# Virtus Newfleet Low Duration Income Fund

A: HIMZX

C: PCMZX

I: HIBIX

T: VLDTX

Before you invest, you may want to review the fund's prospectus, which contains more information about the fund and its risks. You can find the fund's prospectus, statement of additional information (SAI), annual report and other information about the fund online at [virtus.com/products/prospectuses](http://virtus.com/products/prospectuses).

You can also get this information at no cost by calling 800-243-1574 or by sending an e-mail to: [virtus.investment.partners@virtus.com](mailto:virtus.investment.partners@virtus.com). If you purchase shares of the fund through a broker-dealer or other financial intermediary (such as a bank), the prospectus and other information will also be available from your financial intermediary.

The fund's prospectus and SAI, both dated April 10, 2017, as supplemented May 8, 2017, are incorporated by reference into this Summary Prospectus.

## Investment Objective

The fund's investment objective is to provide a high level of total return, including a competitive level of current income, while limiting fluctuations in net asset value due to changes in interest rates.

## Fees and Expenses

The tables below illustrate all fees and expenses that you may pay if you buy and hold shares of the fund. You may qualify for sales charge discounts in Class A Shares if you and your family invest, or agree to invest in the future, at least \$50,000 in Virtus Funds. You may qualify for sales charge discounts in Class T Shares if you invest at least \$250,000 in the fund. More information on these and other discounts is available: (i) from your financial advisor or other financial intermediary; (ii) under "Sales Charges" on page 202 of the fund's prospectus; (iii) with respect to purchase of shares through specific intermediaries, in Appendix A to the fund's prospectus, entitled "Intermediary Sales Charge Discounts and Waivers;" and (iv) under "Alternative Purchase Arrangements" on page 107 of the fund's statement of additional information.

Shareholder Fees <i>(fees paid directly from your investment)</i>	Class A	Class C	Class I	Class T
Maximum Sales Charge (load) Imposed on Purchases (as a percentage of offering price)	2.25%	None	None	2.50%
Maximum Deferred Sales Charge (load) (as a percentage of the lesser of purchase price or redemption proceeds)	None	1.00% <sup>(a)</sup>	None	None

Annual Fund Operating Expenses <i>(expenses that you pay each year as a percentage of the value of your investment)</i>	Class A	Class C	Class I	Class T
Management Fees	0.55%	0.55%	0.55%	0.55%
Distribution and Shareholder Servicing (12b-1) Fees	0.25%	1.00%	None	0.25%
Other Expenses	0.30%	0.30%	0.30%	0.30% <sup>(b)</sup>
Total Annual Fund Operating Expenses	1.10%	1.85%	0.85%	1.10%
Less: Fee Waiver and/or Expense Reimbursement <sup>(c)</sup>	(0.35)%	(0.35)%	(0.35)%	(0.35)%
Total Annual Fund Operating Expenses After Expense Reimbursement <sup>(c)</sup>	0.75%	1.50%	0.50%	0.75%

(a) The deferred sales charge is imposed on Class C Shares redeemed during the first year only.

(b) Estimated for current fiscal year, as annualized.

(c) The fund's investment adviser has contractually agreed to limit the fund's total operating expenses (excluding certain expenses, such as front-end or contingent deferred sales charges, taxes, interest, brokerage commissions, unusual or infrequently occurring expenses (such as litigation) and acquired fund fees and expenses, if any) so that such expenses do not exceed 0.75% for Class A Shares, 1.50% for Class C Shares, 0.50% for Class I Shares and 0.75% for Class T Shares through April 30, 2018. Following the contractual period, the adviser may discontinue these expense reimbursement arrangements at any time. Under certain conditions, the adviser may recapture operating expenses reimbursed under these arrangements for a period of three years following the time such reimbursement occurred.

