**Diversification does not guarantee against a loss, and there is no guarantee that a diversified portfolio will outperform a non-diversified portfolio.**

**Past performance is no guarantee of future results and current performance may be higher or lower than the performance shown.** The above table is presented for informational purposes only and is not meant to represent the performance of any Virtus product. Performance of all cited indexes is calculated on a total-return basis with dividends reinvested. Indexes are unmanaged and not available for direct investment.

**Emerging Markets** are represented by the MSCI Emerging Markets Index (net): A free float-adjusted market capitalization-weighted index designed to measure equity market performance in the global emerging markets. **International** is represented by the MSCI EAFE® Index: A free float-adjusted market capitalization-weighted index that measures developed foreign market equity performance, excluding the U.S. and Canada. **Fixed Income** is represented by Bloomberg Barclays U.S. Aggregate Bond Index: Measures the U.S. investment grade fixed rate bond market. **Small-Cap Growth** is represented by the Russell 2000® Growth Index: A market capitalization-weighted index of growth-oriented stocks of the smallest 2,000 companies in the Russell Universe, which comprises the 3,000 largest U.S. companies. **Small-Cap Value** is represented by the Russell 2000® Value Index: A market capitalization-weighted index of value-oriented stocks of the smallest 2,000 companies in the Russell Universe, which comprises the 3,000 largest U.S. companies. **S&P 500®** is a free-float market capitalization-weighted index of 500 of the largest U.S. companies. **Mid-Cap Value** is represented by the Russell Midcap® Value Index: A market capitalization-weighted index of medium-capitalization, value-oriented stocks of U.S. companies. **Mid-Cap Growth** is represented by the Russell Midcap® Growth Index: A market capitalization-weighted index of medium-capitalization, growth-oriented stocks of U.S. companies.

**Large-Cap Growth** is represented by the Russell 1000® Growth Index: A market capitalization-weighted index of growth-oriented stocks of the smallest 2,000 companies in the Russell Universe, which comprises the 3,000 largest U.S. companies. **Large-Cap Value** is represented by the Russell 1000® Value Index: A market capitalization-weighted index of value-oriented stocks of the 1,000 largest companies in the Russell Universe, which comprises the 3,000 largest U.S. companies. **REITs** are represented by the FTSE NAREIT Equity REITs Index: A free-float market capitalization-weighted index measuring equity tax-qualified real estate investment trusts, which meet minimum size and liquidity criteria, that are listed on the New York Stock Exchange, the American Stock Exchange and the NASDAQ National Market System.

**Foreign & Emerging Markets:** Investing internationally, especially in emerging markets, involves additional risks such as currency, political, accounting, economic, and market risk. **Equity Securities:** The market price of equity securities may be affected by financial market, industry, or issue-specific events. Focus on a particular style or on small or medium-sized companies may enhance that risk. **Real Estate Investment:** Investing in REITs may be negatively affected by factors specific to the real estate market, including interest rate, leverage, property, and management. **Credit & Interest:** Debt securities are subject to various risks, the most prominent of which are credit and interest rate risk. The issuer of a security may fail to make payments in a timely manner. Values of debt securities may rise and fall in response to changes in interest rates. This risk may be enhanced with longer-term maturities.

Sector leadership ALSO changes dramatically from year to year.

- > Every market sector, from technology to health care, has its time in the spotlight, but no single sector can claim the spotlight all the time.
- > That's why diversification is key. Balancing your investments across a broad number of sectors can help cushion against big swings in one group or another.
- > Virtus' investment managers invest across a variety of sectors for true diversification.
