Investment Philosophy

We believe that purchasing high-quality businesses with competitive protections at attractive valuations will achieve excess returns over a complete market cycle

Investment Objectives

- To achieve a return meaningfully above that of the Russell 2500™ Index
- To achieve this return objective with a portfolio that exhibits lower overall risk characteristics

Competitive Protection

- Brand/Reputation
- Network Effect
- Scale/Cost Advantage
- Benchmarking Standard
- High Customer Switching Costs
- Barriers to Entry/Unique Asset
- Low Obsolescence Risk

Owner-Oriented Management

- Cultivates Competitive Advantage
- Rational Capital Allocation
- Considers Stakeholder Interests

HIGH QUALITY BUSINESS

- Protect and Grow Market Share
- High Economic Return on Capital
- Business Returns → Shareholder Returns

Examples of High-Quality Business Models

The securities presented on this page are chosen based upon objective, non-performance based criteria and are current holdings of the strategy. Companies are chosen to exemplify diversification. We typically select companies that operate in large, vast industries, but have overwhelming market share for their particular niches. All information is provided for informational purposes only and should not be deemed as a recommendation to purchase the securities mentioned. It should not be assumed that securities recommended in the future will be profitable. A complete list of portfolio holdings and specific security transactions for the preceding 12 months is available upon request. Holdings are subject to change. Individual investors' holdings may differ slightly.

Investment Process Overview

A Business Analyst Approach

Kayne Anderson Rudnick
Investment Management

We source our investment universe in a number of ways

Quantitative Screens

- High return on capital over a full economic cycle
- Long and resilient earnings history
- High return on net operating assets
- Minimal debt

Other Resources

- Research on existing portfolio holdings
- Meetings with companies
- Industry reviews
- Investment conferences
- Third-party research

Research analysts and portfolio managers work together to develop in-depth business knowledge

Qualitative Analysis

Purpose: Determine if competitive advantage exists and evaluate its strength.

- Review regulatory filings, company materials, industry data, and third party research
- Conduct comprehensive interviews with management; contact other relevant parties
- Understand basis of competition within industry
- Assess competitive threats and obsolescence risk: What protects the business?

Financial Analysis

Purpose: Evaluate source, level, and sustainability of economic profitability.

- Seek: High and resilient return on capital
- Seek: Persistent earning power
- Seek: Abundant discretionary cash flow
- Seek: Under-levered balance sheet
- Assess management's capital allocation practices; favor high insider ownership

Valuation Analysis

Purpose: Estimate total return over several year period; compare to other opportunities considering varying levels of certainty

- Consider economic earning power in relation to enterprise value
- In our view, mispricing can be created by: Underfollowed company, investors' over-reaction to short-term challenges, improved competitive position not yet recognized

Investment Guidelines

Position Weights	<ul style="list-style-type: none">• 25-35 holdings• Maximum initial position size is 5% (at cost)• Maximum position size is 10% (at market)
Sector Tolerances	<ul style="list-style-type: none">• Seek broad diversification, but no sector constraints
Non-U.S. Holdings	<ul style="list-style-type: none">• Up to 20%
Holding Period	<ul style="list-style-type: none">• Typically 3-to-5 years, but is often longer• Portfolio turnover typically 25% to 35%
Cash Levels	<ul style="list-style-type: none">• Typically will not exceed 10% once a portfolio is fully invested; review by CIO triggered if over 10%

Sell Discipline

Extended Valuation	<ul style="list-style-type: none">• Significant premium to intrinsic value• Expected annual return insufficient
Portfolio Upgrade	<ul style="list-style-type: none">• Better business• Better price
Acquisition Activity	<ul style="list-style-type: none">• Our holding acquired at an attractive premium• Our holding acquires a company diminishing its business or value
Negative Company or Industry Changes	<ul style="list-style-type: none">• Position review research report written for any of the following conditions:<ul style="list-style-type: none">- Stock price declines 20% or more in a short time period absent a broad market decline- Validity deteriorates for one or more of the reasons for purchase- Credit-quality profile deteriorates• Quality parameters reviewed by the Chief Investment Officer with the Portfolio Managers

4 | Investment Process

Risk Management–Investment Oversight

Kayne Anderson Rudnick
Investment Management

Our risk management begins with our high-quality investment approach

Risk Management

Investment Philosophy	<ul style="list-style-type: none">• Focus on “high-quality” companies• Company’s “business risk” is primary risk control factor
Portfolio Level Controls	<ul style="list-style-type: none">• Broad sector diversification• Individual security weights initiated at 1% to 5% of portfolio
Position Reviews	<ul style="list-style-type: none">• “Position Review” report when a portfolio holding declines 20% absent a broad market decline• Re-validate reasons for original purchase or sell position

