>	<u>% of Shares Outstanding</u>	<u>Number of Accounts</u>
InfraCap MLP ETF	48%	3

11. CHANGE IN INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

On August 9, 2017, BBD, LLP (“BBD”) resigned as the independent registered public accounting firm for ETFis Series Trust I (the “Trust”). At a meeting held on August 9, 2017, the Board, upon recommendation of the Audit Committee, approved the replacement of BBD as the independent registered public accounting firm for the Trust and appointed PricewaterhouseCoopers LLP (“PwC”) as the Trust’s independent registered public accounting firm. PwC’s engagement is effective at the completion of BBD’s audit of the financial statements of the series of the Trust with the fiscal year ending July 31, 2017, which was completed in September 2017. The Trust did not consult with PwC during the fiscal periods ended October 31, 2016 and 2015 and through the August 9, 2017 Board meeting.

BBD’s reports on the financial statements of the Trust as of and for the fiscal periods ended October 31, 2016 and 2015 contained no adverse opinion or disclaimer of opinion and were not qualified or modified as to uncertainty, audit scope or accounting principles. During such fiscal periods and through the August 9, 2017 Board meeting, there were no: (1) disagreements between the Trust and BBD on any matter of accounting principles or practices, financial statement disclosure, or auditing scope or procedure which, if not resolved to BBD’s satisfaction, would have caused them to make reference to the subject matter of the disagreement in connection with their reports, or (2) reportable events.

12. SUBSEQUENT EVENTS

The Fund is required to recognize in the financial statements the effects of all subsequent events that provide additional evidence about conditions that existed as of the date of the Statement of Assets and Liabilities. For non-recognized subsequent events that must be disclosed to keep the financial statements from being misleading, the Fund is required to disclose the nature of the event as well as an estimate of its financial effect, or a statement that such an estimate cannot be made. Management has evaluated subsequent events through the issuance of these financial statements and has determined that there are no material events that would require disclosure.

On December 20, 2017, Congress passed the Tax Cut and Jobs Act, which provides a significant overhaul of the U.S. tax code, and the President signed the bill on December 22, 2017. At this time, management is evaluating the implications to the Fund, as well as the impact the Act’s implementation may have on the financial statements and the accompanying notes.

Report of Independent Registered Public Accounting Firm

October 31, 2017

To the Board of Trustees of ETFis Series Trust I and Shareholders of InfraCap REIT Preferred ETF, iSectors Post-MPT Growth ETF, Virtus Cumberland Municipal Bond ETF, Virtus LifeSci Biotech Clinical Trials ETF, Virtus LifeSci Biotech Products ETF, Virtus Newfleet Multi-Sector Unconstrained Bond ETF and Virtus WMC Global Factor Opportunities ETF

In our opinion, the accompanying statements of assets and liabilities, including the schedules of investments, and the related statements of operations, and of changes in net assets and the financial highlights present fairly, in all material respects, the financial position of each of the seven funds listed in the table below

iSectors Post-MPT Growth ETF, Virtus LifeSci Biotech Clinical Trials ETF, Virtus LifeSci Biotech Products ETF, Virtus Newfleet Multi-Sector Unconstrained Bond ETF	Statements of operations and of changes in net assets and the financial highlights for the year ended October 31, 2017
InfraCap REIT Preferred ETF	Statements of operations and of changes in net assets and the financial highlights for the period February 7, 2017 (commencement of operations) through October 31, 2017
Virtus Cumberland Municipal Bond ETF	Statements of operations and of changes in net assets and the financial highlights for the period January 17, 2017 (commencement of operations) through October 31, 2017
Virtus WMC Global Factor Opportunities ETF	Statements of operations and of changes in net assets and the financial highlights for the period October 10, 2017 (commencement of operations) through October 31, 2017

