This Statement of Additional Information (“SAI”) is meant to be read in conjunction with the prospectus (“Prospectus”) for iSectors<sup>®</sup> Post-MPT Growth ETF (Ticker: PMPT) (the “Fund”), a series of ETFis Series Trust I (the “Trust”), dated the same date as this SAI, which incorporates this SAI by reference in its entirety. Because this SAI is not itself a prospectus, no investment in shares of the Fund should be made solely upon the information contained herein. Copies of the Prospectus for the Fund may be obtained at no charge by writing or calling the Fund at the address or phone number shown above. Capitalized terms used but not defined herein have the same meanings as in the Prospectus. No person has been authorized to give any information or to make any representations other than those contained in this SAI and the Prospectus, and, if given or made, such information or representations may not be relied upon as having been authorized by the Trust. The SAI does not constitute an offer to sell securities.

Portions of the Fund’s financial statements are incorporated into this SAI by reference to the Fund’s most recent annual report to shareholders. You may obtain a copy of the Fund’s annual report at no charge by request to the Fund at the address or phone number noted below.

A copy of the Prospectus for the Fund may be obtained, without charge, by calling (888) 383-0553 or visiting [www.isectorsetfs.com](http://www.isectorsetfs.com), or writing to the Trust, c/o ETF Distributors LLC, 1540 Broadway, New York, NY 10036.

---

## **GENERAL DESCRIPTION OF THE TRUST AND THE FUND**

The ETFs Series Trust I (the “**Trust**”) was organized as a Delaware statutory trust on September 20, 2012 and is registered with the Securities and Exchange Commission (the “**SEC**”) as an open-end management investment company under the Investment Company Act of 1940 (the “**1940 Act**”). The Trust currently consists of 10 investment portfolios, the Fund; BioShares Biotechnology Products Fund (Ticker: BBP); BioShares Biotechnology Clinical Trials Fund (Ticker: BBC); Virtus Cumberland Municipal Bond ETF (Ticker: CUMB); InfraCap MLP ETF (Ticker: AMZA); InfraCap REIT Preferred ETF (Ticker: PFFR); Tuttle Tactical Management Multi-Strategy Income ETF (Ticker: TUTI); Tuttle Tactical Management U.S. Core ETF (Ticker: TUTT); Virtus Newfleet Multi-Sector Unconstrained Bond ETF (Ticker: NFLT); and Reaves Utilities ETF (Ticker: UTES). Other portfolios may be added to the Trust in the future. The Fund is classified as a diversified management investment company under the 1940 Act. The shares of the Fund are referred to herein as “**Fund Shares**” or “**Shares**”. The offering of Shares is registered under the Securities Act of 1933 (the “**Securities Act**”).

The Fund’s investment adviser is Virtus ETF Advisers LLC (the “**Adviser**”). The Adviser has been registered as an investment adviser with the SEC since October 2013. The Fund’s sub-adviser is iSectors<sup>®</sup>, LLC (the “**Sub-Adviser**”). The Sub-Adviser has been registered as an investment adviser with the SEC since October 2008.

The Fund offers and issues Shares at net asset value (the “**NAV**”) only in aggregations of a specified number of Shares (each, a “**Creation Unit**”), generally in exchange for a basket of equity securities included in the Fund’s portfolio (the “**Deposit Securities**”), together with the deposit of a specified cash payment (the “**Cash Component**”). Shares are redeemable only in Creation Units and, generally, in exchange for Deposit Securities and a Cash Component. Creation Units are aggregations of 50,000 Shares of the Fund and are available only to certain large institutions, referred to as “**Authorized Participants**”, that enter into agreements with ETF Distributors LLC. In the event of the liquidation of the Fund, the Trust may lower the number of Shares in a Creation Unit.

## **EXCHANGE LISTING AND TRADING**

Fund Shares trade on the NASDAQ Stock Exchange (the “**Exchange**”) at market prices that may be below, at or above NAV. There can be no assurance that the requirements of the Exchange necessary for the Fund to maintain the listing of its Shares will continue to be met. The Exchange will consider the suspension of trading and delisting of the Shares of the Fund if (i) following the initial 12-month period beginning upon the commencement of trading of Fund Shares, there are fewer than 50 beneficial owners of Shares of the Fund for 30 or more consecutive trading days, (ii) the intra-day NAV of the Fund is no longer calculated or available, or (iii) any other event occurs or condition exists that, in the opinion of the Exchange, makes further dealings on the Exchange inadvisable. The Exchange will remove the Shares of the Fund from listing and trading upon termination of the Fund.

As in the case of other stocks traded on the Exchange, brokers’ commissions on transactions will be based on negotiated commission rates at customary levels.

The Trust reserves the right to adjust the price levels of the Shares in the future to maintain convenient trading ranges for investors. Any adjustments would be accomplished through stock splits or reverse stock splits, which would have no effect on the net assets of the Fund.

## **OTHER INVESTMENT POLICIES**

The following policies supplement the Fund’s investment objectives and policies as described in the Prospectus for the Fund.

**GENERAL INVESTMENT RISKS.** All investments in securities and other financial instruments involve a risk of financial loss. No assurance can be given that the Fund’s investment program will be successful. Investors should carefully review the descriptions of the Fund’s investments and its risks in this SAI and the Prospectus.

**GOLD SECTOR RISK.** Fluctuations in the price of gold resulting from supply and demand imbalances, increased mining, transportation or storage costs or other market forces will have a significant impact on the profitability of

companies in the gold sector. The price of gold may also be affected by changes in political or economic conditions of countries where gold companies are located.

**BASIC MATERIALS SECTOR RISK.** Issuers in the basic materials sector could be adversely affected by commodity price volatility, exchange rates, import controls and increased competition. Production of industrial materials often exceeds demand as a result of over-building or economic downturns, leading to poor investment returns. Issuers in the basic materials sector are at risk for environmental damage and product liability claims and may be adversely affected by changes in world events, political and economic conditions, energy conservation, environmental policies, depletion of resources, technical progress, labor relations and government regulations.

**ENERGY SECTOR RISK.** Companies in the energy sector develop and produce crude oil and natural gas and provide drilling and other energy resources production and distribution related services. Stock prices for these types of companies are affected by supply and demand both for their specific product or service and for energy products and services in general. Changes in worldwide energy prices, exploration and production spending may adversely affect companies in the energy sector. In addition, changes in government regulation, world events and economic conditions can affect these companies, including the policies of various governments regarding exploration and development of oil and gas reserves, advances in exploration and development technology and the political environment of oil-producing regions. In addition, these companies are at risk of civil liability from accidents resulting in injury, loss of life or property, pollution or other environmental damage claims and risk of loss from terrorism and natural disasters. Commodity price volatility, changes in exchange rates, imposition of import controls, increased competition, depletion of resources, development of alternative energy sources, technological developments and labor relations also could affect companies in this sector.

**FINANCIAL SECTOR RISK.** The financial sector can be significantly affected by changes in interest rates, government regulation, the rate of defaults on corporate, consumer and government debt, the availability and cost of capital, and fallout from the housing and sub-prime mortgage crisis.

**HEALTHCARE SECTOR RISK.** Factors such as extensive government regulation, restrictions on government reimbursement for medical expenses, rising costs of medical products, services and facilities, pricing pressure, an increased emphasis on outpatient services, limited number of products, industry innovation, costs associated with obtaining and protecting patents, product liability and other claims, changes in technologies and other market developments can affect companies in the healthcare sector.

**TECHNOLOGY SECTOR RISK.** Factors such as the failure to obtain, or delays in obtaining, financing or regulatory approval, intense competition, product compatibility, consumer preferences, corporate capital expenditure, rapid obsolescence, competition from alternative technologies, and research and development of new products may significantly affect the market value of securities of issuers in the technology sector.

**UTILITIES SECTOR RISK.** Issuers in the utilities sector are subject to a variety of factors that may adversely affect their business or operations, including governmental regulation of rates charged to customers; costs associated with compliance with environmental and other regulations; effects of economic slowdowns and surplus capacity; increased competition from other utility providers; technological innovations that may render existing plants, equipment or products obsolete; and difficulty in obtaining regulatory approval of new technologies

#### **FIXED INCOME RISKS.**

**Corporate and Municipal Debt Securities.** Corporate and municipal debt securities purchased by the Fund may be of any credit quality, maturity or yield. Accordingly, the Fund's debt securities may include "investment grade" securities (those rated at least Baa by Moody's, BBB by S&P or Fitch or, if not rated, of equivalent quality in the Adviser's opinion). In addition, the Fund's debt securities may include lower-rated debt securities including, without limitation, "junk" bonds whose ratings are below investment grade. Debt securities rated Baa by Moody's or BBB by S&P or Fitch may be considered speculative and are subject to risks of non-payment of interest and principal. Debt securities rated lower than Baa by Moody's or lower than BBB by S&P or Fitch are generally considered speculative and subject to significant risks of non-payment of interest and principal and greater market fluctuations than higher-rated debt securities. Lower-rated debt securities are usually issued by companies without long track records of sales and earnings, or by companies with questionable credit strength. The retail secondary market for

these “junk bonds” may be less liquid than that of higher-rated debt securities, and adverse conditions could make it difficult at times to sell certain securities or could result in lower prices than those used in calculating a Fund’s NAV. These risks can reduce the value of the Fund’s shares and the income it earns. Descriptions of the quality ratings of Moody’s, S&P and Fitch are included as [Appendix A](#) to this SAI. While the Adviser utilizes the ratings of various credit rating services as one factor in establishing creditworthiness, it relies primarily upon its own analysis of factors establishing creditworthiness.

**Zero Coupon Securities.** The Fund may purchase zero coupon securities. Zero coupon securities do not pay interest or principal until final maturity, unlike debt securities that provide periodic payments of interest (referred to as a coupon payment). Zero coupon securities are bought at a price below the amount payable at maturity. The difference between the purchase price and the amount paid at maturity represents interest on the zero coupon security. One must wait until maturity to receive interest and principal, which increases the market and credit risks of a zero coupon security. A zero coupon step-up security converts to a coupon security before final maturity.

**Strips (“STRIPS”).** STRIPS are created by separating the income and principal components of a debt instrument and selling them separately. U.S. Treasury STRIPS (Separate Trading of Registered Interest and Principal of Securities) are created when the coupon payments and the principal payment are stripped from an outstanding Treasury bond by the Federal Reserve Bank. Zero coupon U.S. government securities such as STRIPS are debt obligations that are issued or purchased at a significant discount from face value. The discount approximates the total amount of interest the security will accrue and compound over the period until maturity or the particular interest payment date at a rate of interest reflecting the market rate of the security at the time of issuance. STRIPS do not require the periodic payment of interest. These investments benefit the issuer by mitigating its need for cash to meet debt service, but generally require a higher rate of return to attract investors who are willing to defer receipt of cash. These investments may experience greater volatility in market value than U.S. government securities that make regular payments of interest. If the Fund invests in STRIPS, the Fund will accrue income on the investment for tax and accounting purposes, which is distributable to shareholders and which, because no cash is received at the time of accrual, may require the liquidation of other portfolio securities to satisfy the Fund’s distribution obligations, in which case the Fund would forgo the purchase of additional income producing assets with these funds. The value of these instruments tends to fluctuate more in response to changes in interest rates than the value of ordinary interest-paying debt securities with similar maturities. The risk is greater when the period to maturity is longer.

**Debentures.** A debenture is a long-term, unsecured, debt instrument backed only by the integrity of the borrower, not by collateral, and documented by an indenture. Governments often issue debentures, in part because they generally cannot guarantee debt with assets (government assets are public property). The primary risk with this type of investment is that the issuer will default or go into bankruptcy. As an unsecured creditor, in the event of default or bankruptcy, the holder of a debenture does not have a claim against any specific asset(s) of the issuing firm, so the investor will only be paid from the issuer’s assets after the secured creditors have been paid. The Fund may invest in all types of debentures, including, without limitation, corporate and government debentures.

**Demand Notes.** Variable and Floating Rate Demand Notes are notes that bear variable or floating interest rates and carry rights that permit holders to demand payment of the unpaid principal balance plus accrued interest from the issuers or certain financial intermediaries. Variable rate demand notes have a stated maturity in excess of one year, but permit a holder to demand payment of principal plus accrued interest upon a specified number of days notice. Frequently, such obligations are secured by letters of credit or other credit support arrangements provided by banks. The issuer has a corresponding right, after a given period, to prepay in its discretion the outstanding principal of the obligation plus accrued interest upon a specific number of days notice to the holders. The interest rate of a floating rate instrument may be based on a known lending rate, such as a bank’s prime rate, and is reset whenever such rate is adjusted. The interest rate on a variable rate demand note is reset at specified intervals at a market rate. These formulas are designed to result in a market value for the Variable Rate Demand Note or Floating Rate Demand Note that approximates its par value. Variable and Floating Rate Demand Notes are subject to interest rate risks.

**Inverse Floaters.** Inverse floaters are municipal obligations on which the interest rates typically fall as market rates increase and increase as market rates fall. Changes in market interest rates or the floating rate of the security inversely affect the residual interest rate of an inverse floater. As a result, the price of an inverse floater will be considerably more volatile than that of a fixed-rate obligation when interest rates change. Inverse floaters are a form of derivative investment. Certain derivatives can be used to increase or decrease the Fund’s exposure to changing

security prices, interest rates or other factors that affect the value of securities. However, these techniques could result in losses to the Fund if the Adviser judges market conditions incorrectly or employs a strategy that does not correlate well with the Fund's other investments. These techniques can cause losses if the counterparty does not perform its promises. An additional risk of investing in municipal securities that are derivative investments is that their market value could be expected to vary to a much greater extent than the market value of municipal securities that are not derivative investments but have similar credit quality, redemption provisions and maturities.

**Private Activity Bonds.** Private activity bonds are generally revenue bonds payable not from general taxes, but from the revenues derived from a particular facility or class of facilities or, in some cases, from the proceeds of a special excise or other specific revenue source, that do not generally carry the pledge of the credit of the issuing municipality. Interest paid from private activity bonds is generally taxable as ordinary income and, if the proceeds from private activity bonds are used for the construction, repair or improvement of privately operated industrial or commercial facilities, the interest paid on such bonds may be excluded from gross income for U.S. federal income tax purposes, although current federal tax laws place substantial limitations on the size of these issues. Sizable investments in these obligations could involve an increased risk to the Fund should any of the related facilities experience financial difficulties. The obligations of issuers may become subject to laws enacted in the future by Congress, state legislatures, or local governments of referenda extending the time for payment of principal or interest, or imposing other constraints upon enforcement of such obligations or upon the ability of municipalities to levy taxes. Furthermore, as a result of legislation or other conditions, the power or ability of any issuer to pay, when due, the principal of and interest on its municipal obligations may be materially affected.

#### **EXCHANGE TRADED FUNDS AND INVESTMENTS IN OTHER INVESTMENT COMPANIES.**

**Exchange Traded Funds ("ETFs").** The Fund may invest in or sell short ETFs. The shares of an ETF may be assembled in a block (typically 50,000 shares) known as a creation unit and redeemed in kind for a portfolio of the underlying securities (based on the ETF's NAV) together with a cash payment generally equal to accumulated dividends as of the date of redemption. Conversely, a creation unit may be purchased from the ETF by depositing a specified portfolio of the ETF's underlying securities, as well as a cash payment generally equal to accumulated dividends of the securities (net of expenses) up to the time of deposit. The Fund intends to be a short-term investor in ETFs, but does not intend to purchase and redeem creation units to take advantage of short-term arbitrage opportunities. However, the Fund may redeem creation units for the underlying securities (and any applicable cash), and may assemble a portfolio of the underlying securities and use it (and any required cash) to purchase creation units, if the Sub-Adviser believes it is in the Fund's interest to do so. The Fund's ability to redeem creation units may be limited by the 1940 Act, which provides that the ETFs will not be obligated to redeem shares held by the Fund in an amount exceeding one percent of their total outstanding securities during any period of less than 30 days.

There is a risk that the underlying ETFs in which the Fund invests may terminate due to extraordinary events that may cause any of the service providers to the ETFs, such as the trustees or sponsors, to close or otherwise fail to perform their obligations to the ETFs. Also, because the ETFs in which the Fund intends to principally invest may be granted licenses by agreement to use various indices as a basis for determining their compositions and/or otherwise to use certain trade names, the ETFs may terminate if such license agreements are terminated. In addition, an ETF may terminate if its net assets fall below a certain amount. Although the Fund believes that, in the event of the termination of an underlying ETF, it will be able to invest instead in shares of an alternate ETF tracking the same market index or another market index within the same general market, there is no guarantee that shares of an alternate ETF would be available for investment at that time.

Investments in ETFs involve certain inherent risks generally associated with investments in conventional registered investment companies (e.g., mutual funds) that hold a portfolio of securities including, without limitation: (1) risks that the general level of security prices for the ETF's investment strategy may decline, thereby adversely affecting the value of each share of the ETF; (2) an index-based ETF may not fully replicate the performance of its benchmark index because of the temporary unavailability of certain index securities in the secondary market or discrepancies between the ETF and the index with respect to the weighting of securities or number of stocks held; and (3) an index-based ETF may also be adversely affected by the performance of the specific index, market sector or group of industries on which it is based.

In addition, ETFs are subject to the following risks that do not apply to conventional funds: (1) the market price of an ETF's shares may trade at a discount to its NAV; (2) an active trading market for an ETF's shares may not develop or be maintained; (3) trading of an ETF's shares may be halted if the listing exchange deems such action appropriate; and (4) ETF shares may be delisted from the exchange on which they trade, or activation of "circuit breakers" (which are tied to large decreases in stock prices) may halt trading temporarily. ETFs are also subject to the risks of the underlying securities or sectors in which the ETF is designed to track or invest.

**Other Investment Companies.** Under the 1940 Act, the Fund may not acquire shares of another investment company (ETFs or other investment companies) if, immediately after such acquisition, the Fund and its affiliated persons would hold more than 3% of the ETF's or investment company's total outstanding stock ("**3% Limitation**"). Accordingly, the Fund is subject to the 3% Limitation unless (i) the ETF or the Fund has received an order for exemptive relief from the 3% Limitation from the SEC that is applicable to the Fund; and (ii) the ETF and the Fund take appropriate steps to comply with any conditions in such order. The SEC has issued such exemptive orders to numerous ETFs and their investment advisers, which permit investment companies to invest in such ETFs ("**Exempted ETFs**") beyond the 3% Limitation, subject to certain terms and conditions, including, without limitation, that such investment companies enter into an agreement with the Exempted ETF.

To the extent the 3% Limitation applies to certain ETFs, that limitation may prevent the Fund from allocating its investments in the manner that the Sub-Adviser considers optimal, or cause the Sub-Adviser to select a similar basket of stocks (pre-selected groups of securities related by index or sector made available through certain brokers at a discount brokerage rate) ("**Stock Baskets**") or a similar index-based mutual fund or other investment company as an alternative. The Fund's investments in other investment companies will be subject to the same 3% Limitation described above.

Under the 1940 Act, to the extent that the Fund relies upon Section 12(d)(1)(F) in purchasing securities issued by another investment company, the Fund must either seek instructions from its shareholders with regard to the voting of all proxies with respect to its investment in such securities (ETFs and other investment companies) and vote such proxies only in accordance with the instructions, or vote the shares held by it in the same proportion as the vote of all other holders of the securities. In the event that there is a vote of ETF or other investment company shares held by the Fund, the Fund intend to vote such shares in the same proportion as the vote of all other holders of such securities.

**COLLATERALIZED DEBT OBLIGATIONS ("CDOs").** The Fund may invest in CDOs. A CDO is a security backed by a pool of bonds, loans and other debt obligations. CDOs are not limited to investing in one type of debt and accordingly, a CDO may own corporate bonds, commercial loans, asset-backed securities, residential mortgage-backed securities, commercial mortgage-backed securities, and emerging market debt. The CDO's securities are typically divided into several classes, or bond tranches, that have differing levels of investment grade or credit tolerances. Most CDO issues are structured in a way that enables the senior bond classes and mezzanine classes to receive investment-grade credit ratings. Credit risk is shifted to the most junior class of securities. If any defaults occur in the assets backing a CDO, the senior bond classes are first in line to receive principal and interest payments, followed by the mezzanine classes and finally by the lowest rated (or non-rated) class, which is known as the equity tranche. Similar in structure to a collateralized mortgage obligation (described above) CDOs are unique in that they represent different types of debt and credit risk.

**COLLATERALIZED LOAN OBLIGATIONS ("CLOs").** The Fund may invest in CLOs, which are debt instruments backed solely by a pool of other debt securities. The risks of an investment in a CLO depend largely on the type of the collateral securities and the class of the CLO in which the Fund invests. Some CLOs have credit ratings, but are typically issued in various classes with various priorities. Normally, CLOs are privately offered and sold (that is, they are not registered under the securities laws) and may be characterized by the Fund as illiquid securities; however, an active dealer market may exist for CLOs that qualify for Rule 144A transactions. In addition to the normal interest rate, default and other risks of fixed income securities, CLOs carry additional risks, including, without limitation, the possibility that distributions from collateral securities will not be adequate to make interest or other payments, the quality of the collateral may decline in value or default, the Fund may invest in CLOs that are subordinate to other classes, values may be volatile, and disputes with the issuer may produce unexpected investment results.

**CONVERTIBLE SECURITIES.** In addition to common and preferred stocks, the Fund may invest directly or indirectly in securities convertible into common stock. Convertible securities eligible for purchase by the Fund include, without limitation, convertible bonds, convertible preferred stocks and warrants. Convertible securities are subject to risks associated with the performance of the company underlying the securities, as well as the underlying instruments.

**EQUITY SECURITIES.** The Fund may invest in equity securities, both directly and indirectly through investment in shares of ETFs, other investment companies, and other types of securities and instruments described in this SAI and in the Prospectus. The equity portion of the Fund's portfolio may include common stocks traded on securities exchanges or on the over-the-counter market. In addition to common stocks, the equity portion of the Fund's portfolio may also include preferred stocks, convertible preferred stocks, convertible bonds or other equity securities. Prices of equity securities in which the Fund invests may fluctuate in response to many factors, including, but not limited to, the activities of the individual companies whose securities the Fund owns, general market and economic conditions, interest rates and specific industry changes. Such price fluctuations subject the Fund to potential losses. In addition, regardless of any one company's particular prospects, a declining stock market may produce a decline in prices for all equity securities, which could also result in losses for the Fund. Market declines may continue for an indefinite period of time, and investors should understand that during temporary or extended bear markets, the value of equity securities will decline.