## Example

This example is intended to help you compare the cost of investing in the fund with the cost of investing in other mutual funds. The example assumes that you invest \$10,000 in the fund for the time periods indicated. It shows your costs if you sold your shares at the end of the period or continued to hold them. The example also assumes that your investment has a 5% return each year, that the fund's operating expenses remain the same and that the expense reimbursement arrangement remains in place for the contractual period. Although your actual costs may be higher or lower, based on these assumptions your costs would be:

	Share Status	1 Year	3 Years	5 Years	10 Years
Class A	Sold or Held	\$300	\$533	\$784	\$1,504
Class C	Sold	\$253	\$548	\$968	\$2,141
	Held	\$153	\$548	\$968	\$2,141
Class I	Sold or Held	\$51	\$236	\$437	\$1,017
Class T	Sold or Held	\$325	\$557	\$808	\$1,526

## Portfolio Turnover

The fund pays transaction costs, such as commissions, when it buys and sells securities (or "turns over" its portfolio). A higher portfolio turnover rate may indicate higher transaction costs and may result in higher taxes when fund shares are held in a taxable account. These costs, which are not reflected in annual fund operating expenses or in the example, affect the fund's performance. During the most recent fiscal period, the fund's portfolio turnover rate was 38% of the average value of its portfolio.

## Investments, Risks and Performance

### Principal Investment Strategies

The fund seeks current income with an emphasis on maintaining low volatility and overall short duration (within a range of 1-3 years) by investing primarily in higher quality, more liquid securities across 14 fixed income sectors. Duration represents the interest rate sensitivity of a fixed income fund. The fund seeks to achieve its objective by applying a time-tested approach of active sector rotation, extensive credit research and disciplined risk management designed to capitalize on opportunities across undervalued areas of the fixed income markets.

Under normal circumstances, the fund invests at least 80% of its assets in fixed income debt obligations of various types of issuers, to include some or all of the following:

- Securities issued or guaranteed as to principal and interest by the U.S. Government, its agencies, authorities or instrumentalities;
- Collateralized mortgage obligations (CMOs), real estate mortgage investment conduits (REMICs), and other pass-through securities, including those issued or guaranteed as to principal and interest by the U.S. Government, its agencies or instrumentalities;
- Debt securities issued by foreign issuers, including foreign governments and their political subdivisions, and issuers located in emerging markets;
- Investment-grade securities (primarily of U.S. issuers, secondarily of non-U.S. issuers), which are securities with credit ratings within the four highest rating categories of a nationally recognized statistical rating organization, including short-term securities; and
- High-yield/high-risk debt instruments (so-called "junk bonds"), including bank loans (which are generally floating-rate).

The fund may invest in all or some of these sectors.

### Principal Risks

The fund may not achieve its objective(s), and it is not intended to be a complete investment program. The value of the fund's investments that supports your share value may decrease. If between the time you purchase shares and the time you sell shares the value of the fund's investments decreases, you will lose money. Investment values can decrease for a number of reasons. Conditions affecting the overall economy, specific industries or companies in which the fund invests can be worse than expected, and investments may fail to perform as the subadviser expects. As a result, the value of your

shares may decrease. Purchase and redemption activities by fund shareholders may impact the management of the fund and its ability to achieve its investment objective(s). The redemption by one or more large shareholders or groups of shareholders of their holdings in the fund could have an adverse impact on the remaining shareholders in the fund including by accelerating the realization of capital gains and increasing the fund's transaction costs. The principal risks of investing in the fund are:

- > **Call Risk.** The risk that issuers will prepay fixed rate obligations when interest rates fall, forcing the fund to reinvest in obligations with lower interest rates than the original obligations and otherwise not benefit fully from the increase in value that other fixed income securities experience when interest rates decline.
- > **Credit Risk.** The risk that the issuer of a security will fail to pay interest or principal in a timely manner, or that negative perceptions of the issuer's ability to make such payments will cause the price of the security to decline.
- > **Emerging Market Investing Risk.** The risk that prices of emerging markets securities will be more volatile, or will be more greatly affected by negative conditions, than those of their counterparts in more established foreign markets.
- > **Foreign Investing Risk.** The risk that the prices of foreign securities in the fund's portfolio will be more volatile than those of domestic securities, or will be negatively affected by currency fluctuations, less regulated or liquid securities markets, or economic, political or other developments.
- > **High-Yield/High-Risk Fixed Income Securities (Junk Bonds) Risk.** The risk that the issuers of high-yield/high-risk securities in the fund's portfolio will default, that the prices of such securities will be volatile, and that the securities will not be liquid.
- > **Income Risk.** The risk that income received from the fund will vary widely over the short- and/or long-term and/or be less than anticipated if the proceeds from maturing securities in the fund are reinvested in lower-yielding securities.
- > **Interest Rate Risk.** The risk that when interest rates rise, the values of the fund's debt securities, especially those with longer maturities, will fall.
- > **Loan Risk.** The risks that, in addition to the risks typically associated with high-yield/high-risk fixed income securities, loans (including floating rate loans) in which the fund invests may be unsecured or not fully collateralized, may be subject to restrictions on resale, and/or some loans may trade infrequently on the secondary market. Loans settle on a delayed basis, potentially leading to the sale proceeds of loans not being available to meet redemptions for a substantial period of time after the sale of the loans.
- > **Market Volatility Risk.** The risk that the value of the securities in which the fund invests may go up or down in response to the prospects of individual issuers and/or general economic conditions. Such price changes may be temporary or may last for extended periods.
- > **Mortgage-Backed and Asset-Backed Securities Risk.** The risk that changes in interest rates will cause both extension and prepayment risks for mortgage-backed and asset-backed securities in which the fund invests, or that an impairment of the value of collateral underlying such securities will cause the value of the securities to decrease.