(seven of the funds constituting ETFis Series Trust I, hereafter collectively referred to as the “Funds”) as of October 31, 2017, the results of each of their operations, the changes in each of their net assets and the financial highlights for the respective periods described in the table above, in conformity with accounting principles generally accepted in the United States of America. These financial statements and financial highlights (hereafter referred to as “financial statements”) are the responsibility of the Funds’ management. Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits of these financial statements in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits, which included confirmation of securities as of October 31, 2017 by correspondence with the custodian, brokers and the application of alternative procedures where securities purchased confirmations had not been received, provide a reasonable basis for our opinions. The financial statements of iSectors Post-MPT Growth ETF, Virtus LifeSci Biotech Clinical Trials ETF, Virtus LifeSci Biotech Products ETF, and Virtus Newfleet Multi-Sector Unconstrained Bond ETF as of and for the year ended October 31, 2016 (or for iSectors Post-MPT Growth ETF as of and for the period ended August 16, 2016 (commencement of operations) through October 31, 2016) and the financial highlights for each of the periods ended on or prior to October 31, 2016 (not presented herein, other than the statements of changes in net assets and the financial highlights) were audited by other auditors whose report dated December 29, 2016 expressed unqualified opinions on those financial statements and financial highlights.

Report of Independent Registered Public Accounting Firm

October 31, 2017

To the Board of Trustees of ETFis Series Trust I and Shareholders of the InfraCap MLP ETF

In our opinion, the accompanying statement of assets and liabilities, including the schedule of investments, and the related statements of operations, of changes in net assets and of cash flows and the financial highlights present fairly, in all material respects, the financial position of the InfraCap MLP ETF (“the Fund”), a fund of ETFis Series Trust I, as of October 31, 2017, the results of its operations and its cash flows, the changes in its net assets and the financial highlights for the year then ended, in conformity with accounting principles generally accepted in the United States of America. These financial statements and financial highlights (hereafter referred to as “financial statements”) are the responsibility of the Fund’s management. Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit of these financial statements in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audit, which included confirmation of securities as of October 31, 2017 by correspondence with the custodian, brokers and the application of alternative procedures where securities purchased confirmations had not been received, provides a reasonable basis for our opinion. The financial statements of the Fund as of and for the year ended October 31, 2016 and the financial highlights for each of the periods ended on or prior to October 31, 2016 (not presented herein, other than the statement of changes in net assets and the financial highlights) were audited by other auditors whose report dated December 29, 2016 expressed an unqualified opinion on those financial statements and financial highlights.

October 31, 2017

**Board Considerations for
Virtus WMC Global Factor Opportunities ETF**

Approvals with Respect to Virtus WMC Global Factor Opportunities ETF

The Board noted that, on May 17, 2017, at an in-person meeting (the “Meeting”) at which all of the Trustees who were not “interested persons” (as that term is defined in the Investment Company Act of 1940) of the Trust (the “Independent Trustees”) were present, the Board of Trustees (the “Board”) of ETFis Series Trust I (the “Trust”), including the Independent Trustees voting separately, reviewed and unanimously approved an investment advisory agreement between Virtus ETF Advisers LLC (the “Adviser”) and the Trust (the “Advisory Agreement”), and an investment sub-advisory agreement among Wellington Management Company (“Wellington”), the Adviser and the Trust (the “Wellington Sub-Advisory Agreement”), each with respect to the Virtus WMC Global Factor Opportunities ETF (the “Wellington Fund”).

At the Meeting, the Board received and reviewed a substantial amount of information provided by the Adviser and the Sub-Adviser in response to requests of the Board and counsel, including, without limitation, a memorandum from the Adviser that included a description of the Adviser’s business, a copy of the Adviser’s Form ADV and certain other information about the Adviser to be considered in connection with the Trustees’ review process (the “Adviser Memorandum”), and a memorandum from the Sub-Adviser that included a description of the Sub-Adviser’s business, a copy of the Sub-Adviser’s Form ADV and certain other information about to be considered in connection with the Trustees’ review process (the “Wellington Memorandum”). The Board also met in person with representatives of the Adviser and the Sub-Adviser to discuss the proposed Fund.