Portfolio Monitoring

CIO/PM Meetings	<ul style="list-style-type: none">• Chief Investment Officer and the Portfolio Managers meet to review, discuss, and explain each strategy’s portfolio positioning and its performance
Research Meetings	<ul style="list-style-type: none">• Formal meetings to discuss and evaluate portfolio holdings and overall industry trends

4 | Investment Process

Risk Management—Independent Oversight

Our risk management process also includes independent oversight to ensure that business and investment risk is thoroughly evaluated from multiple viewpoints

Risk and Compliance Committee	Oversees all business and regulatory risk
Portfolio Oversight Committee (Reports to Risk and Compliance Committee)	Oversees all investment and strategy risk
Performance, Analytics & Risk Department	Produces all reporting and quantitative measures of risk
Risk Management Systems	<ul style="list-style-type: none">• FactSet Attribution and Performance Analytics• MSCI Barra Risk Model• ICE Liquidity Risk Management

Portfolio Characteristics

Higher Quality, Stronger, More Consistent Growth, & Better Value
Small-Mid Cap Core Portfolio – As of March 31, 2022

Kayne Anderson Rudnick
Investment Management

	KAR Small-Mid Cap Core	Russell 2500™ Index	
Quality			
Return on Equity—Past 5 Years	23.2%	11.8%	In a market of average businesses, we seek to own protected proprietary businesses that generate exceptional returns on shareholders' capital without employing significant debt.
Total Debt/EBITDA	2.3 x	4.4 x	
Earnings Variability—Past 10 Years	38.7%	76.0%	
Growth			
Earnings Per Share Growth—Past 5 Years	18.7%	12.3%	In a market of cyclical businesses requiring growth capital from fickle markets, we seek to own companies producing self-funded strong, consistent growth sustainable into the future.
Earnings Per Share Growth—Past 10 Years	15.9%	9.4%	
Dividend Per Share Growth—Past 5 Years	9.5%	4.2%	
Dividend Per Share Growth—Past 10 Years	9.7%	7.6%	
Capital Generation—{ROE x (1-Payout)}	18.6%	9.0%	
Value			
P/E Ratio—Trailing 12 Months	24.6 x	27.4 x	And we have historically been able to achieve this high quality and strong growth at a discount valuation to the market.

Peer Comparison

Small-Mid Cap Core Portfolio

Ten Years Ending March 31, 2022

Kayne Anderson Rudnick
Investment Management

This material is deemed supplemental and complements the performance and disclosure at the end of this presentation.

The Small-Mid Cap Core Universe includes all managers categorized in the small-mid cap core asset class by eVestment.

*Returns for the Kayne Anderson Rudnick composite are preliminary and are gross of fees unless otherwise specified. For further details on the composite, please see the disclosure statement in this presentation. Data is obtained from FactSet Research Systems and is assumed to be reliable. **Past performance is no guarantee of future results.** Returns could be reduced, or losses incurred, due to currency fluctuations. Management fees are described in Form ADV Part 2, which is available upon request. Gross annual returns will be reduced by investment management fees and other expenses that may be incurred in the management of the account. Net annual returns have been calculated after the deduction of an assumed maximum annual fee of 3%. The effect of fees on performance would grow at a compounded rate. Over a five-year period, if a \$100,000 portfolio had an annual return of 10%, it would grow to \$161,051. The net compounded effect of a 3% annual investment management fee would total \$20,796 and result in a portfolio value of \$140,255.*

*April 1, 1992

†Performance calculations are for the nine months ended December 31, 1992.

This material is deemed supplemental and complements the performance and disclosure at the end of this presentation.

Returns for the Kayne Anderson Rudnick composite are preliminary. All periods less than one year are total returns and are not annualized. For periods prior to July 1, 2000, the Small-Mid Cap Core composite calculations have been linked to the firm's Small Cap Core composite performance, which represents all taxable and nontaxable, fully discretionary Small Cap Core Portfolios (including cash) under management for at least one full quarter. Beginning on July 1, 2000, only Small-Mid Cap Core Portfolios are included in the composite. For further details on the composite, please see the disclosure statement in this presentation. Data is obtained from FactSet Research Systems and is assumed to be reliable. Numbers may not always add up due to rounding. **Past performance is no guarantee of future results.** Returns could be reduced, or losses incurred, due to currency fluctuations.

IMPORTANT RISK CONSIDERATIONS: Equity Securities: The market price of equity securities may be adversely affected by financial market, industry, or issuer-specific events. Focus on a particular style or on small or medium-sized companies may enhance that risk. **Limited Number of Investments:** Because the portfolio has a limited number of securities, it may be more susceptible to factors adversely affecting its securities than a portfolio with a greater number of securities.