## Performance Information

The Virtus Newfleet Low Duration Income Fund, a series of Virtus Opportunities Trust ("Successor Fund"), is the successor of the Virtus Low Duration Income Fund, a series of Virtus Insight Trust ("Predecessor Fund"), resulting from a reorganization of the Predecessor Fund with and into the Successor Fund on September 23, 2016. The Predecessor Fund and the Successor Fund have identical investment objectives and strategies. The Successor Fund has adopted the past performance of the Predecessor Fund as its own. Therefore, the performance tables below include the performance of the shares of the Predecessor Fund prior to the Virtus Newfleet Low Duration Income Fund's commencement date.

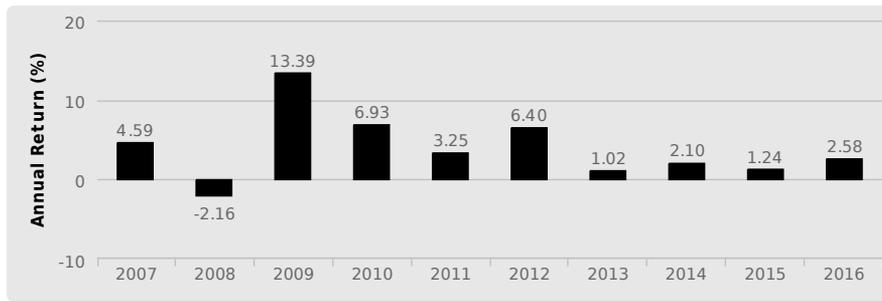

Performance for Class T Shares is not shown here as Class T Shares were not available prior to the date of this prospectus.

The bar chart and table below provide some indication of the potential risks of investing in the fund. The fund's past performance, before and after taxes, is not necessarily an indication of how the fund will perform in the future.

The bar chart shows changes in the fund's performance from year to year over a 10-year period. The table shows how the fund's average annual returns compare to those of a broad-based securities market index. Updated performance information is available at [virtus.com](http://virtus.com) or by calling 800-243-1574.

### Calendar year total returns for Class I Shares

Returns do not reflect sales charges applicable to other share classes and would be lower if they did.

Best Quarter: Q2/2009: 5.42%	Worst Quarter: Q3/2008: -3.18%	Year to Date (3/31/17): 0.83%
------------------------------	--------------------------------	-------------------------------

### Average Annual Total Returns (for the periods ended 12/31/16; includes returns of a predecessor fund)

Returns reflect deduction of maximum sales charges and full redemption at end of periods shown.