Advisory Agreement

In deciding on whether to approve the Advisory Agreement on behalf of the Fund, the Board considered numerous factors, including:

The nature, extent, and quality of the services to be provided by the Adviser. The Board considered the responsibilities the Adviser would have under the Advisory Agreement and the services that would be provided by the Adviser to the Fund including, without limitation, the management, oversight and administrative services that the Adviser and its employees would provide to the Fund, the services already provided by the Adviser related to organizing the Fund, the Adviser’s coordination of services for the Fund by the Trust’s service providers, its compliance procedures and practices, and its efforts to promote the Fund. The Board also considered the quality of the services that the Adviser provides to other series in the Virtus fund complex, including other series of the Trust. The Board noted that many of the Trust’s executive officers are employees of the Adviser and serve the Trust without additional compensation from the Fund. After reviewing the foregoing information and further information in the Adviser Memorandum (including descriptions of the Adviser’s investment advisory services and its related non-advisory business), and discussing the Adviser’s proposed services to the Fund with the Adviser, the Board concluded that the quality, extent, and nature of the services proposed to be provided by the Adviser would be satisfactory and adequate for the Fund.

The investment management capabilities and experience of the Adviser. The Board evaluated the management experience of the Adviser in light of the services it will be providing. In particular, the Board received information from the Adviser regarding, among other things, the Adviser’s experience in organizing, managing and overseeing exchange-traded funds and coordinating their operation and administration. After consideration of these factors, the Board determined that the Adviser would be an appropriate manager for the Fund.

The costs of the services to be provided and profits to be realized by the Adviser from its relationship with the Fund. The Board examined and evaluated the arrangement between the Adviser and the Fund under the proposed Advisory Agreement, including the fact that the Adviser will utilize a “unified fee” structure to cap the Fund’s total expenses. The Board also considered potential benefits for the Adviser in managing the Fund, including promotion of the Adviser’s name and the interests of the Adviser in providing management and oversight services to the Fund. In addition, at the Meeting, the Board compared the management fee of the Fund (which also represents the anticipated total expense ratio for the Fund as a result of the unified fee structure) to the expense ratios of other funds considered by the Adviser to have similar investment objectives and strategies to the Fund. Following these comparisons and upon further consideration and discussion of the foregoing, the Board concluded that the fee to be paid to the Adviser by the Fund would be appropriate and within the range of what would have been negotiated at arm’s length.

The extent to which economies of scale would be realized as the Fund grows and whether management fee levels reflect these economies of scale for the benefit of the Fund’s investors. The Board considered that the Fund’s proposed fee arrangement with the Adviser involves a unified fee. The Board considered that the Fund would likely experience benefits from the proposed unified fee arrangement, and would continue to do so even after the Fund’s assets grow to a level where the Adviser is no longer required to reimburse the Fund’s ordinary operating expenses in excess of the amount received by the Adviser under the unified fee. Accordingly, the Board concluded that the Fund’s fee arrangement with the Adviser would provide benefits through the proposed unified fee structure, and that, at the Fund’s projected asset levels, the Fund’s proposed arrangement with the Adviser would be appropriate.

Approval of Advisory Agreements & Board Considerations (unaudited) (continued)

October 31, 2017

Other benefits derived by the Adviser from its relationship with the Fund. The Board considered material “fall-out” or ancillary benefits that would accrue to the Adviser as a result of its relationship with the Fund (other than the advisory fee). The Board noted that ETF Distributors LLC (the “Distributor”), an affiliate of the Adviser, will serve as principal underwriter for the Fund, and that Virtus ETF Solutions LLC (the “Administrator”), also an affiliate of the Adviser, will serve as the operational administrator for the Fund. The Board noted that the Adviser will be responsible for the payment of any fees to the Distributor and the Administrator. The Board considered that the association of the Distributor and the Administrator with the Fund could result in non-quantifiable reputational benefits for those entities. Based on the foregoing information, the Board concluded that such potential benefits are immaterial to its consideration and approval of the Advisory Agreement.

Conclusion. The Board did not identify any single factor as being of paramount importance, and different Trustees may have given different weight to different factors. The Board reviewed with counsel to the Independent Trustees the legal standards applicable to its consideration of the Advisory Agreement. Based on its review, including consideration of each of the factors referenced above, the Board determined, in the exercise of its reasonable business judgment, that the advisory arrangement, as outlined in the Advisory Agreement, was fair and reasonable in light of the services to be performed, expenses to be incurred and such other matters as the Board considered relevant.