**Investments in Companies with Business Related to Commodities.** As explained under "Fundamental Restrictions" below, the Fund does not invest directly in commodities. However, the Fund may from time to time invest in securities of companies whose business is related to commodities, or in registered investment companies or other companies that invest directly or indirectly in commodities. For example, the Fund may invest in companies whose business is related to oil or natural gas production or registered investment companies or publicly or privately traded companies that invest in securities of companies that produce crude oil or natural gas and related instruments (including, without limitation, the underlying commodities). Investments in equity securities of companies involved in producing commodities, and the value of the investment companies and other companies that invest in commodities, are subject to a number of risks. For example, the prices of commodities can make sharp movement, up or down, in response to cyclical economic conditions, political events or the monetary policies of various countries, any of which may adversely affect the value of companies whose business is related to such commodities, or the value of investment companies and other companies investing in such business or commodities. Furthermore, such companies are subject to risks related to fluctuations of prices and perceptions of value in commodities markets generally.

**Preferred Stock.** Preferred stocks are securities that represent an ownership interest providing the holder with claims on the issuer's earnings and assets before common stock owners but after bond owners. Unlike debt securities, the obligations of an issuer of preferred stock, including, without limitation, dividend and other payment obligations, may not typically be accelerated by the holders of such preferred stock on the occurrence of an event of default or other non-compliance by the issuer of the preferred stock. Preferred stocks may include the obligation to pay a stated dividend. The price of preferred stocks could depend more on the size of the dividend than on the company's performance. If a company fails to pay the dividend, its preferred stock is likely to drop in price. Changes in interest rates can also affect the price of preferred stock.

**Warrants and Rights.** Warrants are essentially options to purchase equity securities at specific prices and are valid for a specific period of time. Rights are similar to warrants but generally have a short duration and are distributed directly by the issuer to its shareholders. The holders of warrants and rights have no voting rights, and receive no dividends, with respect to the equity interests underlying warrants or rights, and will have no rights with respect to the assets of the issuer, until the warrant or right is exercised. Investments in warrants and rights involve certain risks, including, without limitation, the possible lack of a liquid market for resale, potential price fluctuations as a result of speculation or other factors, and failure of the price of the underlying security to reach or have reasonable prospects of reaching a level at which the warrant or right can be prudently exercised (in which event the warrant or right may expire without being exercised, resulting in a loss of the Fund's entire investment therein).

**Real Estate Securities.** The Fund will not invest directly in real estate, but may invest in readily marketable securities issued by companies that invest in real estate or interests therein. The Fund may also invest in readily marketable interests in real estate investment trusts ("**REITs**"). REITs are generally publicly traded on national

stock exchanges and in the over-the-counter market and have varying degrees of liquidity. Investments in real estate securities are subject to risks inherent in the real estate market, including, without limitation, risks related to changes in interest rates, possible declines in the value of and demand for real estate, adverse general and local economic conditions, possible lack of availability of mortgage funds, overbuilding in a given market and environmental problems.

**Money Market Funds.** In order to maintain sufficient liquidity, to implement investment strategies or for temporary defensive purposes, the Fund may invest a significant portion of its assets in shares of one or more money market funds. Generally, money market funds are registered investment companies that seek to earn income consistent with the preservation of capital and maintenance of liquidity by investing primarily in high quality money market instruments, including, without limitation, U.S. government obligations, bank obligations and high-grade corporate instruments. An investment in a money market fund is not insured or guaranteed by the Federal Deposit Insurance Company or any other governmental agency, entity or person. While investor losses in money market funds have been rare, they are possible. In addition, the Fund will incur additional indirect expenses due to acquired fund fees and other costs to the extent it invests in shares of money market funds.

**MONEY MARKET INSTRUMENTS.** The Fund may invest directly and indirectly in money market instruments including, without limitation, U.S. Government obligations or corporate debt obligations (including, without limitation, those subject to repurchase agreements). Money market instruments also may include, without limitation, Banker's Acceptances and Certificates of Deposit of domestic branches of banks, Commercial Paper, and Master Notes. **Banker's Acceptances** are time drafts drawn on and "accepted" by a bank. When a bank "accepts" such a time draft, it assumes liability for its payment. When the Fund acquires a Banker's Acceptance, the bank that "accepted" the time draft is liable for payment of interest and principal when due. The Banker's Acceptance carries the full faith and credit of such bank. A **Certificate of Deposit** is an unsecured, interest bearing debt obligation of a bank. **Commercial Paper** is an unsecured, short-term debt obligation of a bank, corporation, or other borrower. Commercial Paper maturity generally ranges from two to 270 days and is usually sold on a discounted basis rather than as an interest-bearing instrument. The Fund will invest directly in Commercial Paper only if it is rated in one of the top two rating categories by Moody's, S&P or Fitch or, if not rated, is of equivalent quality in the Sub-Adviser's opinion. Commercial Paper may include Master Notes of the same quality. **Master Notes** are unsecured obligations which are redeemable upon demand of the holder and which permit the investment of fluctuating amounts at varying rates of interest. Master Notes may be acquired by the Fund through the Master Note program of the Fund's custodian bank, acting as administrator thereof. The Sub-Adviser will monitor, on a continuous basis, the earnings power, cash flow and other liquidity ratios of the issuer of each Master Note held by the Fund.

**RISK OF SECURITIES LENDING.** The Fund may lend portfolio securities to broker-dealers and other financial institutions provided that such loans are at all times secured by collateral that is at least equal to the market value, plus accrued interest, determined daily, of the loaned securities and such loans are callable at any time by the Fund. The advantage of such loans is that the Fund continues to receive the interest or dividends on the loaned securities, while at the same time earning interest on the collateral which is invested in short-term obligations. The Fund may pay reasonable finders', administrative and custodial fees in connection with loans of its securities. There is no assurance as to the extent to which securities loans can be effected.

**SHORT SALES OF SECURITIES.** The Fund may make short sales, which are transactions in which the Fund sells a security it does not own in anticipation of a decline in the market value of that security. To complete a short sale transaction, the Fund will borrow the security from a broker-dealer, which generally involves the payment of a premium and transaction costs. The Fund then sells the borrowed security to a buyer in the market. The Fund will then cover the short position by buying shares in the market either (i) at its discretion or (ii) when called by the broker-dealer lender. Until the security is replaced, the Fund is required to pay the broker-dealer lender any dividends or interest that accrue during the period of the loan. In addition, the net proceeds of the short sale will be retained by the broker to the extent necessary to meet regulatory or other requirements, until the short position is closed out.

The Fund will incur a loss as a result of a short sale if the price of the security increases between the date of the short sale and the date on which the Fund replaces the borrowed security. The Fund will realize a gain if the security declines in price between those dates. The amount of any gain will be decreased, and the amount of any loss increased by the amount of the premium, dividends, interest or expenses the Fund may be required to pay in

connection with a short sale. When the Fund makes a short sale, the Fund will segregate liquid assets (such as cash, U.S. government securities, or equity securities) on the Fund's books and/or in a segregated account at the Fund's custodian or broker (or an affiliate thereof) in an amount sufficient to cover the current value of the securities to be replaced as well as any dividends, interest and/or transaction costs due to the broker-dealer lender, to the extent such deposit is required by applicable law and/or the parties involved in the transaction. In determining the amount to be segregated, any securities that have been sold short by the Fund will be marked to market daily. To the extent the market price of the security sold short increases and more assets are required to meet the Fund's short sale obligations, additional assets will be segregated to ensure adequate coverage of the Fund's short position obligations.

In addition, the Fund may make short sales "against the box," i.e., when the Fund sells a security short while owning securities equivalent in kind and amount to the securities sold short (or securities convertible or exchangeable into such securities) and will hold such securities while the short sale is outstanding. The Fund will incur transaction costs, including, without limitation, interest, in connection with opening, maintaining and closing short sales against the box.

**ILLIQUID INVESTMENTS.** The Fund may invest up to 15% of its net assets in illiquid securities, which are investments that cannot be sold or disposed of in the ordinary course of business within seven days at approximately the prices at which they are valued. Under the supervision of the Board of Trustees of the Trust (the "**Board**"), the Sub-Adviser determines the liquidity of the Fund's investments, and through reports from the Sub-Adviser, the Board monitors investments in illiquid instruments. In determining the liquidity of the Fund's investments, the Sub-Adviser may consider various factors including, without limitation: (i) the frequency of trades and quotations; (ii) the number of dealers and prospective purchasers in the marketplace; (iii) dealer undertakings to make a market; (iv) the nature of the security (including, without limitation, any demand or tender features); and (v) the nature of the marketplace for trades (including, without limitation, the ability to assign or offset the Fund's rights and obligations relating to the investment). If through a change in values, net assets or other circumstances, the Fund were in a position where more than 15% of its net assets were invested in illiquid securities, it would seek to take appropriate steps to protect liquidity. An investment in illiquid securities poses risks of potential delays in resale and uncertainty in valuation. Limitations on resale may have an adverse effect on the marketability of portfolio securities and the Fund may be unable to dispose of illiquid securities promptly or at reasonable prices.

**RESTRICTED SECURITIES.** Within its limitations on investment in illiquid securities, the Fund may purchase restricted securities that generally can be sold in privately negotiated transactions, pursuant to an exemption from registration under the federal securities laws or in a registered public offering. Where registration is required for a restricted security held by the Fund, the Fund may be obligated to pay all or part of the registration expense, and a considerable period may elapse between the time it decides to seek registration and the time the Fund may be permitted to sell a security under an effective registration statement. If during such a period adverse market conditions were to develop, the Fund might obtain a less favorable price than prevailed when it decided to seek registration of the security.

**TEMPORARY DEFENSIVE POSITIONS.** The Fund may, from time to time, take temporary defensive positions that are inconsistent with its principal investment strategies in an attempt to respond to adverse market, economic, political or other conditions. In such circumstances, the Fund may also hold up to 100% of its portfolio in cash and cash equivalent positions. When the Fund takes a temporary defensive position, the Fund may not be able to achieve its investment objective.

**BORROWING.** The Fund may, subject to the restrictions of the 1940 Act, borrow money from banks. In the event the Fund should ever borrow money under these conditions, such borrowing could increase the Fund's costs and thus reduce the value of the Fund's assets. The 1940 Act presently allows the Fund to borrow from any bank (including, without limitation, pledging, mortgaging or hypothecating assets) provided that, immediately after any such borrowing, there is an asset coverage of at least 300% for all such borrowings, and provided further that, in the event that the Fund's asset coverage at any time falls below 300%, the Fund reduce its existing borrowings (within three days, excluding Sundays and holidays) to the extent necessary to comply with the foregoing limitation.

**CYBERSECURITY RISK.** The Fund, like all companies, may be susceptible to operational and information security risks, or risks of catastrophic systems failures by critical service providers. Cybersecurity or critical systems

failures or breaches of the Fund, its service providers, Authorized Participants or the issuers of securities in which the Fund invests, have the ability to cause disruptions, impact business operations and impede trading, potentially resulting in financial losses, the inability of Authorized Participants to process transactions, violations of applicable privacy and other laws, regulatory fines, penalties, reputational damage, reimbursement or other compensation costs, and/or additional compliance costs. The Fund and its shareholders could be negatively impacted as a result.

### **INVESTMENT LIMITATIONS**

The Fund has adopted the following investment limitations, which cannot be changed without approval by holders of a majority of its outstanding voting Shares. A “majority” for this purpose means the lesser of (i) 67% of the Fund’s outstanding Shares represented in person or by proxy at a meeting at which more than 50% of its outstanding Shares are represented; or (ii) more than 50% of the Fund’s outstanding Shares. Unless otherwise indicated, percentage limitations apply at the time of purchase of the applicable securities.

**FUNDAMENTAL RESTRICTIONS.** As a matter of fundamental policy, the Fund may not:

- (1) issue senior securities, except as permitted by the 1940 Act;
- (2) borrow money (including, without limitation, borrowing to meet redemptions), except to the extent permitted under the 1940 Act;
- (3) pledge, mortgage or hypothecate its assets;
- (4) act as underwriter except to the extent that, in connection with the disposition of portfolio securities, the Fund may be deemed to be an underwriter under certain federal securities laws;
- (5) make loans, provided that the Fund may lend its portfolio securities in an amount up to 33⅓% of total Fund assets;
- (6) purchase or sell real estate or interests in real estate; provided, however, that the Fund may purchase and sell securities which are secured by real estate and securities of companies which invest or deal in real estate (including, without limitation, investments in REITs);
- (7) invest 25% or more of its total assets in securities of issuers in any particular industry; or
- (8) invest in commodities.

**NON-FUNDAMENTAL RESTRICTIONS.** The following investment limitations are not fundamental and may be changed by the Board without shareholder approval. As a matter of non-fundamental policy, the Fund may not:

- (1) purchase securities on margin (but the Fund may obtain such short-term credits as may be necessary for the clearance of transactions);
- (2) make investments for the purpose of exercising control or management over a portfolio company;
- (3) invest in securities of other registered investment companies, except as permitted under the 1940 Act;
- (4) invest in interests in oil, gas or other mineral exploration or development programs, although the Fund may invest in the common stock of companies that invest in or sponsor such programs;
- (5) purchase warrants if as a result the Fund would then have more than 5% of its total net assets (taken at the lower of cost or current value) invested in warrants; or

- (6) invest more than 15% of its net assets in illiquid securities.

With respect to the fundamental and non-fundamental investment restrictions above, if a percentage limitation is adhered to at the time of investment, a later increase or decrease in percentage resulting from any change in value or net assets will not result in a violation of such restriction (i.e., percentage limitations are determined at the time of purchase); provided, however, that the treatment of the fundamental restrictions related to borrowing money and issuing senior securities are exceptions to this general rule.

With respect to the above fundamental investment restriction on borrowing money, the entry into options, forward contracts, futures contracts, including, without limitation, those relating to indices, and options on futures contracts or indices will not constitute borrowing.

With respect to the above fundamental investment restriction on pledging, mortgaging or hypothecating assets, any such activity to the extent necessary to secure permitted borrowings and to the extent related to the deposit of assets in escrow in connection with (i) writing covered put or call options, (ii) the purchase of securities on a when-issued or forward commitment basis, or (iii) collateral or initial or variation margin arrangements with respect to options, forward contracts, futures contracts (including, without limitation, those relating to indices), or options on futures contracts or indices will not be considered pledging, mortgaging or hypothecating assets.

With respect to the above fundamental investment restriction on making loans, investment in U.S. government obligations, short-term commercial paper, certificates of deposit, bankers' acceptances and repurchase agreements will not be deemed to be the making of a loan.

With respect to the above fundamental investment restriction regarding industry concentration, securities of the U.S. Government (including, without limitation, its agencies and instrumentalities), tax-exempt securities of state or municipal governments and their political subdivisions and investments in other registered investment companies are not considered to be issued by members of any industry; and, if the Fund invests in a revenue bond tied to a particular industry, the Fund will consider such investment to be issued by a member of the industry to which the revenue bond is tied.

With respect to the above fundamental investment restriction on investments in commodities, the purchase or sale by the Fund of options, forward contracts, futures contracts (including, without limitation, those relating to indices), options on futures contracts or indices or interests in equity securities issued by companies (including, without limitation, investment companies) that hold or invest in one or more commodities as their sole or principal business activity will not be considered an investment in commodities.

With respect to the above non-fundamental investment restriction on purchasing securities on margin, short sales of securities and futures trades, forward contracts or similar trades requiring margin deposits or other use of a margin account will not be considered purchasing securities on margin.

The 1940 Act allows the Fund to borrow from any bank (including, without limitation, pledging, mortgaging or hypothecating assets) in an amount up to 33 $\frac{1}{3}$ % of its total assets and the Fund will, to the extent necessary, reduce its existing borrowings (within three days, excluding Sundays and holidays) to comply with the provisions of the 1940 Act.

#### **MANAGEMENT AND OTHER SERVICE PROVIDERS**

The Board is responsible for the supervision and oversight of the Fund. The Board approves all significant agreements between the Trust, on behalf of the Fund, and those companies that furnish services to the Fund; reviews the performance of the Fund; and oversees the business activities of the Fund. This section of the SAI provides information about the persons who serve as trustees ("**Trustees**") and executive officers to the Trust, as well as the entities that provide services to the Trust.

**TRUSTEES AND OFFICERS.** Following are the Trustees and executive officers of the Trust, their years of birth and addresses, their present positions with the Trust, and their principal occupations during the past five years. Those

Trustees who are “interested persons” as defined in the 1940 Act (“**Interested Trustees**”) and those Trustees who are not “interested persons” as defined in the 1940 Act (“**Independent Trustees**”), are identified in the table. The address of each Trustee and executive officer of the Trust, unless otherwise indicated, is 1540 Broadway, New York, New York 10036.

Name and Year of Birth	Position(s) held with Trust	Length of Time Served	Principal Occupation(s) During Past Five Years	Number of Portfolios in Fund Complex Overseen by Trustee*	Other Directorships Held by Trustee During Past Five Years
<b>INDEPENDENT TRUSTEES</b>					
James Simpson Year of Birth: 1970	Trustee	Since Inception	President, ETP Resources, LLC (since 2009) (a financial services consulting company)	13	Trustee (since 2015), Virtus ETF Trust II (3 portfolios)
Robert S. Tull Year of Birth: 1952	Trustee	Since Inception	Independent Consultant (since 2013); Chief Operating Officer, Factor Advisors, LLC (2010-2013)	13	Trustee (since 2015), Virtus ETF Trust II (3 portfolios)
Stephen O’Grady Year of Birth: 1946	Trustee	Since 2014	Lead Market Maker, GFI Group (2011-2012); Partner, Kellogg Capital Markets (2004-2011)	13	Trustee (since 2015), Virtus ETF Trust II (3 portfolios); Trustee (2013-2015), Greenhaven Continuous Commodity ETF (GCC); Trustee (since 2014), Acacia Group LLC; Trustee (since 2014), ETFS Trust (4 portfolios)
Myles J. Edwards Year of Birth: 1961	Trustee	Since 2016	General Counsel, CCO and COO, Shufro, Rose & Co., LLC (since 2014); General Counsel and CCO, Constellation Wealth Advisers, LLC (2011 – 2014)	13	Trustee (since 2015), Virtus ETF Trust II (3 portfolios)
<i>*The Fund Complex consists of the Trust and Virtus ETF Trust II.</i>

Brinton W. Frith Year of Birth: 1969	Treasurer and Chief Financial Officer	Since Inception	Managing Director, Virtus ETF Solutions LLC (since 2013); Treasurer, ETFis Series Trust I (since 2012); Treasurer and Chief Financial Officer (since 2015), Virtus ETF Trust II; President, Javelin Investment Management, LLC (2008-2013)	N/A	N/A
Nancy J. Engberg Year of Birth: 1956	Chief Compliance Officer	Since 2015	Vice President (since 2008) and Chief Compliance Officer (2008 to 2011 and since 2016), Virtus Investment Partners, Inc. and/or certain of its subsidiaries; various officer positions (since 2003) with Virtus affiliates; Vice President and Chief Compliance Officer (since 2011), Virtus Mutual Fund Complex; Vice President (since 2010) and Chief Compliance Officer (since 2011), Virtus Variable Insurance Trust; Vice President and Chief Compliance Officer (since 2011), Virtus Closed-End Funds; Vice President and Chief Compliance Officer (since 2013), Virtus Alternative Solutions Trust; Chief Compliance Officer (since 2015), ETFis Series Trust I; Chief Compliance Officer (since 2015), Virtus ETF Trust II.	N/A	N/A
Kevin J. Carr Year of Birth: 1954	Secretary	Since 2015	Senior Vice President (since 2009), Vice President, Counsel and Secretary (2008 to 2009), Virtus Investment Partners, Inc. and/or certain of its subsidiaries; various senior officer positions (since 2005) with Virtus affiliates; Senior Vice President (since 2013), Vice President (2005 to 2013), Chief Legal Officer, Counsel and Secretary (since 2005), Virtus Mutual Fund Complex; Senior Vice President (2013	N/A	N/A

		to 2014), Vice President (2012 to 2013) and Assistant Secretary (since 2012), Secretary and Chief Legal Officer (2005 to 2012), The Zweig Fund, Inc. and Virtus Global Dividend & Income Fund Inc.; Assistant Secretary (since 2013), Vice President, Chief Legal Officer, Counsel and Secretary (2010 to 2013), Virtus Variable Insurance Trust; Vice President and Assistant Secretary (since 2011), Duff & Phelps Global Utility Income Fund Inc.; Senior Vice President and Assistant Secretary (2013 to 2014), Vice President and Assistant Secretary (2012 to 2013), Vice President, Chief Legal Officer, Counsel and Secretary (2011 to 2012), Virtus Closed-End Funds; Assistant Secretary (since 2013), Virtus Alternative Solutions Trust; Secretary (since 2015), ETFis Series Trust I; and Secretary (since 2015), Virtus ETF Trust II.	
--	--	---	--

**Board Structure.** The Trust’s Board includes four Independent Trustees and one Interested Trustee, Mr. Smalley, who is Chairman of the Board. Each Trustee serves an indefinite term, until a successor is elected, qualified and serving as a Trustee. The Board has not appointed an Independent Trustee to serve as lead Independent Trustee. The Board believes this structure is appropriate because, among other things, the Board’s current small size and the small number of funds in the Trust permit Trust management to communicate with each Independent Trustee as and when needed, and permit each Independent Trustee to be involved in each committee of the Board (each a “**Committee**”) as well as each Board function. The Board may consider appointing an independent Chairman or a lead Independent Trustee in the future, particularly if the Board’s size or the Trust’s complexity materially increases.

With respect to risk oversight, the Board holds four regular meetings each year to consider and address matters involving the Trust and the Fund. During these meetings, the Board receives reports from the Adviser, the Trust’s sub-advisers, Trust management, the Fund’s administrator, transfer agent and distributor, and the Trust’s Chief Compliance Officer (the “**CCO**”), on regular quarterly items and, where appropriate and as needed, on specific issues. As part of its oversight function, the Board also may hold special meetings or communicate directly with Trust management or the CCO to address matters arising between regular meetings. The Board has established a committee structure that includes an Audit Committee and a Nominating Committee (discussed in more detail below). Each Committee is comprised entirely of Independent Trustees. The Independent Trustees have engaged independent legal counsel to assist them in performing their oversight responsibilities.