	1 Year	5 Years	10 Years
<b>Class I</b>			
Return Before Taxes	2.58%	2.65%	3.86%
Return After Taxes on Distributions	1.66%	1.73%	2.68%
Return After Taxes on Distributions and Sale of Fund Shares	1.46%	1.63%	2.52%
<b>Class A</b>			
Return Before Taxes	0.12%	1.95%	3.37%
<b>Class C</b>			
Return Before Taxes	1.66%	1.65%	2.84%
BofA Merrill Lynch 1-5 Year US Corporate & Government Bond Index (reflects no deduction for fees, expenses or taxes)	1.62%	1.39%	3.08%
Bloomberg Barclays U.S. Intermediate Government/Credit Bond Index (reflects no deduction for fees, expenses or taxes)	2.08%	1.85%	3.84%
Low Duration Income Benchmark(reflects no deduction for fees, expenses or taxes)	2.08%	1.85%	3.84%

Effective February 1, 2017, the fund's primary benchmark is the BofA Merrill Lynch 1-5 Year US Corporate & Government Bond Index. The Index tracks the performance of US dollar denominated investment grade debt publicly issued in the US domestic market, including US Treasury, US agency, foreign government, supranational and corporate securities, with a remaining term to final maturity less than 5 years. The index is calculated on a total return basis. Also effective February 1, 2017, the fund added the Low Duration Income Linked Benchmark. Performance of the Low Duration Income Linked Benchmark prior to February 1, 2017 is that of the Bloomberg Barclays U.S. Intermediate Government/Credit Bond Index and beginning February 1, 2017 it is that of the BofA Merrill Lynch 1-5 Year US Corporate & Government Bond Index. Prior to February 1, 2017, the fund's primary benchmark was the Bloomberg Barclays U.S. Intermediate Government/Credit Bond Index. The fund will no longer use the Bloomberg Barclays U.S. Intermediate Government/Credit Bond Index as an index for performance comparisons. The index is unmanaged and not available for direct investment.

After-tax returns are calculated using the historical highest individual federal marginal income tax rates and do not reflect the impact of state and local taxes. After-tax returns are shown only for Class I Shares; after-tax returns for other classes will vary. Actual after-tax returns depend on the investor's tax situation and may differ from those shown. After-tax returns are not relevant to investors who hold fund shares in tax-deferred accounts or to shares held by non-taxable entities. In certain cases, the Return After Taxes on Distributions and Sale of Fund Shares for a period may be higher than other return figures for the same period. This will occur when a capital loss is realized upon the sale of fund shares and provides an assumed tax benefit that increases the return.

## Management

The fund's investment adviser is Virtus Investment Advisers, Inc. ("VIA").

The fund's subadviser is Newfleet Asset Management, LLC ("Newfleet"), an affiliate of VIA.

## Portfolio Management

- > **David L. Albrycht, CFA**, President and Chief Investment Officer at Newfleet. Mr. Albrycht has served as a Portfolio Manager of the fund since May 2012.
- > **Lisa M. Baribault**, Director and Portfolio Manager at Newfleet. Ms. Baribault has served as a Portfolio Manager of the fund since January 2017.
- > **Benjamin Caron, CFA**, Senior Managing Director and Portfolio Manager at Newfleet. Mr. Caron has served as a Portfolio Manager of the fund since May 2012.

## Purchase and Sale of Fund Shares

Minimum initial investments applicable to Class A, Class C and Class T Shares:

- \$2,500, generally
- \$100 for Individual Retirement Accounts (IRAs), systematic purchase or exchange accounts
- No minimum for defined contribution plans, asset-based fee programs, profit-sharing plans or employee benefit plans

Minimum additional investments applicable to Class A, Class C and Class T Shares:

- \$100, generally
- No minimum for defined contribution plans, asset-based fee programs, profit-sharing plans or employee benefit plans.

For Class I Shares, the minimum initial purchase is \$100,000; there is no minimum for additional purchases.

In general, you may buy or sell shares of the fund by mail or telephone on any business day. You also may buy and sell shares through a financial advisor, broker-dealer or other financial intermediary.

## Taxes

The fund's distributions are taxable to you as either ordinary income or capital gains, except when your investment is through a tax-deferred arrangement, such as a 401(k) plan or an individual retirement account. Such tax-deferred arrangements may be taxed later upon withdrawal of monies from those arrangements.

## Payments to Broker-Dealers and Other Financial Intermediaries

If you purchase the fund through a broker-dealer or other financial intermediary (such as a bank), the fund and its related companies may pay the intermediary for the sale of fund shares and related services. These payments may create a conflict of interest by influencing the broker-dealer or other intermediary and your financial advisor to recommend the fund over another investment. Ask your financial advisor or visit your financial intermediary's Web site for more information.