After full consideration of the above factors as well as other factors, the Board, including the Independent Trustees, unanimously approved the Advisory Agreement on behalf of the Fund.

Sub-Advisory Agreement

In deciding on whether to approve the Wellington Sub-Advisory Agreement on behalf of the Fund, the Board considered numerous factors, including:

The nature, extent, and quality of the services to be provided by Wellington. The Board considered the responsibilities Wellington would have under the Wellington Sub-Advisory Agreement and the services that would be provided by Wellington including, without limitation, its investment advisory services, its compliance procedures and practices, and its efforts to promote the Fund. After reviewing the foregoing information and further information in the materials, including the Wellington Memorandum (which included descriptions of Wellington’s business and Form ADV), the Board concluded that the quality, extent, and nature of the services to be provided by Wellington would be satisfactory and adequate for the Fund.

The investment management capabilities and experience of Wellington. The Board evaluated the investment management experience of Wellington. In particular, the Board considered Wellington’s experience, including the experience of its portfolio managers, in implementing strategies similar to the one proposed for the Fund. The Board discussed with Wellington the investment objective and strategies for the Wellington Fund and the Wellington’s plans for implementing the strategies. The Board also considered the ability of Wellington to manage the Wellington Fund. After consideration of these factors, the Board determined that Wellington would be an appropriate manager for the Fund.

The costs of the services to be provided and profits to be realized by Wellington from its relationship with the Wellington Fund. The Board examined and evaluated the proposed arrangements between Wellington and the Adviser under the proposed Wellington Sub-Advisory Agreement. The Board considered Wellington’s staffing, personnel, and methods of operating; Wellington’s compliance policies and procedures; the financial condition of Wellington and the level of commitment to the Fund by the Sub-Adviser; the projected asset levels of the Fund.

The Board also considered potential benefits to Wellington in managing the Fund, including promotion of the Wellington’s name. The Board compared the sub-advisory fee of the Wellington Fund (which will be paid to the Wellington by the Adviser from the unified fee) to the expense ratios of other funds considered by the Adviser to have similar investment objectives and strategies to the Fund. Following these comparisons and upon further consideration and discussion of the foregoing, the Board concluded that the fee to be paid to Wellington would be appropriate and representative of an arm’s length negotiation.

The extent to which economies of scale would be realized as the Fund grows and whether management fee levels reflect these economies of scale for the benefit of the Fund’s investors. The Board considered that the Fund’s proposed fee arrangement with the Adviser involves a unified fee, and that the Adviser is responsible for the payment of sub-advisory fees to Wellington. The Board considered that the Wellington Fund would likely experience benefits from the proposed unified fee arrangement, and would continue to do so even after the Wellington Fund’s assets grow to a level where the Adviser is no longer required to reimburse the Wellington Fund’s ordinary operating expenses in excess of the amount received by the Adviser under the unified fee. Accordingly, the Board concluded that the Wellington Fund’s fee arrangements with the Adviser and Wellington would provide benefits through the proposed unified fee structure, and that, at the Fund’s projected asset levels, the Fund’s proposed arrangement with Wellington would be appropriate.

**Board Considerations for
Virtus LifeSci Biotech Products ETF and
Virtus LifeSci Biotech Clinical Trials ETF**

Approvals with Respect to each of BioShares Biotechnology Products Fund and BioShares Biotechnology Clinical Trials Fund