**Qualification of Trustees.** The Board has considered each Trustee’s experience, qualifications, attributes and skills in light of the Board’s function and the Trust’s business and structure, and has determined that each Trustee possesses experience, qualifications, attributes and skills that enable the Trustee to be an effective member of the Board. In this regard, the Board has considered the following specific experience, qualifications, attributes and/or skills for each Trustee:

James Simpson	Mr. Simpson has experience as an independent trustee for other ETFs and as President of ETP Resources, a financial information services company that provides detailed reference data on U.S.-listed exchange-traded products. He also has experience working for financial institutions and securities exchanges and has consulted with respect to the development of exchange-traded products.
Robert S. Tull	Mr. Tull has experience as an independent trustee for other ETFs and as a consultant to financial companies and as chief operating officer to financial services companies. Mr. Tull has also assisted with the development of exchange-traded products.
Stephen O’Grady	Mr. O’Grady has experience as an independent trustee for other ETFs and in the development and operation of ETF trading systems and futures exchanges and has served as president of an options brokerage firm.
Myles J. Edwards	Mr. Edwards has experience as general counsel, chief compliance officer and chief operating officer of SEC registered investment advisers, hedge funds and FINRA member broker-dealers.
William J. Smalley	Mr. Smalley has experience in the financial industry, including the development of exchange-traded products, and is a founder of the Adviser and the Distributor.

The Board has determined that each of the Trustees’ careers and background, combined with their interpersonal skills and general understanding of financial and other matters, enable the Trustees to effectively participate in and

contribute to the Board's functions and oversight of the Trust. References to the qualifications, attributes and skills of Trustees are pursuant to requirements of the SEC, do not constitute holding out the Board or any Trustee as having any special expertise or experience, and shall not impose any greater responsibility on any such person or on the Board by reason thereof.

**Trustee Standing Committees.** The Board has established the following standing committees:

**Audit Committee:** The Independent Trustees are the current members of the Audit Committee. The Audit Committee oversees the Fund's accounting and financial reporting policies and practices, reviews the results of the annual audits of the Fund's financial statements and interacts with the Fund's independent auditors on behalf of the Board. The Audit Committee also serves in the role of the Trust's qualified legal compliance committee and, as such, receives, investigates and makes recommendations as to appropriate remedial action in connection with any report of evidence of a material violation of securities laws or breach of fiduciary duty or similar violation by the Trust, its officers, Trustees or agents. The Audit Committee operates pursuant to an Audit Committee Charter and meets periodically as necessary. The Audit Committee did not meet during the fiscal period from August 16, 2016 (commencement of operations) to October 31, 2016.

**Nominating Committee:** The Independent Trustees are the current members of the Nominating Committee. The Nominating Committee nominates, selects and appoints Independent Trustees to fill vacancies on the Board and to stand for election at appropriate meetings of the shareholders of the Trust. The Nominating Committee meets only as necessary. The Nominating Committee did not meet during the fiscal period from August 16, 2016 (commencement of operations) to October 31, 2016. The Nominating Committee generally will not consider nominees recommended by shareholders of the Trust.

**Beneficial Ownership of Shares of the Fund.** The table below shows, for each Trustee, the value of shares of the Fund beneficially owned, and the aggregate value of investments in shares of all funds in the Fund complex, as of December 31, 2016, and stated as one of the following ranges: A = None; B = \$1-\$10,000; C = \$10,001-\$50,000; D = \$50,001-\$100,000; and E = over \$100,000.

<i>Name of Trustee</i>	<i>Dollar Range of Equity Securities in the Fund</i>	<i>Aggregate Dollar Range of Equity Securities in all Registered Investment Companies Overseen by Trustee in Family of Investment Companies</i>
James Simpson	A	A
Robert S. Tull	A	A
Stephen O'Grady	A	B
Myles J. Edwards	A	A
William J. Smalley	A	B

**Ownership In Fund Affiliates.** As of the date of this SAI, none of the Independent Trustees, nor members of their immediate families, owned, beneficially or of record, securities of the Adviser, the Sub-Adviser, the Fund's principal underwriter or any affiliate of the Adviser, the Sub-Adviser or the principal underwriter.

**Compensation.** Officers of the Trust and the Trustees who are interested persons of the Trust or the Adviser receive no salary from the Trust. Each Independent Trustee receives \$2,000 per year per series of the Trust. The Trust reimburses each Trustee and officer of the Trust for his or her travel and other expenses relating to attendance at Board or committee meetings. For the fiscal year ended October 31, 2016, the Trustees received the following compensation:

Name of Trustee	Aggregate Compensation From the Fund <sup>1,2</sup>	Pension or Retirement Benefits Accrued As Part of Fund Expenses	Estimated Annual Benefits Upon Retirement	Total Compensation From Fund Complex Paid to Trustees
<b>INDEPENDENT TRUSTEES</b>				
James Simpson	\$417	None	None	\$14,418
Robert S. Tull	\$417	None	None	\$14,418
Stephen O'Grady	\$417	None	None	\$14,418
Myles J. Edwards <sup>3</sup>	N/A	N/A	N/A	N/A
<b>INTERESTED TRUSTEE</b>				
William J. Smalley	None	None	None	None

<sup>1</sup> Amounts shown are based on the fiscal period from August 16, 2016 (commencement of Fund operations) to October 31, 2016.

<sup>2</sup> These amounts are not paid directly by the Fund, but instead are paid by the Sub-Adviser out of the Sub-Adviser's fee, pursuant to the Sub-Adviser's unified fee arrangement with the Fund, as described below.

<sup>3</sup> Myles J. Edwards was appointed as a Trustee of the Trust effective November 9, 2016.

**CODES OF ETHICS.** The Trust, the Adviser, the Sub-Adviser and the Fund's principal underwriter have each adopted a code of ethics, as required by Rule 17j-1 under the 1940 Act, that is designed to prevent personnel of the Trust, the Adviser, the Sub-Adviser and the Fund's principal underwriter subject to the codes from engaging in deceptive, manipulative or fraudulent activities in connection with securities held or to be acquired by the Fund (which securities may also be held by persons subject to the codes). The codes of ethics permit personnel of the Trust, the Adviser, the Sub-Adviser and the principal underwriter subject to the codes to invest in securities, including, without limitation, securities that may be purchased or held by the Fund, subject to certain restrictions and pre-approval requirements. In addition, the codes of ethics of the Trust, the Adviser, the Sub-Adviser and the principal underwriter require that access persons of such entities report their personal securities transactions and holdings, which are reviewed for compliance with the code of ethics.

**ANTI-MONEY LAUNDERING PROGRAM.** The Trust has adopted an anti-money laundering ("AML") program, as required by applicable law, that is designed to prevent the Fund from being used for money laundering or the financing of terrorist activities. The Trust's AML Compliance Officer is responsible for implementing and monitoring the operations and internal controls of the program. Compliance officers at certain of the Fund's service providers are also responsible for monitoring aspects of the AML program. The AML program is subject to the continuing oversight of the Board.

**PROXY VOTING POLICIES.** The Trust has adopted a proxy voting and disclosure policy that delegates to the Fund's proxy voting manager the authority to vote proxies for the Fund, subject to oversight of the Board. The Adviser serves as the proxy voting manager for the Fund. Copies of the Trust's Proxy Voting Policy and Procedures, which have been adopted by the Adviser with respect to voting proxies for the Fund, are included as Appendix B to this SAI.

No later than August 31 of each year, the Trust files Form N-PX with the SEC. Form N-PX states how the Fund voted proxies relating to portfolio securities during the most recent 12-month period ended June 30. The Fund's proxy voting records, as set forth in its most recent Form N-PX filing, are available upon request, without charge, by calling the Fund at (866) 383-7636. This information is also available on the SEC's website at <http://www.sec.gov>.

#### **CONTROL PERSONS AND PRINCIPAL HOLDERS OF SECURITIES**

As of January 31, 2017, the Trustees and officers of the Trust as a group owned beneficially (i.e., had direct or indirect voting and/or investment power) less than 1% of the then outstanding shares in the Fund. Although the Fund does not have information concerning the beneficial ownership of shares held in the names of Depository Trust Company ("DTC") participants, as of January 31, 2017, the name and percentage ownership of each DTC participant that owned of record 5% or more of the outstanding shares of the Fund is set forth in the table below:

Name and Address	Percentage Ownership
National Financial Services LLC 499 Washington Blvd. 4th Floor, Jersey City NJ 07310	56.31%
LPL Financial Co. 9785 Towne Centre Drive, San Diego, CA 92121-1968	22.17%
Charles Schwab & Co., Inc. 101 Montgomery Street, San Francisco, CA 94104	9.56%
CIT Capital Securities LLC 11 West 42 <sup>nd</sup> Street, 7th Floor, New York, NY 10036	5.48%

### MANAGEMENT SERVICES

The following information supplements and should be read in conjunction with the section in the Prospectus entitled “Management of the Fund”.

**ADVISER.** The Fund’s investment adviser is Virtus ETF Advisers LLC, located at 1540 Broadway, New York, New York 10036. The Adviser was organized as a Delaware limited liability company in August 2013 and, since April 2015, has been a majority-owned subsidiary of Virtus Partners, Inc., a wholly owned subsidiary of Virtus Investment Partners, Inc. (ticker: VRTS) (together with its affiliates, “Virtus”). Virtus is a public company that operates a multi-manager asset management business and has substantial experience in the investment management and investment company industries. As of December 31, 2016, on a collective basis, Virtus-affiliated registered investment advisers managed over \$45.4 billion in assets. The Adviser has served as the investment adviser to the Fund since the inception of the Fund’s operations. The Adviser also serves as investment adviser to each other series of the Trust and each series of Virtus ETF Trust II, an open-end management investment company registered with the SEC. The Adviser is responsible for the oversight and management of all service providers to the Trust.

The Adviser has overall responsibility for the general management and administration of the Trust, pursuant to an investment advisory agreement between the Trust, on behalf of the Fund, and the Adviser (the “**Advisory Agreement**”). The Advisory Agreement is effective for an initial two-year period and will remain in effect thereafter only so long as such renewal and continuance is specifically approved at least annually by the Board or by vote of a majority of the Fund’s outstanding voting securities, provided the continuance is also approved by a majority of the Independent Trustees. The Advisory Agreement is terminable without penalty on 60 days’ notice by the Board or by vote of a majority of the outstanding voting securities of the Fund. The Advisory Agreement provides that it will terminate automatically in the event of its “assignment,” as such term is defined in the 1940 Act.

Under the Advisory Agreement, the Adviser is not liable for any error of judgment or mistake of law or for any loss suffered by the Fund in connection with the matters to which the Advisory Agreement relates, except a loss resulting from a breach of fiduciary duty with respect to the receipt of compensation for services; or a loss resulting from willful misfeasance, bad faith or gross negligence on the part of the Adviser in the performance of its duties; or from the reckless disregard of its duties and obligations under the Advisory Agreement.

The Adviser has engaged the Sub-Adviser to manage the Fund’s investments in accordance with the stated investment objective and policies of the Fund, subject to the oversight and supervision of the Adviser and the Board, and will oversee the Sub-Adviser’s compliance with the terms and conditions of the ETF exemptive order issued to the Adviser and the Trust.

**Adviser Compensation.** The Adviser receives a monthly fee at the annual rate of 0.125% of the Fund’s average daily net assets, subject to a minimum annual fee of \$25,000 (the “**Adviser’s Fee**”). To the extent that the Adviser’s Fee due for any month (or calendar year, with respect to the minimum fee) exceeds the net advisory fee actually retained by the Adviser for such period after payment of all of the Fund’s expenses for such period (such excess the “**Adviser’s Shortfall**”), then the Sub-Adviser will waive its fee and/or reimburse the Adviser in an aggregate amount equal to the Adviser’s Shortfall. During the fiscal period from August 16, 2016 (commencement of operations) to October 31, 2016, the Adviser was paid advisory fees equal to \$5,194, under the Advisory Agreement.

**SUB-ADVISER.** The Fund’s sub-adviser is iSectors<sup>®</sup>, LLC, W6240 Communication Court, Appleton, Wisconsin 54914. The Sub-Adviser serves in that capacity pursuant to a sub-advisory contract (the “**Sub-Advisory Agreement**”) with the Adviser and the Trust on behalf of the Fund as approved by the Board. The Sub-Adviser makes day-to-day investment decisions for the Fund and selects broker-dealers for executing portfolio transactions, subject to the Sub-Adviser’s best execution obligations and the Trust’s and the Sub-Adviser’s brokerage policies. The Adviser, however, will continue to have overall responsibility for the management and investment of the assets and responsibility for all advisory services furnished by the Sub-Adviser, and will supervise the Sub-Adviser in the performance of its duties for the Fund pursuant to written policies and procedures designed to prevent violations of applicable laws and regulations, Board procedures, and the provisions of the Fund’s prospectus and SAI, as supplemented from time to time.

The Sub-Adviser was organized as a Delaware limited liability company in June 2008. The Sub-Adviser has served as the sub-adviser of the Fund since the inception of the Fund’s operations. The Sub-Adviser has also developed and offers a suite of 14 proprietary asset allocation models and services, which are licensed to investment platforms and offered to other investment advisers through turnkey web-based platforms.

**Sub-Adviser Compensation.** As full compensation for its services to the Fund, the Sub-Adviser receives monthly compensation from the Fund at the annual rate of 0.825% of the Fund’s average daily net assets. The Sub-Adviser’s fee is structured as a “unified fee.” Therefore, in consideration of the fees paid with respect to the Fund, the Sub-Adviser has agreed to pay all routine expenses of the Fund, except the Sub-Adviser’s fee, the Adviser’s Fee (other than the Adviser’s Shortfall, if any), payments under any 12b-1 plan adopted by the Fund, brokerage expenses, taxes, interest, litigation expenses, acquired fund fees and expenses, and extraordinary expenses of the Fund. During the fiscal period from August 16, 2016 (commencement of operations) to October 31, 2016, the Fund paid the Sub-Adviser \$15,419.

**Expense Limitation Agreement.** The Sub-Adviser has entered into an expense limitation agreement (“**Expense Limitation Agreement**”) to limit the Fund’s total operating expenses (excluding the management fees paid to the Fund’s adviser and sub-adviser; payments under a 12b-1 plan (if any); brokerage expenses; taxes; interest; litigation expenses; acquired fund fees and expenses; and extraordinary expenses of the Fund) so that such expenses do not exceed 0.75% of the Fund’s average daily net assets through February 28, 2018. While the Sub-Adviser or the Fund may discontinue the Expense Limitation Agreement after the contractual period, it may only be terminated during its term by either party upon written notice; provided that such termination shall require the approval of the Board.

**PORTFOLIO MANAGERS.**

**Ownership of Fund Shares.** The table below shows the amount of Fund equity securities beneficially owned by the portfolio managers as of October 31, 2016, stated as one of the following ranges: A = None; B = \$1-\$10,000; C = \$10,001-\$50,000; D = \$50,001-\$100,000; E = \$100,001-\$500,000; F = \$500,001-\$1,000,000; and G = over \$1,000,000.

<i>Name of Portfolio Manager</i>	<i>Dollar Range of Equity Securities in the Fund</i>
<i>Vernon C. Sumnicht</i>	<i>E</i>
<i>Charles H. Self III</i>	<i>D</i>
<i>David E. Hackney</i>	<i>A</i>

**Other Accounts.** In addition to the Fund, certain of the Fund’s portfolio managers are responsible for the day-to-day management of certain other accounts. The table below shows the number of, and total assets in, such other accounts as of October 31, 2016.

Portfolio Manager	Registered Investment Companies		Other Pooled Vehicles		Other Accounts	
	# of Accounts	Total Assets	# of Accounts	Total Assets	# of Accounts	Total Assets
Vernon C. Sumnicht	0	\$0	95*	\$13.1 million	677	\$270 million
Charles H. Self III	0	\$0	1	\$259,000	5,637	\$202 million
David E. Hackney	0	\$0	95*	\$13.1 million	677	\$270 million

\* Each of these accounts charges a performance-based fee.

**Material Conflicts of Interest.** Because the portfolio managers may at times manage multiple portfolios for multiple clients, the potential for conflicts of interest exists. The portfolio managers may manage portfolios having substantially the same investment style as the Fund. However, the portfolios managed by the portfolio managers may not have portfolio compositions identical to those of the Fund due, for example, to specific investment limitations or guidelines present in some portfolios or accounts, but not others. The portfolio managers may purchase securities for one portfolio and not another portfolio, and the performance of securities purchased for one portfolio may vary from the performance of securities purchased for other portfolios. The portfolio managers may place transactions on behalf of other accounts that are directly or indirectly contrary to investment decisions made on behalf of the Fund, or make investment decisions that are similar to those made for the Fund, both of which have the potential to adversely impact the Fund depending on market conditions. For example, the portfolio managers may purchase a security in one portfolio while appropriately selling that same security in another portfolio. In addition, some of these portfolios may have fee structures that are or have the potential to be higher than the advisory fees paid by the Fund, which can cause potential conflicts in the allocation of investment opportunities between the Fund and the other accounts. In addition, current trading practices would not allow the Sub-Adviser to intentionally favor one portfolio over another as trades are executed as trade orders are received.

**Compensation.** The portfolio managers are compensated by the Sub-Adviser and do not receive any compensation directly from the Fund or the Adviser. Each portfolio manager receives their compensation in the form of base salary that is determined by the advisory fee revenue generated by the firm's assets under management. Thus, portfolio manager compensation is aligned with the interests of the firm's clients, including the Fund and its investors. The portfolio managers may also earn a bonus each year based on the profitability of the Sub-Adviser.

#### **OTHER SERVICE PROVIDERS**

**ADMINISTRATOR.** Under the Administrative Services Agreement, Virtus ETF Solutions LLC (the "**Administrator**") serves as the operational administrator of the Trust. The Administrator's address is 1540 Broadway, New York, New York 10036. Under the Administrative Services Agreement, the Administrator supervises the overall administration of the Trust and the Fund including, among other responsibilities, the coordination and day-to-day oversight of the Fund's operations, the service providers' communications with the Fund and each other and assistance with Trust, Board and contractual matters related to the Fund and other series of the Trust. The Administrator also provides persons satisfactory to the Board to serve as officers of the Trust. The Administrator will be indemnified in connection with or arising out of performance of its obligations and duties under this Agreement, except for losses resulting from the willful malfeasance, bad faith or gross negligence of Administrator in the performance of such obligations and duties. The Sub-Adviser pays the Administrator out of the Sub-Adviser's advisory fee pursuant to the Sub-Adviser's unified fee arrangement with the Fund. The Sub-Adviser paid the Administrator fees equal to \$5,194 for the fiscal period from August 16, 2016 (commencement of operations) to October 31, 2016, for its services.

**ACCOUNTING, CUSTODIAN AND TRANSFER AGENT.** Under the Fund Administration and Accounting Agreement (the "**Accounting Services Agreement**"), The Bank of New York Mellon ("**BNY Mellon**" or the "**Accounting Services Administrator**") serves as accounting administrator for the Fund. BNY Mellon's principal address is 101 Barclay Street, New York, New York 10007. Under the Accounting Services Agreement, BNY Mellon provides necessary administrative, legal, tax, accounting services and financial reporting for the maintenance

and operations of the Trust and the Fund. In addition, BNY Mellon makes available the office space, equipment, personnel and facilities required to provide such services.

BNY Mellon provides accounting and administration services to the Trust, including, among other responsibilities, assisting in the preparation and filing of documents required for compliance by the Fund with applicable laws and regulations and arranging for the maintenance of books and records of the Fund.

The Sub-Adviser pays the Accounting Services Administrator out of the Sub-Adviser's advisory fee pursuant to the Sub-Adviser's unified fee arrangement with the Fund. The Sub-Adviser paid the Accounting Services Administrator fees for its services equal to \$465 for the fiscal period from August 16, 2016 (commencement of operations) to October 31, 2016.

BNY Mellon serves as custodian of the Fund's assets (the "**Custodian**"). The Custodian has agreed to (1) make receipts and disbursements of money on behalf of the Fund; (2) collect and receive all income and other payments and distributions on account of the Fund's portfolio investments; (3) respond to correspondence from Fund shareholders and others relating to its duties; and (4) make periodic reports to the Fund concerning the Fund's operations. The Custodian does not exercise any supervisory function over the purchase and sale of securities. The Sub-Adviser pays the Custodian out of the Sub-Adviser's advisory fee pursuant to the Sub-Adviser's unified fee arrangement with the Fund.

BNY Mellon serves as transfer agent and dividend paying agent for the Fund (the "**Transfer Agent**"). The Transfer Agent has agreed to (1) issue and redeem Shares of the Fund; (2) make dividend and other distributions to shareholders of the Fund; (3) respond to correspondence by Fund shareholders and others relating to its duties; (4) maintain shareholder accounts; and (5) make periodic reports to the Fund. The Sub-Adviser pays the Transfer Agent out of the Sub-Adviser's advisory fee pursuant to the Sub-Adviser's unified fee arrangement with the Fund.

BNY Mellon is the principal operating subsidiary of The Bank of New York Mellon Corporation.

**DISTRIBUTOR.** ETF Distributors LLC (the "**Distributor**") is located at 1540 Broadway, New York, New York 10036. The Distributor is a broker-dealer registered under the Securities Exchange Act of 1934 (the "**Exchange Act**"), and a member of the Financial Industry Regulatory Authority, Inc. ("**FINRA**").

Shares will be continuously offered for sale by the Trust through the Distributor only in whole Creation Units, as described in the section of this SAI entitled "Purchase and Redemption of Creation Units". The Distributor also acts as an agent for the Trust. The Distributor will deliver a Prospectus to persons purchasing Shares in Creation Units and will maintain records of both orders placed with it and confirmations of acceptance furnished by it. The Distributor has no role in determining the investment policies of the Fund or which securities are to be purchased or sold by the Fund.

The Sub-Adviser pays the Distributor out of the Sub-Adviser's fees pursuant to the Sub-Adviser's unified fee arrangement with the Fund. The Sub-Adviser paid the Distributor \$6,233 for the fiscal period from August 16, 2016 (commencement of operations) to October 31, 2016.

**PAYMENTS TO FINANCIAL INTERMEDIARIES.** The Adviser, the Sub-Adviser or their respective affiliates may, out of their own resources, pay amounts to third parties for distribution or marketing services on behalf of the Fund. The making of these payments could create a conflict of interest for a financial intermediary receiving such payments.

**INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM.** The Board has selected the firm of BBD, LLP, located at 1835 Market Street, Philadelphia, PA 19103, to serve as the independent registered public accounting firm for the Fund for the current fiscal year, to audit the annual financial statements of the Fund and to prepare the Fund's federal, state and excise tax returns. Such firm will audit the financial statements of the Fund at least once each year. A copy of the most recent annual report containing the audit report will accompany this SAI whenever a shareholder or a prospective investor requests it.

**LEGAL COUNSEL.** Stradley Ronon Stevens & Young, LLP, located at 2005 Market Street, Suite 2600, Philadelphia, PA 19103, serves as legal counsel to the Trust and the Independent Trustees.