Market Volatility: Local, regional, or global events such as war, acts of terrorism, the speed of infectious illness or other public health issues, recessions, or other events could have a significant impact on the portfolio and its investments, including hampering the ability of the portfolio manager(s) to invest the portfolio's assets as intended.

Biographies

Small-Mid Cap Core Team

Kayne Anderson Rudnick
Investment Management

Douglas S. Foreman, CFA

Chief Investment Officer and Member of the Executive Management Committee

Mr. Foreman has approximately 36 years of investment experience. Before joining Kayne Anderson Rudnick in 2011, Mr. Foreman was Director of Equities at HighMark Capital Management and before that he was Group Managing Director and Chief Investment Officer of U.S. equities at Trust Company of the West (TCW). He earned a B.S. in Marine Engineering from The U.S. Naval Academy and an M.B.A. from Harvard University. Mr. Foreman is a Chartered Financial Analyst charterholder.

KAR (as defined below) claims compliance with the Global Investment Performance Standards (GIPS®) and has prepared and presented this report in compliance with the GIPS® standards. KAR has been independently verified for the period from January 1, 1999 through December 31, 2020.

A firm that claims compliance with the GIPS standards must establish policies and procedures for complying with all the applicable requirements of the GIPS standards. Verification provides assurance on whether the firm's policies and procedures related to composite, as well as the calculation, presentation, and distribution of performance, have been designed in compliance with the GIPS standards and have been implemented on a firm-wide basis.

The Small-Mid Cap Core Wrap Composite has had a performance examination for the period from January 1, 1999 through December 31, 2020. The verification and performance examination reports are available upon request.

GIPS® is a registered trademark of CFA Institute. CFA Institute does not endorse or promote this organization, nor does it warrant the accuracy or quality of the content contained herein.

Kayne Anderson Rudnick Investment Management, LLC ("KAR"), a wholly owned subsidiary of Virtus Investment Partners, Inc., is a registered investment advisor under the Investment Advisers Act of 1940. Registration of an Investment Advisor does not imply any level of skill or training. KAR manages a variety of equity and fixed-income strategies focusing exclusively on securities the firm defines as high quality.

The composite includes all fully discretionary Small-Mid Cap Core Wrap Portfolios. Small-Mid Cap Core Wrap Portfolios are invested in equity securities with market capitalizations consistent with the Russell 2500™ Index, that have market control, rising free cash flow, shareholder-oriented management, strong consistent profit growth and low-debt balance sheets. For comparison purposes, the composite is measured against the Russell 2500™ Index. The Russell 2500™ Index is a market capitalization-weighted index of the 2,500 smallest companies in the Russell Universe, which comprises the 3,000 largest U.S. companies. The index is calculated on a total-return basis with dividends reinvested. Benchmark returns are not covered by the report of the independent verifiers. The inception date of the composite is April 1992. The composite was created in July 2000. Policies for valuing investments, calculating performance, and preparing GIPS Reports are available upon request. The firm's list of composite descriptions, list of broad distribution pooled fund and the list of limited distribution pooled funds descriptions are available upon request.

Beginning on January 1, 2006, sub-advisory wrap fee portfolios are also included in composite results. Each sub-advisory relationship is included in the composite as one account. All portfolios included in this composite for all periods are wrap portfolios.

The standard wrap fee schedule in effect is 3.00% on total assets. Actual management fees charged may vary depending on applicable fee schedules and portfolio size, among other things. Additional information may be found in Part IIA of Form ADV, which is available on request. The performance information is supplied for reference. Past performance is no guarantee of future results. Results will vary among accounts. The U.S. dollar is the currency used to express performance. Performance results include the reinvestment of all income. Prior to December 31, 2005, net annual returns are calculated by deducting 1/4th of an assumed maximum annual wrap fee of 3% from the gross returns on a quarterly basis. Beginning January 1, 2006, net annual returns are calculated using actual fees incurred. If no fee data is provided by wrap sponsors, the maximum annual wrap fee of 3% is used to calculate net of fee performance. Beginning January 1, 2016, net annual returns are calculated by deducting 1/12th of an assumed maximum annual wrap fee of 3% on a monthly basis. Wrap fees include all charges for trading costs, portfolio management, custody and other administrative expenses.

Internal dispersion is calculated using the asset-weighted standard deviation of annual gross returns for accounts in the composite for the entire year. For those years when less than five accounts were included for the full year, no dispersion measure is presented. The three-year annualized ex-post standard deviation measures the variability of the composite (using pure gross returns) and the benchmark for the 36-month period, is presented starting 2012 because prior to January 1, 2010, the composite return was calculated quarterly and 36 monthly returns are not available.