The Board noted that, on May 17, 2017, at an in-person meeting (the “Meeting”) at which all of the Trustees who were not “interested persons” (as that term is defined in the Investment Company Act of 1940) of the Trust (the “Independent Trustees”) were present, the Board of Trustees (the “Board”) of ETFis Series Trust I (the “Trust”), including the Independent Trustees voting separately, reviewed and unanimously approved an Amended and Restated Investment Advisory Agreement (the “New Advisory Agreement”) between Virtus ETF Advisers LLC (the “Adviser”) and the Trust with respect to each of the Virtus LifeSci Biotech Products ETF and the Virtus LifeSci Biotech Clinical Trials ETF (formerly BioShares Biotechnology Products Fund and BioShares Biotechnology Clinical Trials Fund respectively) (each a “Fund” and, together, the “Funds”). The Board noted that it had previously considered and reviewed the approval of an investment advisory agreement (the “Prior Advisory Agreement”) and sub-advisory agreements (the “Prior Sub-Advisory Agreements”) with the Adviser and LifeSci Index Partners, LLC (“LifeSci”), respectively, with respect to each Fund at an in-person meeting held on February 8, 2017 (the “Prior Meeting”). In determining whether to approve the New Advisory Agreement, the Board considered the best interests of each Fund separately. With respect to each Fund, the Board considered its review of the information received in connection with the Prior Meeting, at which it had engaged in the same evaluation process of the Prior Advisory Agreement as was required with respect to the New Advisory Agreement. The Board also considered the Adviser’s representation that there had been no material changes or developments relating to the Adviser since the approval of the Prior Advisory Agreement, other than changes subsequently reported to the Board.

At the Meeting, the Board received and reviewed a substantial amount of information provided by the Adviser in response to requests of the Board and counsel, including, without limitation: (i) information regarding the financial resources of the Adviser’s capital structure, including confirmation that the Adviser would be able to provide substantially the same nature, extent, and quality of investment advisory services to the Funds that are currently provided by LifeSci; (ii) information regarding the Adviser’s experience in the asset management industry and with respect to registered investment companies, in particular; and (iii) information regarding the portfolio managers to which the Adviser intended to assign the day-to-day management of each Fund’s portfolio. The Board also met in person with representatives of the Adviser to discuss the New Advisory Agreement and its anticipated effects on the Funds and their advisory arrangements.

In deciding on whether to approve the New Advisory Agreement on behalf of each of the Funds, the Board considered numerous factors, including:

Nature, Extent and Quality of Services. With respect to the approval of the New Advisory Agreement for each Fund, the Board considered the Adviser’s ability to assume responsibility for the day-to-day management of the Fund’s portfolio. The Board considered the qualifications and past investment experience of the proposed portfolio managers for each Fund. The Board noted that the Adviser would have access to the same trading facilities as its other affiliated Virtus investment advisers.

Based on the foregoing information, the Board concluded that the nature, extent, and quality of the management and advisory services to be provided by the Adviser were appropriate for each Fund and substantially the same as the services currently provided by LifeSci.

Investment Performance. The Board considered comparative information regarding each Fund’s investment performance in connection with the approval of the New Advisory Agreement. The Board reviewed each Fund’s historical total return performance versus that of its underlying index. In this regard, among other things, the Board noted that each Fund only had a short operating history to date and initially had a relatively smaller asset base, but was currently performing consistently with its respective underlying index. The Board also noted that the Adviser expressed general satisfaction with the performance of each Fund, including trading activity in the Funds’ shares.

Cost of Services and Projected Profits of the Adviser with respect to the Funds. In analyzing the cost of services and profitability of the Adviser by Fund, the Board considered that although the Adviser would receive a higher advisory fee under the New Advisory Agreement, the Adviser would incur correspondingly higher costs, as it would assume payment of each Fund’s ordinary operating expenses under the unified fee arrangement and day-to-day management of each Fund’s portfolio. Further, the Board noted that the aggregate advisory fee payable by the Funds under the New Advisory Agreement would be lower than the fee currently paid under the Prior Sub-Advisory Agreements. Based on the foregoing information, the Board concluded that the profitability levels would be reasonable in light of the services to be performed by the Adviser.

Approval of Advisory Agreements & Board Considerations (unaudited) (continued)

October 31, 2017

Economies of Scale. The Board considered that each Fund had a relatively short operating history and remained relatively small. Accordingly, the Board determined that economies of scale were not a material factor at this time in its approval of the New Advisory Agreement.