## PORTFOLIO TRANSACTIONS AND BROKERAGE

Subject to the general supervision of the Board and the Adviser, the Sub-Adviser is responsible for, makes decisions with respect to and places orders for all purchases and sales of portfolio securities for, the Fund. The Sub-Adviser will manage the Fund's portfolio in accordance with the terms of the Sub-Advisory Agreement by and among the Trust on behalf of the Fund, the Sub-Adviser and the Adviser. The Sub-Adviser serves as investment adviser for a number of client accounts, in addition to the Fund.

**BROKERAGE SELECTION.** The Fund has adopted, and the Board has approved, policies and procedures relating to the direction of portfolio securities transactions to brokers. In accordance with these policies and procedures, in selecting brokers to be used in portfolio transactions, the Sub-Adviser's general guiding principle is to obtain the best overall execution for each trade, which is a combination of price and execution. With respect to execution, the Sub-Adviser considers a number of factors, including, without limitation, the size of the order, the difficulty of execution, the efficiency of the facilities of the executing broker-dealer (including research services), any risk assumed by an executing broker-dealer and other factors that may be unique to a particular order. Recognizing the value of these judgmental factors, the Sub-Adviser may select brokers that charge a brokerage commission that is higher than the lowest commission that might otherwise be available for any given trade. The Sub-Adviser may not give consideration to sales of Shares of the Fund as a factor in selecting brokers to execute portfolio transactions. The Sub-Adviser may, however, place portfolio transactions with brokers that are affiliated with the Adviser or the Sub-Adviser or that promote or sell the Fund's Shares, so long as such transactions are done in accordance with the policies and procedures established by the Board that are designed to ensure that the selection is consistent with the Sub-Adviser's obligation to seek best execution and not based upon the broker's sales efforts. During the fiscal period from August 16, 2016 (commencement of operations) to October 31, 2016, the Fund paid brokerage commissions of \$812.

Under Section 28(e) of the Exchange Act and the Sub-Advisory Agreement, the Sub-Adviser may, in its discretion, purchase and sell portfolio securities from and to brokers and dealers that provide the Sub-Adviser with brokerage, research, analysis, advice and similar services, and the Sub-Adviser may pay to these brokers and dealers, in return for such services, a higher commission or spread than may be charged by other brokers and dealers, provided that the Sub-Adviser determines in good faith that such commission is reasonable in terms either of that particular transaction or of the overall responsibility of the Sub-Adviser to the Fund and its other clients and that the total commission paid by the Fund will be reasonable in relation to the benefits to the Fund and the other clients of the Sub-Adviser over the long-term. The research received by the Sub-Adviser may include, without limitation: information on the United States and other world economies; information on specific industries, sectors, groups of securities, individual companies, and political and other relevant news developments affecting markets and specific securities; technical and quantitative information about markets; analysis of proxy proposals affecting specific companies; accounting and performance systems that allow the Sub-Adviser to determine and track investment results; and trading systems that allow the Sub-Adviser to interface electronically with brokerage firms, custodians and other providers. Research may be received in the form of written reports, telephone contacts, personal meetings, research seminars, software programs and access to computer databases. In some instances, research products or services received by the Sub-Adviser may also be used by the Sub-Adviser for functions that are not research related (i.e. not related to the making of investment decisions).

Where a research product or service has a mixed use, the Sub-Adviser will make a reasonable allocation according to its use and will pay for the non-research function in cash using its own funds.

The research and investment information services described above make available to the Sub-Adviser for its analysis and consideration the views and information of individuals and research staffs of other securities firms. These services may be useful to the Sub-Adviser in connection with advisory clients other than the Fund, and not all such services may be useful to the Sub-Adviser in connection with the Fund. Although such information may be a useful supplement to the Sub-Adviser's own investment research in rendering services to the Fund, the value of such research and services is not expected to materially reduce the expenses of the Sub-Adviser in the performance of its services under the Sub-Advisory Agreement and will not reduce the advisory fees payable by the Fund.

The Fund may invest in securities traded in the over-the-counter market. In these cases, the Fund may initiate trades through brokers on an agency basis and may pay a commission in connection with the transaction. The Fund may

also effect these transactions by dealing directly with the dealers that make a market in the securities involved, in which case the costs of such transactions would involve dealer spreads rather than brokerage commissions.

**PORTFOLIO TURNOVER.** The portfolio turnover rate for the Fund is calculated by dividing the lesser of purchases or sales of portfolio securities for the reporting period by the monthly average value of the portfolio securities owned during the reporting period. The calculation excludes all securities whose maturities or expiration dates at the time of acquisition are one year or less. Portfolio turnover of the Fund may vary greatly from year to year as well as within a particular year, and may be affected by cash requirements for redemption of Shares and by requirements that enable the Fund to receive favorable tax treatment. Portfolio turnover will not be a limiting factor in making investment decisions, and the Fund may engage in short-term trading to achieve its investment objectives. High rates of portfolio turnover could lower performance of the Fund due to increased transaction costs and may also result in the realization of short-term capital gains taxed at ordinary income tax rates.

During the most recent fiscal period from August 16, 2016 (commencement of operations) to October 31, 2016, the Fund's portfolio turnover rate was 78% of the average value of its portfolio.

### **DISCLOSURE OF PORTFOLIO HOLDINGS**

**PORTFOLIO DISCLOSURE POLICY.** The Trust has adopted a Portfolio Holdings Policy (the “**Policy**”) designed to govern the disclosure of Fund portfolio holdings and the use of material non-public information about Fund holdings. The Policy applies to all officers, employees and agents of the Fund. The Policy is designed to ensure that the disclosure of information about the Fund's portfolio holdings is consistent with applicable legal requirements and otherwise in the best interest of the Fund.

As an ETF, information about the Fund's portfolio holdings is made available on a daily basis in accordance with the provisions of any order of the SEC applicable to the Fund, the regulations of the Exchange and other applicable SEC regulations, orders and no-action relief. Such information typically reflects all or a portion of the Fund's anticipated portfolio holdings as of the next Business Day (as defined below). This information is used in connection with the creation and redemption process and is disseminated on a daily basis through the facilities of the Exchange, the National Securities Clearing Corporation (the “**NSCC**”) and/or third party service providers.

A “**Business Day**” with respect to the Fund is any day on which the Exchange is open for business. As of the date of the Prospectus, the Exchange observes the following holidays: New Year's Day, Martin Luther King, Jr. Day, President's Day, Good Friday, Memorial Day (observed), Independence Day, Labor Day, Thanksgiving Day and Christmas Day.

The Trust will disclose on the Fund's website at the start of each Business Day the identities and quantities of the securities and other assets held by the Fund that will form the basis of the Fund's calculation of its NAV on that Business Day. The portfolio holdings so disclosed will be based on information as of the close of business on the prior Business Day and/or trades that have been completed prior to the opening of business on that Business Day and that are expected to settle on the Business Day. Online disclosure of such holdings is publicly available at no charge. The website for the Fund is [www.isectorsetfs.com](http://www.isectorsetfs.com).

The Fund may also send a portion or all of this information to shareholders of the Fund and to investment company analysts and rating and trading entities. However, the Fund will not send this information to shareholders of the

Fund or to analysts or rating and/or trading entities until such information is at least 30 days old or until one Business Day after the information has been posted to the Fund's website.

The officers of the Trust, the Adviser and/or the Sub-Adviser may share non-public portfolio holdings information with the Fund's service providers that require such information for legitimate business and Fund oversight purposes, such as the Fund's operating administrator, fund accounting administrator, transfer agent, distributor, custodian, independent registered public accounting firm, and legal counsel as identified in the Fund's Prospectus and this SAI and Doremus FP (a financial EDGARizing, typesetting and printing firm). The Fund, the Adviser and/or the Sub-Adviser may also provide non-public portfolio holdings information to appropriate regulatory agencies as required by applicable laws and regulations. The Fund's service providers receiving such non-public information are subject to confidentiality obligations requiring such service providers to keep non-public portfolio holdings information confidential. Certain of the service providers have codes of ethics that prohibit trading based on, among other things, non-public portfolio holdings information.

The Fund, the Adviser and/or the Sub-Adviser may, from time to time, provide additional portfolio holdings information in the form of quarterly or monthly management letters; provided, however, that the Fund, the Adviser and/or the Sub-Adviser will not send such quarterly or monthly management letters to shareholders until such information is either filed with the SEC or publicly disclosed on the Fund's website. In addition, non-public portfolio holdings information and other information regarding the investment activities of the Fund may also be disclosed to rating and ranking organizations for use in connection with their rating or ranking of the Fund.

The Fund currently does not provide non-public portfolio holdings information to any other third parties. In the future, the Fund may elect to disclose such information to other third parties if the appropriate officers of the Trust determine that the Fund has a legitimate business purpose for doing so and the recipient is subject to a duty of confidentiality. The Adviser and the Sub-Adviser, through their respective officers, are responsible for determining which other third parties have a legitimate business purpose for receiving the Fund's portfolio holdings information.

The Fund's policies regarding disclosure of portfolio holdings are subject to the continuing oversight and direction of the Board. The Adviser, the Sub-Adviser and the Administrator are required to report to the Board any known disclosure of the Fund's portfolio holdings to unauthorized third parties. The Fund has not entered (and does not currently intend to enter) into any arrangement providing for the receipt of compensation or other consideration in exchange for the disclosure of non-public portfolio holdings information, other than the benefits that result to the Fund and its shareholders from providing such information, which include the publication of Fund ratings and rankings.

The Fund will make available to the public a complete schedule of its portfolio holdings, as reported on a fiscal quarter basis. This information is generally available within 60 days of the Fund's fiscal quarter end and will remain available until the next fiscal quarter's portfolio holdings report becomes available. You may obtain a copy of these quarterly portfolio holdings reports by calling the Fund at (888) 383-0553. The Fund will also file these quarterly portfolio holdings reports with the SEC on Form N-CSR or Form N-Q, as applicable. The Fund's Form N-CSR and Form N-Q are available on the SEC's website at <http://www.sec.gov> and may be reviewed and copied at the SEC's Public Reference Room in Washington, D.C. The first and third quarter portfolio holdings reports will be filed with the SEC on Form N-Q, and the second and fourth fiscal quarter portfolio holdings reports will be included with the semi-annual and annual reports, respectively, which are sent to shareholders and filed with the SEC on Form N-CSR.

No person is authorized to disclose the Fund's portfolio holdings or other investment positions except in accordance with the Policy.

#### **INDICATIVE INTRA-DAY VALUE**

The approximate value of the Fund's investments on a per-Share basis, the Indicative Intra-Day Value ("IIV"), is disseminated by the Exchange every 15 seconds during hours of trading on the Exchange. The IIV should not be viewed as a "real-time" update of NAV because the IIV will be calculated by an independent third party and may not be calculated in the exact same manner as NAV, which is computed once per day.

The IIV for the Fund is calculated during hours of trading on the Exchange by dividing the “Estimated Fund Value” as of the time of the calculation by the total number of outstanding Shares. “Estimated Fund Value” is the sum of the estimated amount of cash held in the Fund’s portfolio, the estimated amount of accrued interest owing to the Fund and the estimated value of the securities held in the Fund’s portfolio, minus the estimated amount of the Fund’s liabilities. The IIV will be calculated based on the same portfolio holdings disclosed on the Fund’s website. In determining the estimated value for each of the component securities, the IIV will use last sale, market prices or other methods that would be considered appropriate for pricing equity securities held by registered investment companies.

The IIV calculations are based on local market prices and may not reflect events that occur subsequent to the local market’s close, which could affect premiums and discounts between the IIV and the market price of the Fund’s shares. Although the Trust provides the information used to calculate the IIV, the Trust is not involved in the actual calculation of the IIV and is not responsible for the calculation or dissemination of the IIV. The Trust makes no warranty as to the accuracy of the IIV.

### **ADDITIONAL INFORMATION CONCERNING SHARES**

**ORGANIZATION AND DESCRIPTION OF SHARES OF BENEFICIAL INTEREST.** The Trust is a Delaware statutory trust and a registered investment company. The Trust was organized on September 20, 2012, and it has authorized capital of an unlimited number of Shares of beneficial interest of no par value, which may be issued in more than one class or series.

Under Delaware law, the Trust is not required to hold an annual shareholders meeting if the 1940 Act does not require such a meeting. Generally, there will not be annual meetings of Trust shareholders. If requested by shareholders of at least one-third of the outstanding shares of the Trust or any series thereof, the Trust will call a meeting of the shareholders of the Trust or the series, as applicable. Shareholders holding two-thirds of all Trust shares outstanding may remove Trustees from office by votes cast at a meeting of Trust shareholders or by written consent.

All Shares will be freely transferable; provided, however, that Shares may not be redeemed individually, but only in Creation Units. The Shares will not have preemptive rights or cumulative voting rights, and none of the Shares will have any preference to conversion, exchange, dividends, retirements, liquidation, redemption or any other feature. Shares have equal voting rights, except that, if the Trust creates additional series, only shares of that series may be entitled to vote on a matter affecting that particular series. Trust shareholders are entitled to require the Trust to redeem Creation Units if such shareholders are Authorized Participants. The Declaration of Trust confers upon the Board the power, by resolution, to alter the number of Shares constituting a Creation Unit or to specify that Shares of the Trust may be individually redeemable. The Trust reserves the right to adjust the prices of Shares to maintain convenient trading ranges for investors. Any such adjustments would be accomplished through splits or reverse splits, which would have no effect on the net assets of the Fund. If the Fund does not grow to a size to permit it to be economically viable, the Fund may cease operations. In such an event, you may be required to liquidate or transfer your Shares at an inopportune time and you may lose money on your investment.

**BOOK ENTRY ONLY SYSTEM.** Depository Trust Company (“DTC”) acts as securities depository for the Fund’s Shares. Shares of the Fund are represented by securities registered in the name of DTC or its nominee, Cede & Co., and deposited with, or on behalf of, DTC.

DTC, a limited-purpose trust company, was created to hold securities of its participants (the “DTC Participants”) and to facilitate the clearance and settlement of securities transactions among the DTC Participants in such securities through electronic book-entry changes in accounts of the DTC Participants, thereby eliminating the need for physical movement of securities certificates. DTC Participants include securities brokers and dealers, banks, trust companies, clearing corporations and certain other organizations, some of which (and/or their representatives) own DTC. More specifically, DTC is owned by a number of its DTC Participants and by the New York Stock Exchange, LLC and FINRA. Access to the DTC system is also available to others such as banks, brokers, dealers and trust companies that clear through or maintain a custodial relationship with a DTC Participant, either directly or indirectly (the “Indirect Participants”).

Beneficial ownership of Shares is limited to DTC Participants, Indirect Participants and persons holding interests through DTC Participants and Indirect Participants. Ownership of beneficial interests in Shares (owners of such beneficial interests are referred to herein as “**Beneficial Owners**”) is shown on, and the transfer of ownership is effected only through, records maintained by DTC (with respect to DTC Participants) and on the records of DTC Participants (with respect to Indirect Participants and Beneficial Owners that are not DTC Participants). Beneficial Owners will receive from or through the DTC Participant a written confirmation relating to their purchase of Shares.

Conveyance of all notices, statements and other communications to Beneficial Owners is effected as follows. Pursuant to the Depositary Agreement between the Trust and DTC, DTC is required to make available to the Trust upon request and for a fee to be charged to the Trust a listing of the Shares of the Fund held by each DTC Participant. The Trust will inquire of each DTC Participant as to the number of Beneficial Owners holding Shares, directly or indirectly, through such DTC Participant. The Trust will provide each DTC Participant with copies of such notice, statement or other communication, in such form, number and at such place as such DTC Participant may reasonably request, in order that such notice, statement or communication may be transmitted by the DTC Participant, directly or indirectly, to such Beneficial Owners. In addition, the Trust will pay to each DTC Participants a fair and reasonable amount as reimbursement for the expenses attendant to such transmittal, all subject to applicable statutory and regulatory requirements.

Share distributions will be made to DTC or its nominee, Cede & Co., as the registered holder of all Shares. DTC or its nominee, upon receipt of any such distributions, will credit immediately with respect to the DTC Participants’ accounts with payments in amounts proportionate to their respective beneficial interests in Shares of the Fund as shown on the records of DTC or its nominee. Payments by DTC Participants to Indirect Participants and Beneficial Owners with respect to the Shares held through such DTC Participants will be governed by standing instructions and customary practices, as is now the case with securities held for the accounts of customers in bearer form or registered in a “street name,” and will be the responsibility of such DTC Participants.

The Trust has no responsibility or liability for any aspect of the records relating to or notices to Beneficial Owners, or payments made on account of beneficial ownership interests in such Shares, or for maintaining, supervising or reviewing any records relating to such beneficial ownership interests, or for any other aspect of the relationship between DTC and the DTC Participants or the relationship between the DTC Participants and the Indirect Participants and Beneficial Owners owning through such DTC Participants.

DTC may decide to discontinue providing its service with respect to Shares at any time by giving reasonable notice to the Trust and discharging its responsibilities with respect thereto under applicable law. Under such circumstances, the Trust will take action to find a replacement for DTC to perform its functions at a comparable cost. The DTC Participants’ rules and policies are made publicly available through DTC’s website at: [www.dtcc.com](http://www.dtcc.com).

### **PURCHASE AND REDEMPTION OF CREATION UNITS**

**CREATION.** The Trust issues and sells Shares of the Fund only in Creation Units on a continuous basis through the Distributor, at their NAV next determined after receipt, on any Business Day, for an order received in proper form.

**Fund Deposit.** The consideration for purchase of a Creation Unit of the Fund generally consists of an in-kind deposit of Deposit Securities for each Creation Unit constituting a substantial replication, or a representation, of the securities included in the Fund’s portfolio and a Cash Component computed as described below. Together, the Deposit Securities and the Cash Component constitute the “**Fund Deposit**”, which represents the minimum initial and subsequent investment amount for a Creation Unit of the Fund. The Cash Component is an amount equal to the difference between the NAV of the Shares (per Creation Unit) and the market value of the Deposit Securities. If the Cash Component is a positive number (i.e., the NAV per Creation Unit exceeds the market value of the Deposit Securities), the Cash Component will be such positive amount. If the Cash Component is a negative number (i.e., the NAV per Creation Unit is less than the market value of the Deposit Securities), the Cash Component will be such negative amount, and the creator will be entitled to receive cash from the Fund in an amount equal to the Cash Component. The Cash Component serves the function of compensating for any differences between the NAV per Creation Unit and the market value of the Deposit Securities.

The Fund, through the NSCC, makes available on each Business Day, immediately prior to the opening of business on the Exchange (currently 9:30 a.m., Eastern time), the list of the names and the required number of Shares of each Deposit Security to be included in the current Fund Deposit (based on information at the end of the previous Business Day) for the Fund. Such Fund Deposit is applicable, subject to any adjustments as described below, in order to effect creations of Creation Units of the Fund until such time as the next-announced composition of the Deposit Securities is made available.

The identity and number of Shares of the Deposit Securities required for the Fund Deposit for the Fund changes as rebalancing adjustments and corporate action events are reflected from time to time by the Sub-Adviser with a view to the investment objective of the Fund. In addition, the Trust reserves the right to permit or require the substitution of an amount of cash - i.e., a “cash in lieu” amount - to be added to the Cash Component to replace any Deposit Security that may not be available in sufficient quantity for delivery, that may not be eligible for transfer through the Clearing Process (discussed below) or that may not be eligible for trading by an Authorized Participant or the investor for which it is acting.

In addition to the list of names and numbers of securities constituting the current Deposit Securities of the Fund Deposit, the Fund, through NSCC, also makes available on each Business Day the estimated Cash Component, effective through and including the previous Business Day, per outstanding Creation Unit of the Fund.

**Procedures for Creation of Creation Units.** To be eligible to place orders to create a Creation Unit of the Fund, an entity must be (i) a “**Participating Party**”, i.e., a broker-dealer or other participant in the clearing process through the Continuous Net Settlement System of NSCC (the “**Clearing Process**”) or a clearing agency that is registered with the SEC, or (ii) a DTC Participant (see “Book Entry Only System”) and, in each case, must have executed an agreement with the Trust, the Distributor and the Transfer Agent with respect to creations and redemptions of Creation Units (“**Participant Agreement**”). A Participating Party and DTC Participant are collectively referred to as an “Authorized Participant”. Investors should contact the Distributor for the names of Authorized Participants that have signed a Participant Agreement with the Fund. All Shares of the Fund, however created, will be entered on the records of DTC in the name of Cede & Co. for the account of a DTC Participant.

All orders to create Creation Units must be placed for one or more Creation Unit size aggregations of Shares (50,000 in the case of the Fund). All orders to create Creation Units, whether through the Clearing Process (through a Participating Party) or outside the Clearing Process (through a DTC Participant), must be received by the Distributor no later than the close of the regular trading session on the Exchange (ordinarily 4:00 p.m. Eastern time) (“**Closing Time**”), in each case on the date such order is placed in order for the creation of Creation Units to be effected based on the NAV of Shares of the Fund as next determined on such date after receipt of the order in proper form. The date on which an order to create Creation Units (or an order to redeem Creation Units as discussed below) is placed is referred to as the “**Transmittal Date**”. Orders must be transmitted by an Authorized Participant by telephone or other transmission method acceptable to the Distributor pursuant to procedures set forth in the Participant Agreement (see “Placement of Creation Orders Using the Clearing Process” and “Placement of Creation Orders Outside the Clearing Process”). Severe economic or market disruptions or changes, or telephone or other communication failure, may impede the ability to reach the Distributor or an Authorized Participant.

Orders to create Creation Units of the Fund will be placed with an Authorized Participant in the form required by such Authorized Participant. In addition, an Authorized Participant may request the investor to make certain representations or enter into agreements with respect to the order, i.e., to provide for payments of cash, when required. Investors should be aware that their particular broker may not have executed a Participant Agreement, and that, therefore, orders to create Creation Units of the Fund will need to be placed by the investor’s broker through an Authorized Participant that has executed a Participant Agreement. At any given time there may be only a limited number of broker-dealers that have executed a Participant Agreement. Those placing orders for Creation Units through the Clearing Process should afford sufficient time to permit proper submission of the order to the Distributor prior to the Closing Time on the Transmittal Date.

Orders for creation that are effected outside the Clearing Process are likely to require transmittal by the DTC Participant earlier on the Transmittal Date than orders effected using the Clearing Process. Those persons placing orders outside the Clearing Process should ascertain the deadlines applicable to DTC and the Federal Reserve Bank

wire system by contacting the operations department of the broker or depository institution effectuating the transfer of Deposit Securities and the Cash Component.

**Placement of Creation Orders Using the Clearing Process.** The Clearing Process is the process of creating or redeeming Creation Units through the Continuous Net Settlement System of NSCC. Fund Deposits made through the Clearing Process must be delivered through a Participating Party that has executed a Participant Agreement. The Participant Agreement authorizes the Distributor to transmit through the Transfer Agent to NSCC, on behalf of the Participating Party, such trade instructions as are necessary to effect the Participating Party's creation order. Pursuant to such trade instructions to NSCC, the Participating Party agrees to deliver the requisite Deposit Securities and the Cash Component to the Trust, together with such additional information as may be required by the Distributor. An order to create Creation Units through the Clearing Process is deemed received by the Distributor on the Transmittal Date if (i) such order is received by the Distributor not later than the Closing Time on such Transmittal Date and (ii) all other procedures set forth in the Participant Agreement are properly followed.

**Placement of Creation Orders Outside the Clearing Process.** Fund Deposits made outside the Clearing Process must be delivered through a DTC Participant that has executed a Participant Agreement. A DTC Participant that wishes to place an order creating Creation Units to be effected outside the Clearing Process need not be a Participating Party, but such orders must state that the DTC Participant is not using the Clearing Process and that the creation of Creation Units will instead be effected through a transfer of securities and cash directly through DTC. A Fund Deposit transfer must be ordered by the DTC Participant on the Transmittal Date in a timely fashion so as to ensure the delivery of the requisite number of Deposit Securities through DTC to the account of the Trust by no later than 11:00 a.m., Eastern time, of the next Business Day immediately following the Transmittal Date. All questions as to the number of Deposit Securities to be delivered, and the validity, form and eligibility (including time of receipt) for the deposit of any tendered securities, will be determined by the Trust, whose determination will be final and binding. Cash equal to the Cash Component must be transferred directly to the Trust through the Federal Reserve wire system in a timely manner so as to be received by the Trust no later than 2:00 p.m., Eastern time, on the next Business Day immediately following such Transmittal Date. An order to create Creation Units outside the Clearing Process is deemed received by the Distributor on the Transmittal Date if (i) such order is received by the Distributor not later than the Closing Time on such Transmittal Date, and (ii) all other procedures set forth in the Participant Agreement are properly followed. However, if the Trust does not receive both the requisite Deposit Securities and the Cash Component by 11:00 a.m. and 2:00 p.m., respectively, on the next Business Day immediately following the Transmittal Date, such order will be cancelled. Upon written notice to the Distributor, such cancelled order may be resubmitted the following Business Day using the Fund Deposit as newly constituted to reflect the then current NAV of the Fund. The delivery of Creation Units of the Fund so created will occur no later than the third Business Day following the day on which the purchase order is deemed received by the Distributor.

Creation Units may be created in advance of receipt by the Trust of all or a portion of the applicable Deposit Securities as described below. In these circumstances, the initial deposit will have a value greater than the NAV of the Shares on the date the order is placed in proper form since, in addition to available Deposit Securities, cash must be deposited in an amount equal to the sum of (i) the Cash Component *plus* (ii) 115% of the market value of the undelivered Deposit Securities (the "**Additional Cash Deposit**"). The order will be deemed to be received on the Business Day on which the order is placed, provided that the order is placed in proper form prior to 3:00 p.m., Eastern time, on such date and federal funds in the appropriate amount are deposited with the Trust by 11:00 a.m., Eastern time, the following Business Day. If the order is not placed in proper form by 3:00 p.m., or federal funds in the appropriate amount are not received by 11:00 a.m. the next Business Day, then the order may be deemed to be rejected and the investor will be liable to the Trust for losses, if any, resulting therefrom. An additional amount of cash will be required to be deposited with the Trust, pending delivery of the missing Deposit Securities to the extent necessary to maintain the Additional Cash Deposit with the Trust in an amount at least equal to 115% of the daily mark-to-market value of the missing Deposit Securities. To the extent that missing Deposit Securities are not received by 1:00 p.m., Eastern time, on the third Business Day following the day on which the purchase order is deemed received by the Distributor or in the event a mark-to-market payment is not made within one Business Day following notification by the Distributor that such a payment is required, the Trust may use the cash on deposit to purchase the missing Deposit Securities. Authorized Participants will be liable to the Trust for the costs incurred by the Trust in connection with any such purchases. These costs will be deemed to include the amount by which the actual purchase price of the Deposit Securities exceeds the market value of such Deposit Securities on the day the purchase order was deemed received by the Distributor plus the brokerage and related transaction costs associated

with such purchases. The Trust will return any unused portion of the Additional Cash Deposit once all of the missing Deposit Securities have been properly received by the Trust or purchased by the Trust and deposited into the Trust. In addition, a transaction fee will be charged in all cases. The delivery of Creation Units of the Fund so created will occur no later than the third Business Day following the day on which the purchase order is deemed received by the Distributor.

**Acceptance of Orders for Creation Units.** The Trust reserves the absolute right to reject a creation order transmitted to it by the Distributor in respect of the Fund if (a) the order is not in proper form; (b) the investor(s), upon obtaining the Shares ordered, would own 80% or more of the currently outstanding Shares of the Fund; (c) the Deposit Securities delivered are not as disseminated through the facilities of the Exchange for that date by the Trust, as described above; (d) acceptance of the Deposit Securities would have certain adverse tax consequences to the Fund; (e) the acceptance of the Fund Deposit would, in the opinion of counsel, be unlawful; (f) the acceptance of the Fund Deposit would otherwise, in the discretion of the Trust or the Adviser, have an adverse effect on the Trust or the rights of Beneficial Owners; or (g) as a result of circumstances outside the control of the Trust, the Distributor and the Adviser make it for all practical purposes impossible to process creation orders. Examples of such circumstances include acts of God or public service or utility problems such as fires, floods, extreme weather conditions and power outages resulting in telephone, facsimile or computer failures; market conditions or activities causing trading halts; systems failures involving computer or other information systems affecting the Trust, the Adviser, the Distributor, DTC, NSCC or any other participant in the creation process; and similar extraordinary events. The Distributor will notify a prospective creator of a Creation Unit and/or the Authorized Participant acting on behalf of the creator of a Creation Unit of its rejection of the order of such person. The Trust, the Transfer Agent and the Distributor are under no duty, however, to give notification of any defects or irregularities in the delivery of Fund Deposits nor will any of them incur any liability for the failure to give any such notification.

All questions as to the number of shares of each security in the Deposit Securities and the validity, form, eligibility and acceptance for deposit of any securities to be delivered will be determined by the Trust, and the Trust's determination will be final and binding.

**Creation Transaction Fee.** To compensate the Trust for transfer and other transaction costs involved in creation transactions through the Clearing Process, investors will be required to pay a minimum creation transaction fee, assessed per transaction, as follows:

<b>Fund Name</b>	<b>Creation Transaction Fee</b>
iSectors <sup>®</sup> Post-MPT Growth ETF (Ticker: PMPT)	\$500

The Trust, subject to approval by the Board, may adjust the fee from time to time based upon actual experience. Investors who use the services of a broker or other such intermediary in addition to an Authorized Participant to effect a creation of a Creation Unit may be charged a fee for such services.

**REDEMPTION.** Shares may be redeemed only in Creation Units at their NAV next determined after receipt of a redemption request in proper form by the Distributor and the Fund and only on a Business Day. The Trust will not redeem Shares in amounts less than Creation Units. Beneficial Owners must accumulate enough Shares in the secondary market to constitute a Creation Unit in order to have such Shares redeemed by the Trust. There can be no assurance, however, that there will be sufficient liquidity in the public trading market at any time to permit assembly of a Creation Unit. Investors should expect to incur brokerage and other costs in connection with assembling a sufficient number of Shares to constitute a redeemable Creation Unit.

With respect to the Fund, the Trust, through NSCC, makes available immediately prior to the opening of business on the Exchange (currently 9:30 a.m., Eastern time) on each Business Day, the Deposit Securities that will be applicable (subject to possible amendment or correction) to redemption requests received in proper form (as defined below) on that day. To the extent permitted by the Fund's exemptive relief, the Fund may, in its sole discretion, provide such redeemer a basket of cash and/or securities which differs from the exact composition of the Deposit Securities but does not differ in NAV. Deposit Securities received on redemption may not be identical to Deposit Securities that are applicable to creations of Creation Units.

Unless cash redemptions are available or specified for the Fund, the redemption proceeds for a Creation Unit generally consist of Deposit Securities, as announced by the Trust on the Business Day of the request for redemption received in proper form, plus cash in an amount equal to the difference between the NAV of the Shares being redeemed, as next determined after a receipt of a request in proper form, and the value of the Deposit Securities (the “**Cash Redemption Amount**”), less a redemption transaction fee described below in the section entitled “Redemption Transaction Fee”. In the event that the Deposit Securities have a value greater than the NAV of the Shares, a compensating cash payment equal to the differential is required to be made by or through an Authorized Participant by the redeeming shareholder.

**Placement of Redemption Orders Using Clearing Process.** Orders to redeem Creation Units through the Clearing Process must be delivered through a Participating Party that has executed the Participant Agreement. An order to redeem Creation Units using the Clearing Process is deemed received on the Transmittal Date if (i) such order is received by the Trust not later than 3:00 p.m., Eastern time, on such Transmittal Date; and (ii) all other procedures set forth in the Participant Agreement are properly followed; such order will be effected based on the NAV of the Fund as next determined. An order to redeem Creation Units using the Clearing Process made in proper form but received by the Fund after 3:00 p.m., Eastern time, will be deemed received on the next Business Day immediately following the Transmittal Date and will be effected at the NAV next determined on such Business Day. The requisite Deposit Securities and the Cash Redemption Amount will be transferred by the third Business Day following the date on which such request for redemption is deemed received.

**Placement of Redemption Orders Outside Clearing Process.** Orders to redeem Creation Units outside the Clearing Process must be delivered through a DTC Participant that has executed the Participant Agreement. A DTC Participant that wishes to place an order for redemption of Creation Units to be effected outside the Clearing Process need not be a Participating Party, but such orders must state that the DTC Participant is not using the Clearing Process and that redemption of Creation Units will instead be effected through transfer of Shares directly through DTC. An order to redeem Creation Units outside the Clearing Process is deemed received by the Trust on the Transmittal Date if (i) such order is received by the Trust not later than 3:00 p.m., Eastern time, if transmitted by mail, or by 2:00 p.m. Eastern time, if transmitted by other means, on such Transmittal Date; (ii) such order is accompanied or preceded by the requisite number of Shares of the Fund and the Cash Redemption Amount specified in such order, which delivery must be made through DTC to the Trust not later than 11:00 a.m. and 2:00 p.m., respectively, Eastern time, on the next Business Day following such Transmittal Date (the “**DTC Cut-Off-Time**”); and (iii) all other procedures set forth in the Participant Agreement are properly followed.

After the Trust has deemed an order for redemption outside the Clearing Process received, the Trust will initiate procedures to transfer the requisite Deposit Securities, which are expected to be delivered within three Business Days, and the Cash Redemption Amount to the Authorized Participant on behalf of the redeeming Beneficial Owner by the third Business Day following the Transmittal Date on which such redemption order is deemed received by the Trust.

The calculation of the value of the Deposit Securities and the Cash Redemption Amount to be delivered upon redemption will be made by the Trust according to the procedures set forth under “Determination of Net Asset Value” computed on the Business Day on which a redemption order is deemed received by the Trust. Therefore, if a redemption order in proper form is submitted to the Trust by a DTC Participant not later than the Closing Time on the Transmittal Date, and the requisite number of Shares of the Fund are delivered to the Custodian prior to the DTC Cut-Off-Time, then the value of the Deposit Securities and the Cash Redemption Amount to be delivered will be determined by the Trust on such Transmittal Date. If, however, a redemption order is submitted to the Trust by a DTC Participant not later than the Closing Time on the Transmittal Date but either (1) the requisite number of Shares of the Fund are not delivered by the DTC Cut-Off-Time as described above on the next Business Day following the Transmittal Date or (2) the redemption order is not submitted in proper form, then the redemption order will not be deemed received as of the Transmittal Date. In such case, the value of the Deposit Securities and the Cash Redemption Amount to be delivered will be computed on the Business Day that such order is deemed received by the Trust, i.e., the Business Day on which the Shares of the Fund are delivered through DTC to the Trust by the DTC Cut-Off-Time on such Business Day pursuant to a properly submitted redemption order.

If it is not possible to effect deliveries of the Deposit Securities, the Trust may in its discretion exercise its option to redeem such shares in cash, and the redeeming Beneficial Owner will be required to receive its redemption proceeds

in cash. In addition, an investor may request a redemption in cash which the Fund may, in its sole discretion, permit. In either case, the investor will receive a cash payment equal to the NAV of its shares based on the NAV of shares of the Fund next determined after the redemption request is received in proper form (minus a redemption transaction fee and additional charge for requested cash redemptions specified above, to offset the Trust's brokerage and other transaction costs associated with the disposition of Deposit Securities).

Redemptions of Shares for Deposit Securities will be subject to compliance with applicable federal and state securities laws, and the Trust (whether or not it otherwise permits cash redemptions) reserves the right to redeem Creation Units for cash to the extent that the Trust could not lawfully deliver specific Deposit Securities upon redemptions or could not do so without first registering the offering and sale of the Deposit Securities under such laws. An Authorized Participant or an investor for which it is acting that is subject to a legal restriction with respect to a particular security included in the Deposit Securities applicable to the redemption of a Creation Unit may be paid an equivalent amount of cash. The Authorized Participant may request the redeeming Beneficial Owner of the Shares to complete an order form or to enter into agreements with respect to such matters as compensating cash payment, beneficial ownership of Shares or delivery instructions.

The right of redemption may be suspended or the date of payment postponed with respect to the Fund (1) for any period during which the Exchange is closed (other than customary weekend and holiday closings); (2) for any period during which trading on the Exchange is suspended or restricted; (3) for any period during which an emergency exists as a result of which disposal of the Shares of the Fund or determination of the Shares' NAV is not reasonably practicable; or (4) in such other circumstance as is permitted by the SEC.

**Redemption Transaction Fee.** To compensate the Trust for transfer and other transaction costs involved in redemption transactions through the Clearing Process, investors will be required to pay a minimum redemption transaction fee, assessed per transaction as follows:

<b>Fund Name</b>	<b>Redemption Transaction Fee</b>
iSectors <sup>®</sup> Post-MPT Growth ETF (Ticker: PMPT)	\$500

Where Shares are redeemed for cash, the redemption transaction fee will be deducted from such redemption proceeds. The Trust, subject to approval by the Board, may adjust the fee from time to time based upon actual experience. Investors who use the services of a broker or other such intermediary in addition to an Authorized Participant to effect a redemption of a Creation Unit may be charged a fee for such services.

#### **SECURITIES SETTLEMENTS FOR CREATIONS AND REDEMPTIONS**

The Trust generally intends to effect deliveries of Creation Units and Deposit Securities on a basis of "T" plus three business days. The Trust may effect deliveries of Creation Units and Deposit Securities on a basis other than T plus three in order to accommodate holiday schedules, to account for treatment by U.S. markets of dividend record dates and ex-dividend dates, or under certain other circumstances. In addition to holidays, other unforeseeable closings in a market due to emergencies may also prevent the Trust from delivering securities within the normal settlement period. In the event that a delay in a redemption settlement cycle will extend to more than 12 calendar days, the Trust will effect a cash-in-lieu redemption to the extent necessary.

The proclamation of new holidays, the treatment by market participants of certain days as "informal holidays" (e.g., days on which no or limited securities transactions occur, as a result of substantially shortened trading hours), the elimination of existing holidays, or changes in securities delivery practices, could affect the information set forth herein at some time in the future and longer (worse) redemption periods are possible.

#### **CONTINUOUS OFFERING**

The method by which Creation Units are created and traded may raise certain issues under applicable securities laws. Because new Creation Units are issued and sold by the Trust on an ongoing basis, at any point a "distribution," as such term is used in the Securities Act, may occur. Broker-dealers and other persons are cautioned that some activities on their part may, depending on the circumstances, result in their being deemed participants in a

distribution in a manner which could render them statutory underwriters and subject them to the prospectus delivery and liability provisions of the Securities Act.

For example, a broker-dealer firm or its client may be deemed a statutory underwriter if it takes Creation Units after placing an order with the Distributor, breaks them down into constituent Shares, and sells such Shares directly to customers, or if it chooses to couple the creation of a supply of new Shares with an active selling effort involving solicitation of secondary market demand for Shares. A determination of whether one is an underwriter for purposes of the Securities Act must take into account all the facts and circumstances pertaining to the activities of the broker-dealer or its client in the particular case, and the examples mentioned above should not be considered a complete description of all the activities that could lead to a categorization as an underwriter.

Broker-dealers who are not “underwriters” but are participating in a distribution (as contrasted to ordinary secondary trading transactions), and thus dealing with Shares that are part of an “unsold allotment” within the meaning of Section 4(a)(3)(C) of the Securities Act, would be unable to take advantage of the prospectus-delivery exemption provided by Section 4(a)(3) of the Securities Act. This is because the prospectus delivery exemption in Section 4(a)(3) of the Securities Act is not available in respect of such transactions as a result of Section 24(d) of the 1940 Act. As a result, broker-dealer firms should note that dealers who are not underwriters but are participating in a distribution (as contrasted with ordinary secondary market transactions) and thus dealing with the Shares that are part of an unsold allotment within the meaning of Section 4(a)(3)(C) of the Securities Act would be unable to take advantage of the prospectus delivery exemption provided by Section 4(a)(3) of the Securities Act. Firms that incur a prospectus delivery obligation with respect to Shares are reminded that, under Rule 153 of the Securities Act, a prospectus delivery obligation under Section 5(b)(2) of the Securities Act owed to an exchange member in connection with a sale on the Exchange is satisfied by the fact that the prospectus is available at the Exchange upon request. The prospectus delivery mechanism provided in Rule 153 is only available with respect to transactions on a national securities exchange.

### **DETERMINATION OF NET ASSET VALUE**

The following information supplements and should be read in conjunction with the section in the Prospectus entitled “Investing in the Fund – Determination of Net Asset Value”.

The NAV per Share for the Fund is computed by dividing the value of the net assets of the Fund (i.e., the value of its total assets less total liabilities) by the total number of Shares outstanding, rounded to the nearest cent. Expenses and fees, including the management fees, are accrued daily and taken into account for purposes of determining NAV. The NAV of the Fund is determined as of the close of the regular trading session on the Exchange (ordinarily 4:00 p.m., Eastern time) on each day that the Exchange is open. Any assets or liabilities denominated in currencies other than the U.S. dollar are converted into U.S. dollars at the current market rates on the date of valuation as quoted by one or more sources.

The pricing and valuation of portfolio securities is determined in good faith in accordance with procedures approved by, and under the direction of, the Board. In determining the value of the Fund’s assets, equity securities are generally valued at market using quotations from the primary market in which they are traded. Debt securities (other than short-term investments) are valued on the basis of broker quotes or valuations provided by a pricing service, which in determining value utilizes information regarding recent sales, market transactions in comparable securities, quotations from dealers, and various relationships between securities. Other assets, such as accrued interest, accrued dividends and cash are also included in determining the NAV. The Fund normally uses third party pricing services to obtain portfolio security prices.

Securities and assets for which market quotations are not readily available or which cannot be accurately valued using the Fund’s normal pricing procedures are valued by the Trust’s Fair Value Pricing Committee at fair value as determined in good faith under policies approved by the Board. The Trust may use fair value pricing in a variety of circumstances, including but not limited to, situations when the value of the Fund’s portfolio security has been materially affected by events occurring after the close of the market on which such security is principally traded (such as a corporate action or other news that may materially affect the price of such security) or trading in such security has been suspended or halted. In addition, the Trust may fair value foreign equity portfolio securities each day the Trust calculates the Fund’s NAV. Accordingly, the Fund’s NAV may reflect certain portfolio securities’ fair

values rather than their market prices. Fair value pricing involves subjective judgments, and it is possible that a fair value determination for a portfolio security will be materially different than the value that could be realized upon the sale of such security. With respect to securities that are primarily listed on foreign exchanges, the value of the Fund's portfolio securities may change on days when you will not be able to purchase or sell your Shares.

## **DIVIDENDS AND DISTRIBUTIONS**

**GENERAL POLICIES.** The Fund intends to declare and pay dividends from net investment at least annually. Distributions of net realized capital gains, if any, generally are declared and paid once a year, but the Trust may make distributions on a more frequent basis for the Fund to comply with the distribution requirements of the Code, in all events in a manner consistent with the provisions of the 1940 Act. In addition, the Trust may distribute at least annually amounts representing the full dividend yield on the underlying portfolio securities of the Fund, net of expenses of the Fund, as if the Fund owned such underlying portfolio securities for the entire dividend period in which case some portion of each distribution may result in a return of capital for tax purposes for certain shareholders.

Dividends and other distributions on Shares are distributed, as described below, on a pro rata basis to Beneficial Owners of such Shares. Dividend payments are made through DTC Participants and Indirect Participants to Beneficial Owners then of record with proceeds received from the Trust. The Trust makes additional distributions to the minimum extent necessary (i) to distribute the entire annual taxable income of the Trust, plus any net capital gains and (ii) to avoid imposition of the excise tax imposed by Section 4982 of the Code. Management of the Trust reserves the right to declare special dividends if, in its reasonable discretion, such action is necessary or advisable to preserve the status of the Fund as a "regulated investment company" (a "RIC") or to avoid imposition of income or excise taxes on undistributed income.

**DIVIDEND REINVESTMENT SERVICE.** No reinvestment service is provided by the Trust. Broker-dealers may make available the DTC book-entry Dividend Reinvestment Service for use by Beneficial Owners of Shares through DTC Participants for reinvestment of their dividend distributions. If this service is used, dividend distributions of both income and realized gains will be automatically reinvested in additional whole Shares of the Fund. Beneficial Owners should contact their broker to determine the availability and costs of the service and the details of participation therein. Brokers may require Beneficial Owners to adhere to specific procedures and timetables.

## **TAXATION**

The following is a summary of certain additional tax considerations generally affecting the Fund and its shareholders that are not described in the Prospectus. No attempt is made to present a detailed explanation of the tax treatment of the Fund or its shareholders, and the discussion here and in the Prospectus is not intended as a substitute for careful tax planning.

This "Taxes" section is based on the Internal Revenue Code and applicable regulations in effect on the date of this SAI. Future legislative, regulatory or administrative changes, including provisions of current law that sunset and thereafter no longer apply, or court decisions may significantly change the tax rules applicable to the Fund and its shareholders. Any of these changes or court decisions may have a retroactive effect.