Other Benefits Derived by the Adviser from its Relationship with the Funds. The Board considered material “fall-out” or ancillary benefits that accrue to the Adviser as a result of its relationship with each Fund (other than the advisory fee). The Board noted that ETF Distributors LLC (the “Distributor”), an affiliate of the Adviser, serves as principal underwriter for the Funds, and that Virtus ETF Solutions LLC (the “Administrator”), also an affiliate of the Adviser, serves as the operational administrator for the Funds. The Board noted that the Distributor is paid separately by the Adviser, and that the payments to the Administrator will be paid by the Adviser through the unified fee under the New Advisory Agreement. The Board considered that the association of the Distributor and the Administrator with the Funds could result in non-quantifiable reputational benefits for those entities. Based on the foregoing information, the Board concluded that such potential benefits are immaterial to its consideration and approval of the New Advisory Agreement.

Conclusion. The Board did not identify any single factor as being of paramount importance, and different Trustees may have given different weight to different factors. The Board reviewed with counsel to the Independent Trustees the legal standards applicable to its consideration of the New Advisory Agreement. Based on its review, including consideration of each of the factors referenced above, the Board determined, in the exercise of its reasonable business judgment, that the advisory arrangement with respect to each Fund, as outlined in the New Advisory Agreement, was fair and reasonable in light of the services to be performed, expenses to be incurred and such other matters as the Board considered relevant. The Board also determined that approval of the New Advisory Agreement was in the best interests of each Fund and its shareholders.

After full consideration of the above factors as well as other factors, the Board, including the Independent Trustees, unanimously approved the New Advisory Agreement and recommended approval of the New Advisory Agreement by shareholders of each Fund.

Trustees and Officers of the Trust (unaudited)

TRUSTEES AND OFFICERS OF THE TRUST

The Trustees of the Trust, their addresses, positions with the Trust, years of birth, length of time served, principal occupations during the past five years, the number of portfolios in the Fund Complex overseen by each Trustee and other directorships, if any, held by the Trustees are set forth below. The SAI includes additional information about the Fund's Trustees and is available, without charge, upon request, by calling the Adviser (toll-free) at (888)-383-4184.

Name and Year of Birth	Position(s) Held with Trust	Length of Time Served	Principal Occupation(s) During Past Five Years	Number of Portfolios in Fund Complex* Overseen by Trustee	Other Directorships Held by Trustee During Past Five Years

Engberg Year of Birth: 1956	Chief Compliance Officer	Since 2015	Senior Vice President (since 2017); Vice President (2008 to 2017) and Chief Compliance Officer (2008 to 2011 and since 2016), Virtus Investment Partners, Inc. and/or certain of its subsidiaries; various officer positions (since 2003) with Virtus affiliates; Senior Vice President (since 2017), Vice President (2011 to 2017) and Chief Compliance Officer (since 2011), Virtus Mutual Fund Family; Senior Vice President (since 2017), Vice President (2010 to 2016) and Chief Compliance Officer (since 2011), Virtus Variable Insurance Trust; Senior Vice President (since 2017), Vice President (2011 to 2017) and Chief Compliance Officer (since 2011), Virtus Global Multi-Sector Income Fund; Senior Vice President (since 2017), Vice President (2012 to 2017) and Chief Compliance Officer (since 2012), Virtus Total Return Fund Inc. and Virtus Global Dividend & Income Fund Inc.; Senior Vice President (since 2017), Vice President (2013 to 2017) and Chief Compliance Officer (since 2013), Virtus Alternative Solutions Trust; Senior Vice President (since 2017), Vice President (2014 to 2017) and Chief Compliance Officer (since 2014), Duff & Phelps Select Energy MLP Fund Inc.; Chief Compliance Officer (since 2015), Virtus ETF Trust II	N/A	N/A

The address for each Trustee and officer is 1540 Broadway, 16th Floor, New York, NY 10036. Each Trustee serves until resignation, death, retirement or removal. Officers are elected yearly by the Trustees.

* As of October 31, 2017, the Fund Complex consisted of the Trust, which consisted of 9 portfolios — Virtus LifeSci Biotech Products ETF (formerly BioShares Biotechnology Products Fund), Virtus LifeSci Biotech Clinical Trials ETF (formerly, BioShares Biotechnology Clinical Trials Fund), iSectors® Post-MPT Growth ETF, Virtus Newfleet Multi-Sector Unconstrained Bond ETF, Virtus WMC Global Factor Opportunities ETF, InfraCap MLPETF, InfraCap REIT Preferred ETF, Reaves Utilities ETF, and Virtus Cumberland Municipal Bond ETF — and Virtus ETF Trust II, which consisted of three portfolios — Virtus Newfleet Dynamic Credit ETF, Virtus Enhanced U.S. Equity ETF and Virtus Enhanced Short U.S. Equity ETF.