***This is for general information only and not tax advice. All investors should consult their own tax advisors as to the federal, state, local and foreign tax provisions applicable to them.***

### **Taxation of the Fund**

*The Fund is a Separate Corporation.* The Fund is treated as a separate corporation for federal income tax purposes. Losses in one Fund do not offset gains in another Fund and the requirements (other than certain organizational requirements) for qualifying for regulated investment company status as described below are determined at the Fund level rather than the Trust level.

*Election to be Taxed as a Regulated Investment Company.* The Fund has elected and intends to qualify, or, if newly organized, intends to elect and qualify, each year as a regulated investment company (sometimes referred to as a "regulated investment company," "RIC" or "fund") under Subchapter M of the Internal Revenue Code. If the Fund

so qualifies, the Fund will not be subject to federal income tax on the portion of its investment company taxable income (that is, generally, taxable interest, dividends, net short-term capital gains, and other taxable ordinary income, net of expenses, without regard to the deduction for dividends paid) and net capital gain (that is, the excess of net long-term capital gains over net short-term capital losses) that it distributes to shareholders.

In order to qualify for treatment as a regulated investment company, the Fund must satisfy the following requirements:

- **Distribution Requirement** —the Fund must distribute an amount equal to the sum of at least 90% of its investment company taxable income and 90% of its net tax-exempt income, if any, for the tax year (including, for purposes of satisfying this distribution requirement, certain distributions made by the Fund after the close of its taxable year that are treated as made during such taxable year).
- **Income Requirement** —the Fund must derive at least 90% of its gross income from dividends, interest, certain payments with respect to securities loans, and gains from the sale or other disposition of stock, securities or foreign currencies, or other income (including, but not limited to, gains from options, futures or forward contracts) derived from its business of investing in such stock, securities or currencies and net income derived from qualified publicly traded partnerships (“QPTPs”).
- **Asset Diversification Test** —the Fund must satisfy the following asset diversification test at the close of each quarter of the Fund’s tax year: (1) at least 50% of the value of the Fund’s assets must consist of cash and cash items, U.S. government securities, securities of other regulated investment companies, and securities of other issuers (as to which the Fund has not invested more than 5% of the value of the Fund’s total assets in securities of an issuer and as to which the Fund does not hold more than 10% of the outstanding voting securities of the issuer); and (2) no more than 25% of the value of the Fund’s total assets may be invested in the securities of any one issuer (other than U.S. government securities or securities of other regulated investment companies) or of two or more issuers which the Fund controls and which are engaged in the same or similar trades or businesses, or, in the securities of one or more QPTPs.

In some circumstances, the character and timing of income realized by the Fund for purposes of the Income Requirement or the identification of the issuer for purposes of the Asset Diversification Test is uncertain under current law with respect to a particular investment, and an adverse determination or future guidance by the Internal Revenue Service (“IRS”) with respect to such type of investment may adversely affect the Fund’s ability to satisfy these requirements. See, “Tax Treatment of Portfolio Transactions” below with respect to the application of these requirements to certain types of investments. In other circumstances, the Fund may be required to sell portfolio holdings in order to meet the Income Requirement, Distribution Requirement, or Asset Diversification Test, which may have a negative impact on the Fund’s income and performance.

If for any taxable year the Fund does not qualify as a regulated investment company, all of its taxable income (including its net capital gain) would be subject to tax at regular corporate rates without any deduction for dividends paid to shareholders, and the dividends would be taxable to the shareholders as ordinary income (or possibly as qualified dividend income) to the extent of the Fund’s current and accumulated earnings and profits. Failure to qualify as a regulated investment company would thus have a negative impact on the Fund’s income and performance. Subject to savings provisions for certain failures to satisfy the Income Requirement or Asset Diversification Test, which, in general, are limited to those due to reasonable cause and not willful neglect, it is possible that the Fund will not qualify as a regulated investment company in any given tax year. Even if such savings provisions apply, the Fund may be subject to a monetary sanction of \$50,000 or more. Moreover, the Board reserves the right not to maintain the qualification of the Fund as a regulated investment company if it determines such a course of action to be beneficial to shareholders.

*Portfolio Turnover.* For investors that hold their Fund Shares in a taxable account, a high portfolio turnover rate may result in higher taxes. This is because the Fund with a high turnover rate is likely to accelerate the recognition of capital gains and more of such gains are likely to be taxable as short-term rather than long-term capital gains in contrast to a comparable fund with a low turnover rate. Any such higher taxes would reduce the Fund’s after-tax performance. See, “Taxation of Fund Distributions - Distributions of Capital Gains” below. For non-U.S. investors, any such acceleration of the recognition of capital gains that results in more short-term and less long-term capital gains being recognized by the Fund may cause such investors to be subject to increased U.S. withholding taxes. See,

“Non-U.S. Investors – Capital Gain Dividends” and “–Interest-Related Dividends and Short-Term Capital Gain Dividends” below.

*Capital Loss Carryovers.* The capital losses of the Fund, if any, do not flow through to shareholders. Rather, the Fund may use its capital losses, subject to applicable limitations, to offset its capital gains without being required to pay taxes on or distribute to shareholders such gains that are offset by the losses. Rules similar to those that apply to capital loss carryovers of individuals apply to RICs. Thus, if the Fund has a “net capital loss” (that is, capital losses in excess of capital gains), the excess (if any) of the Fund’s net short-term capital losses over its net long-term capital gains is treated as a short-term capital loss arising on the first day of the Fund’s next taxable year, and the excess (if any) of the Fund’s net long-term capital losses over its net short-term capital gains is treated as a long-term capital loss arising on the first day of the Fund’s next taxable year. Any such net capital losses of the Fund that are not used to offset capital gains may be carried forward indefinitely to reduce any future capital gains realized by the Fund in succeeding taxable years. The amount of capital losses that can be carried forward and used in any single year is subject to an annual limitation if there is a more than 50% “change in ownership” of the Fund. An ownership change generally results when shareholders owning 5% or more of the Fund increase their aggregate holdings by more than 50% over a three-year lookback period. An ownership change could result in capital loss carryovers being used at a slower rate, thereby reducing the Fund’s ability to offset capital gains with those losses. An increase in the amount of taxable gains distributed to the Fund’s shareholders could result from an ownership change. The Fund undertakes no obligation to avoid or prevent an ownership change, which can occur in the normal course of shareholder purchases and redemptions or as a result of engaging in a tax-free reorganization with another fund. Moreover, because of circumstances beyond the Fund’s control, there can be no assurance that the Fund will not experience, or has not already experienced, an ownership change. Additionally, if the Fund engages in a tax-free reorganization with another fund, the effect of these and other rules not discussed herein may be to disallow or postpone the use by the Fund of its capital loss carryovers (including any current year losses and built-in losses when realized) to offset its own gains or those of the other fund, or vice versa, thereby reducing the tax benefits Fund shareholders would otherwise have enjoyed from use of such capital loss carryovers.

*Deferral of Late Year Losses.* The Fund may elect to treat part or all of any “qualified late year loss” as if it had been incurred in the succeeding taxable year in determining the Fund’s taxable income, net capital gain, net short-term capital gain, and earnings and profits. The effect of this election is to treat any such “qualified late year loss” as if it had been incurred in the succeeding taxable year in characterizing Fund distributions for any calendar year (see, “Taxation of Fund Distributions—Distributions of capital gains” below). A “qualified late year loss” includes:

- (i) any net capital loss incurred after October 31 of the current taxable year, or, if there is no such loss, any net long-term capital loss or any net short-term capital loss incurred after October 31 of the current taxable year (“post-October capital losses”), and
- (ii) the sum of (1) the excess, if any, of (a) specified losses incurred after October 31 of the current taxable year, over (b) specified gains incurred after October 31 of the current taxable year and (2) the excess, if any, of (a) ordinary losses incurred after December 31 of the current taxable year, over (b) the ordinary income incurred after December 31 of the current taxable year.

The terms “specified losses” and “specified gains” mean ordinary losses and gains from the sale, exchange, or other disposition of property (including the termination of a position with respect to such property), foreign currency losses and gains, and losses and gains resulting from holding stock in a passive foreign investment company (“PFIC”) for which a mark-to-market election is in effect. The terms “ordinary losses” and “ordinary income” mean other ordinary losses and income that are not described in the preceding sentence.

*Undistributed Capital Gains.* The Fund may retain or distribute to shareholders its net capital gain for each taxable year. The Fund currently intend to distribute net capital gains. If the Fund elects to retain its net capital gain, the Fund will be taxed thereon (except to the extent of any available capital loss carryovers) at the highest corporate tax rate (currently 35%). If the Fund elects to retain its net capital gain, it is expected that the Fund also will elect to have shareholders treated as if each received a distribution of its pro rata share of such gain, with the result that each shareholder will be required to report its pro rata share of such gain on its tax return as long-term capital gain, will receive a refundable tax credit for its pro rata share of tax paid by the Fund on the gain, and will increase the tax basis for its Shares by an amount equal to the deemed distribution less the tax credit.

*Fund of funds.* If the Fund is a fund of funds, distributions by the underlying funds, redemptions of shares in the underlying funds and changes in asset allocations may result in taxable distributions to shareholders of ordinary income or capital gains. A fund of funds generally will not be able to currently offset gains realized by one underlying fund in which the fund of funds invests against losses realized by another underlying fund. If shares of an underlying fund are purchased within 30 days before or after redeeming at a loss other shares of that underlying fund (whether pursuant to a rebalancing of the Fund's portfolio or otherwise), all or a part of the loss will not be deductible by the Fund and instead will increase its basis for the newly purchased shares. Also, except with respect to qualified fund of funds discussed below, a fund of funds (a) is not eligible to pass-through to shareholders foreign tax credits from an underlying fund that pays foreign income taxes (see, "Taxation of Fund Distributions — Pass-through of foreign tax credits" below), (b) is not eligible to pass-through to shareholders exempt-interest dividends from an underlying fund, and (c) dividends paid by a fund of funds from interest earned by an underlying fund on U.S. government obligations is unlikely to be exempt from state and local income tax (see, "U.S. government securities" below). However, a fund of funds is eligible to pass-through to shareholders qualified dividends earned by an underlying fund (see, "Taxation of Fund Distributions — Qualified dividend income for individuals" and "—Dividends-received deduction for corporations" below). A qualified fund of funds, i.e. a Fund at least 50 percent of the value of the total assets of which (at the close of each quarter of the taxable year) is represented by interests in other RICs, is eligible to pass-through to shareholders (a) foreign tax credits and (b) exempt-interest dividends.

*Federal Excise Tax.* To avoid a 4% non-deductible excise tax, the Fund must distribute by December 31 of each year an amount equal to at least: (1) 98% of its ordinary income for the calendar year, (2) 98.2% of capital gain net income (that is, the excess of the gains from sales or exchanges of capital assets over the losses from such sales or exchanges) for the one-year period ended on October 31 of such calendar year, and (3) any prior year undistributed ordinary income and capital gain net income. The Fund may elect to defer to the following year any net ordinary loss incurred for the portion of the calendar year which is after the beginning of the Fund's taxable year. Also, the Fund will defer any "specified gain" or "specified loss" which would be properly taken into account for the portion of the calendar year after October 31. Any net ordinary loss, specified gain, or specified loss deferred shall be treated as arising on January 1 of the following calendar year. Generally, The Fund intends to make sufficient distributions prior to the end of each calendar year to avoid any material liability for federal income and excise tax, but can give no assurances that all or a portion of such liability will be avoided. In addition, under certain circumstances, temporary timing or permanent differences in the realization of income and expense for book and tax purposes can result in the Fund having to pay an excise tax.

*Purchase of Shares.* As a result of tax requirements, the Trust on behalf of The Fund has the right to reject an order to purchase Shares if the purchaser (or group of purchasers acting in concert with each other) would, upon obtaining the Shares so ordered, own 80% or more of the outstanding Shares of the Fund and if, pursuant to Sections 351 and 362 of the Internal Revenue Code, the Fund would have a basis in the Deposit Securities different from the market value of such securities on the date of deposit. The Trust also has the right to require information necessary to determine beneficial Share ownership for purposes of the 80% determination.

## **Taxation of Fund Distributions**

The Fund anticipates distributing substantially all of its investment company taxable income and net capital gain for each taxable year. Distributions by the Fund will be treated in the manner described below regardless of whether such distributions are paid in cash or reinvested in additional Shares of the Fund (or of another fund). You will receive information annually as to the federal income tax consequences of distributions made (or deemed made) during the year.

*Distributions of Net Investment Income.* The Fund receives ordinary income generally in the form of dividends and/or interest on its investments. The Fund may also recognize ordinary income from other sources, including, but not limited to, certain gains on foreign currency-related transactions. This income, less expenses incurred in the operation of the Fund, constitutes the Fund's net investment income from which dividends may be paid to you. If you are a taxable investor, distributions of net investment income generally are taxable as ordinary income to the extent of the Fund's earnings and profits. See the discussion below under the headings, "—Qualified Dividend Income for Individuals" and "—Dividends-Received Deduction for Corporations"

*Distributions of Capital Gains.* The Fund may derive capital gain and loss in connection with sales or other dispositions of its portfolio securities. Distributions derived from the excess of net short-term capital gain over net long-term capital loss will be taxable to you as ordinary income. Distributions paid from the excess of net long-term capital gain over net short-term capital loss will be taxable to you as long-term capital gain, regardless of how long you have held your Shares in the Fund. Any net short-term or long-term capital gain realized by the Fund (net of any capital loss carryovers) generally will be distributed once each year and may be distributed more frequently, if necessary, in order to reduce or eliminate federal excise or income taxes on the Fund.

*Returns of Capital.* Distributions by the Fund that are not paid from earnings and profits will be treated as a return of capital to the extent of (and in reduction of) the shareholder's tax basis in his Shares; any excess will be treated as gain from the sale of his Shares. Thus, the portion of a distribution that constitutes a return of capital will decrease the shareholder's tax basis in his Fund Shares (but not below zero), and will result in an increase in the amount of gain (or decrease in the amount of loss) that will be recognized by the shareholder for tax purposes on the later sale of such Fund Shares. Return of capital distributions can occur for a number of reasons including, among others, the Fund overestimates the income to be received from certain investments such as those classified as partnerships or equity real estate investment trusts ("REITs").

*Qualified Dividend Income for Individuals.* Ordinary income dividends reported by the Fund as derived from qualified dividend income will be taxed in the hands of individuals and other noncorporate shareholders at the rates applicable to long-term capital gain. "Qualified dividend income" means dividends paid to the Fund (a) by domestic corporations, (b) by foreign corporations that are either (i) incorporated in a possession of the United States, or (ii) are eligible for benefits under certain income tax treaties with the United States that include an exchange of information program, or (c) with respect to stock of a foreign corporation that is readily tradable on an established securities market in the United States. Both the Fund and the investor must meet certain holding period requirements to qualify Fund dividends for this treatment. Specifically, the Fund must hold the stock for at least 61 days during the 121-day period beginning 60 days before the stock becomes ex-dividend. Similarly, investors must hold their Fund Shares for at least 61 days during the 121-day period beginning 60 days before the Fund distribution goes ex-dividend. Income derived from investments in derivatives, fixed-income securities, U.S. REITs, PFICs, and income received "in lieu of" dividends in a securities lending transaction generally is not eligible for treatment as qualified dividend income. If the qualifying dividend income received by the Fund is equal to or greater than 95% of the Fund's gross income (exclusive of net capital gain) in any taxable year, all of the ordinary income dividends paid by the Fund will be qualifying dividend income.

*Dividends-Received Deduction for Corporations.* For corporate shareholders, a portion of the dividends paid by the Fund may qualify for the 70% corporate dividends-received deduction. The portion of dividends paid by the Fund that so qualifies will be reported by the Fund each year and cannot exceed the gross amount of dividends received by the Fund from domestic (U.S.) corporations. The availability of the dividends-received deduction is subject to certain holding period and debt financing restrictions that apply to both the Fund and the investor. Specifically, the amount that the Fund may report as eligible for the dividends-received deduction will be reduced or eliminated if the Shares on which the dividends earned by the Fund were debt-financed or held by the Fund for less than a minimum period of time, generally 46 days during a 91-day period beginning 45 days before the stock becomes ex-dividend. Similarly, if your Fund Shares are debt-financed or held by you for less than a 46-day period then the dividends-received deduction for Fund dividends on your Shares may also be reduced or eliminated. Even if reported as dividends eligible for the dividends-received deduction, all dividends (including any deducted portion) must be included in your alternative minimum taxable income calculation. Income derived by the Fund from investments in derivatives, fixed-income and foreign securities generally is not eligible for this treatment.

*Impact of Realized but Undistributed Income and Gains, and Net Unrealized Appreciation of Portfolio Securities.* At the time of your purchase of Shares, the price of Shares may reflect undistributed income, undistributed capital gains, or net unrealized appreciation of portfolio securities held by the Fund. A subsequent distribution to you of such amounts, although constituting a return of your investment, would be taxable, and would be taxed as ordinary income (some portion of which may be taxed as qualified dividend income), capital gains, or some combination of both, unless you are investing through a tax-deferred arrangement, such as a 401(k) plan or an individual retirement account. The Fund may be able to reduce the amount of such distributions from capital gains by utilizing its capital loss carryovers, if any.

*U.S. Government Securities.* Income earned on certain U.S. government obligations is exempt from state and local personal income taxes if earned directly by you. States also grant tax-free status to dividends paid to you from interest earned on direct obligations of the U.S. government, subject in some states to minimum investment or reporting requirements that must be met by the Fund. Income on investments by the Fund in certain other obligations, such as repurchase agreements collateralized by U.S. government obligations, commercial paper and federal agency-backed obligations (e.g., GNMA or FNMA obligations), generally does not qualify for tax-free treatment. The rules on exclusion of this income are different for corporations.

*Dividends Declared in December and Paid in January.* Ordinarily, shareholders are required to take distributions by the Fund into account in the year in which the distributions are made. However, dividends declared in October, November or December of any year and payable to shareholders of record on a specified date in such a month will be deemed to have been received by the shareholders (and made by the Fund) on December 31 of such calendar year if such dividends are actually paid in January of the following year. Shareholders will be advised annually as to the U.S. federal income tax consequences of distributions made (or deemed made) during the year in accordance with the guidance that has been provided by the IRS.

*Medicare Tax.* A 3.8% Medicare tax is imposed on net investment income earned by certain individuals, estates and trusts. “Net investment income,” for these purposes, means investment income, including ordinary dividends and capital gain distributions received from the Fund and net gains from redemptions or other taxable dispositions of Fund Shares, reduced by the deductions properly allocable to such income. In the case of an individual, the tax will be imposed on the lesser of (1) the shareholder’s net investment income or (2) the amount by which the shareholder’s modified adjusted gross income exceeds \$250,000 (if the shareholder is married and filing jointly or a surviving spouse), \$125,000 (if the shareholder is married and filing separately) or \$200,000 (in any other case). This Medicare tax, if applicable, is reported by you on, and paid with, your federal income tax return.

### **Sales, Exchanges and Redemptions of Fund Shares**

Sales, exchanges and redemptions (including redemptions in kind) of Fund Shares are taxable transactions for federal and state income tax purposes. If you redeem your Fund Shares, the IRS requires you to report any gain or loss on your redemption. If you held your Shares as a capital asset, the gain or loss that you realize will be a capital gain or loss and will be long-term or short-term, generally depending on how long you have held your Shares. Any redemption fees you incur on Shares redeemed will decrease the amount of any capital gain (or increase any capital loss) you realize on the sale. Capital losses in any year are deductible only to the extent of capital gains plus, in the case of a noncorporate taxpayer, \$3,000 of ordinary income.

*Taxes on Purchase and Redemption of Creation Units.* An Authorized Participant who exchanges equity securities for Creation Units generally will recognize a gain or a loss. The gain or loss will be equal to the difference between the market value of the Creation Units at the time of purchase and the exchanger’s aggregate basis in the securities surrendered and the Cash Component paid. A person who exchanges Creation Units for equity securities will generally recognize a gain or loss equal to the difference between the exchanger’s basis in the Creation Units and the aggregate market value of the securities received and the Cash Redemption Amount. The IRS, however, may assert that a loss realized upon an exchange of securities for Creation Units cannot be deducted currently under the rules governing “wash sales,” or on the basis that there has been no significant change in economic position. Persons exchanging securities should consult their own tax advisor with respect to whether wash sale rules apply and when a loss might be deductible.

Under current federal tax laws, any capital gain or loss realized upon redemption of Creation Units is generally treated as long-term capital gain or loss if the Shares have been held for more than one year and as a short-term capital gain or loss if the Shares have been held for one year or less.

If the Fund redeems Creation Units in cash, it may recognize more capital gains than it will if it redeems Creation Units in-kind.

*Tax Basis Information.* A shareholder’s cost basis information will be provided on the redemption of any of the shareholder’s Shares, subject to certain exceptions for exempt recipients. Please contact the broker (or other nominee) that holds your Shares with respect to reporting of cost basis and available elections for your account.

*Wash Sales.* All or a portion of any loss that you realize on a redemption of your Fund Shares will be disallowed to the extent that you buy other Shares in the Fund (through reinvestment of dividends or otherwise) within 30 days before or after your Share redemption. Any loss disallowed under these rules will be added to your tax basis in the new Shares.

*Redemptions at a Loss Within Six Months of Purchase.* Any loss incurred on a redemption or exchange of Shares held for six months or less will be treated as long-term capital loss to the extent of any long-term capital gain distributed to you by the Fund on those Shares.

*Reportable Transactions.* Under Treasury regulations, if a shareholder recognizes a loss with respect to the Fund's Shares of \$2 million or more for an individual shareholder or \$10 million or more for a corporate shareholder (or certain greater amounts over a combination of years), the shareholder must file with the IRS a disclosure statement on Form 8886. The fact that a loss is reportable under these regulations does not affect the legal determination of whether the taxpayer's treatment of the loss is proper. Shareholders should consult their tax advisors to determine the applicability of these regulations in light of their individual circumstances.

## **Tax Treatment of Portfolio Transactions**

Set forth below is a general description of the tax treatment of certain types of securities, investment techniques and transactions that may apply to the Fund and, in turn, affect the amount, character and timing of dividends and distributions payable by the fund to its shareholders. This section should be read in conjunction with the discussion above under "Investment Strategies" for a detailed description of the various types of securities and investment techniques that apply to the Fund.