** William J. Smalley is an “interested person” as defined in the Investment Company Act of 1940, because he is an employee of the Adviser.

INFORMATION ABOUT PORTFOLIO HOLDINGS

The Funds file their complete schedule of portfolio holdings for their first and third fiscal quarters with the Securities and Exchange Commission (“SEC”) on Form N-Q. The Funds Form N-Q are available without charge, upon request, by calling toll-free at (888) 383-4184. Furthermore, you may obtain the Form N-Q on the SEC’s website at www.sec.gov. The Funds’ portfolio holdings are posted daily on the Funds’ website at www.virtusetfs.com.

The Funds’ premium/discount information that is current as of the most recent month-end is available by visiting www.virtusetfs.com or by calling (888) 383-4184.

INFORMATION ABOUT PROXY VOTING

A description of the policies and procedures the Funds use to determine how to vote proxies relating to portfolio securities is provided in the Statement of Additional Information (“SAI”). The SAI is available without charge upon request by calling toll-free at (888) 383-4184, by accessing the SEC’s website at www.sec.gov, or by accessing the Funds’ website at www.virtusetfs.com.

Information regarding how the Funds voted proxies relating to portfolio securities during the most recent twelve-month period ended June 30th is available by calling toll-free at (888) 383-4184 or by accessing the SEC’s website at www.sec.gov.

REPORT ON JOINT SPECIAL MEETING OF SHAREHOLDERS

A Joint Special Meeting of Shareholders (a “Special Meeting”) of Virtus LifeSci Biotech Clinical Trials Fund and Virtus LifeSci Biotech Products Fund (each a “Fund” and together the “Funds”) was held on August 14, 2017 (after being adjourned from the initial date of July 31, 2017). The Special Meeting was held to approve an amended and restated investment advisory agreement for each Fund and to recommend that the Board change the exchange on which the Funds are listed.

The results were as follows:

Proposal 1:

To approve an amended and restated investment advisory agreement by and between the Trust, on behalf of each Fund, and Virtus ETF Advisers, LLC:

Virtus LifeSci Biotech Clinical Trials Fund:

For: **502,419** Against: **10,962** Abstain: **8,535** Broker Non-Vote: **220,564**

Virtus LifeSci Biotech Products Fund:

For: **446,737** Against: **7,291** Abstain: **14,143** Broker Non-Vote: **192,767**

Proposal 2:

To recommend that the Board change the exchange on which each Fund is listed from the NASDAQ Stock Market to NYSE Arca.

Virtus LifeSci Biotech Clinical Trials Fund:

For: **721,979** Against: **16,940** Abstain: **3,561**

Virtus LifeSci Biotech Products Fund:

For: **631,026** Against: **11,331** Abstain: **18,581**

TAX INFORMATION

For the fiscal year ended October 31, 2017, the Funds make the following disclosures for federal income tax purposes. Below is listed the percentages, or the maximum amount allowable, of its ordinary income dividends (“QDI”) to qualify for the lower tax rates applicable to individual shareholders, and the percentage of ordinary income dividends earned by each Fund which qualifies for the dividends received deduction (“DRD”) for corporate shareholders. The actual percentage of QDI and DRD for the calendar year will be designated in year-end tax statements.

<u>Funds</u>	<u>QDI%</u>	<u>DRD%</u>
InfraCap REIT Preferred ETF	16%	16%
iSectors® Post-MPT Growth ETF.....	100%	100%
Virtus Cumberland Municipal Bond ETF.....	0%	0%
Virtus LifeSci Biotech Clinical Trials ETF	0%	0%
Virtus LifeSci Biotech Products ETF	0%	0%
Virtus Newfleet Multi-Sector Unconstrained Bond ETF	0%	0%