*In General.* In general, gain or loss recognized by the Fund on the sale or other disposition of portfolio investments will be a capital gain or loss. Such capital gain and loss may be long-term or short-term depending, in general, upon the length of time a particular investment position is maintained and, in some cases, upon the nature of the transaction. Property held for more than one year generally will be eligible for long-term capital gain or loss treatment. The application of certain rules described below may serve to alter the manner in which the holding period for a security is determined or may otherwise affect the characterization as long-term or short-term, and also the timing of the realization and/or character, of certain gains or losses.

*Certain Fixed Income Investments.* Gain recognized on the disposition of a debt obligation purchased by the Fund at a market discount (generally, at a price less than its principal amount) will be treated as ordinary income to the extent of the portion of the market discount that accrued during the period of time the fund held the debt obligation unless the fund made a current inclusion election to accrue market discount into income as it accrues. If the Fund purchases a debt obligation (such as a zero-coupon security or payment-in-kind security) that was originally issued at a discount, the Fund generally is required to include in gross income each year the portion of the original issue discount that accrues during such year. Therefore, the Fund's investment in such securities may cause the Fund to recognize income and make distributions to shareholders before it receives any cash payments on the securities. To generate cash to satisfy those distribution requirements, the Fund may have to sell portfolio securities that it otherwise might have continued to hold or to use cash flows from other sources such as the sale of fund shares.

*Investments in Debt Obligations that are at Risk of or in Default Present Tax Issues for the Fund.* Tax rules are not entirely clear about issues such as whether and to what extent the Fund should recognize market discount on a debt obligation, when the Fund may cease to accrue interest, original issue discount or market discount, when and to what extent the Fund may take deductions for bad debts or worthless securities and how the Fund should allocate payments received on obligations in default between principal and income. These and other related issues will be addressed by the Fund in order to ensure that it distributes sufficient income to preserve its status as a regulated investment company.

*Options, Futures, Forward Contracts, Swap Agreements and Hedging Transactions.* In general, option premiums received by the Fund are not immediately included in the income of the fund. Instead, the premiums are recognized when the option contract expires, the option is exercised by the holder, or the fund transfers or otherwise terminates the option (e.g., through a closing transaction). If an option written by the Fund is exercised and the fund sells or delivers the underlying stock, the fund generally will recognize capital gain or loss equal to (a) the sum of the strike price and the option premium received by the fund minus (b) the fund's basis in the stock. Such gain or loss

generally will be short-term or long-term depending upon the holding period of the underlying stock. If securities are purchased by the Fund pursuant to the exercise of a put option written by it, the fund generally will subtract the premium received from its cost basis in the securities purchased. The gain or loss with respect to any termination of the Fund's obligation under an option other than through the exercise of the option and related sale or delivery of the underlying stock generally will be short-term gain or loss depending on whether the premium income received by the fund is greater or less than the amount paid by the fund (if any) in terminating the transaction. Thus, for example, if an option written by the Fund expires unexercised, the fund generally will recognize short-term gain equal to the premium received.

The tax treatment of certain futures contracts entered into by the Fund as well as listed non-equity options written or purchased by the fund on U.S. exchanges (including options on futures contracts, broad-based equity indices and debt securities) may be governed by section 1256 of the Internal Revenue Code ("section 1256 contracts"). Gains or losses on section 1256 contracts generally are considered 60% long-term and 40% short-term capital gains or losses ("60/40"), although certain foreign currency gains and losses from such contracts may be treated as ordinary in character. Also, any section 1256 contracts held by the Fund at the end of each taxable year (and, for purposes of the 4% excise tax, on certain other dates as prescribed under the Internal Revenue Code) are "marked to market" with the result that unrealized gains or losses are treated as though they were realized and the resulting gain or loss is treated as ordinary or 60/40 gain or loss, as applicable. Section 1256 contracts do not include any interest rate swap, currency swap, basis swap, interest rate cap, interest rate floor, commodity swap, equity swap, equity index swap, credit default swap, or similar agreement.

In addition to the special rules described above in respect of options and futures transactions, the Fund's transactions in other derivative instruments (including options, forward contracts and swap agreements) as well as its other hedging, short sale, or similar transactions, may be subject to one or more special tax rules (including the constructive sale, notional principal contract, straddle, wash sale and short sale rules). These rules may affect whether gains and losses recognized by the Fund are treated as ordinary or capital or as short-term or long-term, accelerate the recognition of income or gains to the fund, defer losses to the fund, and cause adjustments in the holding periods of the fund's securities. These rules, therefore, could affect the amount, timing and/or character of distributions to shareholders. Moreover, because the tax rules applicable to derivative instruments are in some cases uncertain under current law, an adverse determination or future guidance by the IRS with respect to these rules (which determination or guidance could be retroactive) may affect whether the Fund has made sufficient distributions, and otherwise satisfied the relevant requirements, to maintain its qualification as a regulated investment company and avoid the Fund-level tax.

Certain of the Fund's investments in derivatives and foreign currency-denominated instruments, and the fund's transactions in foreign currencies and hedging activities, may produce a difference between its book income and its taxable income. If the Fund's book income is less than the sum of its taxable income and net tax-exempt income (if any), the fund could be required to make distributions exceeding book income to qualify as a regulated investment company. If the Fund's book income exceeds the sum of its taxable income and net tax-exempt income (if any), the distribution of any such excess will be treated as (i) a dividend to the extent of the fund's remaining earnings and profits (including current earnings and profits arising from tax-exempt income, reduced by related deductions), (ii) thereafter, as a return of capital to the extent of the recipient's basis in the Shares, and (iii) thereafter, as gain from the sale or exchange of a capital asset.

*Investments in U.S. REITs.* A U.S. REIT is not subject to federal income tax on the income and gains it distributes to shareholders. Dividends paid by a U.S. REIT, other than capital gain distributions, will be taxable as ordinary income up to the amount of the U.S. REIT's current and accumulated earnings and profits. Capital gain dividends paid by a U.S. REIT to the Fund will be treated as long-term capital gains by the Fund and, in turn, may be distributed by the Fund to its shareholders as a capital gain distribution. Because of certain noncash expenses, such as property depreciation, an equity U.S. REIT's cash flow may exceed its taxable income. The equity U.S. REIT, and in turn the Fund, may distribute this excess cash to shareholders in the form of a return of capital distribution. However, if a U.S. REIT is operated in a manner that fails to qualify as a REIT, an investment in the U.S. REIT would become subject to double taxation, meaning the taxable income of the U.S. REIT would be subject to federal income tax at regular corporate rates without any deduction for dividends paid to shareholders and the dividends would be taxable to shareholders as ordinary income (or possibly as qualified dividend income) to the extent of the U.S. REIT's current and accumulated earnings and profits. Also, see, "Tax Treatment of Portfolio Transactions –

Investment in taxable mortgage pools (excess inclusion income)” and “Non-U.S. Investors – Investment in U.S. real property” below with respect to certain other tax aspects of investing in U.S. REITs.

*Investment in non-U.S. REITs.* While non-U.S. REITs often use complex acquisition structures that seek to minimize taxation in the source country, an investment by the Fund in a non-U.S. REIT may subject the Fund, directly or indirectly, to corporate taxes, withholding taxes, transfer taxes and other indirect taxes in the country in which the real estate acquired by the non-U.S. REIT is located. The Fund’s pro rata share of any such taxes will reduce the Fund’s return on its investment. The Fund’s investment in a non-U.S. REIT may be considered an investment in a PFIC, as discussed above in “PFIC investments.” Additionally, foreign withholding taxes on distributions from the non-U.S. REIT may be reduced or eliminated under certain tax treaties, as discussed above in “Taxation of the Fund — Foreign income tax.” Also, the Fund in certain limited circumstances may be required to file an income tax return in the source country and pay tax on any gain realized from its investment in the non-U.S. REIT under rules similar to those in the U.S., which tax foreign persons on gain realized from dispositions of interests in U.S. real estate.

*Investment in taxable mortgage pools (excess inclusion income).* Under a Notice issued by the IRS, the Internal Revenue Code and Treasury regulations to be issued, a portion of the Fund’s income from a U.S. REIT that is attributable to the REIT’s residual interest in a real estate mortgage investment conduit (“REMIC”) or equity interests in a “taxable mortgage pool” (referred to in the Internal Revenue Code as an excess inclusion) will be subject to federal income tax in all events. The excess inclusion income of a regulated investment company, such as the Fund, will be allocated to shareholders of the regulated investment company in proportion to the dividends received by such shareholders, with the same consequences as if the shareholders held the related REMIC residual interest or, if applicable, taxable mortgage pool directly. In general, excess inclusion income allocated to shareholders (i) cannot be offset by net operating losses (subject to a limited exception for certain thrift institutions), (ii) will constitute unrelated business taxable income (“UBTI”) to entities (including qualified pension plans, individual retirement accounts, 401(k) plans, Keogh plans or other tax-exempt entities) subject to tax on UBTI, thereby potentially requiring such an entity that is allocated excess inclusion income, and otherwise might not be required to file a tax return, to file a tax return and pay tax on such income, and (iii) in the case of a foreign stockholder, will not qualify for any reduction in U.S. federal withholding tax. In addition, if at any time during any taxable year a “disqualified organization” (which generally includes certain cooperatives, governmental entities, and tax-exempt organizations not subject to UBTI) is a record holder of a share in a regulated investment company, then the regulated investment company will be subject to a tax equal to that portion of its excess inclusion income for the taxable year that is allocable to the disqualified organization, multiplied by the highest federal income tax rate imposed on corporations. The Notice imposes certain reporting requirements upon regulated investment companies that have excess inclusion income. There can be no assurance that the Fund will not allocate to shareholders excess inclusion income.

*Foreign Currency Transactions.* The Fund’s transactions in foreign currencies, foreign currency-denominated debt obligations and certain foreign currency options, futures contracts and forward contracts (and similar instruments) may give rise to ordinary income or loss to the extent such income or loss results from fluctuations in the value of the foreign currency concerned. This treatment could increase or decrease the Fund’s ordinary income distributions to you, and may cause some or all of the fund’s previously distributed income to be classified as a return of capital. In certain cases, the Fund may make an election to treat such gain or loss as capital.

*Investments in partnerships and QPTPs.* For purposes of the Income Requirement, income derived by a fund from a partnership that is not a QPTP will be treated as qualifying income only to the extent such income is attributable to items of income of the partnership that would be qualifying income if realized directly by the fund. While the rules are not entirely clear with respect to a fund investing in a partnership outside a master feeder structure, for purposes of testing whether a fund satisfies the Asset Diversification Test, the fund generally is treated as owning a pro rata share of the underlying assets of a partnership. See, “Taxation of the Fund.” In contrast, different rules apply to a partnership that is a QPTP. A QPTP is a partnership (a) the interests in which are traded on an established securities market, (b) that is treated as a partnership for federal income tax purposes, and (c) that derives less than 90% of its income from sources that satisfy the Income Requirement (e.g., because it invests in commodities). All of the net income derived by a fund from an interest in a QPTP will be treated as qualifying income but the fund may not invest more than 25% of its total assets in one or more QPTPs. However, there can be no assurance that a partnership classified as a QPTP in one year will qualify as a QPTP in the next year. Any such failure to annually

qualify as a QPTP might, in turn, cause a fund to fail to qualify as a regulated investment company. Although, in general, the passive loss rules of the Internal Revenue Code do not apply to RICs, such rules do apply to a fund with respect to items attributable to an interest in a QPTP. Fund investments in partnerships, including in QPTPs, may result in the fund being subject to state, local or foreign income, franchise or withholding tax liabilities.

*Investments in commodities —structured notes, corporate subsidiary and certain ETFs.* Gains from the disposition of commodities, including precious metals, will neither be considered qualifying income for purposes of satisfying the Income Requirement nor qualifying assets for purposes of satisfying the Asset Diversification Requirement. Also, the IRS has issued a revenue ruling which holds that income derived from commodity-linked swaps is not qualifying income for purposes of the Income Requirement. In a subsequent revenue ruling, as well as in a number of follow-on private letter rulings (upon which only the fund that received the private letter ruling may rely), the IRS provides that income from certain alternative investments which create commodity exposure, such as certain commodity-linked or structured notes or a corporate subsidiary that invests in commodities, may be considered qualifying income under the Code. In September 2016, the IRS announced that it will no longer issue private letter rulings on questions relating to the treatment of a corporation as a RIC that require a determination of whether a financial instrument or position, such as a commodity-linked or structured note, is a security under section 2(a)(36) of the 1940 Act. Further, the IRS is considering revoking any rulings that required such a determination. Accordingly, a Fund may invest in certain commodity-linked notes only to the extent it obtains an opinion of counsel confirming that income from such investments should be qualifying income. In addition, a RIC may gain exposure to commodities through investment in a QPTP, such as an exchange-traded fund or ETF that is classified as a partnership and which invests in commodities. Accordingly, the extent to which a fund invests in commodities or commodity-linked derivatives may be limited by the Income Requirement and the Asset Diversification Requirement, which the fund must continue to satisfy to maintain its status as a regulated investment company. A fund also may be limited in its ability to sell its investments in commodities, commodity-linked derivatives, and certain ETFs or be forced to sell other investments to generate income due to the Income Requirement. If a fund does not appropriately limit such investments or if such investments (or the income earned on such investments) were to be recharacterized for U.S. tax purposes, the fund could fail to qualify as a regulated investment company. In lieu of potential disqualification, a fund is permitted to pay a tax for certain failures to satisfy the Asset Diversification Test or Income Requirement, which, in general, are limited to those due to reasonable cause and not willful neglect.

*Securities Lending.* While securities are loaned out by the Fund, the fund generally will receive from the borrower amounts equal to any dividends or interest paid on the borrowed securities. For federal income tax purposes, payments made “in lieu of” dividends are not considered dividend income. These distributions will neither qualify for the reduced rate of taxation for individuals on qualified dividends nor the 70% dividends-received deduction for corporations. Also, any foreign tax withheld on payments made “in lieu of” dividends or interest will not qualify for the pass-through of foreign tax credits to shareholders.

*Investments in Convertible Securities.* Convertible debt is ordinarily treated as a “single property” consisting of a pure debt interest until conversion, after which the investment becomes an equity interest. If the security is issued at a premium (i.e., for cash in excess of the face amount payable on retirement), the creditor-holder may amortize the premium over the life of the bond. If the security is issued for cash at a price below its face amount, the creditor-holder must accrue original issue discount in income over the life of the debt. The creditor-holder’s exercise of the conversion privilege is treated as a nontaxable event. Mandatorily convertible debt (e.g., an exchange traded note or ETN issued in the form of an unsecured obligation that pays a return based on the performance of a specified market index, exchange currency, or commodity) is often, but not always, treated as a contract to buy or sell the reference property rather than debt. Similarly, convertible preferred stock with a mandatory conversion feature is ordinarily, but not always, treated as equity rather than debt. Dividends received generally are qualified dividend income and eligible for the corporate dividends received deduction. In general, conversion of preferred stock for common stock of the same corporation is tax-free. Conversion of preferred stock for cash is a taxable redemption. Any redemption premium for preferred stock that is redeemable by the issuing company might be required to be amortized under original issue discount principles.

*Investments in Securities of Uncertain Tax Character.* The Fund may invest in securities the U.S. federal income tax treatment of which may not be clear or may be subject to recharacterization by the IRS. To the extent the tax treatment of such securities or the income from such securities differs from the tax treatment expected by the Fund,

it could affect the timing or character of income recognized by the fund, requiring the fund to purchase or sell securities, or otherwise change its portfolio, in order to comply with the tax rules applicable to regulated investment companies under the Internal Revenue Code.

### **Backup Withholding**

By law, a portion of your taxable dividends and sales proceeds may be withheld unless you:

- provide your correct social security or taxpayer identification number,
- certify that this number is correct,
- certify that you are not subject to backup withholding, and
- certify that you are a U.S. person (including a U.S. resident alien).

Withholding is also imposed if the IRS requires it. When withholding is required, the amount will be 28% of any distributions or proceeds paid. Backup withholding is not an additional tax. Any amounts withheld may be credited against the shareholder's U.S. federal income tax liability, provided the appropriate information is furnished to the IRS. Certain payees and payments are exempt from backup withholding and information reporting. The special U.S. tax certification requirements applicable to non-U.S. investors to avoid backup withholding are described under the "Non-U.S. Investors" heading below.

### **Non-U.S. Investors**

Non-U.S. investors (shareholders who, as to the United States, are nonresident alien individuals, foreign trusts or estates, foreign corporations, or foreign partnerships) may be subject to U.S. withholding and estate tax and are subject to special U.S. tax certification requirements. Non-U.S. investors should consult their tax advisors about the applicability of U.S. tax withholding and the use of the appropriate forms to certify their status.

*In General.* The United States imposes a flat 30% withholding tax (or a withholding tax at a lower treaty rate) on U.S. source dividends, including on income dividends paid to you by the Fund, subject to certain exemptions described below. However, notwithstanding such exemptions from U.S. withholding at the source, any dividends and distributions of income and capital gains, including the proceeds from the sale of your Fund Shares, will be subject to backup withholding at a rate of 28% if you fail to properly certify that you are not a U.S. person.

*Capital Gain Dividends.* In general, capital gain dividends reported by the Fund as paid from its net long-term capital gains, other than long-term capital gains realized on disposition of U.S. real property interests, are not subject to U.S. withholding tax unless you are a nonresident alien individual present in the United States for a period or periods aggregating 183 days or more during the calendar year.

*Interest-related dividends and short-term capital gain dividends.* Generally, dividends reported by the Fund as interest-related dividends and paid from its qualified net interest income from U.S. sources are not subject to U.S. withholding tax. "Qualified interest income" includes, in general, U.S. source (1) bank deposit interest, (2) short-term original discount, (3) interest (including original issue discount, market discount, or acquisition discount) on an obligation that is in registered form, unless it is earned on an obligation issued by a corporation or partnership in which the Fund is a 10-percent shareholder or is contingent interest, and (4) any interest-related dividend from another regulated investment company. Similarly, short-term capital gain dividends reported by the Fund as paid from its net short-term capital gains, other than short-term capital gains realized on disposition of U.S. real property interests, are not subject to U.S. withholding tax unless you were a nonresident alien individual present in the United States for a period or periods aggregating 183 days or more during the calendar year. The Fund reserves the right to not report interest-related dividends or short-term capital gain dividends. Additionally, the Fund's reporting of interest-related dividends or short-term capital gain dividends may not be passed through to shareholders by intermediaries who have assumed tax reporting responsibilities for this income in managed or omnibus accounts due to systems limitations or operational constraints.

*Net Investment Income from Dividends on Stock and Foreign Source Interest Income Continue to be Subject to Withholding Tax; Foreign Tax Credits.* Ordinary dividends paid by the Fund to non-U.S. investors on the income earned on portfolio investments in (i) the stock of domestic and foreign corporations and (ii) the debt of foreign issuers continue to be subject to U.S. withholding tax.

Foreign shareholders may be subject to U.S. withholding tax at a rate of 30% on the income resulting from an election to pass-through foreign tax credits to shareholders, but may not be able to claim a credit or deduction with respect to the withholding tax for the foreign tax treated as having been paid by them.

*Income Effectively Connected with a U.S. Trade or Business.* If the income from the Fund is effectively connected with a U.S. trade or business carried on by a foreign shareholder, then ordinary income dividends, capital gain dividends and any gains realized upon the sale or redemption of Shares of the Fund will be subject to U.S. federal income tax at the rates applicable to U.S. citizens or domestic corporations and require the filing of a nonresident U.S. income tax return.

*Investment in U.S. real property.* The Foreign Investment in Real Property Tax Act of 1980 (“FIRPTA”) makes non-U.S. persons subject to U.S. tax on disposition of a U.S. real property interest (“USRPI”) as if he or she were a U.S. person. Such gain is sometimes referred to as FIRPTA gain. The Fund may invest in equity securities of corporations that invest in USRPI, including U.S. REITs, which may trigger FIRPTA gain to the Fund’s non-U.S. shareholders.

The Code provides a look-through rule for distributions of FIRPTA gain when a RIC is classified as a qualified investment entity. A RIC will be classified as a qualified investment entity if, in general, 50% or more of the RIC’s assets consist of interests in U.S. REITs and other U.S. real property holding corporations (“USRPHC”). If a RIC is a qualified investment entity and the non-U.S. shareholder owns more than 5% of a class of Fund Shares at any time during the one-year period ending on the date of the FIRPTA distribution, the FIRPTA distribution to the non-U.S. shareholder is treated as gain from the disposition of a USRPI, causing the distribution to be subject to U.S. withholding tax at a rate of 35% (unless reduced by future regulations), and requiring the non-U.S. shareholder to file a nonresident U.S. income tax return. In addition, even if the non-U.S. shareholder does not own more than 5% of a class of Fund Shares, but the Fund is a qualified investment entity, the FIRPTA distribution will be taxable as ordinary dividends (rather than as a capital gain or short-term capital gain dividend) subject to withholding at 30% or lower treaty rate.

Because the Fund expects to invest less than 50% of its assets at all times, directly or indirectly, in U.S. real property interests, the Fund expects that neither gain on the sale or redemption of Fund Shares nor Fund dividends and distributions would be subject to FIRPTA reporting and tax withholding.

*U.S. Estate Tax.* Transfers by gift of Shares of the Fund by a foreign shareholder who is a nonresident alien individual will not be subject to U.S. federal gift tax. An individual who, at the time of death, is a non-U.S. shareholder will nevertheless be subject to U.S. federal estate tax with respect to Fund Shares at the graduated rates applicable to U.S. citizens and residents, unless a treaty exemption applies. If a treaty exemption is available, a decedent’s estate may nonetheless need to file a U.S. estate tax return to claim the exemption in order to obtain a U.S. federal transfer certificate, which permits the decedent’s property to be transferred without federal estate tax liability. The transfer certificate will identify the property (i.e., Fund Shares) as to which the U.S. federal estate tax lien has been released. In the absence of a treaty, there is a \$13,000 statutory estate tax credit (equivalent to U.S. situs assets with a value of \$60,000). For estates with U.S. situs assets of not more than \$60,000, an affidavit from an appropriate individual that states that the decedent’s U.S. situs assets are below this threshold amount may be sufficient to transfer the Fund shares.

*U.S. Tax Certification Rules.* Special U.S. tax certification requirements may apply to non-U.S. shareholders both to avoid U.S. backup withholding imposed at a rate of 28% and to obtain the benefits of any treaty between the United States and the shareholder’s country of residence. In general, if you are a non-U.S. shareholder, you must provide a Form W-8 BEN (or other applicable Form W-8) to establish that you are not a U.S. person, to claim that you are the beneficial owner of the income and, if applicable, to claim a reduced rate of, or exemption from, withholding as a resident of a country with which the United States has an income tax treaty. A Form W-8 BEN provided without a U.S. taxpayer identification number will remain in effect for a period beginning on the date signed and ending on the

last day of the third succeeding calendar year unless an earlier change of circumstances makes the information on the form incorrect. Certain payees and payments are exempt from backup withholding.

The tax consequences to a non-U.S. shareholder entitled to claim the benefits of an applicable tax treaty may be different from those described herein. Non-U.S. shareholders are urged to consult their own tax advisors with respect to the particular tax consequences to them of an investment in the Fund, including the applicability of foreign tax.

*Foreign Account Tax Compliance Act (“FATCA”).* Under FATCA, a 30% withholding tax is imposed on payments or distributions made by the Fund to certain foreign entities, referred to as foreign financial institutions (“FFI”) or non-financial foreign entities (“NFFE”): (a) income dividends and (b) after December 31, 2018, certain capital gain distributions, return of capital distributions and the proceeds arising from the sale of Fund shares. The FATCA withholding tax generally can be avoided: (a) by an FFI, if it reports certain direct and indirect ownership of foreign financial accounts held by U.S. persons with the FFI and (b) by an NFFE, if it: (i) certifies that it has no substantial U.S. persons as owners or (ii) if it does have such owners, reporting information relating to them. The U.S. Treasury has negotiated intergovernmental agreements (“IGA”) with certain countries and is in various stages of negotiations with a number of other foreign countries with respect to one or more alternative approaches to implement FATCA; an entity in one of those countries may be required to comply with the terms of an IGA instead of U.S. Treasury regulations.

An FFI can avoid FATCA withholding if it is deemed compliant or by becoming a “participating FFI,” which requires the FFI to enter into a U.S. tax compliance agreement with the IRS under section 1471(b) of the Internal Revenue Code (“FFI agreement”) under which it agrees to verify, report and disclose certain of its U.S. accountholders and meet certain other specified requirements. The FFI will either report the specified information about the U.S. accounts to the IRS, or, to the government of the FFI’s country of residence (pursuant to the terms and conditions of applicable law and an applicable IGA entered into between the United States and the FFI’s country of residence), which will, in turn, report the specified information to the IRS. An FFI that is resident in a country that has entered into an IGA with the U.S. to implement FATCA will be exempt from FATCA withholding provided that the FFI shareholder and the applicable foreign government comply with the terms of such agreement.

An NFFE that is the beneficial owner of a payment from the Fund can avoid the FATCA withholding tax generally by certifying that it does not have any substantial U.S. owners or by providing the name, address and taxpayer identification number of each substantial U.S. owner. The NFFE will report the information to the applicable withholding agent, which will, in turn, report information to the IRS.

Such foreign shareholders also may fall into certain exempt, excepted or deemed compliant categories as established by U.S. Treasury regulations, IGAs, and other guidance regarding FATCA. An FFI or NFFE that invests in the Fund will need to provide documentation properly certifying the entity’s status under FATCA in order to avoid FATCA withholding. Non-U.S. investors should consult their own tax advisors regarding the impact of these requirements on their investment in the Fund. The requirements imposed by FATCA are different from, and in addition to, the U.S. tax certification rules to avoid backup withholding described above. Shareholders are urged to consult their tax advisors regarding the application of these requirements to their own situation.

#### **Effect of Future Legislation; Local Tax Considerations**

The foregoing general discussion of U.S. federal income tax consequences is based on the Internal Revenue Code and the regulations issued thereunder as in effect on the date of this SAI. Future legislative or administrative changes, including provisions of current law that sunset and thereafter no longer apply, or court decisions may significantly change the conclusions expressed herein, and any such changes or decisions may have a retroactive effect with respect to the transactions contemplated herein. Rules of state and local taxation of ordinary income, qualified dividend income and capital gain dividends may differ from the rules for U.S. federal income taxation described above. Distributions may also be subject to additional state, local and foreign taxes depending on each shareholder’s particular situation. Non-U.S. shareholders may be subject to U.S. tax rules that differ significantly from those summarized above. Shareholders are urged to consult their tax advisors as to the consequences of these and other state and local tax rules affecting investment in the Fund.

**OTHER INFORMATION**

Shareholder inquiries may be made by writing to the Trust, c/o Virtus ETF Advisers LLC, 1540 Broadway, New York, NY 10036.

**FINANCIAL STATEMENTS**

The audited financial statements of the Fund, including the financial highlights pertaining thereto, and the report of BBD, LLP, in the Fund's annual report to shareholders for the fiscal period ended October 31, 2016, are incorporated by reference and made a part of this SAI.

## APPENDIX A – CREDIT QUALITY RATINGS

The Fund may acquire from time to time debt securities as described in the Prospectus and this SAI. The Fund is not restricted with respect to yield, maturity, or credit quality of any debt securities, so that the Fund may purchase debt securities that are of high quality “investment grade” (“**Investment-Grade Debt Securities**”) or of lower quality with significant risk characteristics (e.g., “junk bonds”). The various ratings used by nationally recognized statistical rating organizations (each an “**NRSRO**”) are described below.

A rating by an NRSRO represents the organization’s opinion as to the credit quality of the security being rated. However, the ratings are general and are not absolute standards of quality or guarantees as to the creditworthiness of an issuer. Consequently, the Adviser believes that the quality of Investment-Grade Debt Securities in which the Fund may invest should be continuously reviewed and that individual analysts give different weightings to the various factors involved in credit analysis. A rating is not a recommendation to purchase, sell, or hold a security, because it does not take into account market value or suitability for a particular investor. When a security has received a rating from more than one NRSRO, each rating is evaluated independently. Ratings are based on current information furnished by the issuer or obtained by the NRSROs from other sources that they consider reliable. Ratings may be changed, suspended, or withdrawn as a result of changes in or unavailability of such information, or for other reasons.

**STANDARD & POOR’S® RATINGS SERVICES.** The following summarizes the highest four ratings used by Standard & Poor’s Ratings Services (“**S&P**”), a division of McGraw-Hill Companies, Inc., for bonds which are deemed to be Investment-Grade Debt Securities by the Adviser:

AAA – An obligation rated AAA has the highest rating assigned by S&P. The obligor’s capacity to meet its financial commitment on the obligation is extremely strong.

AA – An obligation rated AA differs from AAA obligations only to a small degree. The obligor’s capacity to meet its financial commitment on the obligation is very strong.

A – An obligation rated A is somewhat more susceptible to the adverse effects of changes in circumstances and economic conditions than obligations in higher-rated categories. However, the obligor’s capacity to meet its financial commitment on the obligation is still strong.

BBB – An obligation rated BBB exhibits adequate protection parameters. However, adverse economic conditions or changing circumstances are more likely to lead to a weakened capacity of the obligor to meet its financial commitment on the obligation.

Bonds rated BB, B, CCC, CC and C are not considered by the Adviser to be Investment-Grade Debt Securities and are regarded as having significant speculative characteristics. BB indicates the least degree of speculation and C the highest. While such obligations may likely have some quality and protective characteristics, these may be outweighed by large uncertainties or major risk exposures to adverse conditions.

The ratings from AA to CCC may be modified by the addition of a plus (+) or minus (-) designation to show relative standing within the major rating categories.

Short-term obligations rated A-1 by S&P indicates that the obligor’s capacity to meet its financial commitment on the obligation is strong. Within this category, certain obligations are designated with a plus (+) designation. This indicates that the obligor’s capacity to meet its financial commitment on these obligations is extremely strong. A short-term obligation rated A-2 is somewhat more susceptible to the adverse effects of changes in circumstances and economic conditions than obligations in higher rating categories. However, the obligor’s capacity to meet its financial commitment on the obligation is satisfactory.

The rating SP-1 is the highest rating assigned by S&P to short term notes and indicates strong capacity to pay principal and interest. An issue determined to possess a very strong capacity to pay debt service is given a plus (+) designation. The rating SP-2 indicates a satisfactory capacity to pay principal and interest, with some vulnerability

to adverse financial and economic changes over the term of the notes. The rating SP-3 indicates a speculative capacity to pay principal and interest.

**MOODY'S INVESTORS SERVICE, INC.** Moody's Investors Service, Inc. ("Moody's") long-term ratings are opinions of the relative credit risk of financial obligations with an original maturity of one year or more. They address the possibility that a financial obligation will not be honored as promised. Such ratings use Moody's Global Scale and reflect both the likelihood of default and any financial loss suffered in the event of default. The highest four ratings are deemed to be Investment-Grade Securities by the Adviser:

Aaa – Obligations rated Aaa are judged to be of the highest quality, with minimal credit risk.

Aa – Obligations rated Aa are judged to be of high quality and are subject to very low credit risk.

A – Obligations rated A are considered upper-medium grade and are subject to low credit risk.

Baa – Obligations rated Baa are subject to moderate credit risk. They are considered medium-grade and as such may possess certain speculative characteristics.

Obligations which are rated Ba, B, Caa, Ca or C by Moody's are not considered "Investment-Grade Debt Securities" by the Adviser. Obligations rated Ba are judged to have speculative elements and are subject to substantial credit risk. Obligations rated B are considered speculative and are subject to high credit risk. Obligations rated Caa are judged to be of poor standing and are subject to very high credit risk.

Note: Moody's appends numerical modifiers 1, 2, and 3 to each generic rating classification from Aa through Caa. The modifier 1 indicates that the obligation ranks in the higher end of its generic rating category; the modifier 2 indicates a mid-range ranking; and the modifier 3 indicates a ranking in the lower end of that generic rating category.

#### **Short-Term Ratings**

Moody's short-term ratings are opinions of the ability of issuers to honor short-term financial obligations. Ratings may be assigned to issuers, short-term programs or to individual short-term debt instruments. Such obligations generally have an original maturity not exceeding thirteen months, unless explicitly noted.

Moody's employs the following designations to indicate the relative repayment ability of rated issuers:

P-1 – Issuers (or supporting institutions) rated Prime-1 have a superior ability to repay short-term debt obligations.

P-2 – Issuers (or supporting institutions) rated Prime-2 have a strong ability to repay short-term debt obligations.

P-3 – Issuers (or supporting institutions) rated Prime-3 have an acceptable ability to repay short-term obligations.

NP – Issuers (or supporting institutions) rated Not Prime do not fall within any of the Prime rating categories.

Note: Canadian issuers rated P-1 or P-2 have their short-term ratings enhanced by the senior-most long-term rating of the issuer, its guarantor or support-provider.

#### **US Municipal Short-Term Debt And Demand Obligation Ratings**

Short-Term Obligation Ratings – There are three rating categories for short-term municipal obligations that are considered investment grade. These ratings are designated as Municipal Investment Grade ("MIG") and are divided into three levels — MIG 1 through MIG 3. In addition, those short-term obligations that are of speculative quality are designated SG, or speculative grade. MIG ratings expire at the maturity of the obligation.

MIG 1 – This designation denotes superior credit quality. Excellent protection is afforded by established cash flows, highly reliable liquidity support, or demonstrated broad-based access to the market for refinancing.

MIG 2 – This designation denotes strong credit quality. Margins of protection are ample, although not as large as in the preceding group.

MIG 3 – This designation denotes acceptable credit quality. Liquidity and cash-flow protection may be narrow, and market access for refinancing is likely to be less well-established.

SG – This designation denotes speculative-grade credit quality. Debt instruments in this category may lack sufficient margins of protection.

**Demand Obligation Ratings** – In the case of variable rate demand obligations (“**VRDOs**”), a two-component rating is assigned; a long or short-term debt rating and a demand obligation rating. The first element represents Moody’s evaluation of the degree of risk associated with scheduled principal and interest payments. The second element represents Moody’s evaluation of the degree of risk associated with the ability to receive purchase price upon demand (“**demand feature**”), using a variation of the MIG rating scale, the Variable Municipal Investment Grade or VMIG rating.

When either the long- or short-term aspect of a VRDO is not rated, that piece is designated NR, e.g., Aaa/NR or NR/VMIG 1.

VMIG rating expirations are a function of each issue’s specific structural or credit features.

VMIG 1 – This designation denotes superior credit quality. Excellent protection is afforded by the superior short-term credit strength of the liquidity provider and structural and legal protections that ensure the timely payment of purchase price upon demand.

VMIG 2 – This designation denotes strong credit quality. Good protection is afforded by the strong short-term credit strength of the liquidity provider and structural and legal protections that ensure the timely payment of purchase price upon demand.

VMIG 3 – This designation denotes acceptable credit quality. Adequate protection is afforded by the satisfactory short-term credit strength of the liquidity provider and structural and legal protections that ensure the timely payment of purchase price upon demand.

SG – This designation denotes speculative-grade credit quality. Demand features rated in this category may be supported by a liquidity provider that does not have an investment grade short-term rating or may lack the structural and/or legal protections necessary to ensure the timely payment of purchase price upon demand.

**FITCH RATINGS.** The following summarizes the highest four ratings used by Fitch, Inc. (“**Fitch**”):

Long-Term Ratings

AAA – Highest credit quality. AAA ratings denote the lowest expectation of default risk. They are assigned only in cases of exceptionally strong capacity for payment of financial commitments. This capacity is highly unlikely to be adversely affected by foreseeable events.

AA – Very high credit quality. AA ratings denote expectation of low default risk. They indicate very strong capacity for payment of financial commitments. This capacity is not significantly vulnerable to foreseeable events.

A – High credit quality. A ratings denote expectation of low default risk. The capacity for payment of financial commitments is considered strong. This capacity may, nevertheless, be more vulnerable to adverse business or economic conditions than is the case for higher ratings.

BBB – Good credit quality. BBB ratings indicate that expectations of default risk are currently low. The capacity for payment of financial commitments is considered adequate, but adverse business or economic conditions are more likely to impair this capacity. This is the lowest investment grade category.

Long-term securities rated below BBB by Fitch are not considered by the Adviser to be investment-grade securities. Securities rated BB and B are regarded as speculative with regard to a possible default risk developing. BB is considered speculative and B is considered highly speculative. Securities rated CCC, CC and C are regarded as a high credit risk. A rating CCC indicates a substantial credit risk, while a rating CC indicates a high level of risk, and a rating C signals exceptionally high levels of credit risk. “RD” ratings indicate an issuer that in Fitch Ratings’ opinion has experienced an uncured payment default on a bond or other material financial obligations but which has not entered into bankruptcy filings or other formal winding-up procedure and which has not otherwise ceased operating. “D” ratings indicate an issuer that in Fitch Ratings’ opinion has entered into bankruptcy filings or other formal wind-up procedure, or which has otherwise ceased business.

#### Short-Term Ratings

F1 – Highest credit quality. The rating F1 indicates the strongest capacity for timely payment of financial commitments; may have an added (+) to denote any exceptionally strong credit feature.

F2 – Good credit quality. The rating F2 indicates a good intrinsic capacity for timely payment of financial commitments.

F3 – Fair credit quality. The rating F3 indicates the intrinsic capacity for timely payment of financial commitments is adequate.

B – Speculative. The rating B indicates minimal capacity for timely payment of financial commitments, plus heightened vulnerability to near-term adverse changes in financial and economic conditions.

Short-term rates B, C and D by Fitch are considered by the Adviser to be below investment-grade securities. Short-term securities rated C have a high default risk and securities rated D indicate a broad-based default event for an entity or the default of a short-term obligation.

(+) or (-) suffixes may be appended to a rating to denote relative status within major rating categories. Such suffixes are not added to long-term ratings AAA category or to the categories below B. The suffix “NR” indicates that Fitch does not publicly rate the issuer or issue in question.

While the foregoing descriptions of the ratings systems used by the Adviser distinguishes between “Investment-Grade Debt Securities” and more speculative debt securities, as stated above the Fund is not limited with respect to the yield, maturity or credit quality of the debt securities in which they invest. Accordingly, the Fund’s portfolio may be invested in Investment-Grade Debt Securities or debt securities that are not Investment-Grade Debt Securities in any proportion.

## APPENDIX B

### TRUST PROXY VOTING POLICY AND PROCEDURES

1. Purpose: Delegation. The purpose of this memorandum is to describe the policies and procedures for voting proxies received from issuers whose securities are held by each series (individually, a “Fund” and collectively, the “Funds”) of ETFs Series Trust I and Virtus ETF Trust II (individually, a “Trust” and collectively, the “Trusts”). The board of Trustees of the Trust (the “Board”) believes that while typically each Fund’s Sub-Adviser is in the best position to make individual voting decisions for such Fund, there may also be times when the Board determines that the Adviser or another person or group of persons is in the best position to make such voting decisions (such person or group of persons, the “Proxy Voting Manager”). Therefore, subject to the oversight of the Board, each Fund’s Proxy Voting Manager is hereby delegated the duty to make proxy voting decisions for such Fund, and to implement and undertake such other duties as set forth in, and consistent with, these Policies and Procedures.

#### 2. Definitions

(a) Proxy. A proxy permits a shareholder to vote without being present at annual or special meetings. A proxy is the form whereby a person who is eligible to vote on corporate matters transmits written instructions for voting or transfers the right to vote to another person in place of the eligible voter. Proxies are generally solicited by management, but may be solicited by dissident shareholders opposed to management’s policies or strategies.

(b) Proxy Voting Manager. Proxy Voting Manager, as used herein, refers to the individual, individuals or committee of individuals appointed by the Board as being responsible for supervising and implementing these Policies and Procedures with respect to a particular Fund.

3. Policy for Voting Proxies Related to Exchange Traded Funds and other Investment Companies. Pursuant to Section 12(d)(1)(E)(iii) of the Investment Company Act of 1940 (the “1940 Act”), all proxies from exchange traded funds (“ETFs”) or other investment companies voted by a Fund, registered in the name of the Fund, will have the following voting instructions typed on the proxy form: “Vote these shares in the same proportion as the vote of all other holders of such shares. The beneficial owner of these shares is a registered investment company.”

#### 4. Policy for Voting Proxies Related to Other Portfolio Securities.

(a) Fiduciary Considerations. Proxies with respect to securities other than ETFs or other investment companies are voted solely in the interests of the shareholders of the Trust. Any conflict of interest must be resolved in the way that will most benefit the shareholders.

(b) Management Recommendations. Since the quality and depth of management is a primary factor considered when investing in a company, the recommendation of management on any issue should be given substantial weight. The vote with respect to most issues presented in proxy statements should be cast in accordance with the position of the company’s management, unless it is determined that supporting management’s position would adversely affect the investment merits of owning the stock. However, each issue should be considered on its own merits, and the position of the company’s management should not be supported in any situation where it is found not to be in the best interests of the Fund’s shareholders.

5. Conflicts of Interest. The Trust recognizes that under certain circumstances a Proxy Voting Manager may have a conflict of interest in voting proxies on behalf of a Fund. Such circumstances may include, but are not limited to, situations where a Proxy Voting Manager or one or more of its affiliates, including, without limitation, officers, directors or employees, has or is seeking a client relationship with the issuer of the security that is the subject of the proxy vote. The Proxy Voting Manager shall periodically inform its employees that they are under an obligation to be aware of the potential for conflicts of interest on the part

of the Proxy Voting Manager with respect to voting proxies on behalf of a Fund, both as a result of the employee's personal relationships and due to circumstances that may arise during the conduct of the Proxy Voting Manager's business, and to bring any conflict of interest of which they become aware to the attention of the Proxy Voting Manager. With respect to securities other than ETFs or other investment companies, the Proxy Voting Manager shall not vote proxies relating to such issuers on behalf of a Fund until it has determined that the conflict of interest is not material or a method of resolving such conflict of interest has been determined in the manner described below. A conflict of interest will be considered material to the extent that it is determined that such conflict has the potential to influence the Proxy Voting Manager's decision-making in voting a proxy. Materiality determinations will be based upon an assessment of the particular facts and circumstances. If the Proxy Voting Manager determines that a conflict of interest is not material, the Proxy Voting Manager may vote proxies notwithstanding the existence of a conflict. If the conflict of interest is determined to be material, either (i) the conflict shall be disclosed to the Board and the Proxy Voting Manager shall follow the instructions of the Board or (ii) the Proxy Voting Manager shall vote the issue in question based upon the recommendation of an independent third party under a contractual arrangement approved by the Board. The Proxy Voting Manager shall keep a record of all materiality decisions and report them to the Board on an annual basis.

6. Routine Proposals. Proxies for routine proposals (such as election of directors, selection of independent public accountants, stock splits and increases in capital stock) with respect to securities other than ETFs or other investment companies should generally be voted in favor of management.

7. Non-Routine Proposals. Votes on non-routine matters and votes against a management's recommendations with respect to securities other than ETFs or other investment companies are voted as determined by the Proxy Voting Manager to be in the best interests of the Fund's shareholders.

8. Proxy Voting Procedures. Proxy voting will be conducted in compliance with the policies and practices described herein and is subject to the Proxy Voting Manager's supervision. A reasonable effort should be made to obtain proxy material and to vote in a timely fashion. Each Proxy Voting Manager shall maintain records regarding the voting of proxies under these Policies and Procedures.

9. Form N-PX. The Proxy Voting Manager shall gather, collate and present information relating to the proxy voting activities of itself and/or its delegate(s) in such format and medium as the Fund shall request in order for the Fund to discharge its disclosure and reporting obligations pursuant to Rule 30b1-4 under the 1940 Act. A record of each proxy vote will be entered on Form N-PX. A copy of each Form N-PX will be signed by the President of the Trust. The Form is to be filed by August 31 each year. Each reporting period covered by the Form N-PX runs from July 1 to June 30. The Trust will disclose in its annual and semi-annual reports to shareholders and in its registration statement (in the SAI) filed with the SEC that the Fund's proxy voting record for the most recent twelve-month period ended June 30 is available without charge upon request at (888) 383-0553 (or another toll-free telephone number for the Fund) and is also available on the SEC's website at [www.sec.gov](http://www.sec.gov).

10. Proxy Voting Managers' Voting Procedures. The Trust acknowledges that certain of the Proxy Voting Managers to the various Funds have adopted voting policies and procedures for their clients that have been delivered to the Trust. To the extent that a Proxy Voting Manager has not adopted such policies and procedures, it shall adopt the policies and procedures provided herein as its own and shall otherwise vote all proxies in what it believes is the best interests of the Fund's shareholders. To the extent that a Proxy Voting Manager's policies and procedures are consistent with these Policies and Procedures, the Proxy Voting Manager may implement them with respect to voting proxies on behalf of each Fund managed by such Proxy Voting Manager. However, the provisions of paragraph 5 of these Policies and Procedures relating to conflicts of interest shall supersede any comparable provisions of any Proxy Voting Manager's policies and procedures.
